

PROCEEDINGS OF SPIE

Automatic Target Recognition XXVIII

Firooz A. Sadjadi
Abhijit Mahalanobis
Editors

16–17 April 2018
Orlando, Florida, United States

Sponsored and Published by
SPIE

Volume 10648

Proceedings of SPIE 0277-786X, V. 10648

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Automatic Target Recognition XXVIII*, edited by Firooz A. Sadjadi, Abhijit Mahalanobis, Proceedings of SPIE Vol. 10648 (SPIE, Bellingham, WA, 2018) Seven-digit Article CID Number.

ISSN: 0277-786X
ISSN: 1996-756X (electronic)

ISBN: 9781510618077

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

ADVANCES IN MACHINE LEARNING IN ATR I

10648 03	Systematic evaluation of deep learning based detection frameworks for aerial imagery [10648-4]
10648 04	Comparison of SVM and CNN classification methods for infrared target recognition [10648-5]
10648 05	The semantic web and computer vision: old AI meets new AI [10648-25]

ADVANCED ALGORITHMS IN ATR I

10648 07	Fast and robust image processing algorithms based on approximations to order statistics [10648-6]
10648 08	Optical flow assisted IRCCM algorithm for sea skimming anti-ship missile systems [10648-7]
10648 0A	Object recognition using low light level 3D point clouds [10648-9]

ADVANCED ALGORITHM IN ATR II

10648 0C	Series approximation to probability densities [10648-11]
10648 0D	Recognizing objects in 3D data with distinctive self-similarity features [10648-12]
10648 0E	Integrated color, shape and texture features for object classification on oil/gas pipeline right-of-ways [10648-13]

ADVANCED ALGORITHMS IN ATR III

10648 0F	Mask size independent and orientation invariant object finding [10648-14]
----------	---

- 10648 OG An approach to image clustering and retrieval [10648-15]
- 10648 OH Effective direction of arrival estimation of gunshot signals from an in-flight unmanned aerial vehicle [10648-16]

ADVANCES IN MACHINE LEARNING IN ATR II

- 10648 OI Automatic target recognition using deep convolutional neural networks [10648-17]
- 10648 OK Collaborative sparse priors for multi-view ATR [10648-19]

ADVANCES IN MACHINE LEARNING IN ATR III

- 10648 OL On adaptive compressive sensing and radar target recognition [10648-20]
- 10648 OM Random forest estimator for enhanced target detection [10648-21]
