

# PROCEEDINGS OF SPIE

*9th International Symposium on Advanced  
Optical Manufacturing and Testing  
Technologies*

---

## **Advanced Optical Manufacturing Technologies**

**Xiong Li**  
**William T. Plummer**  
**Bin Fan**  
**Mingbo Pu**  
**Yongjian Wan**  
**Xiangang Luo**  
*Editors*

**26–29 June 2018**  
**Chengdu, China**

*Organized by*  
Institute of Optics and Electronics, Chinese Academy of Sciences (China)

*Sponsored by*  
COS—The Chinese Optical Society (China)  
IOE—Institute of Optics and Electronics, Chinese Academy of Sciences (China)

*Published by*  
SPIE

**Volume 10838**

Proceedings of SPIE 0277-786X, V. 10838

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *9th International Symposium on Advanced Optical Manufacturing and Testing Technologies: Advanced Optical Manufacturing Technologies*, edited by Xiong Li, William T. Plummer, Bin Fan, Mingbo Pu, Yongjian Wan, Xiangang Luo, Proceedings of SPIE Vol. 10838 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

ISSN: 0277-786X  
ISSN: 1996-756X (electronic)

ISBN: 9781510623187  
ISBN: 9781510623194 (electronic)

---

**Paper Numbering:** *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

## ADVANCED OPTICAL MANUFACTURING TECHNOLOGIES

---

10838 02	<b>Some milestones in the design, development, and manufacture of freeform optics (Plenary Paper)</b> [10838-500]
10838 03	<b>Heavy-calibre off-axis aspheric surface polishing by industrial robot</b> [10838-2]
10838 04	<b>Fabrication of an off-axis head-mounted display system with x-y polynomial surface</b> [10838-6]
10838 05	<b>A sub-aperture stitching algorithm for cylindrical surfaces</b> [10838-17]
10838 06	<b>Analysis on parameters of polishing using fixed abrasive diamond pellets elastic tool</b> [10838-20]
10838 07	<b>Study on the heat deformation rule of optical element in the continuous polishing processing</b> [10838-22]
10838 08	<b>Characteristic of bound-abrasive polishing for fused silica glass in anhydrous environment</b> [10838-24]
10838 09	<b>High-frequency precision motion control of fast axis servo device</b> [10838-30]
10838 0A	<b>A combination process of magnetorheological finishing and computer controlled optical surfacing on single-crystal silicon surface</b> [10838-33]
10838 0B	<b>A predictive model of critical depth of cut for ultrasonic elliptical vibration cutting of brittle materials</b> [10838-37]
10838 0C	<b>Generating mechanism and eliminating method of striated haze in advanced mitigation process</b> [10838-39]
10838 0D	<b>Formation and suppression of KDP surface defects generated in flycutting process</b> [10838-40]
10838 0E	<b>Prism error analysis and optical adjustment</b> [10838-47]
10838 0F	<b>Application of pressure regulation in CCOS polishing technology</b> [10838-48]

- 10838 OG **Optical design of all-day star sensor** [10838-51]
- 10838 OH **The independent azimuth zero calibration method based on single gyro for electro-optical tracking system** [10838-60]
- 10838 OI **Multiple closed-loop control based on improved Smith predictor** [10838-62]
- 10838 OJ **Investigation on the compression behavior of polishing lap in continuous polishing** [10838-63]
- 10838 OK **Wear rule of grinding wheel and its influence on surface form during grinding process of aspheric optical elements** [10838-65]
- 10838 OL **Research on ion beam figuring system with five-axis hybrid mechanism for complex optical surface** [10838-71]
- 10838 OM **Investigation on the control technique of surface roughness for silicate glass** [10838-73]
- 10838 ON **A correction method on system error in null mirror during interferometric testing** [10838-79]
- 10838 OO **The temperature disturbance and optical system performance analysis** [10838-80]
- 10838 OP **Strength analysis of silicon flexible bar applied in high-precision inertial accelerometer** [10838-83]
- 10838 OQ **Design of polarization imaging optical system with divided aperture** [10838-84]
- 10838 OR **Modified phase diversity technique to eliminate Poisson noise for reconstructing high-resolution images** [10838-85]
- 10838 OS **Study on high-speed grinding of glass-ceramics** [10838-86]
- 10838 OT **Combined technique of chemical mechanical polishing and acid etching for improving the laser-induced damage threshold of calcium fluoride** [10838-88]
- 10838 OU **The study of measurement method of sweep interference absolute distance based on phase shifted frequency sampling method** [10838-89]
- 10838 OV **An image telecentric optical system of low-distortion and wide-field** [10838-90]
- 10838 OW **Inert gas packaging of InGaAs detector with multistage thermoelectric cooler** [10838-92]
- 10838 OX **Interactive design of scattering dots array on light guide plate for LCD backlight** [10838-93]
- 10838 OY **Investigation of obliquely incident processing during inductively coupled plasma** [10838-95]
- 10838 OZ **Optimization of motion mode for improving the stability of removal function** [10838-96]

- 10838 10 **The effect of ion beam etching process on laser damage resistance of fused silica** [10838-97]
- 10838 11 **Research on the wave front gradient control technology of aspherical lens based on CCOS**  
[10838-98]
- 10838 12 **Influence and optimization of CCOS processing path to surface errors** [10838-100]
- 10838 13 **Effects of magnetorheological processing parameters on the force of optical elements**  
[10838-101]
- 10838 14 **Correction for thickness uniformity of film deposited by ion beam sputtering on large optical  
components** [10838-102]
- 10838 15 **A method for optimizing and designing high isolation level Cassegrainian optical antenna**  
[10838-103]
- 10838 16 **Analysis and discussion on processing and adjusting technology of infrared optical system**  
[10838-109]
- 10838 17 **LD beam collimation based on aspheric cylindrical lens** [10838-112]
- 10838 18 **Characteristics of surface temperature distribution in the atmospheric pressure plasma jet  
processing** [10838-115]
- 10838 19 **Cutting force modelling of ultra-precision flycutting of groove** [10838-116]
- 10838 1A **A novel method for measuring and correcting the surface shape error of the pitch lap in the  
full-aperture continuous polishing** [10838-121]
- 10838 1B **Diagnosis of optical film laser damage based on characteristics of plasma** [10838-125]
- 10838 1C **The opto-mechanical design and analysis of aluminum-based space camera** [10838-126]
- 10838 1D **Interferometric test of optical free-form window** [10838-127]
- 10838 1E **Design of improved Köhler illumination for full-field optical coherence tomography system**  
[10838-128]
- 10838 1F **Design of digital light processing mini-projection lens** [10838-130]
- 10838 1G **Experimental study on grinding glass-ceramic reflector with diamond pellets** [10838-131]
- 10838 1H **Monolithic multi-surface concentric folded visible imaging system** [10838-133]
- 10838 1I **Continuous phase plate design based on magnetorheological finishing (MRF) technology**  
[10838-136]
- 10838 1J **Study on the particles classification control of CeO<sub>2</sub> polishing powder** [10838-138]

- 10838 1K **Research on image detection and recovering of diamond grinding wheel topography in precision machining** [10838-139]
- 10838 1L **Annealing effects on the structural and optical properties of HfO<sub>2</sub> thin films deposited by thermal evaporation technique** [10838-140]
- 10838 1M **Study on the residual stress during fused silica: traverse oscillating cutting process** [10838-144]
- 10838 1N **Effect of etching parameters on the surface quality and laser damage thresholds of fused silica with megasonic-assisted HF acid etching** [10838-145]
- 10838 1O **Research on the control technology of machining marks in double-side polishing of large aperture optical element** [10838-147]
- 10838 1P **Effects of process parameters on the machining quality in rotary ultrasonic face milling of BK7 glass** [10838-149]
- 10838 1Q **Analysis and suppression of stray light in phenological network multi-spectral camera** [10838-151]
- 10838 1R **Optical design of CMERR optical system with wide field of view and near the diffraction-limit** [10838-152]
- 10838 1S **Research on processing technology of steep aspheric surface based on self-adaption polishing tool** [10838-153]
- 10838 1T **Laser micromachining of micro-structures on CVD diamond** [10838-155]
- 10838 1U **Selection of coating for low Tg glass precision glass molding** [10838-156]
- 10838 1V **Accurate control system of force array for gravity-unload based on voice coil motor** [10838-159]
- 10838 1W **Dynamic error detection and error source analysis for ultra-precision flycutting machine tools** [10838-160]
