Volume 534

International Automobile Scientific Forum (IASF-2018), Intelligent Transport System Technologies and Components

18–19 October 2018, Moscow, Russian Federation

Accepted papers received: 16 April 2019

Published online: 12 June 2019

Preface

[International Automobile Scientific Forum \(IASF-2018\), Intelligent Transport System, Technologies and Components](#)

[Peer review statement](#)

Papers

[Possible scenarios of autonomous vehicles' testing in Russia](#)

A M Ivanov, S S Shadrin, S R Kristalnyi and N V Popov.....1

[Perspectives of the unmanned cargo transport with electric traction development under the conditions of the Russian Federation](#)

A M Saikin.....8

[Cross-modal information flows in highly automated vehicles](#)

V V Savchenko and S N Poddubko.....17

[Estimating operation modes for the individual wheel electric drive of the all-wheel drive vehicle with the use of the driving simulator](#)

G O Kotiev, A V Miroshnichenko, A A Stadukhin and B B Kositsyn.....23

[Creation concept and architecture principle for vehicle motion control competitive systems under road and climatic conditions of the Russian Federation](#)

A M Saikin, S E Buznikov, A A Barashkov, D S Elkin, V O Strukov, N S Shabanov and E V Lucenko.....35

[Autonomous tracked vehicles effectiveness estimation](#)

V N Naumov, K Y Mashkov and K E Byakov.....40

[Mivar models of reconstruction and expertise of emergency events of road accidents](#)

D A Chuvikov, O O Varlamov, D V Aladin, V M Chernenkiy and A V Baldin.....49

[Improving traction and active safety of the wheeled vehicle by the distribution of the driving torque between its axles](#)

O I Chudakov, V A Gorelov and E B Sarach.....62

[Performance analysis of the vehicle electronic stability control in emergency maneuvers at low-adhesion surfaces](#)

I Kulikov and J Bickel.....70

[Implementation of the interaction of the steering wheel loader control system of the remote-controlled wheeled vehicle operator interface with a real-time simulation model](#)

N V Buzunov, G O Kotiev and V A Gorelov.....89

[Efficiency of photoelectric converters intellectual system application on ground electric transport](#)

A F Kolbasov, K E Karpuchin, A S Terenchenko and O I Girutskiy.....102

[Development of the upper-layer electronic control unit based on a production-type unit for a commercial vehicle](#)

D A Astapenko, D O Butarovich and A A Smirnov.....115

[Simulation-based identification of the parameters of a minibus hybrid powertrain](#)

V A Gorelov, D O Butarovich, A A Staduhin and G I Skotnikov.....128

[Basic principles of vehicle suspension control](#)

D Yurlin, S Bakhmutov and O Girutskiy.....139

[Logical artificial intelligence Mivar technologies for autonomous road vehicles](#)

O O Varlamov, D A Chuvikov, D V Aladin, L E Adamova and V G Osipov.....149

[Systems of the self-driving vehicle](#)

D S Vdovin and I O Khrenov.....153

[Experimental system of safe distances and vehicle speed dynamic stabilization](#)

S E Buznikov, D S Elkin, A M Saikin and V O Strukov.....161

[Thermostating system with intelligent management for electric vehicles](#)

V S Struchkov, R H Kurmaev, D M Iakunov and I A Lubimov.....165

[Driver assistance systems: analysis, tests and the safety case. ISO 26262 and ISO PAS 21448](#)

O M Kirovskii and V A Gorelov.....176

[Test bench development for signal registration in millimeter wave automotive radars](#)

D V Valuyskiy, A A Panarina, S V Vityazev and V V Vityazev.....187

[Wheel vehicle dynamics real-time simulation for on-board stand-alone moving control system realization](#)

N V Buzunov, G O Kotiev and B V Padalkin.....191

[Dynamic model of the robotic vehicle motion on a deformable irregular terrain](#)

N S Volskaya and I V Chichekin.....201

[Simulation of the tire enveloping properties in case of the unmanned car wheel interaction with a rigid uneven surface](#)

Y Y Levenkov, N S Vol'skaya and O A Rusanov.....212

[Automation of wheeled vehicles load bearing frames finite-element models loading procedure by using inertia relief method and vehicle multi-body dynamics model](#)

D S Vdovin, I V Chichekin, Y Y Levenkov and M L Shabolin.....222

[Logic-based artificial intelligence in systems for monitoring the enforcing traffic regulations](#)

D V Aladin, O O Varlamov, D A Chuvikov, V M Chernenkiy, E A Smelkova and A V Baldin.....239

[The experimental system of automatic wheel drift and vehicle rollover prevention](#)

S E Buznikov, D S Elkin, N S Shabanov and V O Strukov.....248

[Vehicle interior air quality standards development](#)

A M Saikin, A V Kozlov and E A Iakunova.....254

[Creation concept of objective control systems for traffic safety of vehicles](#)

A M Saikin and S E Buznikov.....258

[Charging balance management technology for low-voltage battery in the car control unit with combined power system](#)

V V Debelov, D V Endachev, D M Yakunov and O I Deev.....264

Development of the unmanned vehicle traffic control system with electric drive

A V Tumasov, D Yu Tyugin, D M Porubov, V I Filatov and A V Pinchin.....280

Study of the optimal reinforcing structure of the compressor wheel from composition material of the transport turbocharged engine

V M Fomin, D V Apelinskiy and A N Netrusov.....288

Management strategy of new energy-saving technology in the field of ground transport based on the principle of thermo-chemical regeneration of waste heat energy

V M Fomin, V F Kamenev and D V Apelinskiy.....295

Planning of driverless vehicle motion trajectory taking into account its dimensional characteristics and under conditions of dynamically changing environment

A Zabolotny.....300

Creation of electric vehicle ABS operation algorithm with possibility of hybrid braking based on slip-slope approach at wheels slip determining

S Bakhmutov, A Umnitsyn and V Ivanov.....309
