2020 35th IEEE/ACM International Conference on Automated Software Engineering (ASE) **ASE 2020**

Table of Contents

Message from the ASE 2020 Chairs .xxii.....	
Organizing Committee .xxvii.....	
Track Reviewers .xxx.....	
Sponsors .xl.....	

Keynotes

Safety and Robustness for Deep Learning with Provable Guarantees .1.....	
<i>Marta Kwiatkowska (University of Oxford)</i>	
Is Software Engineering Research Addressing Software Engineering Problems? (Keynote) .4.....	
<i>Gail C. Murphy (University of British Columbia)</i>	

Main Research

Accelerating All-SAT Computation with Short Blocking Clauses .6.....	
<i>Yueling Zhang (Singapore Management University, East China Normal University), Geguang Pu (East China Normal University, Shanghai Trusted Industrial Control Platform Co., Ltd), and Jun Sun (Singapore Management University)</i>	
A Predictive Analysis for Detecting Deadlock in MPI Programs .18.....	
<i>Yu Huang (Southwestern University of Finance and Economics), Benjamin Ogles (Brigham Young University), and Eric Mercer (Brigham Young University)</i>	
Learning to Handle Exceptions .29.....	
<i>Jian Zhang (Beihang University; Beijing Advanced Innovation Center for Big Data and Brain Computing), Xu Wang (Beihang University; Beijing Advanced Innovation Center for Big Data and Brain Computing), Hongyu Zhang (The University of Newcastle), Hailong Sun (Beihang University; Beijing Advanced Innovation Center for Big Data and Brain Computing), Yanjun Pu (Beihang University), and Xudong Liu (Beihang University; Beijing Advanced Innovation Center for Big Data and Brain Computing)</i>	

BuildFast: History-Aware Build Outcome Prediction for Fast Feedback and Reduced Cost in Continuous Integration .42.....	
<i>Bihuan Chen (Fudan University), LinLin Chen (Fudan University), Chen Zhang (Fudan University), and Xin Peng (Fudan University)</i>	
Legion: Best-First Concolic Testing .54.....	
<i>Dongge Liu (The Univeristy of Melbourne), Gidon Ernst (LMU Munich), Toby Murray (The University of Melbourne), and Benjamin I.P. Rubinstein (The Univeristy of Melbourne)</i>	
Plug the Database & Play with Automatic Testing: Improving System Testing by Exploiting Persistent Data .66.....	
<i>Diego Clerissi (University of Milano Bicocca), Giovanni Denaro (University of Milano Bicocca), Marco Mobilio (University of Milano Bicocca), and Leonardo Mariani (University of Milano Bicocca)</i>	
Enhanced Compiler Bug Isolation via Memoized Search .78.....	
<i>Junjie Chen (College of Intelligence and Computing, Tianjin University), Haoyang Ma (College of Intelligence and Computing, Tianjin University), and Lingming Zhang (University of Illinois at Urbana-Champaign)</i>	
M ³ : Semantic API Migrations .90.....	
<i>Bruce Collie (University of Edinburgh), Philip Ginsbach (GitHub UK), Jackson Woodruff (University of Edinburgh), Ajitha Rajan (University of Edinburgh), and Michael O'Boyle (University of Edinburgh)</i>	
The Impact of Generic Data Structures: Decoding the Role of Lists in the Linux Kernel .103.....	
<i>Volanschi Nic (Inria Bordeaux - Sud-Ouest) and Lawall Julia (Inria Paris)</i>	
Pending Constraints in Symbolic Execution for Better Exploration and Seeding .115.....	
<i>Timotej Kapus (Imperial College London), Frank Busse (Imperial College London), and Cristian Cadar (Imperial College London)</i>	
Broadening Horizons of Multilingual Static Analysis: Semantic Summary Extraction from C Code for JNI Program Analysis .127.....	
<i>Sungho Lee (Chungnam National University), Hyogun Lee (KAIST), and Sukyoung Ryu (KAIST)</i>	
Assessing and Restoring Reproducibility of Jupyter Notebooks .138.....	
<i>Jiawei Wang (Monash University), Tzu-yang Kuo (Hong Kong University of Science and Technology), Li Li (Monash University), and Andreas Zeller (CISPA Helmholtz Center for Information Security)</i>	
Verified from Scratch: Program Analysis for Learners' Programs .150.....	
<i>Andreas Stahlbauer (University of Passau), Christoph Frädriich (University of Passau), and Gordon Fraser (University of Passau)</i>	
Interval Change-Point Detection for Runtime Probabilistic Model Checking .163.....	
<i>Xingyu Zhao (Heriot-Watt University), Radu Calinescu (University of York), Simos Gerasimou (University of York), Valentin Robu (Heriot-Watt University), and David Flynn (Heriot-Watt University)</i>	
UnchartIt: An Interactive Framework for Program Recovery from Charts .175.....	
<i>Daniel Ramos (INESC-ID / IST, Universidade de Lisboa), Jorge Pereira (INESC-ID / IST, Universidade de Lisboa), Ines Lynce (INESC-ID / IST, Universidade de Lisboa), Vasco Manquinho (INESC-ID / IST, Universidade de Lisboa), and Ruben Martins (Carnegie Mellon University)</i>	

Demystifying Diehard Android Apps .187.....	
<i>Hao Zhou (The Hong Kong Polytechnic University), Haoyu Wang (Beijing University of Posts and Telecommunications), Yajin Zhou (Zhejiang University, Hangzhou, China), Xiapu Luo (The Hong Kong Polytechnic University), Yutian Tang (ShanghaiTech University, Shanghai, China), Lei Xue (The Hong Kong Polytechnic University, Hong Kong, China), and Ting Wang (Pennsylvania State University)</i>	
UI Obfuscation and Its Effects on Automated UI Analysis for Android Apps .199.....	
<i>Hao Zhou (The Hong Kong Polytechnic University), Ting Chen (University of Electronic Science and Technology of China), Haoyu Wang (Beijing University of Posts and Telecommunications), Le Yu (The Hong Kong Polytechnic University), Xiapu Luo (The Hong Kong Polytechnic University), Ting Wang (Pennsylvania State University), and Wei Zhang (Nanjing University of Posts and Telecommunications)</i>	
Good Things Come in Threes: Improving Search-Based Crash Reproduction with Helper Objectives .211.....	
<i>Pouria Derakhshanfar (Delft University of Technology), Xavier Devroey (Delft University of Technology), Andy Zaidman (Delft University of Technology), Arie van Deursen (Delft University of Technology), and Annibale Panichella (Delft University of Technology)</i>	
Subdomain-Based Generality-Aware Debloating .224.....	
<i>Qi Xin (Georgia Institute of Technology), Myeongsoo Kim (Georgia Institute of Technology), Qirun Zhang (Georgia Institute of Technology), and Alessandro Orso (Georgia Institute of Technology)</i>	
Revisiting the Relationship between Fault Detection, Test Adequacy Criteria, and Test Set Size. .237.....	
<i>Yiqun T. Chen (University of Washington, Seattle, USA), Rahul Gopinath (CISPA Helmholtz-Zentrum, Saarbrücken, Germany), Anita Tadakamalla (George Mason University, USA), Michael D. Ernst (University of Washington, Seattle, USA), Reid Holmes (University of British Columbia, Canada), Gordon Fraser (University of Passau, Germany), Paul Ammann (George Mason University, USA), and René Just (University of Washington, Seattle, USA)</i>	
Synthesis of Infinite-State Systems with Random Behavior .250.....	
<i>Andreas Katis (University of Minnesota), Grigory Fedyukovich (Florida State University), Jeffrey Chen (University of Minnesota), David Greve (Collins Aerospace), Sanjai Rayadurgam (University of Minnesota), and Michael W. Whalen (University of Minnesota)</i>	
Demystifying Loops in Smart Contracts .262.....	
<i>Benjamin Mariano (University of Texas at Austin), Yanju Chen (University of California, Santa Barbara), Yu Feng (University of California, Santa Barbara), Shuvendu K. Lahiri (Microsoft Research), and Isil Dillig (University of Texas at Austin)</i>	
Patching as Translation: the Data and the Metaphor .275.....	
<i>Yangruibo Ding (Columbia University in the City of New York), Baishakhi Ray (Columbia University in the City of New York), Premkumar Devanbu (University of California, Davis), and Vincent J. Hellendoorn (University of California, Davis)</i>	

DeepTC-Enhancer: Improving the Readability of Automatically Generated Tests .287.....	Devjeet Roy (Washington State University), Ziyi Zhang (Washington State University), Maggie Ma (Amazon), Venera Arnaoudova (Washington State University), Annibale Panichella (Delft University of Technology), Sebastiano Panichella (Zurich University of Applied Science), Danielle Gonzalez (Rochester Institute of Technology), and Mehdi Mirakhorli (Rochester Institute of Technology)
Hybrid Deep Neural Networks to Infer State Models of Black-Box Systems .299.....	Mohammad Jafar Mashhadi (University of Calgary) and Hadi Hemmati (University of Calgary)
Representing and Reasoning about Dynamic Code .312.....	Jesse Bartels (The University of Arizona), Jon Stephens (University of Texas), and Saumya Debray (The University of Arizona)
ER Catcher: A Static Analysis Framework for Accurate and Scalable Event-Race Detection in Android .324.....	Navid Salehnamadi (University of California, Irvine), Abdulaziz Alshayban (University of California, Irvine), Iftekhhar Ahmed (University of California, Irvine), and Sam Malek (University of California, Irvine)
A Deep Multitask Learning Approach for Requirements Discovery and Annotation from Open Forum .336.....	Mingyang Li (Laboratory for Internet Software Technologies, University of Chinese Academy of Sciences), Lin Shi (Laboratory for Internet Software Technologies, University of Chinese Academy of Sciences), Ye Yang (Stevens Institute of Technology), and Qing Wang (Laboratory for Internet Software Technologies, State Key Laboratory of Computer Sciences, University of Chinese Academy of Sciences)
Retrieve and Refine: Exemplar-Based Neural Comment Generation .349.....	Bolin Wei (Peking University), Yongmin Li (Peking University), Ge Li (Peking University), Xin Xia (Monash University), and Zhi Jin (Peking University)
Where Shall We Log? Studying and Suggesting Logging Locations in Code Blocks .361.....	Zhenhao Li (Concordia University), Tse-Hsun (Peter) Chen (Concordia University), and Weiyi Shang (Concordia University)
How Incidental are the Incidents? Characterizing and Prioritizing Incidents for Large-Scale Online Service Systems .373.....	Junjie Chen (College of Intelligence and Computing, Tianjin University), Shu Zhang (Microsoft Research), Xiaoting He (Microsoft Research), Qingwei Lin (Microsoft Research), Hongyu Zhang (The University of Newcastle), Dan Hao (Peking University), Yu Kang (Microsoft Research), Feng Gao (Microsoft Azure), Zhangwei Xu (Microsoft Azure), Yingnong Dang (Microsoft Azure), and Dongmei Zhang (Microsoft Research)
Stay Professional and Efficient: Automatically Generate Titles for Your Bug Reports .385.....	Songqiang Chen (Wuhan University), Xiaoyuan Xie (Wuhan University), Bangguo Yin (Wuhan University), Yuanxiang Ji (Wuhan University), Lin Chen (Nanjing University), and Baowen Xu (Nanjing University)

Owl Eyes: Spotting UI Display Issues via Visual Understanding .398.....	
<i>Zhe Liu (Laboratory for Internet Software Technologies, Institute of Software Chinese Academy of Sciences, University of Chinese Academy of Sciences), Chunyang Chen (Monash University), Junjie Wang (Laboratory for Internet Software Technologies, Institute of Software Chinese Academy of Sciences, University of Chinese Academy of Sciences, State Key Laboratory of Computer Sciences), Yuekai Huang (Laboratory for Internet Software Technologies, Institute of Software Chinese Academy of Sciences, University of Chinese Academy of Sciences), Jun Hu (Laboratory for Internet Software Technologies, Institute of Software Chinese Academy of Sciences, University of Chinese Academy of Sciences), and Qing Wang (Laboratory for Internet Software Technologies, Institute of Software Chinese Academy of Sciences, University of Chinese Academy of Sciences, State Key Laboratory of Computer Sciences)</i>	
Multiple-Boundary Clustering and Prioritization to Promote Neural Network Retraining .410.....	
<i>Weijun Shen (State Key Laboratory for Novel Software Technology, Nanjing University), Yanhui Li (State Key Laboratory for Novel Software Technology, Nanjing University), Lin Chen (State Key Laboratory for Novel Software Technology, Nanjing University, China), Yuanlei Han (State Key Laboratory for Novel Software Technology, Nanjing University, China), Yuming Zhou (State Key Laboratory for Novel Software Technology, Nanjing University, China), and Baowen Xu (State Key Laboratory for Novel Software Technology, Nanjing University, China)</i>	
MARBLE: Model-Based Robustness Analysis of Stateful Deep Learning Systems .423.....	
<i>Xiaoning Du (Nanyang Technological University), Yi Li (Nanyang Technological University), Xiaofei Xie (Nanyang Technological University), Lei Ma (Kyushu University), Yang Liu (Nanyang Technological University), and Jianjun Zhao (Kyushu University)</i>	
MockSniffer: Characterizing and Recommending Mocking Decisions for Unit Tests .436.....	
<i>Hengcheng Zhu (Southern University of Science and Technology), Lili Wei (The Hong Kong University of Science and Technology), Ming Wen (Huazhong University of Science and Technology), Yepang Liu (Southern University of Science and Technology), Shing-Chi Cheung (The Hong Kong University of Science and Technology), Qin Sheng (WeBank Co Ltd), and Cui Zhou (WeBank Co Ltd)</i>	
Defect Prediction Guided Search-Based Software Testing .448.....	
<i>Anjana Perera (Monash University, Australia), Aldeida Aleti (Monash University, Australia), Marcel Böhme (Monash University, Australia), and Burak Turhan (Monash University, Australia)</i>	
API-Misuse Detection Driven by Fine-Grained API-Constraint Knowledge Graph .461.....	
<i>Xiaoxue Ren (Zhejiang University, Ningbo Research Institute, PengCheng Laboratory), Xinyuan Ye (Australian National University), Zhenchang Xing (Australian National University, CSIRO), Xin Xia (Monash University), Xiwei Xu (CSIRO), Liming Zhu (CSIRO, University of New South Wales), and Jianling Sun (Zhejiang University)</i>	
Multi-Task Learning based Pre-Trained Language Model for Code Completion .473.....	
<i>Fang Liu (Peking University), Ge Li (Peking University), Yunfei Zhao (Peking University), and Zhi Jin (Peking University)</i>	

Audee: Automated Testing for Deep Learning Frameworks .486.....	
<i>Qianyu Guo (Tianjin University), Xiaofei Xie (Nanyang Technological University), Yi Li (Nanyang Technological University), Xiaoyu Zhang (Xi'an Jiaotong University), Yang Liu (Nanyang Technological University), Xiaohong Li (Tianjin University), and Chao Shen (Xi'an Jiaotong University)</i>	
Towards Interpreting Recurrent Neural Networks through Probabilistic Abstraction .499.....	
<i>Guoliang Dong (Zhejiang University), Jingyi Wang (Zhejiang University), Jun Sun (Singapore Management University), Yang Zhang (Zhejiang University), Xinyu Wang (Zhejiang University), Ting Dai (Huawei International Pte Ltd), Jin Song Dong (National University of Singapore), and Xingen Wang (Zhejiang University)</i>	
Continuous Compliance .511.....	
<i>Martin Kellogg (University of Washington), Martin Schäfer (Amazon Web Services), Serdar Tasiran (Amazon Web Services), and Michael D. Ernst (University of Washington / Amazon Web Services)</i>	
SADT: Syntax-Aware Differential Testing of Certificate Validation in SSL/TLS Implementations .524.....	
<i>Lili Quan (Tianjin University China), Qianyu Guo (Tianjin University China), Hongxu Chen (Nanyang Technological University, Singapore), Xiaofei Xie (Nanyang Technological University, Singapore), Xiaohong Li (Tianjin University China), Yang Liu (Nanyang Technological University, Singapore), and Jing Hu (Tianjin University China)</i>	
CoFI: Consistency-Guided Fault Injection for Cloud Systems .536.....	
<i>Haicheng Chen (The Ohio State University), Wensheng Dou (University of Chinese Academy of Sciences), Dong Wang (University of Chinese Academy of Sciences), and Feng Qin (The Ohio State University)</i>	
ChemTest: An Automated Software Testing Framework for an Emerging Paradigm .548.....	
<i>Michael C. Gerten (Iowa State University), James I. Lathrop (Iowa State University), Myra B. Cohen (Iowa State University), and Titus H. Klinge (Drake University)</i>	
Automatic Extraction of Cause-Effect-Relations from Requirements Artifacts .561.....	
<i>Julian Frattini (Blekinge Institute of Technology), Maximilian Junker (Qualicen GmbH), Michael Unterkalmsteiner (Blekinge Institute of Technology), and Daniel Mendez (Blekinge Institute of Technology)</i>	
BiLO-CPDP: Bi-Level Programming for Automated Model Discovery in Cross-Project Defect Prediction .573.....	
<i>Ke Li (University of Exeter, UK), Zilin Xiang (UESTC, China), Tao Chen (Loughborough University, UK), and Kay Chen Tan (City University of Hong Kong, Hong Kong SAR)</i>	
Automating Just-In-Time Comment Updating .585.....	
<i>Zhongxin Liu (Zhejiang University), Xin Xia (Monash University), Meng Yan (Chongqing University), and Shanping Li (Zhejiang University)</i>	
Automated Implementation of Windows-Related Security-Configuration Guides .598.....	
<i>Patrick Stöckle (Technical University of Munich), Bernd Grobauer (Siemens AG), and Alexander Pretschner (Technical University of Munich)</i>	

Identifying Software Performance Changes across Variants and Versions .611.....	
<i>Stefan Mühlbauer (Leipzig University), Sven Apel (Saarland University, Saarland Informatics Campus), and Norbert Siegmund (Leipzig University)</i>	
CP-Detector: Using Configuration-Related Performance Properties to Expose Performance Bugs.623	
<i>Haochen He (National University of Defense Technology), Zhouyang Jia (National University of Defense Technology), Shanshan Li (National University of Defense Technology), Erci Xu (National University of Defense Technology), Tingting Yu (University of Kentucky), Yue Yu (National University of Defense Technology), Ji Wang (National University of Defense Technology), and Xiangke Liao (National University of Defense Technology)</i>	
Just-In-Time Reactive Synthesis .635.....	
<i>Shahar Maoz (Tel Aviv University) and Ilia Shevrin (Tel Aviv University)</i>	
JISSET: JavaScript IR-Based Semantics Extraction Toolchain .647.....	
<i>Jihyeok Park (KAIST), Jihee Park (KAIST), Seungmin An (KAIST), and Sukyoung Ryu (KAIST)</i>	
FlashRegex: Deducing Anti-ReDoS Regexes from Examples .659.....	
<i>Yeting Li (Institute of Software, Chinese Academy of Sciences; University of Chinese Academy of Sciences), Zhiwu Xu (College of Computer Science and Software Engineering, Shenzhen University), Jialun Cao (The Hong Kong University of Science and Technology), Haiming Chen (State Key Laboratory of Computer Science, Institute of Software, Chinese Academy of Sciences), Tingjian Ge (University of Massachusetts), Shing-Chi Cheung (The Hong Kong University of Science and Technology), and Haoren Zhao (Shaanxi Normal University)</i>	
Inferring and Applying Def-Use Like Configuration Couplings in Deployment Descriptors .672....	
<i>Chengyuan Wen (Virginia Tech), Yaxuan Zhang (Virginia Tech), Xiao He (University of Science and Technology), and Na Meng (Virginia Tech)</i>	
Mastering Uncertainty in Performance Estimations of Configurable Software Systems .684.....	
<i>Johannes Dorn (Leipzig University), Sven Apel (Saarland University, Saarland Informatics Campus), and Norbert Siegmund (Leipzig University)</i>	
Team Discussions and Dynamics During DevOps Tool Adoptions in OSS Projects .697.....	
<i>Likang Yin (University of California, Davis) and Vladimir Filkov (University of California, Davis)</i>	
TestMC: Testing Model Counters using Differential and Metamorphic Testing .709.....	
<i>Muhammad Usman (University of Texas at Austin, USA), Wenxi Wang (University of Texas at Austin, USA), and Sarfraz Khurshid (University of Texas at Austin, USA)</i>	
BigFuzz: Efficient Fuzz Testing for Data Analytics using Framework Abstraction .722.....	
<i>Qian Zhang (University of California, Los Angeles), Jiyuan Wang (University of California, Los Angeles), Muhammad Ail Gulzar (Virginia Tech), Rohan Padhye (Carnegie Mellon University), and Miryung Kim (University of California, Los Angeles)</i>	

Scaling Client-Specific Equivalence Checking via Impact Boundary Search .734.....	Nick Feng (University of Toronto), Federico Mora (University of California, Berkeley), Vincent Hui (University of Toronto), and Marsha Chechik (University of Toronto)
Code to Comment "Translation": Data, Metrics, Baselineing & Evaluation .746.....	David Gros (University of California, Davis), Hariharan Sezhiyan (University of California, Davis), Prem Devanbu (University of California, Davis), and Zhou Yu (University of California, Davis)
Exploring the Architectural Impact of Possible Dependencies in Python Software .758.....	Wuxia Jin (Xi'an Jiaotong University), Yuanfang Cai (Drexel University), Rick Kazman (University of Hawaii), Gang Zhang (Emergent Design Inc), Qinghua Zheng (Xi'an Jiaotong University), and Ting Liu (Xi'an Jiaotong University)
Problems and Opportunities in Training Deep Learning Software Systems: An Analysis of Variance .771.....	Hung Viet Pham (University of Waterloo), Shangshu Qian (Purdue University), Jiannan Wang (Purdue University), Thibaud Lutellier (University of Waterloo), Jonathan Rosenthal (Purdue University), Lin Tan (Purdue University), Yaoliang Yu (University of Waterloo), and Nachiappan Nagappan (Microsoft Research)
NeuroDiff: Scalable Differential Verification of Neural Networks using Fine-Grained Approximation .784.....	Brandon Paulsen (University of Southern California), Jingbo Wang (University of Southern California), Jiawei Wang (University of Southern California), and Chao Wang (University of Southern California)
Identifying and Describing Information Seeking Tasks .797.....	Chris Satterfield (University of British Columbia), Thomas Fritz (University of Zurich), and Gail C. Murphy (University of British Columbia)
Predicting Code Context Models for Software Development Tasks .809.....	Zhiyuan Wan (Zhejiang University), Gail C. Murphy (University of British Columbia), and Xin Xia (Monash University)
SCDetector: Software Functional Clone Detection Based on Semantic Tokens Analysis .821.....	Yueming Wu (Huazhong University of Science and Technology), Deqing Zou (Huazhong University of Science and Technology), Shihan Dou (Huazhong University of Science and Technology), Siru Yang (Huazhong University of Science and Technology), Wei Yang (University of Texas at Dallas), Feng Cheng (Huazhong University of Science and Technology), Hong Liang (Huazhong University of Science and Technology), and Hai Jin (Huazhong University of Science and Technology)
Generating Concept based API Element Comparison Using a Knowledge Graph .834.....	Yang Liu (Fudan University, China), Mingwei Liu (Fudan University, China), Xin Peng (Fudan University, China), Christoph Treude (The University of Adelaide, Australia), Zhenchang Xing (Australian National University, Australia), and Xiaoxin Zhang (Fudan University, China)

Multiplex Symbolic Execution: Exploring Multiple Paths by Solving Once .846.....	Yufeng Zhang (Hunan University), Zhenbang Chen (National University of Defense Technology, China), Ziqi Shuai (National University of Defense Technology, China), Tianqi Zhang (National University of Defense Technology, China), Kenli Li (National Supercomputing Center in Changsha, Hunan University), and Ji Wang (State Key Laboratory of High Performance Computing, National University of Defense Technology)
Zeror: Speed Up Fuzzing with Coverage-Sensitive Tracing and Scheduling .858.....	Chijin Zhou (Tsinghua University, China), Mingzhe Wang (Tsinghua University, China), Jie Liang (Tsinghua University, China), Zhe Liu (Nanjing University of Aeronautics and Astronautics), and Yu Jiang (Tsinghua University, China)
Detecting and Explaining Self-Admitted Technical Debts with Attention-Based Neural Networks .871.....	Xin Wang (Wuhan University), Jin Liu (Wuhan University), Li Li (Monash University), Xiao Chen (Monash University), Xiao Liu (Deakin University, Australia), and Hao Wu (Yunnan University)
OCOR: An Overlap-Aware Code Retriever .883.....	Qihao Zhu (Peking University), Zeyu Sun (Peking University), Xiran Liang (Peking University), Yingfei Xiong (Peking University), and Lu Zhang (Peking University)
Understanding Performance Concerns in the API Documentation of Data Science Libraries .895.....	Yida Tao (Shenzhen University), Jiefang Jiang (Shenzhen University), Yepang Liu (Southern University of Science and Technology), Zhiwu Xu (Shenzhen University), and Shengchao Qin (Teesside University, Shenzhen University)
On the Effectiveness of Unified Debugging: An Extensive Study on 16 Program Repair Systems.907	Samuel Benton (The University of Texas at Dallas), Xia Li (Kennesaw State University), Yiling Lou (Peking University), and Lingming Zhang (University of Illinois at Urbana-Champaign)
Automated Third-Party Library Detection for Android Applications: Are We There Yet? .919.....	Xian Zhan (The Hong Kong Polytechnic University), Lingling Fan (College of Cyber Science, Nankai University, China), Tianming Liu (Monash University, Australia), Sen Chen (College of Intelligence and Computing, Tianjin University, China), Li Li (Monash University, Australia), Haoyu Wang (Beijing University of Posts and Telecommunications, China), Yifei Xu (Southern University of Science and Technology, China), Xiapu Luo (The Hong Kong Polytechnic University, Hong Kong, China), and Yang Liu (Nanyang Technological University, Singapore)
CCGraph: a PDG-Based Code Clone Detector with Approximate Graph Matching .931.....	Yue Zou (University of Science and Technology of China), Bihuan Ban (University of Science and Technology of China), Yinxing Xue (University of Science and Technology of China), and Yun Xu (University of Science and Technology of China)

Towards Generating Thread-Safe Classes Automatically .943.....	Haichi Wang (Tianjin University, China), Zan Wang (Tianjin University, China), Jun Sun (Singapore Management University, Singapore), Shuang Liu (Tianjin University, China), Ayesha Sadiq (Monash University, Australia), and Yuanfang Li (Monash University, Australia)
No Strings Attached: An Empirical Study of String-Related Software Bugs .956.....	Aryaz Eghbali (University of Stuttgart) and Michael Pradel (University of Stuttgart)
Automated Patch Correctness Assessment: How Far are We? .968.....	Shangwen Wang (National University of Defense Technology, China), Ming Wen (Huazhong University of Science and Technology), Bo Lin (National University of Defense Technology, China), Hongjun Wu (National University of Defense Technology, China), Yihao Qin (National University of Defense Technology, China), Deqing Zou (Huazhong University of Science and Technology), Xiaoguang Mao (National University of Defense Technology, China), and Hai Jin (Huazhong University of Science and Technology)
Evaluating Representation Learning of Code Changes for Predicting Patch Correctness in Program Repair .981.....	Haoye Tian (University of Luxembourg), Kui Liu (Nanjing University of Aeronautics and Astronautics), Abdoul Kader Kaboré (University of Luxembourg), Anil Koyuncu (University of Luxembourg), Li Li (Monash University), Jacques Klein (University of Luxembourg), and Tegawendé F. Bissyandé (University of Luxembourg)
Scalable Multiple-View Analysis of Reactive Systems via Bidirectional Model Transformations .993.....	Christos Tsigkanos (TU Wien), Nianyu Li (Peking University), Zhi Jin (Peking University), Zhenjiang Hu (Peking University), and Carlo Ghezzi (Politecnico di Milano)
Trace-Checking Signal-Based Temporal Properties: A Model-Driven Approach .1004.....	Chaima Boufaied (University of Luxembourg), Claudio Menghi (University of Luxembourg), Domenico Bianculli (University of Luxembourg), Lionel Briand (University of Luxembourg, University of Ottawa), and Yago Isasi Parache (Luxspace Sàrl)
Attend and Represent: A Novel View on Algorithm Selection for Software Verification .1016.....	Cedric Richter (Paderborn University, Germany) and Heike Wehrheim (Paderborn University, Germany)
Cross-Contract Static Analysis for Detecting Practical Reentrancy Vulnerabilities in Smart Contracts .1029.....	Yinxing Xue (University of Science and Technology of China), Mingliang Ma (University of Science and Technology of China), Yun Lin (National University of Singapore), Yulei Sui (University of Technology Sydney), Jiaming Ye (University of Science and Technology of China), and Tianyong Peng (University of Science and Technology of China)

Cats Are Not Fish: Deep Learning Testing Calls for Out-Of-Distribution Awareness .1041.....	<i>David Berend (Nanyang Technological University), Xiaofei Xie (Nanyang Technological University), Lei Ma (Kyushu University, Japan), Lingjun Zhou (Tianjin University, China), Yang Liu (Nanyang Technological University), Chi Xu (Singapore Institute of Manufacturing Technology, A*Star), and Jianjun Zhao (Kyushu University, Japan)</i>
Metamorphic Object Insertion for Testing Object Detection Systems .1053.....	<i>Shuai Wang (Hong Kong University of Science and Technology) and Zhendong Su (ETH Zurich)</i>
Seven Reasons Why: An In-Depth Study of the Limitations of Random Test Input Generation for Android .1066.....	<i>Farnaz Behrang (Georgia Tech, Atlanta, GA, USA) and Alessandro Orso (Georgia Tech, Atlanta, GA, USA)</i>
Test Automation in Open-Source Android Apps: A Large-Scale Empirical Study .1078.....	<i>Jun-Wei Lin (University of California, Irvine), Navid Salehnamadi (University of California, Irvine), and Sam Malek (University of California, Irvine)</i>
Synthesis-Based Resolution of Feature Interactions in Cyber-Physical Systems .1090.....	<i>Benjamin Gafford (Carnegie Mellon University), Tobias Dürschmid (Carnegie Mellon University), Gabriel A. Moreno (Software Engineering Institute, Carnegie Mellon University), and Eunsuk Kang (Carnegie Mellon University)</i>
MoFuzz: A Fuzzer Suite for Testing Model-Driven Software Engineering Tools .1103.....	<i>Hoang Lam Nguyen (Humboldt-Universität zu Berlin), Nebras Nassar (Philipps-Universität Marburg), Timo Kehler (Humboldt-Universität zu Berlin), and Lars Grunske (Humboldt-Universität zu Berlin)</i>
Prober: Practically Defending Overflows with Page Protection .1116.....	<i>Hongyu Liu (Purdue University), Ruiqin Tian (College of William and Mary), Bin Ren (College of William and Mary), and Tongping Liu (University of Massachusetts Amherst)</i>
MinerRay: Semantics-Aware Analysis for Ever-Evolving Cryptojacking Detection .1129.....	<i>Alan Romano (University at Buffalo, SUNY), Yunhui Zheng (IBM Thomas J. Watson Research Center), and Weihang Wang (University at Buffalo, SUNY)</i>
Summary-Based Symbolic Evaluation for Smart Contracts .1141.....	<i>Yu Feng (University of California, Santa Barbara), Emina Torlak (University of Washington), and Rastislav Bodik (University of Washington)</i>

Doctoral Symposium

Applying Learning Techniques to Oracle Synthesis .1153.....	<i>Facundo Molina (University of Rio Cuarto)</i>
Automated Generation of Client-Specific Backends Utilizing Existing Microservices and Architectural Knowledge .1158.....	<i>Nils Wieber (Institute for Enterprise Systems (InES), University of Mannheim)</i>

SAT-Based Arithmetic Support for Alloy .1161.....	
<i>César Cornejo (National University of Rio Cuarto / CONICET)</i>	
Towards Robust Production Machine Learning Systems: Managing Dataset Shift .1164.....	
<i>Hala Abdelkader (Deakin University)</i>	
Towards Transparency-Encouraging Partial Software Disclosure to Enable Trust in Data Usage.1167	
<i>Christian Schindler (University of Mannheim)</i>	
Using Defect Prediction to Improve the Bug Detection Capability of Search-Based Software Testing .1170.....	
<i>Anjana Perera (Monash University, Australia)</i>	

Industry Showcase

The New Approach to IT Testing .1175.....	
<i>YongSik Kim (LG CNS, Seoul, Republic of Korea), SoAh Min (LG CNS, Seoul, Republic of Korea), and YouKyung Kim (LG CNS, Seoul, Republic of Korea)</i>	
Automatic Generation of IFTTT Mashup Infrastructures .1179.....	
<i>Lei Liu (Fujitsu Laboratories of America Inc.), Mehdi Bahrani (Fujitsu Laboratories of America Inc.), and Wei-Peng Chen (Fujitsu Laboratories of America, Inc.)</i>	
Towards Building Robust DNN Applications: An Industrial Case Study of Evolutionary Data Augmentation .1184.....	
<i>Haruki Yokoyama (Fujitsu Laboratories Ltd.), Satoshi Onoue (Fujitsu Ltd.), and Shinji Kikuchi (Fujitsu Laboratories Ltd.)</i>	
Industry Practice of JavaScript Dynamic Analysis on WeChat Mini-Programs .1189.....	
<i>Yi Liu (Southern University of Science and Technology, China), Jinhui Xie (Tencent, Inc.), Jianbo Yang (Tencent, Inc.), Shiyu Guo (Tencent, Inc.), Yuetang Deng (Tencent, Inc.), Shuqing Li (Southern University of Science and Technology, China), Yechang Wu (Southern University of Science and Technology, China), and Yepang Liu (Southern University of Science and Technology, China)</i>	
Lightweight MBT Testing for National e-Health Portal in Norway .1194.....	
<i>Davrondzhon Gafurov (Norsk Helsenett SF), Margrete Sunde Grovan (Norsk Helsenett SF), and Arne Erik Hurum (Norsk Helsenett SF)</i>	
Code-Based Vulnerability Detection in Node.js Applications: How Far are We? .1199.....	
<i>Bodin Chinthanet (Nara Institute of Science and Technology), Serena Elisa Ponta (SAP Security Research), Henrik Plate (SAP Security Research), Antonino Sabetta (SAP Security Research), Raula Gaikovina Kula (Nara Institute of Science and Technology), Takashi Ishio (Nara Institute of Science and Technology), and Kenichi Matsumoto (Nara Institute of Science and Technology)</i>	

New Ideas and Emerging Results (NIER)

- A Framework for Automated Test Mocking of Mobile Apps .1204.....
Mattia Fazzini (University of Minnesota, Minneapolis, USA), Alessandra Gorla (IMDEA Software Institute, Madrid, Spain), and Alessandro Orso (Georgia Institute of Technology, Atlanta, USA)
- A Hybrid Analysis to Detect Java Serialisation Vulnerabilities .1209.....
Shawn Rasheed (Massey University) and Jens Dietrich (Victoria University of Wellington)
- BugPecker: Locating Faulty Methods with Deep Learning on Revision Graphs .1214.....
Junming Cao (Shanghai Jiao Tong University), Shouliang Yang (Shanghai Jiao Tong University), Wenhui Jiang (Shanghai Jiao Tong University), Hushuang Zeng (Shanghai Jiao Tong University), Beijun Shen (Shanghai Jiao Tong University), and Hao Zhong (Shanghai Jiao Tong University)
- Closer to the Edge: Testing Compilers More Thoroughly by Being Less Conservative about Undefined Behaviour .1219.....
Karine Even-Mendoza (Imperial College London), Cristian Cadar (Imperial College London), and Alastair F. Donaldson (Imperial College London)
- Generating Highly-Structured Input Data by Combining Search-Based Testing and Grammar-Based Fuzzing .1224.....
Mitchell Olsthorn (Delft University of Technology), Arie van Deursen (Delft University of Technology), and Annibale Panichella (Delft University of Technology)
- Making Fair ML Software using Trustworthy Explanation .1229.....
Joydallya Chakraborty (North Carolina State University), Kewen Peng (North Carolina State University), and Tim Menzies (North Carolina State University)
- On Benign Features in Malware Detection .1234.....
Michael Cao (The University of British Columbia), Sahar Badihi (The University of British Columbia), Khaled Ahmed (The University of British Columbia), Peiyu Xiong (The University of British Columbia), and Julia Rubin (The University of British Columbia)
- Proving Termination by k-Induction .1239.....
Jianhui Chen (Tsinghua University, China) and He Fei (Tsinghua University, China)
- SRRTA: Regression Testing Acceleration via State Reuse .1244.....
Jinhao Dong (Peking University), Yiling Lou (Peking University), and Dan Hao (Peking University)

Late Breaking Results

- An Automated Assessment of Android Clipboards .1249.....
Wei Wang (The University of Adelaide), Ruoxi Sun (The University of Adelaide), Minhui Xue (The University of Adelaide), and Damith Ranasinghe (The University of Adelaide)

Edge4Sys: A Device-Edge Collaborative Framework for MEC based Smart Systems .1252.....	
<i>Han Gao (Anhui University, China), Yi Xu (Anhui University, China), Xiao Liu (Deakin University, Australia), Jia Xu (Anhui University, China), Tianxiang Chen (Anhui University, China), Bowen Zhou (Anhui University, China), Rui Li (Deakin University, Australia), and Xuejun Li (Anhui University, China)</i>	
Efficient Multiplex Symbolic Execution with Adaptive Search Strategy .1255.....	
<i>Tianqi Zhang (National University of Defense Technology, China), Yufeng Zhang (Hunan University), Zhenbang Chen (National University of Defense Technology, China), Ziqi Shuai (National University of Defense Technology, China), and Ji Wang (National University of Defense Technology, China)</i>	
Managing App Testing Device Clouds: Issues and Opportunities .1257.....	
<i>Mattia Fazzini (University of Minnesota, Minneapolis, MN, USA) and Alessandro Orso (Georgia Institute of Technology, Atlanta, GA, USA)</i>	
Styx: A Data-Oriented Mutation Framework to Improve the Robustness of DNN .1260.....	
<i>Meixi Liu (National University of Defense Technology, China), Weijiang Hong (National University of Defense Technology, China), Weiyu Pan (National University of Defense Technology, China), Chendong Feng (National University of Defense Technology, China), Zhenbang Chen (National University of Defense Technology, China), and Ji Wang (National University of Defense Technology, China)</i>	
Synthesizing Smart Solving Strategy for Symbolic Execution .1262.....	
<i>Zehua Chen (National University of Defense Technology, China), Zhenbang Chen (National University of Defense Technology, China), Ziqi Shuai (National University of Defense Technology, China), Yufeng Zhang (Hunan University, China), and Weiyu Pan (National University of Defense Technology, China)</i>	
The Symptom, Cause and Repair of Workaround .1264.....	
<i>Daohan Song (Shanghai Jiao Tong University), Hao Zhong (Shanghai Jiao Tong University), and Li Jia (Shanghai Jiao Tong University)</i>	
Towards Immersive Comprehension of Software Systems Using Augmented Reality - An Empirical Evaluation .1267.....	
<i>Rohit Mehra (Accenture Labs, India), Vibhu Saujanya Sharma (Accenture Labs, India), Vikrant Kaulgud (Accenture Labs, India), Sanjay Podder (Accenture Labs, India), and Adam P. Burden (Accenture, Singapore)</i>	
Towards Programming and Verification for Activity-Oriented Smart Home Systems .1270.....	
<i>Xuansong Li (Nanjing University of Science and Technology, China), Wei Song (Nanjing University of Science and Technology, China), and Xiangyu Zhang (Purdue University, USA)</i>	

Tool Demonstrations

AirMochi - A Tool for Remotely Controlling iOS Devices .1273.....	
<i>Nikola Lukić (University of Southern California), Saghar Talebipour (University of Southern California), and Nenad Medvidović (University of Southern California)</i>	

Botsing, a Search-Based Crash Reproduction Framework for Java .1278.....	
<i>Pouria Derakhshanfar (Delft University of Technology), Xavier Devroey (Delft University of Technology), Annibale Panichella (Delft University of Technology), Andy Zaidman (Delft University of Technology), and Arie van Deursen (Delft University of Technology)</i>	
EXPRESS: An Energy-Efficient and Secure Framework for Mobile Edge Computing and Blockchain based Smart Systems .1283.....	
<i>Jia Xu (Anhui University, China), Xiao Liu (Deakin University, Australia), Xuejun Li (Anhui University, China), Lei Zhang (Antwork Robotics Co., Ltd.), and Yun Yang (Swinburne University of Technology, Australia)</i>	
Edge4Real: A Cost Effective Edge Computing based Human Behaviour Recognition System for Human-Centric Software Engineering .1287.....	
<i>Di Shao (Deakin University, Australia), Xiao Liu (Deakin University, Australia), Ben Cheng (Deakin University, Australia), Owen Wang (Deakin University, Australia), and Thuong Hoang (Deakin University, Australia)</i>	
FILO: Fix-Locus Localization for Backward Incompatibilities Caused by Android Framework Upgrades .1292.....	
<i>Marco Mobilio (University of Milano-Bicocca), Oliviero Riganelli (University of Milano-Bicocca), Daniela Micucci (University of Milano-Bicocca), and Leonardo Mariani (University of Milano-Bicocca)</i>	
GUI2WiRe: Rapid Wireframing with a Mined and Large-Scale GUI Repository using Natural Language Requirements .1297.....	
<i>Kristian Kolthoff (Institute for Enterprise Systems (InES), University of Mannheim), Christian Bartelt (Institute for Software and Systems Engineering, TU Clausthal), and Simone Paolo Ponzetto (Data and Web Science Group, University of Mannheim)</i>	
HomoTR: Online Test Recommendation System Based on Homologous Code Matching .1302.....	
<i>Chenqian Zhu (State Key Laboratory for Novel Software Technology, Nanjing University, China), Weisong Sun (Nanjing University), Qin Liu (Nanjing University), Yangyang Yuan (Nanjing University), Chunrong Fang (Nanjing University), and Yong Huang (MoocTest Inc., Nanjing, China)</i>	
ImpAPTr: A Tool for Identifying the Clues to Online Service Anomalies .1307.....	
<i>Hao Wang (Nanjing University, Nanjing, China), Guoping Rong (Nanjing University, Nanjing, China), Yangchen Xu (Nanjing University, Nanjing, China), and Yong You (Meituan-Dianping Group, Shanghai, China)</i>	
OSLDetector: Identifying Open-Source Libraries through Binary Analysis .1312.....	
<i>Dan Zhang (Tsinghua University, Beijing, China), Ping Luo (Tsinghua University), Wei Tang (Tsinghua University, Beijing, China), and Min Zhou (Tsinghua University, Beijing, China)</i>	
Sosed: A Tool for Finding Similar Software Projects .1316.....	
<i>Egor Bogomolov (JetBrains Research, Higher School of Economics), Yaroslav Golubev (JetBrains Research), Artyom Lobanov (JetBrains Research, Higher School of Economics), Vladimir Kovalenko (JetBrains Research, JetBrains N.V.), and Timofey Bryksin (JetBrains Research, Saint Petersburg State University)</i>	

WASim: Understanding WebAssembly Applications through Classification .1321.....	
<i>Alan Romano (University at Buffalo, SUNY) and Weihang Wang (University at Buffalo, SUNY)</i>	
MetPurity: A Learning-Based Tool of Pure Method Identification for Automatic Test Generation .1326.....	
<i>Runze Yu (Wuhan University), Youzhe Zhang (Wuhan University), and Jifeng Xuan (Wuhan University)</i>	
STIFA: Crowdsourced Mobile Testing Report Selection Based on Text and Image Fusion Analysis .1331.....	
<i>Zhenfei Cao (Nanjing University), Xu Wang (Nanjing University), Shengcheng Yu (Nanjing University), Yexiao Yun (Nanjing University), and Chunrong Fang (Nanjing University)</i>	
JITBot: An Explainable Just-In-Time Defect Prediction Bot .1336.....	
<i>Chaiyakarn Khanan (Mahidol University), Worawit Luewichana (Mahidol University), Krissakorn Pruktharathikoon (Mahidol University), Jirayus Jiarapakdee (Monash University), Chakkrit Tantithamthavorn (Monash University), Morakot Choetkiertikul (Mahidol University), Chaiyong Ragkhitwetsagul (Mahidol University), and Thanwadee Sunetnanta (Mahidol University)</i>	
Speeding up GUI Testing by On-Device Test Generation .1340.....	
<i>Nataniel Borges (CISPA Helmholtz Center for Information Security), Jenny Rau (CISPA Helmholtz Center for Information Security), and Andreas Zeller (CISPA Helmholtz Center for Information Security)</i>	
PerfCI: A Toolchain for Automated Performance Testing during Continuous Integration of Python Projects .1344.....	
<i>Omar Javed (Università della Svizzera italiana, Switzerland), Joshua Heneage Dawes (University of Manchester and CERN), Marta Han (University of Zagreb and CERN), Giovanni Franzoni (CERN, Switzerland), Andreas Pfeiffer (CERN, Switzerland), Giles Reger (University of Manchester, UK), and Walter Binder (Università della Svizzera italiana, Switzerland)</i>	
SmartBugs: A Framework to Analyze Solidity Smart Contracts .1349.....	
<i>João Ferreira (INESC-ID & IST, University of Lisbon, Portugal), Pedro Cruz (INESC-ID & IST, University of Lisbon, Portugal), Thomas Durieux (KTH Royal Institute of Technology, Sweden), and Rui Abreu (INESC-ID & IST, University of Lisbon, Portugal)</i>	
RepoSkillMiner: Identifying Software Expertise from GitHub Repositories using Natural Language Processing .1353.....	
<i>Stratos Kourtzanidis (University of Macedonia), Alexander Chatzigeorgiou (University of Macedonia), and Apostolos Ampatzoglou (University of Macedonia)</i>	

Student Research Competition

A Machine Learning based Approach to Autogenerate Diagnostic Models for CNC Machines .1358	
<i>Kamil Masallimov (Ufa State Aviation Technical University)</i>	

A Program Verification based Approach to Find Data Race Vulnerabilities in Interrupt-Driven Program	1361
<i>Haining Feng (National University of Defense Technology)</i>	
A Unified Framework to Learn Program Semantics with Graph Neural Networks	1364
<i>Shangqing Liu (Nanyang Technological University)</i>	
Anti-Patterns for Java Automated Program Repair Tools	1367
<i>Yi Wu (Southern University of Science and Technology)</i>	
CrossPriv: User Privacy Preservation Model for Cross-Silo Federated Software	1370
<i>Harshita Diddee (Guru Gobind Singh Indraprastha University) and Bhriгу Kansra (Guru Gobind Singh Indraprastha University)</i>	
Discovering UI Display Issues with Visual Understanding	1373
<i>Zhe Liu (Laboratory for Internet Software Technologies, Institute of Software Chinese Academy of Sciences, University of Chinese Academy of Sciences)</i>	
Dynamic Algorithm Selection for SMT	1376
<i>Nikhil Pimpalkhare (University of California, Berkeley)</i>	
FLUX: From SQL to GQL Query Translation Tool	1379
<i>Chandan Sharma (Auckland University of Technology)</i>	
Finding Ethereum Smart Contracts Security Issues by Comparing History Versions	1382
<i>Jiachi Chen (Monash University)</i>	
Formal Verification of Masking Countermeasures for Arithmetic Programs	1385
<i>Pengfei Gao (ShanghaiTech University)</i>	
Identifying Mutation Subsumption Relations	1388
<i>Beatriz Souza (Federal University of Campina Grande)</i>	
Scalability and Precision Improvement of Neural Program Synthesis	1391
<i>Yating Zhang (National University of Defense Technology)</i>	
The Classification and Propagation of Program Comments	1394
<i>Xiangzhe Xu (Nanjing University)</i>	
Source Code and Binary Level Vulnerability Detection and Hot Patching	1397
<i>Zhengzi Xu (Nanyang Technological University)</i>	
When Deep Learning Meets Smart Contracts	1400
<i>Zhipeng Gao (Monash University)</i>
