2019 AEIT International Annual Conference (AEIT 2019)

Florence, Italy
18 – 20 September 2019

Additional Copies of This Publication Are Available From:

2019 AEIT International Annual Conference (AEIT)

Firenze (Italy), September 18–20, 2019

TABLE OF CONTENTS

The DC power planning for network flexibility in the multi–area power system"""""""""(+
Luigi Michi, Giacomo Donnini, Benedetto Aluisio, Michela Migliori, Chiara Vergine – Terna, Italy; Maria Dicorato – Politecnico di Bari, Italy; Giuseppe Forte, Italy

A new real–time approach for the load forecasting in the operation of sub– transmission systems"""""""""") &
Carmelo Mosca, Enrico Marin, Tao Huang, Ettore Bompard – Politecnico di Torino, Italy; Paolo Cuccia, Laura Campisano, Stefano Neri – Terna Rete Italia, Italy

On Eigenvalues of the Three–Phase Nodal Admittance Matrix""""""""") ,
Giovanni Mercurio Casolino, Arturo Losi – University of Cassino and Lazio Meridionale, Italy

IEC 61850–based smart automation system logic to improve reliability indices in distribution networks""""""""""* '
Alessandro Bosisio, Alberto Berizzi – Politecnico di Milano, Italy; Andrea Morotti, Andrea Pegoiani, Bartolomeo Greco, Gaetano Iannarelli – Unareti, Italy

Power Systems: Protection and Stability

Line Ultra High Speed Protection. Principles and field experience""""""""""* ,
Andrea Di Tomasso, Giuliana Invernizzi, Giorgio Vielmini – Schweitzer Engineering Laboratories, Italy

A Robust Travelling–Wave Simultaneous Faults Location Considering Parameters Variations""""""""""+(
Hossam A. Abd el–Ghany, Ahmed M. Azmy, Ahmed Magdy Abeid – Tanta University, Egypt

A Comprehensive Differential Protection Scheme for Delta Hexagonal Phase Angle Regulating Transformers"""""""""", $
Ismail A. Soliman, Hossam A. Abd el–Ghany, Ahmed M. Azmy – Tanta University, Egypt

High Resistance Faults in EHV/HV grids: EF protections and detection logics"""""""""", *
Fabio Bassi, Leandro Caciolli, Giorgio Maria Giannuzzi – Terna Rete Italia, Italy; Alberto Giorgi, Niccolò Nesi – University of Florence, Italy; Luciano Vignolini – Terna Rete Italia, Italy

Voltage Dips in Power Quality – a Brief Review""""""""""- &
Mircea Buzdugan – Technical University of Cluj–Napoca, Romania

Improving dynamic stability in presence of static generation: issues and potential countermeasures""""""""""- ,
Luigi Michi, Enrico Maria Carlini, Giorgio Giannuzzi, Roberto Zaottini, Cosimo Pisani – Terna Rete Italia, Italy

Improving dynamic stability with HVDC systems: Italy–Montenegro interconnector case""""""""""%$(
Luigi Michi, Enrico Maria Carlini, Giorgio Giannuzzi, Roberto Zaottini, Cosimo Pisani, Roberto Puddu – Terna Rete Italia, Italy

Management, Operation and Control in Power Systems

Real time operators training: Terna experience in implementing the Commission Regulation (EU) 2017/1485""""""""""%$-
Claudio Coluzzi, Stefano Orlandi, Silvia Moroni, Matteo Contu, Flavio Allella, Gaetano Pecoraro, Antonio Pascucci, Enrico Maria Carlini – Terna Rete Italia, Italy

Energy storage in support of power grids: from field experience to new projects, steering along regulatory and market evolution

E−mobility & Shipboard Applications

Emergency supply to safety systems of long railway tunnels'''''''''''''''%+&
Regina Lamedica, Fabio Massimo Gatta, Samuel Mikhael, Alessandro Ruvio – Sapienza University of Rome, Italy; Guido Guidi Buffarini, Massimo Castellani – Italfer, Italy

Train braking impact on energy recovery: the case of the 3 kV d.c. railway line Roma−Napoli via Formia'''''''''''''''%+,
Claudio Spalvieri, Irene Rossetta – Rete Ferroviaria Italiana, Italy; Regina Lamedica, Alessandro Ruvio, Andrea Papalini – Sapienza University of Rome, Italy

Electro−mechanical modelling and simulation of railroad systems'''''''''''''''% (
Jiajing Li, Giovanni Lutzemberger, Davide Poli – University of Pisa, Italy

Modeling and Simulation of Railway Network in Compliance with Technical Specifications for Interoperability'''''''''''''''% $
Morris Brenna, Federica Foiadelli, Carola Leone – Politecnico di Milano, Italy; Federico Mauro Casiraghi – Ferrovienord, Italy

Running Capability Assessment for Rolling Stock According to EU Regulations'''''''''''''''% *
Dario Genovese, Carmine Zappacosta, Giampaolo Mancini, Giuseppe Pancari, Alessio Papeschi, Laura Foconi – Italcertifer, Italy

Overview of measurement chain and instrumentation setup for running dynamics on−track tests – normal method – according to EN−14363 standard'''''''''''''''&$&
Carmine Zappacosta, Luca Bocciolini, Fabio Piccioli, Mattia Macherelli – Italcertifer, Italy; Daniele Massini – University of Florence, Italy; Niccolò Vanni – Italcertifer, Italy

High Frequency Modeling of Foil Type Transformers for Shipboard Power Electronic Power Distribution Systems'''''''''''''''&$,
Nicola Barbini, Alfredo Contin, Andrea Colavitto, Giorgio Sulligoi, Andrea Vicenzutti – University of Trieste, Italy

Coherent Radar System compliant with Safety Integrity Level 4 for railway applications under High Risk of Landslides'''''''''''''''&%(
Eugenio Fedeli, Vincenzo Calà, Mirco Gonnelli, Mirko Ermini, Antonio Rossetti – Rete Ferroviaria Italiana, Italy

Innovative smart components, modules and appliances for a truly connected, efficient and secure smart grid

Regaining Insight and Control on SMGW−based Secure Communication in Smart Grids'''''''''''''''&%
Jens Hiller, Karsten Komanns, Markus Dahlmanns, Klaus Wehrle – RWTH Aachen University, Germany

Reduction of Output Capacitance for DAB DC−DC Converters in DC Microgrids by Shaping Resistive Output Impedance'''''''''''''''&&(
Guangyuan Liu, Paolo Mattavelli, Simone Pistollato, Andrea Petucco – University of Padova, Italy

Operation schedule of DC microgrid for EVs with reserve under various conditions'''''''''''''''&' $
Maria Dicorato, Michele Antonio Trovato – Politecnico di Bari, Italy; Giuseppe Forte, Italy

Triple–Phase Shift Modulation for Dual Active Bridge based on Simplified Switching Loss Model"""""""""&' *
Simone Pistollato, Tommaso Caldognetto, Paolo Mattavelli, Paolo Magnone – University of Padova, Italy

Simulation Results from a Kinetic–Electrochemical Energy Storage Model for Network Frequency Regulation"""""""""&(&
Sebastian Dambone Sessa, Mauro Andriollo, Andrea Tortella – University of Padova, Italy

Resilience of Electrical Networks

A new approach for sending dispatching orders using protocol IEC 60870–5–104"""""""""&(,
Enrico Maria Carlini, Edmondo Coppoli, Marco Fazion, Stefano Neri, Laura Campisano, Patrizio Ferretti, Luciano Zaretti, Giandomenico Lattuada, Piero Manocchio – Terna Rete Italia, Italy

Assessment and possible solution to increase resilience: heat waves in Terni distribution grid"""""""""&) &
Tommaso Bragatto, Fabrizio Cortesi – Sapienza University of Rome, Italy; Massimo Cresta – ASM Terni, Italy; Fabio Massimo Gatta, Alberto Geri, Marco Maccioni – Sapienza University of Rome, Italy; Marco Paulucci – ASM Terni, Italy

The contribution of the revitalization of submarine cables 110 kV to resilience of the southern part of the Croatian power system"""""""""&) ,
Igor Mladinic – HOPS, Croatia; Miroslav Mesic – Energy Consultant, Croatia; Srecko Aljinovic – HOPS, Croatia

Faults Evaluation of MV Underground Cable Joints"""""""""&* (
Luigi Calcara – Sapienza University of Rome, Italy; Luigi D'Orazio, Maurizio Della Corte, Guglielmo Di Filippo, Alessio Pastore, Davide Ricci – e–distribuzione, Italy; Massimo Pompili – Sapienza University of Rome, Italy

A Experimental Validation of Frequency Model for Studying a Real Black Start Restoration"""""""""&+$
Roberto Benato – University of Padova, Italy; Gianluca Bruno – Terna, Italy; Gianni Pedrazzoli – University of Padova, Italy; Giorgio Maria Giannuzzi, Luca Ortolano, Roberto Zaottini, Michele Poli – Terna, Italy; Francesco Sanniti – University of Padova, Italy

A Decision Support System for Mitigating the Seismic Risk of Electric Distribution Networks: learnings from the Central Italy earthquake sequence 2016–2017"""""""""&+*
Sonia Giovinazzi, Antonio Di Pietro, Maurizio Pollino, Luigi La Porta, Alberto Tofani, Vittorio Rosato – ENEA, Casaccia Research Centre, Italy

New Concepts on Microgrid–Prosumer Nodes Interaction"""""""""&, &
Francesco Muzi, Mario Gimenez De Lorenzo, Marco Consolidani – University of L'Aquila, Italy

Impact of snow storms on distribution grids: e–distribuzione and RSE experimental stations"""""""""&, *
Elvira Amicarelli, Mauro De Masi, Giovanni Valtorta – e–distribuzione, Italy; Pietro Marcacci, Matteo Lacavalla – Ricerca sul Sistema Energetico – RSE, Italy

Resilience of Electrical Networks and Climate Changes

An updated investigation about climate–change hazards that might impact electric infrastructures"""""""""&- %
Paola Faggian, Goffredo Decimi – Ricerca sul Sistema Energetico – RSE, Italy

Flexibility sources for enhancing the resilience of a power grid in presence of severe weather conditions"""""""""&- *

Fabrizio De Caro – University of Sannio, Italy; Enrico Maria Carlini – Terna, Italy; Domenico Villacci – EnSiEl, Italy

Terna's experience in avoiding snow and ice sleeves formation on High Voltage overhead line conductors""""""""" $&

Michele Poli, Giacomo Buora, Antonio Pascucci, Enrico Maria Carlini, Luigi Michi – Terna, Italy

Forest fire or other dangerous situations: safety procedure for overhead lines""""""""" $,

Enrico Maria Carlini, Luigi Michi – Terna, Italy; Luciano Minto, Federica Chiereghin – Terna Rete Italia, Italy; Cesarino Genovese, Roberto Foppa, Adriano Fedrizzi – Terna, Italy

Analytical modeling of overhead line vulnerability to wet snow events for resilience assessment""""""""" %(

Andrea Pitto, Diego Cirio, Emanuele Ciapessoni, Giovanni Pirovano – Ricerca sul Sistema Energetico – RSE, Italy

Dispatching measures for improving the resilience of the Italian sub–transmission grid against ice and snow events""""""""" &$

Enrico Maria Carlini, Luigi Michi – Terna, Italy; Davide Rampazzo, Alessio Marchesin, Cristiano Quaciari, Elena Geremia – Terna Rete Italia, Italy; Stefano Quaia – University of Trieste, Italy

Smart Systems and Emerging Technologies

Reducing Electromagnetic Interferences on Power Planes of High–Speed Circuits by means of a High–Impedance Electromagnetic Surface""""""""" &*

Giovanni Aiello, Salvatore Alfonzetti, Emanuele Dilettoso, Angelo Raciti, Santi Agatino Rizzo, Nunzio Salerno – University of Catania, Italy

A new IR Laser Sag Meter prototype for remote on line monitoring of high voltage overhead line: a special application""""""""" ' %

Elena Golinelli, Daniele Bartalesi, Gian Mario Ogliari – Ricerca sul Sistema Energetico – RSE, Italy; Umberto Perini – Consultant, Italy

Conductive Concrete for Smart Cities Applications""""""""" ' +

Bassam Swaked, Nasser Qaddoumi, Sherif Yehia, Shereen Farhana – American University of Sharjah, United Arab Emirates; Lim Nguyen – University of Nebraska–Lincoln, USA

Accurate Single–End and Double–End Fault Location by Traveling Waves: a review with some real applications""""""""" (&

Andrea Di Tomasso, Giuliana Invernizzi, Giorgio Vielmini – Schweitzer Engineering Laboratories, Italy

An interoperable tool–chain for energy monitoring applications""""""""" (,

Davide Brunelli – University of Trento, Italy; Tullio Salmon Cinotti, Hugo Woehr, Cristiano Aguzzi, Federico Montori – University of Bologna, Italy; Luca Benini – University of Bologna, Italy and ETH Zurich, Switzerland

Recent Advances in Coding Theory and its Applications

Obtaining structured generator matrices for QC–LDPC codes'"""""""") (
Massimo Battaglioni, Paolo Santini, Marco Baldi, Giovanni Cancellieri – Polytechnic University of Marche, Italy

Coding Bounds in the Finite–Block–Length Regime: an Application to Spread–Spectrum Systems Design'"""""""" * $
Tomaso Erseghe, Nicola Laurenti, Matteo Zecchin – University of Padova, Italy

Symbol Message Passing Decoding of Nonbinary Spatially–Coupled Low–Density Parity–Check Codes'"""""""" * *
Emna Ben Yacoub – Technical University of Munich, Germany; Francisco Lázaro – German Aerospace Center – DLR, Germany; Alexandre Graell i Amat – Chalmers University of Technology, Sweden; Gianluigi Liva – German Aerospace Center – DLR, Germany

Performance Study of a Class of irregular LDPC Codes through low Complexity Bounds on their Belief–Propagation Decoding Thresholds'"""""""" +&
Francesca Vatta, Alessandro Soranzo, Massimiliano Comisso, Giulia Buttazzoni, Fulvio Babich – University of Trieste, Italy

A Note on Channel Polarization and Mutual Information Transformation Charts of Polar Codes'"""""""" +,
Marco Chiani, Enrico Paolini – University of Bologna, Italy

A Simplified Application of Ordered Statistics Decoding to Single Parity Check Product Codes'"""""""" , (
Roberto Garello, Giacomo Verardo – Politecnico di Torino, Italy

Using Non–Binary LDPC and MDPC Codes in the McEliece Cryptosystem'"""""""" - $
Marco Baldi, Giovanni Cancellieri, Franco Chiaraluce – Polytechnic University of Marche, Italy; Edoardo Persichetti – Florida Atlantic University, USA; Paolo Santini – Polytechnic University of Marche, Italy

IoT Industrial Applications and cloud resource management

IIoT–based Motion Control Efficiency in Automated Warehouses'"""""""" - *
Francesco Benzi, Ezio Bassi – University of Pavia, Italy; Filippo Marabelli, Nelson Belloni, Marco Lombardi – Lenze Italia, Italy

Virtual Society of IoT Robosats and Emancipation of Electrical Utilization'"""""""""($&
Giuseppe Parise – Sapienza University of Rome, Italy; Luigi Parise – Bambino Gesù Pediatric Hospital IRCCS, Italy; Francesco Di Paolo – Professional Engineer, Italy

Access Radio Technology and Software Control System

Analog ICs for Automotive under EMI Attack'"""""""""($+
Anna Richelli, Luigi Colalongo, Zsolt Kovacs–Vajna – University of Brescia, Italy

Weighted Local Access Point based on Fine Matching k–Nearest Neighbor Algorithm for Indoor Positioning System'"""""""""(%
Mohd Amiruddin Abd Rahman, Muhammad Khalis Abdul Karim, Caceja Elyca Anak Bundak – Universiti Putra Malaysia, Malaysia

Assisting Italian DVB–T users against LTE Signal Impairments: The "HELP Interferenze" Project""""""""(%
Massimo Celidonio, Ermanno Fionda, Federica Mangiatordi, Sergio Pompei – Fondazione Ugo Bordoni, Italy

Coexistence of DVB Television and 5G Services in Adjacent Bands""""""""(&(
Claudia Carciofi, Andrea Garzia, Ferdinando Lucidi, Andrea Neri – Fondazione Ugo Bordoni, Italy

Data dissemination to vehicles using 5G and VLC for Smart Cities""""""""(' $
Francesca Nizzi, Tommaso Pecorella, Stefano Caputo, Lorenzo Mucchi, Romano Fantacci – University of Florence, Italy; Mattia Bastianini, Carlo Cerboni, Alessandra Buzzigoli – Estra, Italy; Andrea Fratini – OpenFiber, Italy; Tassadaq Nawaz, Jacopo Catani – National Research Council Institute of Optics, Italy; Marco Seminara – University of Florence, Italy

Power Converters and Motor Drives

Modeling, control and simulation of a light electric vehicle propulsion system based on EMR""""""""(')
Sorina Maria Ciornei, Mircea Ruba, Raul Octavian Nemes – Technical University of Cluj–Napoca, Romania; Calin Husar – Siemens, Romania; Claudia Martis – Technical University of Cluj–Napoca, Romania

Power Quality Improvement for Chopper–Cell Based Modular Multilevel Converters""""""""((%
Ahmed Majed Saif, Concettina Buccella, Maria Gabriella Cimoroni, Carlo Cecati – University of L'Aquila, Italy

Design and Analysis of Outer Rotor Permanent Magnet Assisted Synchronous Reluctance Machine with Concentrated Winding for Small Electric Propulsion""""""""((+
Razvan Alexandru Inte, Florin Nicolae Jurca, Claudia Martis – Technical University of Cluj–Napoca, Romania

Robust Load–Torque Estimation for DC Motor without Torque Sensor""""""""( ) '
Stefano Fabbri, Matthias Nienhaus, Emanuele Grasso – Saarland University, Germany

Sub–Synchronous Torsional Interactions and Start–Up Issues in Oil&Gas Plants: a Real Case Study""""""""( ) -
Lorenzo Bongini, Rosa Anna Mastromauro – University of Florence, Italy

Investigation on Cascode Devices for High Frequency Electrical Drives Applications""""""""(*)
Vincenzo Castiglia, Antonino Oscar Di Tommaso, Rosario Miceli, Filippo Pellitteri, Giorgio Vassallo – University of Palermo, Italy

Power Electronics & Active and Passive Components

Power Control and Energy Management of Grid–Scale Energy Storage Systems for Smart Users""""""""(+%
Francesco Grasso – University of Florence, Italy; Mostafa Abdollahi – Technical University of Catalonia, Spain; Giacomo Talluri, Libero Paolucci – University of Florence, Italy

IGBT based Three Channel Interleaved PFC Boost Converter for Inverter Front–End Application""""""""(++
Salvatore Musumeci, Radu Bojoi, Stefano Borlo, Eric Armando – Politecnico di Torino, Italy

The key role of the SJ MOSFET with fast diode in high–end SMPS converters for telecom applications'""""""'''''"'(, '
Domenico Nardo, Alfio Scuto, Giuseppe Sorrentino – STMicroelectronics, Italy; Angelo Raciti – University of Catania and IMM–CNR, Italy; Santi Agatino Rizzo – University of Catania, Italy

Effects of parasitic phenomena in half bridge with Super Junction MOSFETs suitable for UAV'""""""'''''"'(, -
Luigi Abbatelli – STMicroelectronics, Italy; Angelo Raciti – University of Catania and IMM–CNR, Italy; Rosario Scollo – STMicroelectronics, Italy; Giuseppe Mauromicale, Santi Agatino Rizzo – University of Catania, Italy; Alfio Scuto, Domenico Nardo – STMicroelectronics, Italy; Nunzio Salerno, Giovanni Susinni – University of Catania, Italy

A real–time MCU–based wireless system for PV applications'""""""'''''"'(-)
Antonino Laudani, Gabriele Maria Lozito, Martina Radicioni – Roma Tre University, Italy

Weight Estimation of the Wiring in a Distributed Propulsion System for Aircraft'""""""'''''"') $$
Adolfo Dannier, Andrea Del Pizzo, Luigi Pio Di Noia, Santolo Meo – University of Napoli Federico II, Italy

Student Contest

IoT Network for Industrial Machine Energy Monitoring'""""""'''''"') $*
Lorenzo Incipini, Tommaso Mancia, Mohamad El Mehtedi, Paola Pierleoni – Polytechnic University of Marche, Italy

Predictive Current Control for a Neutral Point Clamped Inverter Considering SiC–MOSFET as Switches and Using a Photovoltaic Power Source'""""""'''''"') %&
Luis Morinigo, Thalia Morel – Universidad del Cono Sur de las Americas, Paraguay; Jorge Rodas, Raúl Gregor – Universidad Nacional de Asunción, Paraguay

Energy Storage Placement in the Transmission Network: A Robust Optimization Approach'""""""'''''"') %
Nayeem Chowdhury, Giuditta Pisano, Fabrizio Pilo – University of Cagliari, Italy
