INTERNATIONAL SOCIETY FOR COMPUTERS AND THEIR APPLICATIONS

19th International Conference on Computer Applications in Industry and Engineering

November 13-15, 2006
Las Vegas, Nevada, USA

TECHNICAL PAPER INDEX

IMAGE PROCESSING

Evaluation Methodology for Virtual Reality Software Tools

Edwardo Islas, Miguel Perez, Benjamin Zayas, Carlos Espinosa, Rita Beltran and

Evelyn Vega (Instituto de Investigaciones Eléctricas, Mexico) 1

Image Compression of Facial Photographs based on BTC/TSVQ Local Processing

Mohy Mahmoud, Amr Goneid and Suhair Amer (The American University in Cairo, Egypt) 8

A Novel Method for Person Identification by Comparing Retinal Patterns

Rezwanur Rahman (United International University, Bangladesh), Morshed U. Chowdhury (Deakin

University, Australia), S M Raiyan Kabir and M Rezwan Khan (United International University, Bangladesh) . 14

Achieving Near-Optimal Distortion Reduction with Invisible Watermarking RSSI Algorithms

Stephen Krebsbach (Dakota State University, USA) and George Hamer (South Dakota State

University, USA) 18

ModVis: an Information Visualization Tool for Gene Module Discovery

Justin Molineaux (Catholic University of America, USA), Jianhua Xuan, Ting Gong, Yitan Zhu

(Virginia Polytechnic Institute and State University, USA), Eric Hoffman (Children's National Medical

Center, USA), Robert Clarke (Georgetown University, USA) and Yue Wang (Virginia Polytechnic Institute and State University, USA) 24

Research of the Novel Fast Dynamic Target Detection Method

Lingjia Gu, Shuxu Guo (JiLin University, China), Jin Duan, Wenbo Jing (ChangChun University

of Science and Technology, China) and Ruizhi Ren (JiLin University, China) 32

SENSOR APPLICATIONS

Adaptive Coverage in Heterogeneous Sensor Network

Mahmuda Naznin and Kendall E. Nygard (North Dakota State University, USA) 37

**A COTS Framework for Sensor Fusion Using Dynamic Bayesian Networks in
Livestock Production**

Jens A. Hansen, Thomas D. Nielsen and Henrik Schiøler (Aalborg University, Denmark) 41

Computer-Aided Item Selection for the Cycle Counting Procedure

Kemal Taljanovic (Archway Marketing Services, USA) and Mehmed Kantardzic (University of

Louisville, USA) 48

HIGH PERFORMANCE COMPUTING

Performance Modeling of Hierarchical Memories

Marwan Sleiman, Lester Lipsky and Kishori Konwar (University of Connecticut, USA) 54

Modeling the Dynamic Load in Distributed Control Systems (DCS)

Ahmed M. Mohamed (South Valley University, Egypt) and S. A. Younies (Aswan Hydro Power Plant, Egypt) 60

Task-Migration Support for Parallel Computing on Shared Virtual Memory Clusters

Angkul Kongmunvattana (Columbus State University, USA) 66

A Novel Parallel Hardware and Software Solution for a Large-Scale Biologically Realistic Cortical Simulation

Frederick C. Harris, Jr., Mark C. Ballew, Jason Baurick, James Frye, Lance Hutchinson, James G. King, Philip H. Goodman and Rich Drewes (University of Nevada, Reno, USA) 72

Scheduling Multi-Dimensional Loops in a Computer Cluster

K. Mayfield, A. Joseph, S. Black, H. Bui and N. Passos (Midwestern State University, USA) 78

A Comparative Study of Replacement Algorithms used in the Scalable Asynchronous Cache Consistency Scheme

Ramzi A. Haraty and Lana Turk (Lebanese American University, Lebanon) 83

DATA MINING

Combining Spatial Data from Multiple Data Sources

Hsine-Jen Tsai (Fu Jen Catholic University, Taiwan, R.O.C.), Les Miller, Hua Ming, Becca Wernhoff and Sara Nusser (Iowa State University, USA) 89

Statistical Steganography and Steganalysis of Database Tables

George Hamer (South Dakota State University, USA) and Stephen Krebsbach (Dakota State University, USA) 95

Clustering via a Kernel Fuzzy Connectivity Matrix

Carl G. Looney (University of Nevada, Reno, USA) 102

Classification Rule Extraction Approach based on Homogeneous Training Samples

Prabhat Mahanti (University of New Brunswick, Canada), D. K. Swami (Ashok Technological Institute, India) and Mohammed Al-Fayoumi (University of Graduate Studies, Jordan) 108

Knowledge Discovery on Multi-Relations Distributed Databases

M. Mehdi Owrang-O. (American University, USA) and L. L. Miller (Iowa State University, USA) 114

A Feature Recognition Approach for Mold Machining

Xiaoming Ding, Liping Zhang, Yiqiang Lu and Ridong Jiang (Institute of High Performance Computing, Singapore) 120

AI APPLICATIONS

Surveillance of a Complex Heterogeneous System using Software Agents - Case Study on a Hydroelectric Power Plant Chain

Honoriu Vălean, Liviu Miclea and Szilárd Enyedi (Technical University of Cluj-Napoca, Romania) 126

Enhancing Information Security Risk Management with Data Mining and Fuzzy Logic Techniques

M. Hentea (USA, mhentea@yahoo.com) 132

Application of Soft Solutions for Signal Analysis

D. L. Hudson and M. E. Cohen (University of California, San Francisco, USA) 140

A Telephone Communication Agent for Agent/User Interaction <i>Ahmed Kamel (Concordia College, USA)</i>	145
Material Processing for ADI Data using Neuro Fuzzy System <i>Deok H. Nam (Wilberforce University, USA), Harpreet Singh and Susil Putatunda (Wayne State University, USA)</i>	151
Efficiently Evolving Multiple Robots Using Distributed Genetic Algorithms <i>Ekkasit Tiamkaew (Naresuan University, Thailand) and Jirakhom Ruttanavakul (University of Nevada, Reno, USA)</i>	157

SOFTWARE ENGINEERING

A Three Poled Model for Web Applications <i>Hamzeh K. Al Shaar and Ramzi A. Haraty (Lebanese American University, Lebanon)</i>	162
Complexity Issues in Control Software Design: A Practical Perspective <i>Vic Grout and Stuart Cunningham (University of Wales, NEWI, UK)</i>	167
A Multiobjective Evolutionary Approach for Constrained Joint Source Code Optimization <i>N. Z. Azeemi (University of Technology Vienna, Austria)</i>	175
An Empirical Study of the Boundary Values of the Object-Oriented Metrics <i>Raed Shatnawi and Wei Li (The University of Alabama in Huntsville, USA)</i>	181
Simple Factory Design Pattern by Auto-registration and Applications <i>Ji Cao and Shashi S. Marikunte (Southern Illinois University, USA)</i>	187
Measuring Class Cohesion: An Empirical Approach <i>P. K. Mahanti (University of New Brunswick, Canada), K. Rajnish and V. Bhattacharjee (Birla Institute of Technology, India)</i>	193

MODELING

ZoneLib: A Simulink Library for Modeling Zone Divided Climate Dynamics <i>Jan Jakob Jessen and Henrik Schiøler (Aalborg University, Denmark)</i>	199
Analysis of Fused Deposition Modeling Parts <i>Arumaikkannu G., Sreeramulu M., and Gowri S. (Anna University, India)</i>	205
Computer Virus Signature Model for Detection Engine <i>Kongkiat Hirankerd and Pattarasinee Bhattarakosol (Chulalongkorn University, Thailand)</i>	211

COMPUTERS IN EDUCATION

Usability of AgentSheets for Creating Educational Simulation <i>Kyu Han Koh, Sundeeep Gopalaswamy, Ananth Srirangarajan, Jingren Jin and Cheryl D. Seals (Auburn University, USA)</i>	218
Teaching Programming with Animated 3D Scenes <i>Barrett M Shiff (Nova Southeastern University, USA)</i>	224
A Virtual Reality System for Hydroelectric Generating Unit Maintenance Training and Understanding <i>Alcides P. Junior, Manoel R. Filho, Fábio V. Bezerra, Marcos A. Souza, Pebertli A. Barata, Messias A. Nascimento (Federal University of Pará, Brazil) and Marcelo S. Hounsell (State University of Santa Catarina, Brazil)</i>	230

COMPUTER NETWORKS

Introducing Synchronisation in Deterministic Network Models <i>Henrik Schioler, Jan Jessen, Jens Dalsgaard and Kim G. Larsen (Aalborg University, Denmark)</i>	236
Security Enhancement for SCADA Communication Protocols Using Augmented Vulnerability Trees <i>Sandip C. Patel, James H. Graham and Patricia A. S. Ralston (University of Louisville, USA)</i>	244
A Constrained Version of a Clustering Algorithm for Switch Placement and Interconnection in Large Networks <i>Vic Grout and Stuart Cunningham (University of Wales, NEWI, UK)</i>	252
Congestion Detection and Control with Real-Time Streaming Media <i>Teck-Kuen Chua and David C. Pheanis (Arizona State University, USA)</i>	258
A Simulation of Power Management Algorithm in Wireless Transmission to Guarantee QoS <i>Ahmed H. Salem (Hood College, USA), Anup Kumar and Adel S. Elmaghraby (University of Louisville, USA)</i>	264
Security-Enhanced Remote Terminal Units for SCADA Networks <i>Jeffrey L. Hieb and James H. Graham (University of Louisville, USA)</i>	271

SPECIAL SESSION on SOFTWARE ENGINEERING

A Process Modeling System Aimed at Large-scale Collaborative Design over Networks <i>Thomas Wisniewski and Wenying Feng (Trent University, Canada)</i>	277
Design and Description of a Tool towards a Software Engineering Experiment <i>Narayan Debnath, Nripendra Rai (Winona State University, USA), Haesun K. Lee and Ilhyun Lee (University of Texas of the Permian Basin, USA)</i>	283
An Autotester for the Modified Commission Function <i>Narayan Debnath, Joyati Debnath (Winona State University, USA), Mark Burgin (University of California, Los Angeles, USA) Joshua Wilson and Joseph Cropper (Winona State University, USA)</i>	289
OQL-based Data Mining Query Language <i>Rekha Bhowmik (Winston-Salem State University, USA)</i>	295
A New Modeling Notation for System Design and Workflow Patterns <i>Thomas Wisniewski and Wenying Feng (Trent University, Canada)</i>	301
Integration of Multidisciplinary Specialized Applications using Components <i>Alfredo Sánchez, Dionisio Suárez and Agustín Quintero (Instituto de Investigaciones Eléctricas, Mexico)</i>	307

COMPUTER APPLICATIONS

A Case Study of Monitoring Construction Operations using Automated Position Tracking System <i>Y. Y. Su and L. Y. Liu (University of Illinois at Urbana-Champaign, USA)</i>	312
Designing of Building Black-Boxes to Support Disaster Rescue & Recovery <i>Min-Hsuan Tsai, Liang Y. Liu and Feniosky Peña-Mora (University of Illinois at Urbana-Champaign, USA)</i>	318
Transistor-Mapped Binary Decision Diagram for CMOS Circuits <i>Chia-Pin R. Liu (Jackson State University, USA)</i>	324

NEURO NETWORKS APPLICATIONS

Co-evolutionary Robotics using Two Kinds of Neural Networks

Masaya Yoshikawa and Hidekazu Terai (Ritsumeikan University, Japan) 330

Fault Detection and Isolation Using Artificial Neural Networks

In Soo Lee (Sangju National University, Korea) and Gordon K. Lee (San Diego State University, USA) ... 335

Humidity Estimation Using Neural Network from Sensor Data

Kirthi L. Sreenivasan (Naval Sea Logistics Center Detachment, USA), Thomas Philip (Mississippi State University, USA), Sunil K. Khijwania (Indian Institute of Technology-Guwahati, India) and Jagdish P. Singh (Mississippi State University, USA) 341

COMPUTER SECURITY

Security Concerns with Mobile IPv6

Y. Chen, R. Vaughn and R. Ramkumar (Mississippi State University, USA) 346

A Security Engineering Process for Vulnerability Assessment

Wei Li (Nova Southeastern University, USA) 352

Securing Wireless Networks with Enhanced WEP

Ramzi A. Haraty and Walid El Horr (Lebanese American University, Lebanon) 358

Advanced Remote Password Authentication and Key Agreement using Smart Card

Rui Jiang, Aiqun Hu, Xiaohui Yang (Southeast University, P.R. China) 364
