TAPPI

Papermakers Conference 2006

April 24-27, 2006 Atlanta, Georgia, USA

Volume 1 of 2

Printed from e-media with permission by:

Curran Associates, Inc. 57 Morehouse Lane Red Hook, NY 12571 www.proceedings.com

ISBN: 978-1-60423-585-2

Some format issues inherent in the e-media version may also appear in this print version.

ABOUT TAPPI

TAPPI is the leading technical association for the worldwide pulp, paper, and converting industry. TAPPI'S FOCUS FOR SUCCESS

TAPPI'S MISSION

...to engage the people and resources of our Association in providing technically sound solutions to the workplace problems and opportunities that challenge our current and future members. TAPPI'S VISION

...is to make a significant difference in the professional lives of our members. TAPPI provides its members rapid access to:

• the largest international group of technically experienced people in the industry

• the most comprehensive collection of reliable technical information and knowledge in the industry

• the highest quality products and services created to meet the needs of people who solve technical problems in the industry.

To learn more about TAPPI, call us at 1.800.332.8686 (U.S.), 1.800.446.9431 (Canada) or +1.770.446.1400 (International). Or, visit our website at <u>www.tappi.org</u>.

STATEMENT OF COPYRIGHT

Statements of fact and opinion expressed in TAPPI publications are those of the authors and TAPPI assumes no responsibility for them; they are not intended nor should they be construed as solicitation of or suggestion by TAPPI for any agreed-upon course of conduct or concerted action of any kind. Within the context of this work, the author(s) may use as examples specific manufacturers of equipment. This does not imply that these manufacturers are the only or best sources of the equipment or that TAPPI endorses them in any way. The presentation of such material by TAPPI should not be construed as an endorsement of or suggestion for any agreed upon course of conduct or concerted action.

2006 TAPPI Papermakers Conference

Table of Contents

Volume 1

SESSION 2: ENERGY KICK-OFF SESSION

- 1 Paper Machine Energy Considerations Richard A. Reese
- 35 Opportunities for Energy Conservation in Paper Drying Gregory L. Wedel

SESSION 4: BILL BABBINGTON MAINTENANCE ROUNDTABLE

64 Maintenance Roundtable Jerry D. Kahn and Wade G. Parks

SESSION 5: MONITORING AND BENCHMARKING

- 67 Paper Machine Energy Monitoring Jeffrey R. Reese
- 77 Mill-Wide Energy Conservation for Process Optimization M. Hassan Loutfi, P.E. and Yolanda Ruzicka
- 83 Using Thermal Imaging to Aid in Energy Savings in Paper Mills Robin J. Thon
- 90 Energy Conservation Needs Multi-faceted Approach Theodora Retsina

SESSION 6: OPTIMIZING HEADBOX FORMING & PRODUCTION

- **104** Assessing the Slice in Terms of Turbulence Control and Sheet Quality Timothy Wei, Hannu Eloranta, Pentti Saarenrinne and T. Y. Hsu
- **111 Towards to a Better Understanding of Pulp Suspension Flows** Leandro Salgueiro, Jr., Martine Rueff and Jean-Claude Roux
- 124 Development of Flexible Fiber Simulations Dewei Qi
- **146** Effects of Counter Blades on Paper Properties: Newsprint Jimmy H. Jong and Vaughn J. Wildfong
- **3-D Simulation of Paper Structure in View of Optimizing Paper Production** R. Vincent, Martine Rueff and Christian Voillot

SESSION 7: IMPROVING MACHINE EFFICIENCY

182 Optimizing Sizing and Retention Efficiency in Bleached Board Applications Lester W. House, Michael T. Plouff and Henry J. Kiel

- **187** Immediate and Efficient Mixing of Wet End Additives Close to the PM Headbox Jouni P. Matula, Jari Käyhkö and Timo Ruuska
- 206 Tracking and Optimizing Reel to Winder Productivity in a SuperCalendered Paper Mill Stuart R. Loewen. Robert K. Stevens and Brian Delvecchio

SESSION 8: IMPACT OF MILL WATER CLOSURE ON MICROBIAL AND ODOR CONTROL: WHAT STINKS?

- 214 Minimizing Odors in the Papermaking Process Janet H. Woodward, Ph.D. and M. Tod Stoner
- 227 Undesirable Odors in Finished Paper and Paperboard Products Linda Robertson

SESSION 10: CLOTHING PANEL

- **236 Benefits of Paper Machine Clothing Application on Energy Consumption** Richard A. Reese
- 240 Benefits of Paper Machine Clothing Application on Energy Consumption Jim D. Maggard
- 244 Benefits of Paper Machine Clothing Application on Energy Consumption David G. McVey
- 250 Benefits of Paper Machine Clothing Application on Energy Consumption Daniel Hedou
- 256 Benefits of Paper Machine Clothing Application on Energy Consumption Luc Farley

SESSION 11: DEVELOPING SUCCESSFUL SUPERVISORS

New Supervisor Requirements Karen Kemp

SESSION 12: WET END MEASUREMENT AND CONTROL

- 264 Consistency Control: Systematic and Scientific Design Leads to Many Different Strategies Jack C. Tippett
- **299 Optimizing Press Section and Paper Machine Performance** Louis Gentile and Andy J. Kahra
- 323 Optimizing Machine Efficiency Through Fiber Quality Management Andrea Hagedorn, Jose Antonio Orccotoma, Peter Schueler, Bob Snow and Juha Jarvinen

SESSION 13: THE ROLE OF PAPER MACHINES IN MILL-WIDE ENERGY CONSERVATION EFFORTS

343 Panel Discussion Paul M. Tucker

- 346 Panel Discussion Scott B. Pantaleo
- 351 Panel Discussion Thomas E. Wroblewski

SESSION 14: MAKING THE MOST OF YOUR KNOWLEDGE

353 The Keys to Successful Evaluations. Leadership and Project Management Sal Mirza, David R. Jones and Rosa M. Covarrubias-Mirza

SESSION 15: FORMING TUTORIAL: NEW FORMING TECHNOLOGY FORUM

- 364 Fourdrinier: Principles and Practices Ronald J. Buck
- 377 Principles of Twin-Wire Forming Richard J. Kerekes
- **396** Overview of Top-Wire Forming Vaughn J. Wildfong

SESSION 16: ELECTRICAL ENERGY CONSERVATION

- **418 Energy Considerations for New and Existing Paper Machine Vacuum Systems** Douglas F. Sweet
- 424 Strategies for Improve Pump Efficiency and Life Cycle Performance Mike Pemberton
- 442 Stock Mixing in the New Millennium Kurt Schneider
- 447 Energy Savings Through Optimized Refining Shawn R. Berg

SESSION 17: OPTIMIZING GAS DRYING

- 455 Effective Usage of Energy in Tissue Drying, Part 1: Air System, Heat Recovery and Cogeneration Joerg Bauboeck
- 466 Part 2: Practical Ways to Assess in Field Energy Deficiencies of Yankee Hood Hot Air Systems George Nowakowski

Volume 2

SESSION 18: FORMING CASE STUDIES

- 475 Case Study: Vibrating Foil Technology Improves Drainage and Sheet Structure on Corrugating Medium Gary J. Peterson, Marc F. Foulger and Guy Bedard
- **479** Former Rebuild: Khanna Paper PM4, Amritsar, India Vaughn J. Wildfong and Anil Budhiraja

- **484** Former Upgrade, Daehan Paper PM3 Frank X. Swietlik
- 515 Hamburger Spremberg PM1, Gap Former for Linerboard James A. Smith and Akihito Nagano
- 521 Forming Sections-Quality and Productivity Potentials Kenneth C. Stager, C. Mraz, T. Ruehl and G. Bacovsky

SESSION 19: WATER CONSERVATION

- **532** Energy and Water Savings from the Paper Machine Saveall John O. Milliken, P.E.
- 541 Energy Savings Through White Water Reuse In Paper Machine Showers David R. McGowan
- 556 Water and Energy Conservation in the Stock Preparation of Paper Machines Helmuth Gabl

SESSION 20: PRESSING & DRYING IMPROVEMENTS

- 576 Increase Smoothness, Decrease Energy Dennis G. Gaddy
- 585 Innovative Paper Machine Clothing Improves Machine Efficiency Bruce W. Janda and James E. Heaton
- 593 Stora Enso Rebuilds For Energy Savings: PM 35 Case Study Thomas E. Wroblewski

SESSION 23: PRESS SECTION OPTIMIZATION

- 599 Engineered Nip Design Eric J. Gustafson and Glen Harvey
- 610 Reduction in Energy Costs by Press Optimization Paul McCarten
- 626 Energy Efficiency of Steam Showers Philip H. Wells

SESSION 24: EFFECTS OF CHEMISTRY ON PAPER MACHINE ENERGY CONSUMPTION

- 657 Novel Wet End Technology Simplifies System Chemistry, Improves Performance, and Reduces Energy Consumption Robert C. Yule and Frank J. Sutman
- 671 New Efficient Mixing System of Papermaking Additives Cuts Fresh Water Consumption Jouni P. Matula
- 683 Fiber Modification with Enzymes: Improvements in Energy Consumption, Fiber Rationalization and Quality Philip M. Hoekstra and Douglas W. Yoder

698 The Effect of Polymer Conformation on Microparticle Efficiency in Drainage and Retention Michelyn McNeal and Hiroki Nanko

SESSION 25: UNDERSTANDING MARKETS

- 721 Dimensions of Innovation in the Pulp and Paper Manufacturing Industry: Insights from the 2005 Georgia Manufacturing Survey Jan Youtie
- 742 Inventory, Price, and Output in the Linerboard Industry Haizheng Li and Zhang, Feng
- 762 Mapping the Morphology of Market Pulps Worldwide Alan F. Button
- 777 An Investigation into Papers and Digital Printing White, David A., LeMaire, Bernice A. and Mary Anne Evans

SESSION 26: MEASUREMENT & ANALYSIS

- **804** Attack Your Paper Making Issues With CAT (Cluster Analysis Tool) Joel M. Cason, Jr.
- 821 Benefits and Advantages of Automated Paper Testing Michael J. Conlon
- 836 Physical Property Prediction using StatMorf Joseph J. O'Leary

SESSION 27: DRYING ENERGY CONSERVATION

- 856 Optimizing Steam Use in the Dryer Section Kenneth C. Hill
- 883 Dryer Optimization and Energy Savings Pekka Kormano
- **901 Guide to Energy Efficient Paper Machine Air Systems** David A. Young, P.E.
- 917 Energy Cost Analysis and Optimization of Open, Closed and High Humidity Hoods and Related Air Systems Robert B. Bates
