

TAPPI Press

# TAPPI PLACE 2006

**POLYMERS • LAMINATIONS • ADHESIVES  
COATINGS • EXTRUSIONS**

September 17-21, 2006  
Cincinnati, Ohio, USA

Volume 1 of 2

**Printed from e-media with permission by:**

Curran Associates, Inc.  
57 Morehouse Lane  
Red Hook, NY 12571  
[www.proceedings.com](http://www.proceedings.com)

**ISBN: 978-1-60423-685-9**

Some format issues inherent in the e-media version may also appear in this print version.

## ABOUT TAPPI

TAPPI is the leading technical association for the worldwide pulp, paper, and converting industry.

### TAPPI'S FOCUS FOR SUCCESS

#### TAPPI'S MISSION

...to engage the people and resources of our Association in providing technically sound solutions to the workplace problems and opportunities that challenge our current and future members.

#### TAPPI'S VISION

...is to make a significant difference in the professional lives of our members.

TAPPI provides its members rapid access to:

- the largest international group of technically experienced people in the industry
- the most comprehensive collection of reliable technical information and knowledge in the industry
- the highest quality products and services created to meet the needs of people who solve technical problems in the industry.

To learn more about TAPPI, call us at 1.800.332.8686 (U.S.), 1.800.446.9431 (Canada) or +1.770.446.1400 (International).

Or, visit our website at [www.tappi.org](http://www.tappi.org).

### STATEMENT OF COPYRIGHT

Statements of fact and opinion expressed in TAPPI publications are those of the authors and TAPPI assumes no responsibility for them; they are not intended nor should they be construed as solicitation of or suggestion by TAPPI for any agreed-upon course of conduct or concerted action of any kind. Within the context of this work, the author(s) may use as examples specific manufacturers of equipment. This does not imply that these manufacturers are the only or best sources of the equipment or that TAPPI endorses them in any way. The presentation of such material by TAPPI should not be construed as an endorsement of or suggestion for any agreed upon course of conduct or concerted action.

## TABLE OF CONTENTS

### VOLUME 1

#### **Session 2: Additives & Applications**

*Session Co-Chairs: Amy Rode, Voridian Div. Eastman Chemical; Jeff Wooster, Dow Chemical Company*

Non-Polar Process Aids Improve Extrusion Productivity .....	1
<i>Edward P. Richard, Sasol Wax Americas</i>	
Particle Size: The Revolution in Fluoropolymer Process Aids .....	17
<i>Steven Oriani, DuPont Dow Elastomers LLC</i>	
The Effects of Anti-Blocking Agents on the Performance of Polymer - Process Aids.....	32
<i>Brian W. Smith, Dupont Performance Elastomers</i>	
Additives for Polyolefin Film Products: An Overview of Chemistry and Effects .....	51
<i>Yijun Ye, Ciba Specialty Chemicals</i>	

#### **Session 3: Fresh Cut Produce Packaging**

*Session Co-Chairs: Lan Nguyen, Plastimin; Thomas Fu, LBP Manufacturing, Inc.*

An Overview of Fresh Cut Produce Package - Challenges and Trends .....	72
<i>Jeffrey S. Brandenburg, The JSB Group</i>	
PLA - A Renewable/Sustainable Packaging Option.....	82
<i>Robert Green, NatureWorks LLC</i>	
Fresh Cut Product Packaging: New Developments in PLA Films .....	97
<i>Rich Eichfeld, Plastic Suppliers Inc.</i>	

#### **Session 4: Extrusion Coating Machinery**

*Session Chair: James Foederer, Extrusion Die Industries LLC*

Advances in Extrusion Coating Die System Technology.....	108
<i>Sam G. Iuliano, Extrusion Dies Industries LLC</i>	
Low or No Cost Extrusion Coating Improvements.....	124
<i>Louis W. Piffer, Davis-Standard LLC</i>	
Critical Role of On-line Gauging System in Extrusion Coating Troubleshooting.....	150
<i>Ken Townsend, EGS Gauging</i>	

#### **Session 5: Resins & Film Applications**

*Session Chair: Warren Durling, Clorox*

The Effect of Calcium Carbonate Concentrate Base Resin Melt Index on Linear Low Density Film Properties .....	164
<i>Amy B. Hitchcock, Voridian Div Eastman Chemical</i>	
Toughening Clear Polypropylene with Styrenic Block Copolymers.....	190
<i>David R. Hansen, Kraton Polymers</i>	

The Use of Metallocene Polyethylene in Coextruded Lamination Films ..... 203  
*Richard W. Halle, ExxonMobil Chemical Co.*

### **Session 7: Permeation & Diffusion Fundamentals**

*Session Chair: Michelle Stevens, MOCON*

Relationship between Mass Transfer of Permeants and Polymer Processing..... 220  
*Maria Rubino, Michigan State University*

Water Vapor Permeation Testing of Ultra-Barrier: Limitation of Current  
Methods and Advancements Resulting in Increased Sensitivity ..... 259  
*Michelle Stevens, MOCON Inc.*

Selection of Packaging Materials Based on Understanding Basic Concepts  
Related to Permeation ..... 271  
*Kay Cooksey, Clemson University*

Flavor and Aroma Permeation Concepts and Applications ..... 292  
*Duncan O. Darby, Clemson University*

### **Session 8: European Exchange**

*Session Chair: Gunter Schubert, Hydro Aluminium*

Bimodal mLLD---New Speciality Polyethylene for Extrusion Coating ..... 310  
*Erkki Laiho, Borealis Polymers Oy*

Ultra Versatile Adhesives to Broaden the Possibilities of Extrusion Lamination ..... 333  
*Jerome Pascal, ARKEMA Session Moderator*

How Aluminium Foil Improves the Hot Tack of Packaging Laminates ..... 346  
*Gunter Schubert, Hydro Aluminium Deutschland GmbH*

The Unique Performance of PVDC - a Proven Material Displays its  
Innovation Potential ..... 361  
*Matthias Huter, Solvin GMBH & Co. Kg*

### **Session 9: Extrusion Coating Troubleshooting**

*Session Chair: Gary Cheney, Lyondell Chemical Company*

Minimizing the Generation of Fines and Streamers through  
Proper Pneumatic Conveying ..... 375  
*Stephen Dehlinger, Lyondell Chemical Company*

Troubleshooting Corona Treatment Issues ..... 387  
*Rory A. Wolf, Enercon Industries*

Polyethylene Gels: A Primer ..... 408  
*Norman D. Aubee, Nova Chemicals Speaker*

It Ran Fine the Last Time, What's Different ..... 438  
*John L. Kelley*

### **Session 10: Mixing/Screws & Designs**

*Session Chair: Eldridge M Mount III, Emmount Technologies*

Twin Screw Extrusion Systems to Compound/Devolatilize and Extrude  
Film/Sheet in a One-step Operation ..... 444  
*Charlie Martin, Leistritz*

Effective Feed Screw Design Through Simulation ..... 449  
*Beth M. Wells, Black Clawson-Egan*

Advancements in Screw Design Technology for the Blown Film Industry .....	471
<i>Jeff A. Myers, Robert Barr Inc.</i>	
Impact of Rheological Properties on Melting rate Calculations .....	479
<i>Eldridge M. Mount III, Emmount Technologies</i>	
<b>Session 11: Transparent Barriers Applications and Technologies</b>	
<i>Session Chair: Roger Kaas, Gehrke, Kaas &amp; Associates LLP</i>	
Clear Barrier at Atmospheric Pressure .....	487
<i>Rory A. Wolf, Enercon Industries</i>	
What is the Best Way to Process Clear Retort Pouches Through the Value Chain? .....	496
<i>Dante F. Ferrari, Celplast Metallized Prod. Ltd.</i>	
Clear Barriers and High Volume Production.....	512
<i>Rainer Ludwig, Applied Films</i>	
Trends and Opportunities in the European Clear Barrier Market .....	530
<i>Oliver Vetter, Alcan CERAMIS Business Unit</i>	
<b>Session 12: Film Extrusion Troubleshooting</b>	
<i>Session Chair: Norm Aubee, NOVA Chemicals</i>	
Troubleshooting Extrusion Processes with Hands-on Computational Procedures .....	541
<i>Natti S. Rao Plastics Solutions International</i>	
Troubleshooting Extrusion Problems in Coextrusion Film Applications .....	559
<i>Kang Karen Xiao, Brampton Engineering, Inc.</i>	
On-line Gauging as a Process Troubleshooting Tool.....	572
<i>Theodore J. Schnackertz Sr., NDC Infrared Engineering</i>	
Troubleshooting the Film Extrusion Process-The Principles Involved-One View .....	582
<i>Ealer George, Consultant</i>	
<b>Session 13: AIMCAL Exchange</b>	
<i>Session Chair: Duane Smith, Egan-Davis Standard</i>	
Nanotechnology Functionality in Flexible Packaging; New Methods of Manufacturing .....	638
<i>Kent Coulter, Southwest Research Institute</i>	
Innovative Water-Based Coatings for Flexible Packaging.....	650
<i>Bob Poletti, Michelman Inc.</i>	
Chemical Analysis of the Polyester/Metal Surface of a Delamination Failure.....	663
<i>Eldridge M. Mount III, Emmount Technologies</i>	
<b>Session 16: Technologies and Equipment</b>	
<i>Session Chair: Joseph DiGiacomo, Flynn Burner</i>	
Advanced High-Efficiency and Low Emission Gas-Fired Drum Drying Technology .....	669
<i>Yaroslav Chudnovsky, Gas Technology Inst.</i>	

## VOLUME 2

What is the Best Roller Size for My Machine? .....	692
<i>David R. Roisum, Finishing Technologies Inc.</i>	
Application of Reticulated Metal Foam to Gas Fired Infrared Burners .....	705
<i>Ted Cookson, Porvair Advanced Materials</i>	
Don't Let Profits Go Up in Smoke: Modern Air Pollution Control Systems Reduce Energy Costs and Destroy Higher Levels of Air Pollutants .....	716
<i>Charles M. Martinson, The CMM Group LLC</i>	
<b>Session 17: Radtech Exchange</b>	
<i>Session Chair: Steve Lapin, Northwest Coating</i>	
Ink Bonding Properties of Electron Beam Cured Adhesive Laminates for Flexible Packaging.....	734
<i>Stephen C. Lapin, Northwest Coatings Corp.</i>	
Electron Beam Gas and Aroma Barrier Technology .....	750
<i>Imtiaz J. Rangwalla, Energy Sciences Inc.</i>	
UV & EB Inks for Food Packaging Materials: Going the Extra Mile .....	765
<i>Thomas J. Dunn, Printpack Inc.</i>	
Low Extractable, Low Odor, Energy Curable Products for Food Packaging Applications .....	777
<i>JoAnn Arceneaux, Cytec Surface Specialties</i>	
<b>Session 18: New Development Adhesive Laminate &amp; Coating of Flexible Packaging Material</b>	
<i>Session Chair: Don Teich, Davis-Standard, Black Clawson Converting Machinery</i>	
New Metering Pump Technology for Laminating Adhesives.....	794
<i>Bruce Menk, Fluidic Systems</i>	
Coating Technology for Flexible Packaging .....	810
<i>Lee A. Ostness, Davis-Standard Black Clawson Converting Machinery</i>	
The Role of Adhesives in the Retort Pouch.....	827
<i>Thomas R. Mueller, Rohm and Haas Company</i>	
Dryer Technology for Flexible Packaging Laminations .....	847
<i>Todd Rueckl, MEGTEC Systems</i>	
<b>Session 19: Interactive Packaging Smart Packaging</b>	
<i>Session Chair: Bob O'Boyle, Sun Chemical Corporation</i>	
Enabling Active Packaging .....	865
<i>Phillippe Schottland, Sun Chemical Corp.</i>	
Effectiveness of Selected Antimicrobial Agents and Their Possible Commercial Implementation .....	877
<i>Kay Cooksey, Clemson University</i>	
Transinformative Thermographic Barcode Matrix that Archivaly Monitors the Safety of Food, Drug & Biological : A Fungible Line Item and Carton TTI Sentinel System.....	891
<i>Dr. Brett Lucht, University of Rhode Island</i>	

Absorption and Covalent Coupling of ATP Aptamers onto Cellulose..... 903  
*Robert H. Pelton, McMaster University*

### **Session 20: Blown Film, Materials, Properties and Process**

*Session Chair: Jessie Ward, Colortech, Inc.*

Nucleation of Polyethylene Film ..... 911  
*Heather Dolan, Milliken & Company*

Improving Optical Clarity of Polyethylene Blown Films ..... 925  
*Kam W. Ho, Nova Chemicals Ltd.*

Clarifiers for Polypropylene Film ..... 950  
*Chris Kerscher, Milliken & Company*

Polyethylene Co-extruded Blown Film: Layer Arrangements for  
Optimum Optics and Stiffness ..... 959  
*Louis Mele, NOVA Chemicals*

### **Session 21: End Use Packaging Applications and Evaluation of Food, Material and Design Suitability**

*Session Chair: Gopal Iyengar, Stora Enso*

User-Centered Design- Wave of the Future ..... 976  
*Laura Bix, Michigan State University*

Advances in Airtight Paperboard Packaging ..... 993  
*Jalliina Jarvinen, Stora Enso Packaging Boards*

New High Barrier Lidding Materials: for Optimization Studies to Understand Seal Peel  
Characteristics To Different Consumer Cup Substrates..... 1000  
*Gopal Iyengar, Stora Enso North America Session Moderator*

Characteristics of Flexible Food Packaging Materials..... 1008  
*Scott Whiteside, Clemson University*

### **Session 22: Squeezing Out Cost and Waste Reduction**

*Session Chair: Dante Ferrari, Celplast Metallized Products, Ltd.*

Competing In a Global Marketplace-Implementing an Asset Management Strategy to  
Drive Reliability ..... 1017  
*Lynn Svenpladsen, Strategic Asset Management*

An Economic Value Model for Converters - Comparing the Total Cost of  
Metallized Film vs. Foil in Flexible Packages ..... 1039  
*Dante F. Ferrari, Celplast Metallized Product Ltd.*

Enhanced Economics using 100% Solids Adhesives..... 1052  
*Michael L. Leib, Rohm and Haas Company*

What is the Best Tension for My Product? ..... 1071  
*David R. Roisum, Finishing Technologies Inc.*

### **Session 23: Blown Film, Materials, Properties and Process Cont'd.**

*Session Chair: Ken Klaber, Lyondell Chemical Company*

An Introduction to HMW Resins, Films, and Markets ..... 1090  
*Leonard Cribbs, Lyondell Chemical Company*

Coextruded HMW HDPE Film Structures with Improved Bubble Stability ..... 1108  
*Brian Wolfe, Lyondell Chemical Company*

Predicting Blown Film Residual Stress Levels Influence on Properties .....	1128
<i>Thomas I. Butler, Blown Film Technology LLC</i>	
Thermodynamic Parameters for Predicting Adhesion Between Functional Polyethylenes to Polystyrene Copolymers .....	1163
<i>Daniel R. Ward, NOVA Chemicals Inc.</i>	
<b>Session 24: Paper and Paperboard, Applications and Technologies</b>	
<i>Session Chair: Rob Hammond, Mica Corporation</i>	
The Effects of Flame Treatment on Clay Coated Paperboard in Extrusion Coating.....	1177
<i>Mikko Tuominen, Tampere Univ. of Technology</i>	
Specialty Paper Opportunities in Flexible Packaging .....	1192
<i>Frank Perkowski, Business Development Advis</i>	
<b>Session 25: Select Topics</b>	
<i>Session Chair: John Vansant, E. I. du Pont de Nemours &amp; Co.</i>	
Aqueous Dispersions of Polyolefins .....	N/A
<i>Brad M. Moncla, Dow Chemical USA</i>	
New Peelable Seal Technology for Easy-Open Packaging.....	1203
<i>Julie Gibbons, Dow Chemical USA</i>	
High-Efficiency Control System for Process Fumes.....	1226
<i>Hans P. Tandon, APC Technologies Inc.</i>	
<b>Session 26: Stretch Film and Productivity Improvement</b>	
<i>Session Chair: Bill Bode, Battenfeld Glouster</i>	
Stretch Film Production – Control of Extrusion and Casting Variables .....	1239
<i>Brad M. Moncla, Dow Chemical USA</i>	
New Peelable Seal Technology for Easy-Open Packaging.....	N/A
<i>Julie Gibbons, Dow Chemical USA</i>	
High-Efficiency Control System for Process Fumes.....	N/A
<i>Hans P. Tandon, APC Technologies Inc.</i>	
<b>Session 26: Stretch Film and Productivity Improvement</b>	
<i>Session Chair: Bill Bode, Battenfeld Glouster</i>	
Stretch Film Production – Control of Extrusion and Casting Variables .....	N/A
<i>Mark A. Jones, Battenfeld Gloucester Europe</i>	
Economics vs. Equipment Type for Cast Stretch Production.....	1250
<i>German V. Laverde, Battenfeld Gloucester Eng. Co.</i>	
Melt Pumps and Screen Changers for Blown Film Extrusion.....	1263
<i>Bill Murphy, Maag Pump Systems Textron</i>	
<b>Session 27: Barrier, 02 and Beyond</b>	
<i>Session Chair: Lee Murray, Alcan Packaging</i>	
New and Old High Barrier Resins.....	1274
<i>Jose M. Torradas, DuPont Do Brasil</i>	
Odor Barrier Characterization of Polymer Materials.....	1322
<i>Joel Fischer, MOCON Inc.</i>	

Influence of Blown Film Process Conditions on Moisture Barrier  
Properties of HDPE films ..... 1335  
*Norman D. Aubee, Nova Chemicals*

**Session 28: Adhesion in Extrusion Coating**

*Session Chair: Kelly Frey, Chevron Chemical*

How to Obtain Good Adhesion of Extruded Polypropylene to Film and Foil  
Substrates by Using Ozone and Primers..... 1354  
*Richard B. Allen, Mica Corporation*

Understanding Why Adhesion In Extrusion Coating Decreases With Diminishing  
Coating Thickness, Part II: Non-Porous Substrates ..... 1367  
*Barry A. Morris, DuPont Pkg. & Ind. Polymers*

New Studies Toward Understanding Adhesion of  
Polyolefins to Primed Substrates..... 1384  
*Bruce W. Foster, Mica Corporation*

**Author Index**
