2018 AEIT International Annual Conference (AEIT)

Bari (Italy), October 3-5, 2018

TABLE OF CONTENTS

Methods and technologies for electricity transmission systems

Time Synchronization Attack in Synchrophasors-based Dynamic Thermal Rating Assessment: Impact and Analysis 1

G. Coletta, A. Pepiciello, A. Vaccaro, D. Villacci – University of Sannio, Italy, G.M. Giannuzzi - Terna, Italy

Transmission network expansion planning: towards enhanced renewable integration 7

L. Michi, M. Migliori, A. Caldarulo Bugliari, B. Aluisio, G.M. Giannuzzi, E.M. Carlini - Terna, Italy

The effects of new 2030 scenario: reduction of short-circuit power and widening of voltage dips 12

L. Michi, E.M. Carlini, L. Caciolli, D. Polinelli, P. Capurso, A. Proietti - Terna, Italy, A. Berizzi, C. Bovo - Politecnico di Milano, Italy

A new approach for seasonal outlook adequacy evaluation 18

L. Michi, E.M. Carlini, M. Bonanni, P. Capurso, F. Quaglia, L. Nuccio – Terna, Italy, S. Biondi – ENTSO-E, Italy, B. Cova, D. Canever, L. Giorgi - CESI, Italy

Enhancement of Slovenian Electricity Transmission System Resilience spurred by experience and new approach 24

M. Hrast, K. Bakic - ELES – National TSO, Slovenia, M. Babuder - Electrotechnical Institute Milan Vidmar, Slovenia

Electric vehicle grid impacts 30

A. Urbanelli, A. Sallati, F. Ciasca, B. Aluisio, C. Vergine, L. Zeni, M. Petrucci - Terna, Italy, G. Forte, M. Trovato - Politecnico di Bari, Italy

Solving Uncertain Power Flow Problem by Affine Arithmetic 36

G. Coletta, A. Vaccaro, D. Villacci, A. Zollo – University of Sannio, Italy

Studies and innovations in electrical distributions systems

GIS-based urban distribution networks planning with 2-step ladder topology considering electric power cable joints 42

A. Bosisio, A. Berizzi, C. Bovo, E. Amaldi - Politecnico di Milano, Italy, S. Fratti - UNARETI, Italy

The impact of MVDC links on distribution networks 48

R. Zuelli, R.G. Chiameo, C. Gandolfi, A. Clerici - Ricerca sul Sistema Energetico - RSE, Italy, S. Pugliese, S. Fratti, M. Garocchio - UNARETI, Italy

Assessment of Energy Storage Systems Installation in Smart Distribution Networks 53
G. Celli - University of Cagliari, Italy, L. Lo Schiavo - ARERA, Italy, F. Pilo, G. Pisano, G.G. Soma - University of Cagliari, Italy, R. Vailati - ARERA, Italy

Challenges in Microgrid Control Systems Design. An application case 59
G. Invernizzi, G. Vielmini - Schweitzer Engineering Laboratories, Italy

A software for residential Multi-DER microgrids design 65
G. Graditi, G. Adinolfi, R. Ciavarella, V. Palladino - ENEA, Italy

A Virtual Synchronous Machine Control applied to Photovoltaic Generation in Decentralized Microgrid 71
A. Cervi, R. Stecca, A. Vian, F. Bignucolo - University of Padova, Italy

Measurements and analysis on Components of the electrical system

A.RI.EL: A structural integrity condition based method for renewal assessment of pylons in overhead transmission lines 77
G. Ricci, R. Bertella, S. Prato - Terna, Italy, M. Zippo - CESI, Italy

Life Cycle Assessment of a 132 kV Gas Insulated Switchgear Substation using LCA methodology 83
A.G. Palumberi, M. Rebolini - Terna Rete Italia, Italy, P. Bonci, A. Giorgi, F. Grasso - University of Florence, Italy

Different Screen Arrangements of Distribution Insulated Cables 89
R. Benato, S. Dambone Sessa, G. Rinzo - University of Padova, Italy, O. Marchese, L. Tanzi, R. Zapelloni - e-distribuzione, Italy

Capri-Torre Annunziata 150 kV Three-Core Armoured Submarine Cable: a First 3D Multiconductor Cell Analysis Confirmation 95
R. Benato, S. Dambone Sessa - University of Padova, Italy, L. Guizzo, F. Palone - Terna Rete Italia, Italy

Charging Transient for Fault Location: Analytical Method versus Artificial Neural Network 101
R. Benato, S. Dambone Sessa, G. Rinzo - University of Padova, Italy, M. Poli - Terna, Italy

Optimal discretization of grounding systems applying Maxwell's subareas method 107
P. Montegiglio, G. Cafaro, F. Torelli - Politecnico di Bari, Italy, P. Colella, E. Pons - Politecnico di Torino, Italy

Projects related to Activities concerning Research and Development for the National Electrical Energy System

The PODCAST project - optimizing distribution networks with renewable energy sources 113
E. Bessone - Amaie, Italy, C.A. Nucci - University of Bologna, Italy, S. Bianchi - Softeco Sismat, Italy, M. Pentolini - SDI, Italy, S. Massucco - University of Genova, Italy, F. Raco - Toshiba T&D, Italy

Evaluation of Joule power losses reduction in overhead lines with innovative conductors 119

R. Benato, R. Caldon, M. Coppo, S. Dambone Sessa, G. Rinzo - University of Padova, Italy, D. Mimo – De Angeli Prodotti, Italy

The ELECTRA Web-of-Cells control architecture concept for the future power system operation 125

M. Cabiati, C. Tornelli, L. Martini - Ricerca sul Sistema Energetico - RSE, Italy

DEMAND Project: Bottom-Up Aggregation of Prosumers in Distribution Networks 131

D. Arnone, M. Mammina – Engineering Ingegneria Informatica, Italy, S. Favuzza, M.G. Ippolito, E. Riva Sanseverino, E. Telaretti, G. Zizzo - University of Palermo, Italy

Energetic and economical analysis for a LVDC residential district 137

L. Pellegrino, R. Lazzari - Ricerca sul Sistema Energetico - RSE, Italy, F. Almasio - Politecnico di Milano, Italy

Comparing control systems performance in increasing the Hosting Capacity of distribution networks 143

G. Viganò, M. Rossi, D. Moneta - Ricerca sul Sistema Energetico - RSE, Italy

Study of a Universal Power SMES Compensator for LV Distribution Grid 149

C. Gandolfi, R. Chiumeo - Ricerca sul Sistema Energetico - RSE, Italy, R. Faranda, D. Raggini - Politecnico di Milano, Italy, A. Morandi - Università di Bologna, Italy, C. Ferdeghini – CNR-SPIN, Italy, M. Tropeano - Columbus Superconductor, Italy, S. Turtù - ICAS, Italy

Control and management aspects in electrical systems

Pilot projects on Battery Energy Storage Systems in the Transmission grid: regulatory framework and first results 155

M. Benini – Ricerca sul Sistema Energetico - RSE, Italy, L. Lo Schiavo - ARERA, Italy

Load Flexibility Supply via Participation in the Italian Balancing Market: Preliminary Economic Evaluations 161

M. Benini, S. Canevese, A. Cavaliere, A. Gatti – Ricerca sul Sistema Energetico - RSE, Italy

Optimal automatic parameter tuning for innovative grid frequency regulation functions 167

S. Canevese, A. Iaria, M. Rapizza – Ricerca sul Sistema Energetico - RSE, Italy

A new concept for Italian dispatching market: decision 300/2017 173

A. Galliani, M.S. Pasquadibisceglie - ARERA, Italy

Robust Optimal Bidding of Wind Energy in the Electricity Markets 179

F. De Caro, D. Villacci - University of Sannio, Italy, E.M. Carlini - Terna Rete Italia, Italy

Under Frequency Load Shedding Plan in Active Power Systems: Analysis and Innovative Proposals 185

T. Baffa Scirocco, G. Bruno, L. Caciolli, G.M. Giannuzzi, R. Zaottini - Terna Rete Italia, Italy, A. Giorgi, F. Grasso, G. Rossi - University of Florence, Italy

INTAS experiences on identification, selection and evaluation of power transformers for market surveillance purposes 191

A. Baggini - University of Bergamo, Italy, I. Weiss - WIP Renewable Energies, Germany, N. Ruiz Fuente, F.R. Zuloaga - European Environmental Citizens' Organisation for Standardisation (ECOS), Belgium, T. Jezdinsky - European Copper Institute, Belgium, F. Bua - Engineering Consulting and Design, Italy

VIRTUALENERGY: A project for testing ICT for virtual energy management 197
E. Ghiani, S. Mocci, M. Franceschelli, M. Anedda, C. Desogus, G. Fadda - University of Cagliari, Italy

Safety and power quality in electrical systems

Rail Potential Calculation: Impact of the Chosen Model on the Safety Analysis 203
P. Colella, E. Pons - Politecnico di Torino, Italy, A. Tortora - Gruppo Torinese Trasporti, Italy

Smartening hospital electrical distribution for enhancing resilience 209
A. Prudenzi, A. Fioravanti - University of L'Aquila, Italy, M. Regoli - University of Rome "Tor Vergata", Italy

Review of Some Effects of Harmonics in Nonsinusoidal Systems 215
M. Buzdugan - Technical University of Cluj-Napoca, Romania

A.C. Arc Flash Analysis: a new derivation method 221
P.A. Scarpino, A. Reatti, F. Grasso - University of Florence, Italy

Power Quality Assessment of Grid Connected Photovoltaic System on Power Factor 225
F. Abdul Haris, A.M. Omar, S.Z.M. Noor - University of Technology MARA, Malaysia

Effects of the aging time on CFL and LED lamps: experimental tests on the electrical and photometric quantities 231
S. Di Mauro, A. Raciti, S.A. Rizzo, G. Susinni - Università di Catania, Italy, S. Musumeci - Politecnico di Torino, Italy

Measurement of Electric Power Quantities and Efficiency in Nonsinusoidal Conditions 237
F. Grasso, A. Luchetta, S. Manetti - University of Florence, Italy, F. Cenghialta, E. D'Antuono, S. De Giorgis - Energia Europa, Italy

Experiences of Smart Grid Living Laboratories

The University of Genoa Smart City Demo Site 243
S. Bracco, M. Brignone, F. Delfino, P. Laiolo, R. Procopio - University of Genoa, Italy

The Smart Grid Labs of e-distribuzione 249
A. Cammarota, G. Sapienza, G. Bianco, S. Riva - e-distribuzione, Italy, M. Rubino - Enel Italia, Italy

Advancements of field tests in PrInCE lab experimental microgrid 255
B. Aluisio, A. Cagnano, E. De Tuglie, M. Dicorato, G. Forte, R. Sbrizzai, M. Trovato - Politecnico di Bari, Italy

Functions and technologies for energy optimization of users and districts: lab test 261
V. Angelucci, D. Moneta, R. Urban, P. Gramatica - Ricerca sul Sistema Energetico - RSE, Italy

First activities and power-hardware-in-the-loop tests at the public research laboratory LabZERO 267
S. Bruno, G. Giannoccaro, M. La Scala, G. Lopopolo - Politecnico di Bari, Italy

Collected experiences from the Fraunhofer Institute IFF's Smart Grid Laboratory 273
P. Lombardi, S. Balischewski, C. Wenge, P. Komarnicki - Fraunhofer Institute for Factory Operation and Automation IFF, Germany

A Living Lab and Testing Infrastructure for the Development of Innovative Smart Energy Solutions: the eLUX Laboratory of the University of Brescia 278

A. Flammini, M. Pasetti, S. Rinaldi, P. Bellagente, A.C. Ciribini, L.C. Tagliabue, L.E. Zavanella, S. Zanoni, G. Oggioni, G. Pedrazzi - University of Brescia, Italy

Smart Grid Technology Lab - A Full-Scale Low Voltage Research Facility at TU Dortmund University 284

A. Spina, K. Rauma, C. Aldejohann, M. Holt, J. Maasmann, P. Berg, F. Rettberg, U. Haeger, C. Rehtanz - TU Dortmund University, Germany

Recent research conducted at the SGILab towards an efficient and interoperable smart grid 290

E. Kotsakis, A. Lucas, N. Andreadou, G. Fulli - European Commission, Joint Research Centre, Italy, M. Masera - European Commission, Joint Research Centre, The Netherlands

A Collaborative Laboratory for Shipboard Microgrid: Research and Training 296

F. Silvestro, F. D'Agostino, G.P. Schiapparelli, A. Boveri - University of Genova, Italy, D. Patuelli - ABB Marine and Ports, Italy, E. Ragaini - ABB, Italy

Redundant Directional Zone Selectivity for Marine Electrical Installations 302

H. Bardideh - Politecnico di Milano, Italy, A. Fidigatti, E. Ragaini - ABB, Italy

Dynamic modeling of the PrInCE Lab experimental microgrid 308

A. Vian, F. Bignucolo, R. Turri - University of Padova, Italy, A. Cagnano, E. De Tuglie - Politecnico di Bari, Italy

HVDC Developments in the Mediterranean Area

Integrated approach for the techno-economic evaluation of transmission infrastructures: application to the HVDC SA.CO.I. project 314

A. L'Abbate, R. Calisti - Ricerca sul Sistema Energetico - RSE, Italy

Pulsed Electro-Acoustic Method for specimens and cables employed in HVDC systems: some feasibility considerations 320

A. Imburgia, P. Romano, E. Riva Sanseverino - University of Palermo, Italy, L. De Rai, S. Franchi Bononi, I. Troia - Prysmian Group, Italy

Consolidating a Secure and Sustainable Electricity Infrastructure in the Mediterranean Region - The Mediterranean Project of Med-TSO 326

A. Iliceto - Terna Rete Italia, Italy, A. Ferrante - MedTso, Italy

HVDC Cables Along with Highway Infrastructures: the "Piedmont-Savoy" Italy-France Intertie 332

R. Benato, A. Chiarelli, S. Dambone Sessa - University of Padova, Italy, R. De Zan, M. Rebolini, M. Paziienza - Terna Rete Italia, Italy

Study of interactions among control, defense, and protection systems in small systems with HVDC links and large penetration of renewables 338

E. Ciapessoni, D. Cirio, A. Pitto, A. Iaria, M.R. Rapizza - Ricerca sul Sistema Energetico - RSE, Italy, G. Giannuzzi, A. Iliceto, R. Zaottini - Terna Rete Italia, Italy

Regulatory options to support electricity transmission network investments in the Mediterranean region 344

V. Lenzi, S. Colakoglu, B. Hoxha, M. Lambicchi - Mediterranean Energy Regulators (MEDREG), Italy

HVDC Land and Submarine Cables in the Mediterranean Area 350

L. Colla - Prysmian Industry, Italy, E. Zaccone - Advisor, Italy

Resilience of Electrical Grid: Events and Solutions

Towards the Resilience Assessment of Electric Distribution System to Earthquakes and Adverse Meteorological Conditions 356

L. Calcara - Sapienza University of Rome, Italy, A. Di Pietro - ENEA, Casaccia Research Centre, Italy, S. Giovinazzi - University of Canterbury, New Zealand, M. Pollino - ENEA, Casaccia Research Centre, Italy, M. Pompili - Sapienza University of Rome, Italy

Raising awareness on climate-change related hazards that might impact electric infrastructures 362

P. Faggian, R. Bonanno - Ricerca sul Sistema Energetico - RSE, Italy

Assessment and possible solution to increase the resilience of Terni distribution Grid: the ice sleeves formation threat 368

T. Bragatto - Sapienza University of Rome, Italy, M. Cresta - ASM Terni, Italy, F.M. Gatta, A. Geri, M. Maccioni - Sapienza University of Rome, Italy, M. Paulucci - ASM Terni, Italy

Assessment of the resilience of the electrical distribution grid: e-distribuzione approach 374

E. Amicarelli, L. Ferri, M. De Masi, A. Suich, G. Valtorta - e-distribuzione, Italy

Improvement the resilience of the regional power system in Croatia 380

M. Mesić, A. Andric, B. Markota - Croatian Transmission Operator, Croatia

Model based resilience assessment and threats mitigation: a sensitivity based approach 385

E. Ciapessoni, D. Cirio, A. Pitto - Ricerca sul Sistema Energetico - RSE, Italy, S. Massucco - University of Genova, Italy, M. Sforza - Terna, Italy, P. Marcacci - Ricerca sul Sistema Energetico - RSE, Italy

E-mobility & Shipboard Applications

Long duration simulations of railway AC Electrified lines 391

M. Ceraolo - University of Pisa, Italy

Application of Dynamic Programming for Active Noise Reduction of PMSM by Reducing Torque Ripple and Radial Force Harmonics 397

J. Nägelkrämer, A. Heitmann - Porsche AG, Germany, N. Parspour - University of Stuttgart, Germany

Simulink Models for the Prediction of Electromagnetic Transients in DC Traction Systems 403

M. Brenna, F. Foadelli, M. Longo - Politecnico di Milano, Italy, M. Albertini, M. Quaglini - Colais Rail Italia, Italy

Impedance bonds: Analysis and Development 409

E. Fedeli, G. Falaschi, N. Bologna - Rete Ferroviaria Italiana, Italy

A methodologic approach to define the railway junctions capacity 415

C. Spalvieri - Rete Ferroviaria Italiana, Italy, R. Lamedica, A. Ruvio - Sapienza University of Rome, Italy

Electric Vehicles under Slip Constraints: Experimental Results 421

D. Antonelli - University of Rome Tor Vergata, Italy, L. Pasquale - University of Nottingham, United Kingdom, A. Salvatore, M. Tiberti, C.M. Verrelli - University of Rome Tor Vergata, Italy

Preliminary analysis of Hybrid-Electric propulsion system integrated in a regional aircraft 427

M.C. Cameretti, A. Del Pizzo, L.P. Di Noia, M. Ferrara - University of Naples Federico II, Italy

Use of passive filters connected to the AC side of railway substations supplied in medium voltage 433

G. Guidi Buffarini, G. Trezza - Italferr, Italy, C. Spalvieri, M. Stellin - Rete Ferroviaria Italiana, Italy

Harmonic Analysis of High-Speed Railway System for Different Configurations of the Traction Power Line 439

L. Alfieri, F. Mottola, M. Pagano, D. Proto - University of Naples Federico II, Italy

A simulation environment for railway dynamics and signalling, aimed to European certification of safe vital computers 445

C. Zappacosta, S. Vetrucchio, G. Mancini, L. Caccamo, L. Bocciolini - Italcertifer, Italy

Dependability analysis of cyber security in All-Electric Ships 450

A. Vicenzutti, A. Colavitto, M. Chiandone, G. Sulligoi - University of Trieste, Italy

Smart Cities and Smart Enterprises

Customer segmentation through multiple correspondence analysis 455

F. Manca, A.M. D'Uggento, N. Convertini - University of Bari Aldo Moro, Italy

Project IAAP: An Overview on Optimizing Business Process in Smart Enterprises 460

M. D'Aloia, A. Longo, F. De Carlo - Masvis, Italy, P. De Leonardis, P. Rizzi - Group Service Energy, Italy, M. Rizzi - Politecnico di Bari, Italy

Recommendation System using Hybrid Fuzzy Association Rules for Human Smart Cities 466

N. Convertini - University of Bari Aldo Moro, Italy, N. Logrillo - Wolters Kluwer Italia, Italy, F. Manca, T. Palmisano - University of Bari Aldo Moro, Italy

New Evaluation Metrics for Electrical Demand Forecasting: Application to the Residential Sector 471

I. Ihsane, L. Miegerville, N. Ait-Ahmed, P. Guerin - Université de Nantes, France

Neural Networks for Automated Smart Health Platforms oriented on Heart Predictive Diagnostic Big Data Systems 477

A. Massaro, V. Maritati, N. Savino, A. Galiano - Dyrecta Lab, Italy

Smart Energy Management of a Prosumer for a Better Environment Safeguard 482

F. Muzi - University of L'Aquila, Italy, L. Calcara, S. Sangiovanni, M. Pompili - Sapienza University of Rome, Italy

Genetic algorithm based control for unbalanced low voltage networks 487

C. Oramas-Piñero, E. Vega-Fuentes, F. Déniz - University of Las Palmas de Gran Canaria, Spain

Smart Program Management in a Smart City 491

M.T. Baldassarre, V.S. Barletta, D. Caivano - University of Bari Aldo Moro, Italy

Smart Farms for a Sustainable and Optimized Model of Agriculture 497

F. Balducci, D. Fornarelli, D. Impedovo, A. Longo, G. Pirlo - University of Bari Aldo Moro, Italy

Smart Systems and Emerging Technologies

Alternating Current Waveform Control Method for BLDCMs Using Repetitive Control Techniques 503

H.-J. Guo, T. Kobayashi - Tohoku Gakuin University, Japan, I. Tadashi - Fukushima University, Japan

Parameter Estimation and Synchronization of Vaidyanathan Hyperjerk Hyper-Chaotic System via Integral Sliding Mode Control 509

N. Siddique - University of Gujrat, Pakistan, F. urRehman - Capital University of Science and Technology, Pakistan, M. Wasif - University of Gujrat, Pakistan, W. Abbasi – University of Lahore, Pakistan, Q. Khan - Capital University of Science and Technology, Pakistan

Smooth Super Twisting Sliding Mode Control Based Stabilization for Nonholonomic Mechanical Systems: A Firetruck Example 514

W. Abbasi - University of Lahore, Pakistan, I. Shah, F. urRehman, N. Siddique, U. Rafique - Capital University of Science and Technology, Pakistan

Fast trajectory tracking based on flatness control for a high voltage AC-DC-AC power system 519

W.M. Wan Mohammad, J.-L. Marqués, C. Hillermeier - Bundeswehr University Munich, Germany

Nonlinear optimal control for hydro-power generation units 525

G. Rigatos - Industrial Systems Institute, Greece, P. Siano - University of Salerno, Italy, C. Cecati - University of L' Aquila, Italy, M. Abbaszadeh - General Electric, USA

A Framework for Edge Computing on Smart Meters 531

I. Satoh - National Institute of Informatics, Japan

Solid State Rectifier as Terahertz Detector 537

S. Massaioli, R. Rao, F. Palma – Sapienza University of Rome, Italy

Tests results of innovative 3kVDC electric traction substation booster equipped 543

F. Caracciolo, E. Fedeli, D. Difino - Rete Ferroviaria Italiana, Italy

Electrical Machines and Drives

High-Speed Machines: Typologies, Standards, and Operation Under PWM Supply 547

R. Leuzzi, V.G. Monopoli, F. Cupertino - Politecnico di Bari, Italy, G. Brando, A. Dannier, I. Spina, A. Del Pizzo - University of Naples Federico II, Italy, A.O. Di Tommaso, V. Castiglia, G. Schettino, C. Nevoloso, R. Miceli - University of Palermo, Italy

Concept Analysis and Design of a 9-Phase Permanent Magnet Synchronous Machine 553

L. Tippe, J. Kammermann, I. Bolvashenkov, H.-G. Herzog - Technical University of Munich (TUM), Germany

Electromagnetic and NVH study for low power Synchronous Reluctance Machine 559

F.-A. Pop-Piglesan, R. Martis, C. Martis - Technical University of Cluj-Napoca, Romania, C. Faria, F. Chauvicourt - Siemens Industry Software NV, Belgium

Sensorless Closed-Loop Control of Solenoid Actuators Using IDIM Technique 565

N. König, E. Grasso, M. Nienhaus - Saarland University, Germany

Reliability Analysis of a Three-Phase Interior Permanent Magnet Synchronous Motor Under some Internal Faults 571

I. Bolvashenkov, J. Kammermann, T. Lahlou, H.-G. Herzog - Technical University of Munich (TUM), Germany, A. Viatkin - University of Bologna, Italy

Aeronautical hybrid propulsion for More Electric Aircraft: a case of study 577

F. Fugaro, M. Palmieri, G.L. Cascella, F. Cupertino - Politecnico di Bari, Italy

Principal Component Analysis for Computation of the Magnetization Characteristics of Synchronous Reluctance Machine 583

M. Nutu, H.F. Pop - Babes-Bolyai University, Romania, R. Martis, C. Martis - Technical University of Cluj-Napoca, Romania

Condition monitoring of gas-turbine electric power units using the H-infinity Kalman Filter 589

G. Rigatos, N. Zervos - Industrial Systems Institute, Greece, D. Serpanos, V. Siadimas - University of Patras, Greece, P. Siano - University of Salerno, Italy, M. Abbaszadeh - General Electric, USA

Power Converters and their Modulation and Control

Solar electric vehicles: state-of-the-art and perspectives 595

S. Conti, S. Di Mauro, A. Raciti, S.A. Rizzo, G. Susinni - University of Catania, Italy, S. Musumeci, A. Tenconi - Politecnico di Torino, Italy

Diode Assisted Quasi Z-source Inverter with Discontinuous Current: Analysis and Simulation 601

S. Laali - Niroo Research Institute, Iran, E. Babaei - University of Tabriz, Iran, C. Buccella, C. Cecati - University of L'Aquila, Italy

A Modulation Strategy for a Single-Phase Transformerless Multilevel Inverter with Dual Bidirectional Switch 607

G. Vazquez Guzman, J. Sosa Zuñiga, M. Juarez Balderas - ITESI, Mexico, P. Martinez Rodriguez - School of Sciences, UASLP, Mexico, G. Escobar Valderrama - Modelo University, Mexico

High frequency converter topologies suitable for more electric aircraft 613

A. Danner, G. Brando, I. Spina - University of Naples Federico II, Italy, A. Raciti, S.A. Rizzo, G. Susinni - University of Catania, Italy

State of the art and emerging solid-state power devices in the perspective of more electric aircraft 619

A. Raciti, S.A. Rizzo, N. Salerno, G. Susinni - University of Catania, Italy, C. Buccella, C. Cecati, M. Tinari - University of L'Aquila, Italy

A Cascade Multilevel Configuration for Commercial Transport Aircraft 625

C. Buccella, C. Cecati, M.G. Cimatori - University of L'Aquila, Italy, A. Damiano, S. Korjani, M. Porru, A. Serpi - University of Cagliari, Italy

Developed Quasi Z-Source Inverter Based on Diode-Cells: Analysis and Simulation 630

S. Laali - Niroo Research Institute, Iran, E. Babaei - University of Tabriz, Iran, C. Buccella, C. Cecati - University of L'Aquila, Italy

Artificial Intelligence Based Fuzzy-MPPT Technique of H-Bridge Inverter Grid Connected Photovoltaic System 636

S.Z.M. Noor, A.M. Omar - University of Technology MARA, Malaysia, M.A.M. Radzi - Universiti Putra Malaysia, Malaysia, F. Abdul Haris - University of Technology MARA, Malaysia

A Simple and Effective Active Damping Design for Three Phase LCL Filters 642

M. Bierhoff - University of Applied Sciences Stralsund, Germany, J. Espinoza, M. González Vallejos - Universidad de Concepcion, Chile, R. Soliman - University of Applied Sciences, Stralsund, Germany

Voltage Ripple Minimization in Modular Multilevel Converters using Modified Rotative PWM Scheme 648

D. Ronanki, S.S. Williamson - University of Ontario Institute of Technology, Canada

Smart Transformer and Low Frequency Transformer Comparison on Power Delivery Characteristics in the Power System 654

J. Chen - University College Dublin, Ireland, R. Zhu - Christian-Albrechts-Universität zu Kiel, Germany, T. O' Donnell - University College Dublin, Ireland, M. Liserre - Christian-Albrechts-Universität zu Kiel, Germany

Single-Phase Chebyshev Algorithm for Harmonics Mitigation in CHB Five-Level Inverters 660

C. Buccella, M.G. Cimatori, M. Tinari, C. Cecati - University of L'Aquila, Italy, S.A. Rizzo, G. Susinni, A. Raciti - University of Catania, Italy

Energy Storage Systems and their control

New State of Energy estimator for a lead-acid battery 665

L. Pellegrino - Ricerca sul Sistema Energetico - RSE, Italy, G. Alimonti - INFN & Università degli Studi di Milano, Italy, M. Redaelli - Università degli Studi di Milano, Italy

Grid Models for Use with Cascaded H-Bridge Multilevel Inverter Based Battery Energy Storage System 671

T. Lahlou, M.A. Aslam, J. Kammermann, I. Bolvashenkov, H.-G. Herzog - Technical University of Munich (TUM), Germany

Use of electrochemical storage to enhance energy and cost efficiency of a railway node 677

M. Ceraolo, G. Lutzemberger, M. Perrotta - University of Pisa, Italy

Batteries for Aerospace: a Brief Review 683

A. Damiano, M. Porru, A. Salimbeni, A. Serpi - University of Cagliari, Italy, V. Castiglia, A.O. Di Tommaso, R. Miceli, G. Schettino - University of Palermo, Italy

Towards an AMTEC-like device based on non-alkali metal for efficient, safe and reliable direct conversion of thermal to electric power 689

G. Tumminelli - University of Palermo, Italy, R. Candia, A. Collura - Istituto Nazionale di Astrofisica, Italy, S. Ferruggia Bonura - University of Palermo, Italy, U. Lo Cicero - Istituto Nazionale di Astrofisica, Italy, M. Barbera, L. Sciortino - University of Palermo, Italy, F. Santoro - Archimede, Italy

A Kalman Filter-based disturbance observer for state-of-charge estimation in EV batteries 695

G. Rigatos - Industrial Systems Institute, Greece, K. Busawon - Northumbria University, United Kingdom, P. Siano - University of Salerno, Italy, M. Abbaszadeh - General Electric, USA

A novel synchronizer for a 17.9ps Nutt Time-to-Digital Converter implemented on FPGA 701

R. Machado, L.A. Rocha, J. Cabral - University of Minho, Portugal

Sensors and signals for ICT

Impact of the Deployment Costs on the Cloud and Bandwidth Resource Problems in Multi-Providers NFV Environment 707

V. Eramo – Sapienza University of Rome, Italy, F.G. Lavacca – Fondazione Ugo Bordoni, Italy

ECG Signal Denoising using Wavelet for the VLP effective detection on FPGA 713

A. Giorgio, C. Guaragnella - Politecnico di Bari, Italy

Optical chemosensors for transformers'oil degradation monitoring: case studies 718

L. De Maria - Ricerca sul Sistema Energetico - RSE, Italy, N. Cennamo, L. Zeni - University of Campania Luigi Vanvitelli, Italy, F. Scatiggio – Terna Rete Italia, Italy, M. Pesavento - University of Pavia, Italy

Evaluation of IoT and videosurveillance applications in a 5G Smart City: the Italian 5G experimentation in Prato 724

F. Nizzi, T. Pecorella, M. Bertini, R. Fantacci - University of Florence, Italy, M. Bastianini, C. Cerboni, A. Buzzigoli - Estra, Italy, M. Gattoni, A. Fratini - OpenFiber, Italy

FOG-oriented Joint Computing and Networking: the GAUChO Project Vision 730

F. Nizzi, T. Pecorella, A. Bonadio, F. Chiti, R. Fantacci - University of Florence, Italy, D. Tarchi, W. Cerroni - University of Bologna, Italy

NLOS mmWave Propagation Measurements through Vegetation in Urban Area: a Case Study 736

M. Celidonio, E. Fionda - Fondazione Ugo Bordoni, Italy, M. Vaser - University of Rome "Tor Vergata", Italy, E. Restuccia – Ministero dello Sviluppo Economico, Italy

Reduced Power Multi-Cell Multicast Transmission 742

D. Marabissi, G. Bartoli, R. Fantacci, M. Gherardelli - University of Florence, Italy

Student Contest

A personal healthcare system for contact-less estimation of cardiovascular parameters 748

V. Pasquadibisceglie, G. Zaza, G. Castellano - University of Bari Aldo Moro, Italy

A Sliding Mode Observer for Sensorless Operation of Low Power PMS Machines 754

S. Fabbri, E. Grasso, N. König, M. Nienhaus - Saarland University, Germany

A reliable architecture based on Precision Time Protocol for WAMPAC synchronization 760

A. Pepiciello, A. Vaccaro - University of Sannio, Italy

Day-ahead operation planning for microgrids embedding Battery Energy Storage Systems. A case study on the PrInCE Lab microgrid 765

P. Gibilisco, G. Ieva, F. Marcone, G. Porro, E. De Tuglie - Polytechnic University of Bari, Italy

Optimal Network Planning for Smart Metering Networks 771

K. Patrzek – Technical University of Munich & Diehl Metering, Germany, M. Kuba - University of Applied Sciences Kempten & Diehl Metering, Germany

A joint Multi Criteria - Cost Benefit Analysis for project selection on smart grids 777

M. Troncia, N. Chowdhury, F. Pilo - University of Cagliari, Italy, I.M. Gianinoni - Ricerca sul Sistema Energetico - RSE, Italy
