2013/40/EU - From European Legislation to International Model Law?** 20
Adrian Haase

TRACK 3:

Collection, Handling, and Documentation of Digital Forensics

Big Data—An Evolving Concern for Forensic Investigators 26
Shahzaib Tahir, Waseem Iqbal

Swarm Intelligence Based Author Identification for Digital Typewritten Text..... 32
Abdul Rauf Baig and Hassan Mujtaba Kayani

TRACK 4:

Investigation Techniques and Means of Cybercrime Detection

Website Fingerprinting as a Cybercrime Investigation Model: Role and Challenges 38
Taher Ahmed Ghaleb

Forensic Investigation Framework for VoIP Protocol 43
Manesh T, Saied M. El-Atty, M Muhammed Sha, Brijith B, and K Vivekanandan

Using Location Aware Business Rules for Preventing Retail Banking Frauds 50
Ayhan Demiriz and Betul Ekizoglu

Service Enthalpy for Analyzing Cybercrime..... 56
Arif Bramantoro

Securing Cognitive Radio Enabled Smart Grid Systems against Cyber Attacks..... 62
Mehak Basharat, Waleed Ejaz, and Syed Hassan Ahmed

TRACK 5:

Concepts and Challenges Pertaining to the Anti-Cybercrime

Causes and Consequences of Cybercrimes: An Exploratory Study of Pakistan 68
Adnan Riaz and Adeel Riaz

Fingerprinting Tor Protocol Through Wavelet Packet Decomposition N/A
Majdi Saeed Bin Salman, Sami Zhioua, and Rafiul Hassan

Implementation Attacks on Post-Quantum Cryptographic Schemes	N/A
<i>Mostafa Taha and Thomas Eisenbarth</i>	

TRACK 6:

Techniques of Information Security and their Role in Both Cybercrime Detection and Anti-Cybercrime

Secure Internet on Google Chrome: Client Side Anti-Tabnabbing Extension	86
<i>Asma K. Al-Khamis and Ayman A. Khalafallah</i>	

A New Chinese Wall Security Policy Model Based On the Subject’s Wall and Object’s Wall	90
<i>Saad Fehis, Omar Nouali , and Tahar Kechadi</i>	

Application of New Alteration Attack on Biometric Authentication Systems	96
<i>Maryam Lafkih, Patrick Lacharme, Cristophe Rosenberger, Mounia Mikram, Sanaa Ghouzali, Mohammed El Haziti, Wadood Abdul, and Driss Aboutajdine</i>	

Digital Watermarking using Combination of Ranklets and Wavelets	101
<i>Zahoor Jan, Nazia Azeem, and Faryal Zahoor</i>	

Protocols for Secure Multi-Party Private Function Evaluation	106
<i>Feras Aljumah, Andrei Soeanu, Wen Ming Liu, and Mourad Debbabi</i>	

TRACK 7:

Effects as Well as Physical and Moral Losses Due to Cybercrime

Cyber Insecurity as a Manifestation of New Form of Global Urban Vulnerability	N/A
<i>Aliyu Salisu Barau</i>	

Sharing Copyrighted Materials by using BitTorrent in Saudi Arabia	118
<i>Arif Bramantoro, Soumayah AlGhannam, Mona AlAwadh, and Dalal AlWeda’ah</i>	

TRACK 8:

Cybercrime and Its Role in Spreading Terrorism Among People

Building Adaptive Defense against Cybercrimes using Real-time Data Mining	124
<i>Baber Majid Bhatti and Nouman Sami</i>	

A Novel Multi-frame Super Resolution Algorithm for Surveillance Camera Image Reconstruction	129
<i>Aunsia Khan, Muhammad Aamir Khan, Faisal Obaid, Sultan Ullah Jadoon, Mudasser Ali Khan, and Misba Sikandar</i>	

Pakistan and Cyber Crimes: Problems and Preventions	135
<i>Sultan Ullah, Muhammad Amir, Mudasser Khan, Hamid Asmat, and Kamran Habib</i>	

Classification of Cyber Attacks based on Rough Set Theory	141
<i>Adnan Amin, Sajid Anwar, Awias Adnan, Muhammad Aamir Khan, and Zafar Iqbal</i>	

TRACK 9:

Demonstration of Best Practices in Securing and Safely Ensuring Electronic Transactions

Do People Intend to Purchase using their Smartphone apps? The Effect of the Privacy Concern in Malaysian Buyers	N/A
<i>Zakariya Belkhamza</i>	

TRACK 12:

Efforts Made in Formal Education to Augment Anti-Cybercrime Knowledge

Protecting the Content through Learning Object Metadata	N/A
<i>Shaina Qamar and Syed Raza Bashir</i>	

TRACK 13:

Strategies for Increased Public Awareness of the Consequences of Cybercrime

Toward Improving University Students Awareness of Spam Email and Cybercrime: Case Study of Jordan	158
<i>Ahmed Manasrah, Mohammed Akour, and Emad Alsukhni</i>	
Discarded Hard Disks – A Treasure Trove for Cybercriminals	164
<i>Saad Naeem Zafar and Muhammad Babar Tiwana</i>	

INVITED TALKS

Cyberstalking: An International Crime	170
<i>Laura Jacob</i>	
Toward a Multidisciplinary Curriculum in Cyberscience	172
<i>Andrew T. Phillips and John Impagliazzo</i>	

Author Index	173
