

# **2016 4th International Istanbul Smart Grid Congress and Fair (ICSG 2016)**

**Istanbul, Turkey  
20-21 April 2016**

**IEEE Catalog Number: CFP16A70-POD  
ISBN: 978-1-5090-0867-4**

## TABLE OF CONTENTS

|   |     |
|---|-----|
| Authors Index   | 4   |
| The Message from ICSG Istanbul 2016 Congress President  | 6   |
| The Message from ICSG Istanbul 2016 Science Committee President   | 7   |
| Paper Presentation Sessions   | N/A |
| Poster Sessions   | N/A |
| A Coherency Based Generation Rescheduling against Multiple Contingencies                                | 13  |
| Multi-source Energy Mixing by Time Rate Multiple PWM for Microgrids                                     | 18  |
| Integration of Home Photovoltaic Generation into Electricity Tariff for Load Optimization               | 23  |
| Demand Side Management Proposed Algorithm for Cost and Peak Load Optimization                           | 28  |
| Determination of zonal power demand S-curves with<br>GA based on top-to-bottom and end-use approaches   | 33  |
| Energy Consumption Analysis of Motorized Transportation in<br>Cities by Considering Average Mobile Mass | 38  |
| Hybrid ANN Methods to Reduce The Sheath Current Effects in<br>High Voltage Undergerond Cable Line       | 42  |
| Smart City Planning by Estimating Energy Efficiency of<br>Buildings by Extreme Learning Machine         | 47  |
| Economic and Environmental Evaluation of a<br>Designed Smart Micro-grid System in Turkey                | 52  |
| Scheduling of Domestic Shiftable Loads via<br>Cuckoo Search Optimization Algorithm                      | 56  |
| Optimal Scheduling of Short-term Hydrothermal<br>Generation Using Symbiotic Organisms Search Algorithm  | 60  |

|   |     |
|---|-----|
| Opportunities for Energy Efficiency in Smart Cities   | 65  |
| Lessons learnt from interfacing ArcGIS and DIgSILENT<br>PowerFactory at Başkent DISCO               | 70  |
| Resident Activity Recognition in Smart Homes by<br>Using Artificial Neural Networks                 | 75  |
| Finding a Best Parking place Using Exponential<br>Smoothing and Cloud System in a Metropolitan Area | 80  |
| Cusum - Entropy: An efficient method for DDoS attack detection                                      | 85  |
| Impedance, Attenuation and Noise Measurements For Power Line Communication                          | 90  |
| Metering and Data Processing in a Micro-Scale Area for Smart Grid Applications                      | 94  |
| Power Converters Modeling in Matlab/Simulink for Microgrid Simulations                              | 99  |
| A Review of Modern Residential Thermostats for<br>Home Automation to Provide Energy Efficiency      | 104 |
| Load Control Techniques in Smart Grids  | 108 |
| Frequency Deviation Indicators for Estimation of<br>Energy Balance State in Smart AC Grids          | 112 |
| A Different Model of WECS Connected to Smart Grid Through Matrix Converter                          | 117 |
| Application of Information Theory in Smart Grid Measurements  | 122 |
| A Novel Application to Increase Energy Efficiency Using Artificial Neural Networks                  | 126 |
| Utilization of Energy from Waste Plants for Microgrids  | 131 |
| An Analogy between Womb and Home for Supporting the Aspects of Smart Cities                         | 136 |
