Table of contents

Volume 313

International Conference "Actual Problem of Electromechanics and Electrotechnology"

13–16 November 2017, Yekaterinburg, Russian Federation

Accepted papers received: 1 February 2018

Published online: 19 February 2018

Preface

[International Conference "Actual Problem of Electromechanics and Electrotechnology"](#)

[Peer review statement](#)

Papers

[The efficiency of the use of composite materials in electrotechnical equipment](#)

K Kim and S Ivanov(00003)

[Non-conventional rule of making a periodically varying different-pole magnetic field in low-power alternating current electrical machines with using ring coils in multiphase armature winding](#)

A T Plastun, O V Tikhonova and I V Malygin(0000)

[Study of the AC machines winding having fractional \$q\$](#)

V Y Bespalov and A O Sidorov(00009)

[Variable cross-section windings for efficiency improvement of electric machines](#)

P Yu Grachev, A A Bazarov and A S Tabachinskiy(00048)

[On synthesis of power regulator controllers of arc furnaces according to desired regulating characteristics](#)

V A Ivanushkin, D V Isakov, S E Mironov and F N Sarapulov⁰⁰⁰⁵⁶

[Modern Reactive Power Generators](#)

L. Chubraeva and S. Timofeev⁰⁰⁰⁵;

[Contactless system of excitation current measurement in the windings with high inductance](#)

L. Chubraeva, E. Evseev and S. Timofeev⁰⁰⁰⁶;

[Power supplies for dual-frequency induction melting of metals](#)

V I Lusgin, A S Koptakov, A U Petrov, K A Zinovev and D A Kamaev⁰⁰⁰⁷⁷

[Investigation study of geometric dimensions of the magnetic system of the switched-reluctance machine influence on magnetic moment](#)

A Petrushin and A Shevkunova⁰⁰⁰⁸⁴

[Aspects of intelligent electronic device based switchgear control training model application](#)

Dimitar Bogdanov and Ivaylo Popov⁰⁰⁰⁸;

[Modelling of degradation processes for refractory metallic heating elements of vacuum resistance furnace](#)

M Ya Pogrebisskiy, A I Bodarev, E F Salmanova and A S Bulgakov⁰⁰⁰⁹⁸

[Improving the engineering-and-economical performance of ore-thermal electric furnaces in the smelting of silicomanganese](#)

V P Kondrashov, M Ya Pogrebisskiy, A G Lykov, V L Rabinovich and A S Bulgakov⁰⁰⁰⁰⁴

[Developing the mechatronics and robotics at Nizhny Tagil Technological Institute of Ural Federal University](#)

V V Goman and S A Fedoreev(0000) :

[Development of the self-learning machine for creating models of microprocessor of single-phase earth fault protection devices in networks with isolated neutral voltage above 1000 V](#)

B B Utegulov, A B Utegulov and S Meiramova(0000) 5

[Analysis of the error of the developed method of determination the active conductivity reducing the insulation level between one phase of the network and ground, and insulation parameters in a non-symmetric network with isolated neutral with voltage above 1000 V](#)

B B Utegulov(0000) :

[Determination of the parameters of the scheme of substitution of the anchor winding of the inductive sup-exciter of the combined multifunctional brushless exciter](#)

N Pavlov and V Denisenko(0000)34

[The development and testing of a linear induction motor being fed from the source with limited electric power](#)

V V Tiunov(0000)42
