# Table of Contents

## **Tutorial1**

"The SIMulation project: Secure mobile NFC service in the cloud, a HCE legacy payment use case", Pascal Urien, Telecom ParisTech, Xavier Aghina, Orange Labs, Paris, France.

## **Tutorial2**

"Is it easier to fraud with mobile phone payment than with contactless card payment ?"  
Marc Pasquet, ENSICAEN, GREYC Laboratory Caen, France

## **Keynote Speech**

"Trusted Execution Environment: Trusted Model, Architecture Overview, Challenges and Future Directions", Mohamed Sabt, Orange Labs, Caen, France.

## **Session 1**

"Investigating the Keylogging threat in Android - User Perspective" ;Fadi Mohsen, Emmanuel Bello-Ogunu, Mohamed Shehab; Department of Software and Information Systems, University of North Carolina at Charlotte, USA page 1

"Improving performance of Advanced Encryption Standard Algorithm" ; Mokshitha Pathuri, Subhakar Yandrathi, Vandan Pendli; Abdul Razaque ;Department of Electrical Engineering, Cleveland State University, Cleveland State University, Cleveland, Ohio, USA page 6

"An Online Security Protocol for NFC Payment Formally Analyzed by The Scyther Tool" ;Nour El Madhoun, Guy Pujolle, Sorbonne Universités, UPMC University Paris 6, France; Fouad Guenane , Devoteam Group, France page 11

"Mobile Payment Security, Threats, and Challenges"; Yong Wang, Christen Hahn, Kruttika Sutrave ; College of Computing, Dakota State University, Madison, SD, USA page 18

## **Panel**

"The future of mobile payment: payment for objects, towards a cashless world ?"

Introduction: "The next generation of RACS server, trust for the IoT", Andreas Lux, CEO of the Implementa Company

Implementa gmbh is a german privately held company founded in 1977. Implementa provides industrial-strength communication products and solutions. For more than 15 years implementa has been specializing in wireless and smartcard technologies. Implementa is the market leader for cloud-based SIM and Secure Element solutions.

### Bio

Andreas Lux is the CEO of implementa. He studied computer science and economy at Universität Göttingen. His diploma thesis was about fault tolerant search algorithms for text retrieval in full-text databases. Before joining Implementa in 1994 he worked as a consultant for industrial automation and communication systems. His technical background is software and hardware development for embedded systems and Smartcards.

## **Session 2**

"Optimized Node Selection Process for Quality of Service Provisioning over Wireless Multimedia Sensor Networks"; Adwan Alanazi, Khaled Elleithy ; Department of Computer Science and Engineering, University of Bridgeport, CT, USA page 23

"Towards Secure Elements For The Internet of Things:The eLock Use Case"; Pascal Urien, LTCI, UMR 5141, Telecom ParisTech, Paris, France page 28

"NFC4Sure: Mobile Ticketing System"; Diogo Antunes, Joao Lima, Goncalo Pereira, Nelson Escravana, INO INESC Inovacao ; Carlos Ribeiro, INESC-ID Instituto Superior Tecnico; Universidade de Lisboa, Lisboa, Portugal page 33

"Fraud on Host Card Emulation architecture Is it possible to fraud a payment transaction realized by a mobile phone using an Host Card Emulation system of security ?"; Marc Pasquet, ENSICAEN, GREYC Laboratory Caen, France ; Sylvie Gerbaix Montpellier University, Research in Management Lab, France
