Table of Content

2017 IEEE International Conference on Smart Grid Communications (SmartGridComm)

SGC2017 Communications: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Communications and Networks to Enable the Smart Grid

Smart Grid Communications I

<i>Synchronized Measurement Concept for Failure Handling in Software-Defined Smart Grid Communications</i> Fabian Kurtz (TU Dortmund University, Germany), Nils Dorsch (TU Dortmund University, Germany), Caner Bektas (TU Dortmund University, Germany), Christian Wietfeld (TU Dortmund University, Germany)	1
<i>A Game-based Admission Control in Smart Grid Neighborhood Area Network Supporting Multi-services</i> Jialu Sun (Beijing University of Posts and Telecommunications, P.R. China), Lei Feng (Beijing University of Posts and Telecommunications, P.R. China), Peng Yu (Beijing University of Posts and Telecommunications, P.R. China), Li Wenjing (Beijing University of Posts and Telecommunications, P.R. China), Qiu Xue-song (Beijing University of Posts and Telecommunications, P.R. China), Luoming Meng (Beijing University of Posts and Telecommunications, P.R. China)	7
<i>Performance Analysis of Large Scale RF-Mesh Networks for Smart Cities and IoT</i> Filippo Malandra (Ecole Polytechnique de Montreal, Canada), Brunilde Sansò (Ecole Polytechnique de Montreal, Canada)	13
<i>On the Transmission Mode Selection for Substation Automation Traffic in Cellular Networks</i> Charalampos Kalalas (CTTC, Spain), Jesus Alonso-Zarate (Centre Tecnologic de Telecomunicacions de Catalunya - CTTC, Spain), Gargi Bag (ABB, Sweden)	19
<i>Delay-Optimal Mode Selection in Device-to-Device Communications for Smart Grid</i> Fauzun Abdullah Asuhaimi (University of Glasgow, United Kingdom (Great Britain)), Joao Nadas (University of Glasgow, United Kingdom (Great Britain)), Muhammad Ali Imran (University of Glasgow, United Kingdom (Great Britain))	26

SGC2017 Control Operation: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Control and Operation of Responsive Grids

Microgrids

SGC2017 Communications: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Communications and Networks to Enable the Smart Grid

SGC2017 Control Operation: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Control and Operation of Responsive Grids

MAS for Automated Black Start of Multi-Microgrids

Padraic McKeever (RWTH Aachen University, Germany), Edoardo De Din (RWTH Aachen University, Germany), Abhinav Sadu (RWTH Aachen University, Germany), Antonello Monti (RWTH Aachen University & Institute for Automation of Complex Power Systems, Germany) 32

Distributed Apportioning in a Power Network for providing Demand Response Services

Sourav Patel (University of Minnesota, USA), Sandeep Attree (University of Minnesota, USA), Saurav Talukdar (University of Minnesota, USA), Mangal Prakash (University of Minnesota, USA), Murti Salapaka (University of Minnesota, USA) 38

Microgrid Value of Ramping

Alireza Majzoobi (University of Denver, USA), Mohsen Mahoor (University of Denver, USA), Amin Khodaei (University of Denver, USA) N/A

Distributed Proportional-Fairness Control in MicroGrids via Blockchain Smart Contracts

Pietro Danzi (Aalborg University, Denmark), Marko Angjelichinoski (Aalborg University, Denmark), Čedomir Stefanović (Aalborg University & University of Novi Sad, Denmark), Petar Popovski (Aalborg University, Denmark) 51

Co-Optimization Generation and Distribution Planning in Microgrids

Hossein Lotfi (University of Denver, USA), Amin Khodaei (University of Denver, USA) N/A

SGC2017 Data Management: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Data Management and Grid Analytics

Data Analytics in Smart Grids I

Leveraging DERs to Improve the Inference of Distribution Network Topology

Pratyush Kumar (IBM Research, India), Vijay Arya (IBM Research, India), Daniel Bowden (DTE Energy, USA), Larry Kohrmann (ONCOR, USA) 64

A Data-driven Analysis of Supply Bids in CAISO Market: Price Elasticity and Impact of Renewables

Mahdi Kohansal (University of California at Riverside, USA), Ashkan Sadeghi-Mobarakeh (University of California, Riverside, USA), Hamed Mohsenian-Rad (University of California, Riverside, USA) 70

Discovering Energy Communities for Microgrids on the Power Grid

Yuan Hong (Illinois Institute of Technology, USA), Sanjay Goel (University at Albany, SUNY, USA), Haibing Lu (Santa Clara University, USA), Shengbin Wang (North Carolina A&T State University, USA) 76

Estimating Topology and Injection Statistics in Distribution Grids with Hidden Nodes

Deepjyoti Deka (Los Alamos National Lab, USA), Michael Chertkov (Los Alamos National Laboratory, USA), Scott Backhaus (Los Alamos National Laboratory, USA) 83

<i>A Decentralised Energy Trading Architecture for Future Smart Grid Load Balancing</i> Sjors Hijgenaar (CGI Nederland BV, The Netherlands), Zeki Erkin (Delft University of Technology, The Netherlands), Tamás Keviczky (Delft University of Technology, The Netherlands), Jos Siemons (CGI, The Netherlands), Ralph Bisschops (CGI, The Netherlands), Alexander Verbraeck (Delft University of Technology, The Netherlands)	89
---	----

SGC2017 Cyber Security: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Cyber Security and Privacy

Cyber Security I

<i>Real-time Detection of False Data Injection Attack Using Residual Prewhitening in Smart Grid Network</i> Qiaomu Jiang (Zhejiang University, P.R. China), Huifang Chen (Zhejiang University, P.R. China), Lei Xie (Zhejiang University, P.R. China), Kuang Wang (Zhejiang University, P.R. China)	95
<i>Towards a Grid-wide, High-fidelity Electrical Substation Honeynet</i> Daisuke Mashima (Advanced Digital Sciences Center, Singapore), Binbin Chen (Advanced Digital Sciences Center, Singapore), Prageeth Gunathilaka (Advanced Digital Sciences Center & Illinois at Singapore Pvt. Ltd., Singapore), Edwin Tjong (National University of Singapore & Advanced Digital Science Center, Singapore)	101
<i>False Data Injection Attacks on Phasor Measurements That Bypass Low-rank Decomposition</i> Jiazi Zhang (Arizona State University, USA), Zhigang Chu (Arizona State University, USA), Lalitha Sankar (Arizona State University, USA), Oliver Kosut (Arizona State University, USA)	108
<i>Cyber-Air-Gapped Detection of Controller Attacks through Physical Interdependencies</i> Sriharsha Etigowni (Rutgers University, USA), Mehmet Cintuglu (ABB Inc & Research Scientist, USA), Maryam Kazerooni (University of Illinois at Urbana-Champaign, USA), Shamina Hossain (University of Illinois, USA), Pengfei Sun (Rutgers University, USA), Katherine Davis (PowerWorld Corporation, USA), Osama Mohammed (Florida International University, USA), Saman Zonouz (Rutgers University, USA)	114
<i>Measuring the Security Posture of IEC 61850 Substations with Redundancy Against Zero Day Attacks</i> Onur Duman (Concordia University, Canada), Mengyuan Zhang (Concordia University, Canada), Lingyu Wang (Concordia University, Canada), Mourad Debbabi (Concordia University, Montreal, Canada)	120

SGC2017 Control Operation: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Control and Operation of Responsive Grids

Storage

<i>Optimal Battery Size for a Green Base Station in a Smart Grid with a Renewable Energy Source</i> Endre Hegland Hjort Kure (Simula Research Laboratory & University of Oslo, Norway), Sabita Maharjan (Simula Research Laboratory, Norway), Stein Gjessing (University of Oslo & Simula Research Lab., Norway), Yan Zhang (University of Oslo, Norway)	127
<i>A Novel Centralized Storage Model for Distributed Photovoltaic Generation Systems</i> Rami J. Haddad (Georgia Southern University, USA), Ananya Nag (Georgia Southern University, USA)	134

<i>Siting and Sizing Distributed Storage for Microgrid Applications</i>	
Ramachandra Rao Kolluri (IBM Research Australia, Australia), Julian de Hoog (IBM Research & The University of Melbourne, Australia), Khalid Abdulla (University of Melbourne, Australia), Iven M Mareels (The University of Melbourne & School of Engineering, Australia), Tansu Alpcan (The University of Melbourne, Australia), Marcus Brazil (The University of Melbourne, Australia), Doreen Thomas (University of Melbourne, Australia)	140
<i>Optimal Control of Storage under Time Varying Electricity Prices</i>	
Md Umar Hashmi (INRIA Paris & École Normale Supérieure, France), Arpan Mukhopadhyay (EPFL, Switzerland), Ana Basic (INRIA / ENS, France), Jocelyne Elias (Paris Descartes University & Sorbonne Paris Cité, France)	146
<i>Application of Energy Storage Systems for Frequency Regulation Service</i>	
Yanan Sun (University of British Columbia, Canada), Shahab Bahrami (University of British Columbia, Canada), Vincent W.S. Wong (University of British Columbia, Canada), Lutz Lampe (University of British Columbia, Canada)	153

SGC2017 Smart Metering: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Smart metering, Demand Response and Dynamic Pricing

Load Classification and Disaggregation

<i>Appliance Classification Across Multiple High Frequency Energy Datasets</i>	
Matthias Kahl (Technische Universität München, Germany), Thomas Kriechbaumer (Technische Universität München, Germany), Anwar Haq (Technische Universität München, Germany), Hans-Arno Jacobsen (Technical University Munich, Germany)	159
<i>Automated Classification of Appliances Using Elliptical Fourier Descriptors</i>	
Leen De Baets (Ghent University, Belgium), Chris Develder (Ghent University - imec, Belgium), Tom Dhaene (Ghent University & IMEC, Belgium), Dirk Deschrijver (University Ghent - imec, Belgium)	165
<i>A Comparison of Performance Metrics for Event Classification in Non-Intrusive Load Monitoring</i>	
Lucas Pereira (M-ITI / LARSyS & Prsma.com, Portugal), Nuno Nunes (Técnico, University of Lisbon & M-ITI / LARSyS, Portugal)	171
<i>Appliance Load Disaggregation based on Maximum A-Posterior Particle Filter (MAP-PF)</i>	
Venkata Pathuri Bhuvana (University of Klagenfurt, Austria), Andrea M Tonello (University of Klagenfurt, Austria)	177
<i>On the Applicability of Correlation Filters for Appliance Detection in Smart Meter Readings</i>	
Christoph Klemenjak (Alpen-Adria-Universität Klagenfurt, Austria), Wilfried Elmenreich (Alpen-Adria-Universität Klagenfurt, Austria)	183

SGC2017 Control Operation: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Control and Operation of Responsive Grids

Smart Grid Communications II

SGC2017 Communications: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Communications and Networks to Enable the Smart Grid

<i>Impact of Communication Delay on Asynchronous Distributed Optimal Power Flow Using ADMM</i> Junyao Guo (Carnegie Mellon University, USA), Gabriela Hug (Power Systems Laboratory, ETH Zurich, Switzerland, USA), Ozan Tonguz (Carnegie Mellon University, USA)	189
<i>Performance Evaluation of an IEEE-802.11 Mesh-based Smart Market and Smart Grid Communication System</i> Stefan Böcker (TU Dortmund University, Germany), Pascal Jörke (TU Dortmund University, Germany), Christian Wietfeld (TU Dortmund University, Germany)	195
<i>Smart Grid Interoperability Profiles Development</i> Matthias Frohner (Technikum Wien, Austria), Marion Gottschalk (OFFIS e. V., Germany), Gerald Franzl (Vienna University of Technology & AICO EDV Beratung GmbH, Austria), Richard Pasteka (Technikum Wien, Austria), Mathias Usler (OFFIS, Germany), Stefan Sauer mann (Technikum Wien, Austria)	201
<i>Decision Error Probability in a Two-stage Communication Network for Smart Grids with Imperfect Links</i> Iran Ramezanipour (University of Oulu, Finland), Pedro Henrique Juliano Nardelli (Lappeenranta University of Technology & University of Oulu, Finland), Mauricio Tomé (University of Oulu, Finland), Hirley Alves (University of Oulu, Finland)	207
<i>On the applicability of the GRIDNET protocol to Smart Grid environments</i> Rafal Skowronski (Poznan University of Technology, Poland)	212

SGC2017 Control Operation: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Control and Operation of Responsive Grids

State-Estimation and Control of Distribution Grids

<i>Fast Real-Time DC State Estimation in Electric Power Systems Using Belief Propagation</i> Mirsad Cosovic (University of Novi Sad, Serbia), Dejan Vukobratović (University of Novi Sad, Serbia)	219
<i>Full Duplex Power Line Communication Modems for Network Sensing</i> Federico Passerini (University of Klagenfurt, Austria), Andrea M Tonello (University of Klagenfurt, Austria)	225
<i>Enhancing Dynamic Voltage Stability in Power Systems with Distributed Generations</i> Qitao Liu (Durham University, United Kingdom (Great Britain)), Hongjian Sun (Durham University, United Kingdom (Great Britain)), Peter Matthews (Durham University, United Kingdom (Great Britain))	230
<i>Residual load models for power system restoration</i> Davood Raoofsheibani (TU Kaiserslautern, Germany), Philipp Hinkel (University of Kaiserslautern, Germany), Martin Ostermann (University of Kaiserslautern, Germany), Stephan Röhrenbeck (TU Kaiserslautern, Germany), Wolfram Wellßow (University of Kaiserslautern & Chair for Energy Systems and Energy Management, Germany)	235
<i>Optimal Distributed Balancing Control for Three-Phase Four-Wire Low Voltage Grids</i> Markus Bell (University of Kaiserslautern, Germany), Felix Berkel (University of Kaiserslautern, Germany), Steven Liu (University of Kaiserslautern, Germany)	241

SGC2017 Data Management: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Data Management and Grid Analytics

Load Forecasting and Co-Simulation

SGC2017 Control Operation: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Control and Operation of Responsive Grids

<i>Household energy consumption prediction by feature selection of lifestyle data</i> Kosuke Nishida (NTT Corporation, Japan), Akiko Takeda (The University of Tokyo, Japan), Satoru Iwata (University of Tokyo, Japan), Mariko Kiho (Tokyo Electric Power Company Holdings, Inc., Japan), Isao Nakayama (Tokyo Electric Power Company Holdings, Inc., Japan)	247
<i>PSF+ - Fast and Improved Electricity Consumption Prediction in Campus Environments</i> Pasan Karunaratne (University of Melbourne, Australia), Masud Moshtaghi (University of Melbourne, Australia), Shanika Karunasekera (University of Melbourne, Australia), Aaron Harwood (University of Melbourne, Australia)	253
<i>Recursive Power Demand Prediction based on Multi-Level Clustering of Power Demand Data</i> Sai Akhil Reddy Konakalla (University of California, San Diego, USA), Raymond de Callafon (University of California San Diego, USA)	259
<i>Co-simulation for Cyber Security Analysis: Data Attacks against Energy Management System</i> Kaikai Pan (Delft University of Technology, The Netherlands), André Teixeira (Delft University of Technology, The Netherlands), Claudio López (Delft University of Technology, The Netherlands), Peter Palensky (TU Delft, The Netherlands)	265
<i>An Integrated Tool for Supporting the Design and Virtual Evaluation of Smart Grids</i> Rolf Egert (TU Darmstadt, Germany), Andrea Tundis (Technische Universität Darmstadt, Germany), Florian Volk (Technische Universität Darmstadt, Germany), Max Mühlhäuser (TU- Darmstadt, Germany)	271

SGC2017 Cyber Security: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Cyber Security and Privacy

Cyber Security II

<i>Optimal Demand-Side Management for Joint Privacy-Cost Optimization with Energy Storage</i> Giulio Giaconi (Imperial College London, United Kingdom (Great Britain)), Deniz Gündüz (Imperial College London, United Kingdom (Great Britain)), H. Vincent Poor (Princeton University, USA)	277
<i>Physical Watermarking for Securing Cyber Physical Systems via Packet Drop Injections</i> Omur Ozel (Carnegie Mellon University, USA), Sean Weerakkody (Carnegie Mellon University, USA), Bruno Sinopoli (Carnegie Mellon University, USA)	283
<i>Smart Meter Privacy via the Trapdoor Channel</i> Miguel Arrieta (University of Sheffield, United Kingdom (Great Britain)), Iñaki Esnaola (University of Sheffield, United Kingdom (Great Britain))	289
<i>Power Grid Safety Control via Fine-Grained Multi-Persona Programmable Logic Controllers</i> Gabriel Salles-Loustau (Rutgers University, USA), Luis Garcia (Rutgers University, USA), Pengfei Sun (Rutgers University, USA), Maryam Dehnavi (MIT, USA), Saman Zonouz (Rutgers University, USA)	295
<i>Encryption in ICS networks: a Blessing or a Curse?</i> Davide Fauri (Technical University of Eindhoven, The Netherlands), Bart de Wijs (ABB Group, The Netherlands), Jerry den Hartog (Technical University of Eindhoven, The Netherlands), Elisa Costante (SecurityMatters, The Netherlands), Emmanuele Zambon (SecurityMatters, The Netherlands), Sandro Etalle (Technical University of Eindhoven, The Netherlands)	301

SGC2017 Communications: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Communications and Networks to Enable the Smart Grid

Power Line Communications

<i>A Power Line Communication Topology Module for ns-3 and DCE</i> Bernhard Gäde (Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany), Andreas M. Lehmann (Friedrich-Alexander University Erlangen-Nürnberg, Germany), Jörg Deutschmann (iAd GmbH, Germany), Johannes Huber (University of Erlangen-Nuremberg, Germany)	307
<i>Frequency Domain Access Control for Power Line Communications in Home Area Networks</i> Gautham Prasad (University of British Columbia, Canada), Yinjia Huo (the University of British Columbia, Canada), Lutz Lampe (University of British Columbia, Canada), Victor C.M. Leung (University of British Columbia, Canada)	314
<i>Together or separately? Evaluating the Content Free Period in PRIME using SimPRIME</i> Javier Matanza (Universidad Pontificia Comillas, Spain), Gregorio López (Universidad Politécnica de Madrid, Spain), Sadot Alexandres (Universidad Pontificia Comillas, Spain), Jose Ignacio Moreno (Universidad Carlos III de Madrid, Spain), M ^a de la Concepción Mora (Universidad Pontificia de Comillas (ICAI), Spain)	320
<i>Performance Analysis of Power Saving Strategies for Power Line Communications</i> Sung-Guk Yoon (Soongsil University, Korea)	326
<i>Performance of Adaptive Layer Switching in Small G.hn PLC Networks</i> Stanislav Mudriievskiy (Technische Universität Dresden, Germany), Ralf J. Lehnert (Technische Universität Dresden, Germany)	332

SGC2017 Smart Metering: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Smart metering, Demand Response and Dynamic Pricing

Demand Response I

<i>Coordinated Voltage Control as a Replacement for Passive Network Reinforcements - a Case Study</i> Antti Supponen (Tampere University of Technology, Finland), Sami Repo (Tampere University of Technology, Finland), Anna Kulmala (VTT Technical Research Centre, Finland)	338
<i>Teaming and Competition for Demand-Side Management in Office Buildings</i> Thanasis G. Papaioannou (Athens University of Economics and Business, Greece), George Stamoulis (Athens University of Economics and Business, Greece)	344
<i>Aggregator strategy for planning demand response resources under uncertainty based on load flexibility modeling</i> Kaveh Paridari (KTH Royal Institute of Technology, Sweden), Lars M Nordström (Royal Institute of Technology, KTH, Sweden), Claes Sandels (Research Institutes of Sweden (RISE), Sweden)	350
<i>Demand Response for Data Centers in Deregulated Markets: A Matching Game Approach</i> Shahab Bahrami (University of British Columbia, Canada), Vincent W.S. Wong (University of British Columbia, Canada), Jianwei Huang (The Chinese University of Hong Kong, Hong Kong)	356
<i>Demand Response with Model Predictive Comfort Compliance in an Office Building</i> Peter Nellemann (University of Southern Denmark, Denmark), Mikkel Kjaergaard (University of Southern Denmark, Denmark), Emil Holmegaard (University of Southern Denmark, Denmark), Krzysztof Arendt (University of Southern Denmark, Denmark), Aslak Johansen (University of Southern Denmark, Denmark), Fisayo Sangogboye (University of Southern Denmark, Denmark), Bo N. Jorgensen (University of Southern Denmark, Denmark)	363

Pricing and Modeling for EVs

SGC2017 Control Operation: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Control and Operation of Responsive Grids

SGC2017 Field Trials: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm) Field Trials, Deployments, Standardization, Interoperability and Regulation

<i>Dynamic Pricing Based and Electric Vehicle Assisted Demand Response Strategy</i> Xing Luo (University of Liverpool, United Kingdom (Great Britain)), Xu Zhu (University of Liverpool, United Kingdom (Great Britain) & Harbin Institute of Technology, Shenzhen, P.R. China), Eng Gee Lim (Xi'an Jiaotong-Liverpool University, P.R. China)	369
<i>Modeling Demand Flexibility of Electric Vehicles</i> Chirag Ramesh Srivatsa (PES Institute of Technology, India), Desik Rengarajan (PES Institute of Technology, India), Vamsi Krishna Tumuluru (PES University, India)	375
<i>Balancing Social Utility with Aggregator Profit in Electric Vehicle Charging</i> Elliot Anshelevich (RPI, USA), Koushik Kar (Rensselaer Polytechnic Institute, USA), Shreyas Sekar (University of Washington, USA), Zaid Bin Tariq (Rensselaer Polytechnic Institute, USA)	381
<i>Energy Exchange Coordination of Off-Grid Charging Stations with Vehicular Energy Network</i> James Yu (The University of Hong Kong, Hong Kong), Albert Y.S. Lam (The University of Hong Kong, Hong Kong), Siew-Chong Tan (The University of Hong Kong, Hong Kong)	387
<i>An Efficient Electric Vehicle Charging Architecture based on LoRa Communication</i> Cecile Bouette (IMT Atlantique, France), Blanca Martinez De Aragon (IMT Atlantique, France), Ange Ouya (IMT Atlantique, France), Guillaume Habault (IMT Atlantique, France), Nicolas Montavont (Institut Mines Telecom / IMT Atlantique, France), Georgios Z. Papadopoulos (IMT Atlantique, France)	393

SGC2017 Control Operation: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Control and Operation of Responsive Grids

Flexible Loads

<i>Building Modelling Methodologies for Virtual District Heating and Cooling Networks</i> Kumar Saurav (IBM Research, India), Anamitra Roy Choudhury (IBM Research - India, India), Vikas Chandan (Pacific Northwest National Laboratory, USA), Peter Lingman (Optimization, Sweden), Nicklas Linder (TWT, India)	399
<i>Algorithmic approach to minimize the energy cost of commercial buildings in developing countries</i> Kumar Saurav (IBM Research, India), Megha Nawhal (IBM Research, India), Heena Bansal (IBM Research, India), Vikas Chandan (Pacific Northwest National Laboratory, USA), Vijay Arya (IBM Research, India)	405
<i>Assessment of Optimal Flexibility in Ensemble of Frequency Responsive Loads</i> Soumya Kundu (Pacific Northwest National Laboratory, USA), Jacob Hansen (Pacific Northwest National Laboratory, USA), Jianming Lian (Pacific Northwest National Laboratory, USA), Karanjit Kalsi (Pacific Northwest National Laboratory, USA)	411
<i>Stochastic Dual Algorithm for Voltage Regulation in Distribution Networks with Discrete Loads</i> Xinyang Zhou (University of Colorado, Boulder, USA), Zhiyuan Liu (University of Colorado, Boulder, USA), Emiliano Dall'Anese (National Renewable Energy Laboratory, USA), Lijun Chen (University of Colorado at Boulder, USA)	417

Real-time Market-based Coordination Mechanism for Transmission and Distribution Networks

Su Wang (Hong Kong University of Science and Technology, Hong Kong), Bo Sun (The Hong Kong University of Science and Technology, Hong Kong), Tian Liu (The Hong Kong University of Science and Technology & Xi'an Jiaotong University, Hong Kong), Xiaoqi Tan (Hong Kong University of Science and Technology, Hong Kong), Danny H.K. Tsang (HKUST, Hong Kong) 423

SGC2017 Data Management: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Data Management and Grid Analytics

Data Analytics in Smart Grids II

A Common Data Architecture for Energy Data Analytics

Mayank Malik (Stanford University & SLAC National Accelerator Laboratory, USA), Michaelangelo Tabone (Stanford University, USA), David P. Chassin (Pacific Northwest National Laboratory & Battelle Memorial Institute, USA), Emre C Kara (SLAC National Accelerator Laboratory, USA), Ramanathan Guha (Schema.org, USA), Sila Kiliccote (Lawrence Berkeley National Laboratory, USA) 429

Integrated Multi-Scale Data Analytics and Machine Learning for the Distribution Grid

Emma Stewart (Lawrence Livermore National Laboratory, USA), Ciaran Roberts (Lawrence Berkeley National Laboratory, USA), Andrey Lokhov (Los Alamos National Laboratory, USA), Scott Backhaus (Los Alamos National Laboratory, USA), Anthony Florita (National Renewable Energy Laboratory, USA), Deepjyoti Deka (Los Alamos National Lab, USA), Michael Chertkov (Los Alamos National Laboratory, USA), Val Hendrix (Lawrence Berkeley National Laboratory, USA), Sean Peisert (Lawrence Berkeley National Laboratory, USA), Matthew Reno (Sandia National Laboratories, USA), Thomas King, Jr (Oak Ridge National Lab, USA), Philip Top (Lawrence Livermore National Laboratory, USA) 435

ISAAC: Intelligent Synchrophasor Data Real-Time Compression Framework for WAMS

Wenyu Ren (University of Illinois at Urbana-Champaign, USA), Timothy Yardley (University of Illinois at Urbana-Champaign, USA), Klara Nahrstedt (University of Illinois, USA) 442

Multiscale PMU Data Compression Based on Wide-Area Event Detection

Gyul Lee (Yonsei University, Korea), Yong-June Shin (Yonsei University, Korea) 449

AMBAL: Realistic Load Signature Generation for Load Disaggregation Performance Evaluation

Nadezda Buneeva (TU Clausthal, Germany), Andreas Reinhardt (TU Clausthal, Germany) 455

SGC2017 Cyber Security: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Cyber Security and Privacy

Cyber Security III

Flooding Attacks against Secure Time-Critical Communications in the Power Grid

Fengli Zhang (University of Arkansas, Fayetteville, USA), Michael A Mahler (University of Arkansas, USA), Qinghua Li (University of Arkansas, USA) 461

Information-Theoretic Attacks in the Smart Grid

Ke Sun (University of Sheffield, United Kingdom (Great Britain)), Iñaki Esnaola (University of Sheffield, United Kingdom (Great Britain)), Samir M. Perlaza (INRIA, France), H. Vincent Poor (Princeton University, USA) 467

Local Cyber-physical Attack with Leveraging Detection in Smart Grid

Hwei-Ming Chung (Academia Sinica, Taiwan), Wen-Tai Li (National Sun Yat-sen University, Taiwan), Chau Yuen (Singapore University of Technology and Design, Singapore), Wei-Ho Chung (Academia Sinica, Taiwan), Chao-Kai Wen (National Sun Yat-sen University, Taiwan) 473

<i>Context-aware local Intrusion Detection in SCADA systems: a testbed and two showcases</i> Justyna Chromik (University of Twente, The Netherlands), Anne Remke (University of Twente, The Netherlands), Boudewijn R. Haverkort (University of Twente, The Netherlands), Carina Pilch (University of Münster, Germany), Pascal Brackmann (University of Münster, Germany), Christof Duhme (University of Münster, Germany), Franziska Everinghoff (University of Münster, Germany), Artur Giberlein (University of Münster, Germany), Thomas Teodorowicz (University of Münster, Germany), Julian Wieland (University of Münster, Germany)	479
<i>A Continuum of Undetectable Timing-Attacks on PMU-based Linear State-Estimation</i> Sergio Barreto Andrade (Ecole Polytechnique Federale de Lausanne, Switzerland), Ezzeldin Shereen (KTH Royal Institute of Technology, Sweden), Marco Pignati (Ecole Polytechnique Federale de Lausanne (EPFL), Switzerland), György Dán (KTH Royal Institute of Technology, Sweden), Jean-Yves Le Boudec (EPFL, Switzerland), Mario Paolone (Swiss Federal Institute of Technology of Lausanne (EPFL), Switzerland)	485
<i>On the Impact of Cyberattacks on Voltage Control Coordination by ReGen Plants in Smart Grids</i> Kamal Shahid (Aalborg University Denmark, Denmark & University of the Punjab, Lahore, Pakistan), Egon Kidmose (Aalborg University, Denmark), Rasmus Olsen (Aalborg University, Denmark), Lennart Petersen (Aalborg University, Denmark), F. Iov (Aalborg University, Denmark)	492

SGC2017 Field Trials: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm) Field Trials, Deployments, Standardization, Interoperability and Regulation

Field Trials, Applications, Regulations

<i>Reactive Power Provision to TSO/DSO by Aggregators and Conventional Generators</i> Jibran Ali (Enel & University of Genoa, Italy), Stefano Massucco (University of Genova & IIES Lab., Italy), Giacomo Petretto (ENEL Ingegneria e Innovazione, Italy)	498
<i>The ITU-T G.9960 Broadband PLC Communication Concept for SmartGrid Applications</i> Anil Mengi (Devolu AG, Germany), Sebastian Ponzelar (Devolu AG, Germany), Michael Koch (Devolu AG, Germany)	504
<i>Validating Broadband PLC for Smart Grid Applications with Field Trials</i> Norbert Graf (ENSO NETZ, Germany), Ievgenii Anatolijovuch Tsokalo (Technische Universität Dresden, Germany), Ralf J. Lehnert (Technische Universität Dresden, Germany)	509
<i>Development of a Hybrid LoRa/G3-PLC IoT Sensing Network: an Application Oriented Approach</i> Alireza Ghasimonfared (AAU Klagenfurt, Austria), Davide Righini (AAU Klagenfurt, Austria), Francesco Marcuzzi (Alpen-Adria-Universitaet, Austria), Andrea M Tonello (University of Klagenfurt, Austria)	515
<i>An Agent-based Flexibility Trading Architecture with Scalable and Robust Messaging</i> Ferdinand von Tüllenbunrg (Salzburg Research Forschungsgesellschaft m. b. H., Austria), Georg Panholzer (Salzburg Research Forschungsgesellschaft mbH, Austria), Jia Lei Du (Salzburg Research Forschungsgesellschaft m. b. H., Austria), Ana Soares (VITO, Belgium), Davy Geysen (VITO, Belgium), Fred Spiessens (VITO, Belgium), Dominic Ectors (VITO, Belgium)	521

SGC2017 Smart Metering: 2017 IEEE International Conference on Smart Grid Communications (SmartGridComm): Smart metering, Demand Response and Dynamic Pricing

Demand Response II

<i>Energy Storage System Dynamic Scheduling Based on 2-Step Bin Packing</i> Seon Hyeog Kim (Yonsei University, Korea), Yong-June Shin (Yonsei University, Korea)	527
<i>Bilevel Approaches for Distributed DSM using Internal Individualized Prices</i> Raimund Kovacevic (Vienna University of Technology, Austria), Josef Haunschmied (Vienna University of Technology, Austria), Nhat-Vinh Vo (Vienna University of Technology, Austria)	533
<i>Appliance Commitment for Household Load Scheduling Algorithm: A Critical Review</i> Tobias Lübker (Hamburg University of Technology, Germany), Marcus Venzke (Hamburg University of Technology, Germany), Volker Turau (Hamburg University of Technology, Germany)	539
<i>Novel market approach for locally balancing renewable energy production and flexible demand</i> Jose Horta (Telecom ParisTech, France), Daniel Kofman (Telecom Paristech, France), David Menga (EDF R&D, France), Alonso Silva (Nokia Bell Labs, France)	545
<i>Demand Response in the Smart Grid: the Impact of Consumers Temporal Preferences</i> Paulin Jacquot (EDF, Inria - CMAP Ecole Polytechnique, France), Olivier Beau (EDF, France), Stéphane Gaubert (INRIA Saclay & CMAP, Ecole Polytechnique, France), Nadja Oudjane (ONERA, France)	552
<i>An efficient Production Scheduling based on queuing theory in systems with synchronous part transfer during a Demand Response event</i> Alemayehu Addisu (Université Paris-Est-Marne-la-Vallée (UPEM) & METRON, France), Hakim Badis (UPEM, France), Laurent George (ESIEE Paris, France), Pierre Courbin (METRON, France)	558
