

# **International Conference on Computational Information Technologies for Environmental Sciences (CITES-2017)**

IOP Conference Series: Earth and Environmental Science  
Volume 96

Zvenigorod, Russia  
4 - 7 September 2017

**Editor:**

**Evgeny Gordov**

ISBN: 978-1-5108-5240-2  
ISSN: 1755-1307

# Table of contents

## Volume 96

**International Conference on Computational Information Technologies for Environmental Sciences (CITES-2017)**

**4–7 September 2017, Zvenigorod, Russian Federation**

**Accepted papers received: 16 November 2017**

**Published online: 27 November 2017**

### **Preface**

[International Conference on Computational Information Technologies for Environmental Sciences \(CITES-2017\)](#)

[Peer review statement](#)

### **Papers**

[International Conferences and Young Scientists Schools on Computational Information Technologies for Environmental Sciences \(CITES\) as a professional growth instrument](#)

E P Gordov, V N Lykosov, E Yu Genina and Yu E Gordova.....1

[Inversion effects on wind and surface pressure in atmospheric front propagation simulation with a hyperbolic model](#)

M S Yudin.....7

[Experimental study of heat and momentum exchange between a forest lake and the atmosphere in winter](#)

K V Barskov, R V Chernyshev, V M Stepanenko, I A Repina, A Yu Artamonov, S P Guseva and A V Gavrikov.....14

[Mesoscale atmospheric modelling technology as a tool for creating a long-term meteorological dataset](#)

Vladimir Platonov, Alexander Kislov, Gdaly Rivin, Mikhail Varentsov, Inna Rozinkina, Mikhail Nikitin and Mikhail Chumakov.....22

[A new earth's climate system model of intermediate complexity, PlaSim-ICMMG-1.0: description and performance](#)

G Platov, V Krupchatnikov, Yu Martynova, I Borovko and E Golubeva.....31

[A comparison of the structure and dynamics of Global atmospheric oscillation in reality and in the CMIP5 climate models](#)

I V Serykh.....47

[Simulation of the global ocean thermohaline circulation with an eddy-resolving INMIO model configuration](#)

K V Ushakov and R A Ibrayev.....57

[Sun's effect on the surface temperature in the Northern Hemisphere](#)

V A Tartakovsky, N N Cheredko, Y V Volkov and V G Maximov.....65

[Mesoscale modelling of the summer climate response of Moscow metropolitan area to urban expansion](#)

M I Varentsov, P I Konstantinov and T E Samsonov.....74

[Statistical analysis of experimental data for mathematical modeling of physical processes in the atmosphere](#)

P A Karpushin, Yu B Popov, A I Popova, K Yu Popova, N P Krasnenko and A V Lavrinenko.....87

[Numerical modelling of the Earth's ionosphere F region](#)

P A Ostanin, D V Kulyamin and V P Dymnikov.....91

[Architecture of a spatial data service system for statistical analysis and visualization of regional climate changes](#)

A G Titov, I G Okladnikov and E P Gordov.....102

[Cloud identification using actinometrical data](#)

Sergey V Zuev, Nikolay P Krasnenko and Elena S Kartashova.....112

[Integration of modern statistical tools for the analysis of climate extremes into the web-GIS "CLIMATE"](#)

A A Ryazanova, I G Okladnikov and E P Gordov.....118

[Droughts and Excessive Moisture Events in Southern Siberia in the Late XXth - Early XXIst Centuries](#)

A A Ryazanova and N N Voropay.....125
