# 2020 6th International Conference on Big Data and Information Analytics (BigDIA)

# BigDIA 2020

## Table of Contents

**General Co-Chairs' Message** ..... **xvii**
**Program Co-Chairs' Message** ..... **xviii**
**Conference Organization** ..... **xx**

## 2020 6th International Conference on Big Data and Information Analytics (BigDIA)

Satellite Ground Link Planning for Data Transmission of Global Satellite Navigation System ..... 1
*Yaohong Zhang (College of Systems Engineering, National University of Defense Technology), Ji OuYang (College of Systems Engineering, National University of Defense Technology), and Yanghongyi Kuang (College of Systems Engineering, National University of Defense Technology)*

Ensemble Influence Nets for Equipment Health Status Classification ..... 5
*Jianbin Sun (National University of Defense Technology), Yaqian You (National University of Defense Technology), Xiaoyan Wang (National University of Defense Technology), Jiang Jiang (National University of Defense Technology), and Hui Yan (National University of Defense Technology)*

LFNet: Lightweight Fire Smoke Detection for Uncertain Surveillance Environment ..... 11
*Ce Shen (Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences, Shenzhen, China), Jinxing Hu (Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences, Shenzhen, China), Chuansheng Wang (Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences, Shenzhen, China), and Donghao Li (Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences, Shenzhen, China)*

Enhanced Word Embedding Method in Text Classification ..18
*Shengze Hu (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Chunhui He (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Bin Ge (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), and Fang Liu (Defense Science and Technology Strategic Research Think Tank, National University of Defense)*

Single-Objective Distributed Permutation Flowshop Scheduling Optimization via Multi-objectivization by a Helper Objective ..23
*Xu Yang (National University of Defense Technology), Rui Wang (National University of Defense Technology), and Tao Zhang (National University of Defense Technology)*

Graph Autoencoder Combined with Attribute Information in Graph ..28
*Xianchen Zhou (National University of Defense Technology), Hongxia Wang (National University of Defense Technology), Zhemin Li (National University of Defense Technology), and Shuchang Zhang (National University of Defense Technology)*

DHN: A Dynamic Hierarchical Network Protocol for Wireless Sensor Networks in the Presence of Obstacles ..35
*Yangbin Zhang (Key Laboratory of Information System Engineering, National University of Defense Technology), Lihua Liu (Key Laboratory of Information System Engineering, National University of Defense Technology), Mounir Ghogho (College of Engineering & Architecture, TICLab International University of Rabat), Hongbin Huang (Key Laboratory of Information System Engineering, National University of Defense Technology), Jibing Wu (Key Laboratory of Information System Engineering, National University of Defense Technology), and Mao Wang (Key Laboratory of Information System Engineering, National University of Defense Technology)*

Empowering Knowledge Graph Construction with Hyper-Graph for Personalized Recommendation .. 42
*Chao Kong (Anhui Polytechnic University), Shaoying Li (Anhui Polytechnic University), Xing Gao (Anhui Polytechnic University), Yunyang Chen (Anhui Polytechnic University), Baoxiang Chen (Anhui Polytechnic University), and Jiahui Chen (Anhui Polytechnic University)*

MCTA: Multi-UAV Collaborative Target Allocation to Monitor Targets with Dynamic Importance..50
*Hui Yan (National University of Defense Technology), Weiwei Zhao (National University of Defense Technology), Chao Chen (National University of Defense Technology), Yaqian You (National University of Defense Technology), Xiong Gao (National University of Defense Technology), Dayu Zhang (National University of Defense Technology), Wei Cao (National University of Defense Technology), and Weidong Bao (National University of Defense Technology)*

A Reconciliation Model of Agile C2 Organization Based on Converged Networks ..58
*Wen Zhou (College of Systems Engineering, National University of Defense Technology), Weidong Bao (College of Systems Engineering, National University of Defense Technology), Xiaomin Sun (College of Systems Engineering, National University of Defense Technology), Jingke Wan (College of Information and Communication, National University of Defense Technology), Yitai Xu (College of Systems Engineering, National University of Defense Technology), and Yan Gao (International Studies College, National University of Defense Technology)*

RONA: A Clustering Decision-Making Framework in Robotics Swarm ..66
*Ji OuYang (College of Systems Engineering, National University of Defense Technology), Yaohong Zhang (College of Systems Engineering, National University of Defense Technology), Li Ma (College of Systems Engineering, National University of Defense Technology), Yutong Yuan (Department of Electronic Engineering, Shantou University), Meng Wu (College of Systems Engineering, National University of Defense Technology), Wen Zhou (College of Systems Engineering, National University of Defense Technology), Taosheng Fang (College of Systems Engineering, National University of Defense Technology), Jingjing Tao (College of Systems Engineering, National University of Defense Technology), and Zeyu Huang (College of Information and Communication, National University of Defense Technology)*

Vision and Language Navigation using Multi-head Attention Mechanism ..74
*Sai Mao (School of Computer Science and Technology, University of Science and Technology of China), Junmin Wu (School of Computer Science and Technology, University of Science and Technology of China), and Siqi Hong (School of Software Engineering, University of Science and Technology of China)*

EV-NET: An Analysis Model of Regional Economic Vitality Based on Network Model ..80
*Yulun Wu (College of Systems Engineering, National University of Defense Technology), Zhaoli Song (College of Systems Engineering, National University of Defense Technology), Yunxiao Zhang (National Innovation Institute of Defense Technology, Academy of Military Science), Yanming Guo (College of Systems Engineering, National University of Defense Technology), Haoran Wang (College of Systems Engineering, National University of Defense Technology), and Songyang Lao (College of Systems Engineering, National University of Defense Technology)*

Data-Driven Approach with Artificial Neural Network for Global Innovation Index re-Evaluation ..88
*Ruijing Cui (College of Systems Engineering, National University of Defense Technology), Jianbin Sun (College of Systems Engineering, National University of Defense Technology), Yong Li (College of Systems Engineering, National University of Defense Technology), Kewei Yang (College of Systems Engineering, National University of Defense Technology), and Xinyang Wu (College of Systems Engineering, National University of Defense Technology)*

A Task Scheduling Algorithm Based on Big.LITTLE Architecture in Cloud Computing .94
*Chao Chen (Shenzhen Institutes of Advanced Technology), Haoying Shi (National Space Science Center), Zheng Wang (Shenzhen Institutes of Advanced Technology), and Zhibin Yu (Shenzhen Institutes of Advanced Technology)*

Machine Learning in Epilepsy Drug Treatment Outcome Prediction Using Multi-modality Data in Children with Tuberous Sclerosis Complex .100
*Jun Yang (Research Centre for Medical AI, Shenzhen Institutes of Advanced Technology, Chinese Academy of Science), Cailei Zhao (Department of Radiology, Shenzhen Children's Hospital), Shi Su (Paul C. Lauterbur Research Centre for Biomedical Imaging, Shenzhen Institutes of Advanced Technology, Chinese Academy of Science), Dong Liang (Research Centre for Medical AI, Shenzhen Institutes of Advanced Technology, Chinese Academy of Science), Zhanqi Hu (Department of Neurology, Shenzhen Children's Hospital), Haifeng Wang (Paul C. Lauterbur Research Centre for Biomedical Imaging, Shenzhen Institutes of Advanced Technology, Chinese Academy of Science), and Jianxiang Liao (Department of Neurology, Shenzhen Children's Hospital)*

ATR: Auto-Tuning Configurations of Redis via Ensemble Learning .104
*Jiangyi Liu (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China;University of Chinese Academy of Sciences, Beijing, China), Yexing Ma (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China;University of Chinese Academy of Sciences, Beijing, China), Chao Chen (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China), and Zhibin Yu (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China)*

Application of Artificial Intelligence in Military: From Projects Views .113
*YuLong Zhang (National University of Defense Technology), ZiJie Dai (32252 Unit), LongFei Zhang (National University of Defense Technology), ZhengYi Wang (31001 Unit), Li Chen (National University of Defense Technology), and YuZhen Zhou (National University of Defense Technology)*

A Comparative Study of Spark on the Bare Metal and Kubernetes .117
*Zhu Changpeng (Chongqing University of Technology), Han Bo (Xi'an Jiaotong University), and Zhao Yinliang (Xi'an Jiaotong University)*

Graph Layout Based on Network Embedding and Improved Dimensionality Reduction .125
*Beibei Han (National University of Defense Technology), Yingmei Wei (National University of Defense Technology), and Jinshen Dou (National University of Defense Technology)*

Research on High Precision Indoor Positioning Method Based on Low Power Bluetooth Technology .133
*Biao Yang (National University of Defense Technology), Chunhui Dai (National University of Defense Technology), Hongyun Ye (National University of Defense Technology), and Zhiqiang Long (National University of Defense Technology)*

Using Big Data to Monitor the Impact of the COVID-19 Epidemic on Notifiable Diseases Reported in China .138
*Ping Zeng (College of Systems Engineering, National University of Defense Technology), Kewei Yang (College of Systems Engineering, National University of Defense Technology), and Shuilian Chen (College of Systems Engineering, National University of Defense Technology)*

Robust Semantic Segmentation by Dense Fusion Network on Blurred VHR Remote Sensing Images .... 142
*Yi Peng (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China), Shihao Sun (Beijing Futong Dongfang Technology Co, Ltd, Beijing, China), Zheng Wang (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China), Yining Pan (College of Information Science & Technology, Beijing University of Chemical Technology, Beijing, China), and Ruirui Li (College of Information Science & Technology, Beijing University of Chemical Technology, Beijing, China)*

Regional Economic Vitality Evaluation Based on Open Statistic Data .146
*Nan Xiang (National University of Defense Technology), Yuming Huang (National University of Defense Technology), Xiangqian Xu (National University of Defense Technology), Zeshui Liu (National University of Defense Technology), Zhuoqian Li (National University of Defense Technology), and Yajie Dou (National University of Defense Technology)*

A Modified Framework Based on LSTM-FC for wind Turbine Health Status Prediction .154
*Shihui Zhang (National University of Defense Technology), Tao Zhang (National University of Defense Technology), Yajie Liu (National University of Defense Technology), Wenhua Li (National University of Defense Technology), and Mengda Cao (National University of Defense Technology)*

Fault Prediction Model Based on SOFPSE .161
*Peng Sun (National University of Defense Technology), Siya Chen (National University of Defense Technology), Guang Jin (National University of Defense Technology), and GuoJie Liu (National University of Defense Technology)*

Analyzing Network Traffic for Protocol Identification: An Ensemble Online Active Learning Method .167
*Hang Zhang (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Weike Liu (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Lijian Sun (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Liming Chen (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Zhaoyun Ding (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), and Qingbao Liu (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology)*

The Establishment of Commodity Success Model Based on Text Sentiment Analysis .173
*Jixuan Li (National University of Denfense Technology), Tianze Zheng (National University of Denfense Technology), Bo Li (National University of Denfense Technology), Xudong Hu (National University of Denfense TechnologyNational University of Denfense Technology), Liulei Shen (National University of Denfense Technology), and Xiaomin Zhu (National University of Denfense Technology)*

A Stable Algorithm Based on Pareto Optimal and Maximum Difference for Record Matching with Errors .180
*Xingyu Xu (Tsinghua University) and Wai Kin (Victor) Chan (Tsinghua University)*

Optimization of Joint Delivery Problem Based on Flow Control and Dynamic Programming Model..... 186
*Chongfa Zhang (National University of Defense Technology), Xiaomin Zhu (National University of Defense Technology), Wenqian Liang (National University of Defense Technology), Jingxuan Zhou (National University of Defense Technology), Liyaun Niu (National University of Defense Technology), Mingyin Zou (National University of Defense Technology), Zhao Wang (National University of Defense Technology), and Qiuyu Chen (National University of Defense Technology)*

A Random Walk Approach For Determining Classification Errors in Multiple Naïve Bayes Classifiers .192
*Clement Leung (Chinese University of Hong Kong, Shenzhen) and Longjun Hao (Chinese University of Hong Kong, Shenzhen)*

ACS: Auto-Tuning the Configurations of Structured Streaming Programs by Using SVM .199
*Jinhan Xin (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China; University of Chinese Academy of Sciences, Beijing, China), Chao Chen (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China), Xing Lian (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China; University of Chinese Academy of Sciences, Beijing, China; National Space Science Center, CAS, Beijing, China), Zheng Wang (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China), Yongkui Yang (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China), and Zhibin Yu (Shenzhen Institutes of Advanced Technology, CAS, Shenzhen, China)*

A Data-Driven Power System Supportability Assessment Method for Emergency Missions of Spacecrafts .207
*Yu Wang (National University of Defense Technology), Jianjiang Hui (Beijing Institute of Tracking and Telecommunication Technology), Tao Zhang (National University of Defense Technology), Wenhua Li (National University of Defense Technology), and Yajie Liu (National University of Defense Technology)*

DDGAN: Double Discriminators GAN for Accurate Image Colorization .214
*Shijie Yan (National University of Defense Technology), Yu Liu (National University of Defense Technology), Jingbei Li (National University of Defense Technology), and Huaxin Xiao (National University of Defense Technology)*

Social User Influence Measurement Algorithm Based on Multi-perspectives Analysis .220
*Shuaiheng Peng (Henan Key Laboratory of Cyberspace Situation Awareness), Fenlin Liu (Henan Key Laboratory of Cyberspace Situation Awareness), Daofu Gong (Henan Key Laboratory of Cyberspace Situation Awareness), and Jinmao Xu (Henan Key Laboratory of Cyberspace Situation Awareness)*

Embedding Attribute and Relation Information for Person Entity Alignment .228
*Can Wang (State Key Laboratory of Mathematical Engineering and Advanced Computing), Xiaonan Liu (State Key Laboratory of Mathematical Engineering and Advanced Computing), and Meijuan Yin (State Key Laboratory of Mathematical Engineering and Advanced Computing)*

Influence of User Emotion on Information Propagation with Public Sentiment in the Chinese Sina-Microblog .236
*Fulian Yin (Communication University of China), Xiaojian Zhang (Communication University of China), Mingjia Zhang (Communication University of China), Xinyu Xia (Communication University of China), Jiahui Lv (Communication University of China), and Jianhong Wu (York University)*

A Cloudedge-Combined Data Placement Strategy Based on User Access Regions .243
*Eryang Cao (Department of Computer Science and Technology, Tongji University & The Key Laboratory of Embedded System and Service Computing, Ministry of Education, Tongji University), Pengwei Wang (School of Computer Science and Technology, Donghua University), Chungang Yan (Department of Computer Science and Technology, Tongji University & The Key Laboratory of Embedded System and Service Computing, Ministry of Education, Tongji University), and Changjun Jiang (Department of Computer Science and Technology, Tongji University & The Key Laboratory of Embedded System and Service Computing, Ministry of Education, Tongji University)*

GAN-Based Complex Semantics Augmented Heterogeneous Information Network Embedding .251
*Yanli Hu (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Chunhui He (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Yang Fang (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Juan Peng (College of Systems Engineering, National University of Defense Technology), and Pengfei Zhang (College of Systems Engineering, National University of Defense Technology)*

DBSCAN is Semi-Spectral Clustering .257
*Yewang Chen (Huaqiao University)*

A Novel Two-Stage Network for Building Localization and Damage Level Assessment .265
*Bin Dai (National University of Defense Technology), Huaxin Xiao (National University of Defense Technology), and Maojun Zhang (National University of Defense Technology)*

Structure Prior Guided Deep Network for Compressive Sensing Image Reconstruction from Big Data .270
*Yang Peng (National University of Defense Technology), Hanlin Tan (National University of Defense Technology), Yu Liu (National University of Defense Technology), and Maojun Zhang (National University of Defense Technology)*

An Interception Efficiency Computing Method of CIWS Based on Exponential Damage Model .278
*Hui Xie (National University of Defense Technology, China), Shuai Zhao (National University of Defense Technology, China), Zhihao Chen (National University of Defense Technology, China), and Wen Zhou (National University of Defense Technology, China)*

The Use of Stochastic Models in the Analysis of Vast English Literary Data Corpora .282
*Chenjie Zeng (The Chinese University of Hong Kong, Shenzhen) and Clement Leung (The Chinese University of Hong Kong, Shenzhen)*

Risk Assessment for Search and Rescue Ships Based on Back Propagation Neural Network .289
*Weitao Xiong (National University of Defense Technology), Yu Guo (National University of Defense Technology), Qingqing Yang (National University of Defense Technology), Kewei Yang (National University of Defense Technology), Yingying Gao (National University of Defense Technology), and Ye Tian (Institution of Communication Technology)*

An Introductory Survey on Attention Mechanisms in Computer Vision Problems .295
*Jiahao Sun (National University of Defense Technology Changsha, China), Jie Jiang (National University of Defense Technology Changsha, China), and Yang Liu (National University of Defense Technology Changsha, China)*

Research on Multi-UAV Dynamic Mission Assignment Method Based on Clustering Algorithm .301
*Xi Chen (National University of Defense Technology), Songyang Lao (National University of Defense Technology), Xiaomin Zhu (National University of Defense Technology), Qingtao Pan (National University of Defense Technology), Jun Tang (National University of Defense Technology), and Peichen Zhang (National University of Defense Technology)*

Stability Analysis of a Rumor Propagation Model in Complex Networks with Holling II Type Functional Response .308
*Ze Yu (State Key Laboratory of Mathematical Engineering and Advanced Computing), Gang Zhou (State Key Laboratory of Mathematical Engineering and Advanced Computing), Junyong Luo (State Key Laboratory of Mathematical Engineering and Advanced Computing), Mengli Zhang (State Key Laboratory of Mathematical Engineering and Advanced Computing), and Ningbo Huang (State Key Laboratory of Mathematical Engineering and Advanced Computing)*

Moving Target Tracking for Single UAV In Open Outdoor Environment .317
*Zhenliang Xiao (National University of Defense Technology), Daqian Liu (National University of Defense Technology), Bowen Fei (National University of Defense Technology), Tong Men (National University of Defense Technology), Zhijian Zhou (National University of Defense Technology), Xiongtao Zhang (National University of Defense Technology), and Yun Zhou (National University of Defense Technology)*

A Push/Pull-Based System Scheduling Framework for Large-Scale Cluster ..... 325
*Bo Wang (College of Computer, National University of Defense Technology, Changsha, China), Zhiguang Chen (School of Data and Computer Science, Sun Yat-Sen University, Guangzhou, China), and Nong Xiao (College of Computer, National University of Defense Technology, Changsha, China)*

Weapon Equipment System Value Analysis Method Based on Massive Text Data ..... 330
*Hua Zhao (National University of Defense Technology), Yanghe Feng (National University of Defense Technology), Yingwu Chen (National University of Defense Technology), Jie Li (National University of Defense Technology), Yang You (National University of Defense Technology), and Dong Wang (Naval Aeronautical University)*

Extracting Socio-Economic Indicators from Chinese Text with a BERT-Based Model ..... 334
*Zhe Zhang (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Xin Zhang (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), Zhiyu Liu (Beijing Institute of Technology), Jin Fan (Science and Technology on Information Systems Engineering Laboratory, National University of Defense Technology), and Jie Yang (College of Software, University of Science and Technology of China)*

Online News Credibility Evaluation with Bayes Model ..... 340
*Yuehang Si (College of Systems Engineering, National University of Defense Technology), Ji Wang (College of Systems Engineering, National University of Defense Technology), Xingchen Dong (College of Systems Engineering, National University of Defense Technology), Guanlin Wu (College of Systems Engineering, National University of Defense Technology), Zhengyi Zhong (College of Systems Engineering, National University of Defense Technology), Gaoyu He (College of Systems Engineering, National University of Defense Technology), and Fuxu Chen (College of Systems Engineering, National University of Defense Technology)*

Model for Key Factors Influencing Consumer Buying Behavior Based on Online Shopping Reviews ..... 347
*Xingchen Dong (College of Systems Engineering, National University of Defense Technology), Yuehang Si (College of Systems Engineering, National University of Defense Technology), Xiaomin Zhu (College of Systems Engineering, National University of Defense Technology), and Yulong Li (College of Systems Engineering, National University of Defense Technology)*

Data-Driven Network Model of COVID-19 Epidemic in Italy 354
*Yuming Huang (College of Systems Engineering, National University of Defense Technology, Changsha, China), Bingfeng Ge (College of Systems Engineering, National University of Defense Technology, Changsha, China), Bin Zhao (College of Systems Engineering, National University of Defense Technology, Changsha, China), Yingying Gao (College of Systems Engineering, National University of Defense Technology, Changsha, China), Zeqiang Hou (College of Systems Engineering, National University of Defense Technology, Changsha, China), and Kewei Yang (College of Systems Engineering, National University of Defense Technology, Changsha, China)*

An Obfs-Based Tor Anonymous Communication Anline Identification Method 361
*Han Wang (Henan State Key Laboratory of Cyberspace Situation Awareness), Xiangyang Luo (Henan State Key Laboratory of Cyberspace Situation Awareness), and Yuchen Sun (Henan State Key Laboratory of Cyberspace Situation Awareness)*

Research on the Development of Maritime and Air Intelligence Big Data 367
*Tao Chen (Dalian Naval Academy), Shijun Rao (Dalian Naval Academy), and Jun Hong (Dalian Naval Academy)*

A Turn-Back Fault Diagnosis Method for Urban Rail System Based on Spark 372
*Siqi Ma (Beijing Jiaotong University), Runtong Zhang (Senior Member, IEEE), Xiaochen Wang (n/a), and Xin Wang (n/a)*

A Dataset for Bombus Lantschouensis Flight Action Analysis 377
*Yitian Zhang (College of Life Sciences, Sichuan University), Wenjie Li (Institute of Zoology, Chinese Academy of Sciences), Xiangxin Fu (College of Life Sciences, Sichuan University), Zhengzhong Huang (Institute of Zoology, Chinese Academy of Sciences), Yi Yang (Institute of Zoology, Chinese Academy of Sciences), and Siqin Ge (Institute of Zoology, Chinese Academy of Sciences)*

Study on Effectiveness of Naval Fleet of Sea-Surface Detection Under the Support of Reconnaissance-Satellite 382
*Jun Hong (Dalian Naval Academy), Qiuqiong Chen (Dalian Naval Academy), and Shijun Rao (Dalian Naval Academy)*

Hybrid Real-Time Fall Detection System Based on Deep Learning and Multi-sensor Fusion 386
*Xiaojie Lv (Zhejiang Sci-Tech University), Zongliang Gao (Zhejiang Sci-Tech University), Changshun Yuan (Beihang University), Meng Li (Shenzhen Technology University), and Chao Chen (Shenzhen Institutes of Advanced Technology)*

Research on Evaluation Method of Radar Anti-Jamming Effectiveness Based on Experimental Big Data 392
*Shuang Bai (Dalian Naval Academy), Hong Jun (Dalian Naval Academy), and Niu Zhiyong (Dalian Naval Academy)*

Chinese Text-Oriented Interpersonal Emotional Relationship Mining Based on Event Knowledge Model .396
*Yueqing Gao (Beijing Jiaotong University, The 54th Research Institute of China Electronics Technology Group), Huachun Zhou (Beijing Jiaotong University), Haiyang Ren (The 54th Research Institute of China Electronics Technology Group), Yuting Shen (National Space Science Center, Chinese Academy of Sciences, University of Chinese Academy of Sciences, The 54th Research Institute of China Electronics Technology Group), Jinliang Wu (The 54th Research Institute of China Electronics Technology Group), and Benhui Shi (The 54th Research Institute of China Electronics Technology Group)*

Formation Electronic Countermeasure Equipment Capability Assessment Based on Training Data .404
*Liying Wang (Dalian Naval Academy) and Qi Chen (Dalian Naval Academy)*

Improving the Generalised Few-Shot Learning by Semantic Information .408
*Liang Bai (National University of Defence Technology), Haoran Wang (National University of Defence Technology), and Yanming Guo (National University of Defence Technology)*

Prior Dirichlet Distribution Based Feature Selection in Naive Bayes on High Dimensional Data Classification .415
*Lifei Chen (College of Mathematics and Informatics, Fujian Normal University), Qingshan Jiang (Shenzhen Institutes of Advanced Technology, Chinese Academy of Science), Shun Guo (Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences), and Hui Chen (Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences; Shenzhen College of Advanced Technology, University of Chinese Academy of Sciences)*

Comparative Analysis of Scientific Research between China and the United States Based on Academic Big Data .421
*Shuai Hou (National University of Defense Technology), Qiancheng Jin (National University of Defense Technology), Jichao Li Li (National University of Defense Technology), and Jiang Jiang (National University of Defense Technology)*

Analysis on Profit Model of Free-Charging Equipment in Public Place .428
*Jiahao Wang (National University of Denfense Technology), Qiyou Shen (National University of Denfense Technology), Jiuyuan Zhu (National University of Denfense Technology), and Xiaomin Zhu (National University of Denfense Technology)*

A Strategy for Self-Organizing Localization of Minimalist Robots .435
*Yanzhong Zhou (National University of Defense Technology), Pan Wang (National University of Defense Technology), Juntao Li (National University of Defense Technology), Li Ma (College of Systems Engineering National University of Defense Technology), OuYang Ji (College of Systems Engineering National University of Defense), and Meng Wu (College of Systems Engineering National University of Defense Technology)*

The Discussion on the Evaluation Method of Battlefield Electromagnetic Environment Complexity .440
*Falong Wang (Dalian Naval Academy), Mingrong Chen (Dalian Naval Academy), and Liying Wang (Dalian Naval Academy)*

The Visual Localization Based on the Semantic Error Image ..... 443
*Xing Xin (National University of Defense Technology), Jie Jiang (National University of Defense Technology), and Lai Kang (National University of Defense Technology)*

Establishment of Wave Climate Datasets: Case Study for the Maritime Silk Road ..... 451
*Chong-Wei Zheng (Dalian Naval Academy Dalian, P.R. China), Guo Zhang (Dalian Naval Academy Dalian, P.R. China), Yun-Ge Chen (Dalian Naval Academy Dalian, P.R. China), Xiao-Lu Wang (The University of Auckland), Zi-Niu Xiao (Institute of Atmospheric Physics), and De-Lin Li (Guangdong Ocean University)*

The Construction of Cognitive Graph of Integrated War Emergency System ..... 457
*Wei Shi (Academy of Military Sciences), Yake Wang (National Defense University), Yanghe Feng (College of Systems Engineering National University of Defense Technology), and Wenguan Gu (Academy of Military Sciences)*

Intelligent Collaborative Architecture Design Based on Unmanned Combat Swarm ..... 463
*Ting Duan (National University of Defense Technology, China), Weiping Wang (National University of Defense Technology, China), Xiaobo Li (National University of Defense Technology, China), Tao Wang (National University of Defense Technology, China), Xiaofan Chen (National University of Defense Technology, China), and Xin Zhou (National University of Defense Technology, China)*

**Author Index** 471
