

American Water Resources Association

AWRA Summer Specialty Conference 2007

“Emerging Contaminants of Concern
in the Environment:
Issues, Investigations, and Solutions”

June 25-27, 2007
Vail, Colorado, USA

Printed from e-media with permission by:

Curran Associates, Inc.
57 Morehouse Lane

TABLE OF CONTENTS

An Overview Of The Interagency Pharmaceuticals In The Environment Working Group	1
<i>Harold Zenick</i>	
The EU Water Framework Directive: Ecology Versus Drinking Water Production	2
<i>Peter Stoks</i>	
Trace Organic Compounds In The Environment – An Interagency Perspective On Research Needs And Funding Priorities	3
<i>Rula Deeb, Elisabeth Hawley, David Sedlak, Michael Kavanaugh, Lola Olabode</i>	
Comparative Methods for the Trace Analysis of Volatile Organic Compounds in Complex Environmental Matrices	4
<i>Patrick Ayres</i>	
Development of an EPA Method for Perfluoroalkyl Compounds in Drinking Water	8
<i>Jody Shoemaker</i>	
Determination of Endocrine Disruptors in Water Using Liquid Chromatography Tandem Mass Spectrometry	12
<i>Matthew Rosenow</i>	
Using Biomonitoring to Assess Human Exposure to Perchlorate	13
<i>Ben Blount</i>	
PPCP in Sewage Sludge, Wastewater, and the Environment in the United States - A National Database of Occurrence, Concentrations and Analytical Methods	14
<i>Sandra Burns</i>	
Occurrence and Sources of Organic Wastewater Compounds in Stream Water and Streambed Sediment, Johnson County, Kansas, 2003-2004	15
<i>Casey Lee</i>	
The Occurrence and Fate of Steroidal Hormones in Surface Waters Impacted by Cattle Grazing and Animal Agriculture	16
<i>Edward P. Kolodziej</i>	
Impact of Photolysis and Manure-Borne Bacteria on the Fate of Steroid Hormones	17
<i>Thomas Borch</i>	
The Fate and Transport of Veterinary Antimicrobials, Sulfadimethoxine and Ormetoprim, in the Environment	18
<i>Puneet Srivastava</i>	
Rapid Immunochemical Assays for the Sensitive Detection of EDCs in Wastewater	19
<i>Timothy Vail</i>	
SPME-HPLC/MS-MS: Overcoming Matrix Effects in Source Waters for PPCP Analysis	20
<i>Vimal Balakrishnan</i>	
The Use of Accurate Mass, Isotope Ratios and MS/MS for the Identification of Pesticides in Water	21
<i>Michael Zumwalt</i>	
A Combined Modelling and Monitoring Screening Approach to Assess Exposure to Pesticide Transformation Products in Surface Waters	22
<i>Kathrin Fenner</i>	

Occurrence, Distribution, and Fate of Contaminants of Emerging Concern through an Urban Stream Corridor, St. Vrain Creek, Colorado, 2005 and 2006	23
<i>Juliane Brown</i>	
Unused Medicine Disposal: Sources, Environmental Concerns, and Initiatives	24
<i>Susan E. Boehme</i>	
Preliminary Findings of Anthropogenic Organic Compounds in Source Water and Finished Waters of Community Water Systems	25
<i>Greg Delzer</i>	
Use of Stable Isotopes as a Forensic Tool to Determine Sources of Perchlorate in Groundwater in the Chino Basin, California	26
<i>Joseph LeClaire</i>	
Occurrence of Antibiotics in U.S. Biosolids and Manure: A Source Reconnaissance	27
<i>Keith Loftin</i>	
PFOS / PFOA and Beyond	28
<i>Ali Haghani</i>	
Development and Application of Bioluminescent Yeast-Reporter Systems for Screening Chemicals for Estrogenic and Androgenic Effects	29
<i>John Sanseverino</i>	
How Well are We Doing with ppt-level Detection of Trace Organics?	34
<i>Jörg Drewes</i>	
Occurrence and Deposition of Atmospherically Generated Perchlorate in Arid and Semi-Arid Regions of North America	35
<i>W. Andrew Jackson</i>	
Green-Duwamish Watershed Microbial Source Tracking Study	36
<i>Rob Zisette</i>	
Chloroacetanilide Herbicide Metabolites in Wisconsin Groundwater	37
<i>Jeffrey Postle</i>	
Estrogens in Streams Associated with an "Organic" Concentrated Animal Feeding Operation in Upstate New York	38
<i>Sherry Zhao</i>	
Behavior of Persistent Biocides During Wastewater Treatment: Mass Balances and Meta Analysis	39
<i>Rolf U. Halden</i>	
Behavior of Endocrine-Active Compounds Through Municipal Wastewater and Sludge Treatment Processes	40
<i>James Gray</i>	
Removal of Nonyl Ethoxylate Surfactants in Wastewater Treatment Plants	41
<i>Charles Staples</i>	
Removal of Endocrine Disrupting Activity from Water Reclamation Processes: Comparing Bioassay Results with Chemical Analyses	42
<i>Jocelyn Hemming</i>	
Biotransformation of Caffeine, Cotinine, and Nicotine in Stream Sediments	43
<i>Paul Bradley</i>	
A Method to Estimate Whole Reach Measures of Antibiotic Uptake [or Release] in Streams Receiving Effluent Discharge	44
<i>Brian Haggard</i>	
Spatial Variation in Net Uptake [or Release] of Antibiotics in Effluent Dominated Streams	45
<i>Leslie Bartsch</i>	

Use of Biomarkers and Wastewater Compounds	46
<i>Robert Anders</i>	
Endocrine Disrupting Chemicals and other Emerging Contaminants in Wastewater and Drinking Water Treatment Technologies	47
<i>Marc Mills</i>	
The Relative Roles of Ammonia Oxidizing Bacteria versus Heterotrophic Bacteria in Biotransforming 17-Ethinylestradiol under Low Growth Rate Conditions	48
<i>Nancy Love</i>	
Concentrations and Removal of Pharmaceutical Compounds at Three Wastewater Plants in New York State, 2003-2004	49
<i>Patrick Phillips</i>	
Coupling Sediment Transport Model with Fate and Transport of Toxicants	50
<i>Tingting Zhu</i>	
Onsite Wastewater System Soil Treatment of Organic Chemicals as Affected by Effluent Type and Hydraulic Loading Rate	58
<i>Kathleen Conn</i>	
Organic Contaminants in On-site Wastewater Effluents: A Comparative Study of Select Decentralized Systems and a Centralized Treatment Plant Receiving a Common Influent	59
<i>Bryan Brooks</i>	
Occurrence of Emerging Contaminants and Effects of Recharge Events Below on-Site Wastewater Drain Fields as Related to Soil Type	60
<i>Jason Weckbacher</i>	
Rural Emerging Contaminants: Ground Truthing Onsite Wastewater Systems to Provide Better Insight for a Countywide Risk Based Evaluation	61
<i>Mark Williams</i>	
Evaluation of Wastewater Impacts on Drinking Water Sources Using Caffeine, Carbamazepine, and Primidone as Tracers	62
<i>Y. Carrie Guo</i>	
Development of a Multi-media Screening Model for Emerging Chemicals in the Great Lakes Basin (GLMOD)	68
<i>Joseph DePinto</i>	
Modeling Pharmaceuticals and Organic Wastewater Chemicals	73
<i>Kelly Knee</i>	
Fate and Transport Modeling of Potential Pathogens: The Contribution from Sediments	74
<i>Sarah Dörner</i>	
Occurrence and Fate of Organic Chemicals at a Biosolids-Application Area-The Link Between Biosolids and Ground-Water Quality	80
<i>Tracy Yager</i>	
Fate of Pharmaceuticals and Personal Care Products Following Land Application of Liquid Municipal Biosolids	81
<i>Ed Topp</i>	
Earthworms -- Indicators of Organic Anthropogenic Waste Contamination in Terrestrial Environments	82
<i>Edward Furlong</i>	
Estrogen Contamination from Wastewater Treatment Plants and Animal Wastes	83
<i>Rominder Suri</i>	
Emerging Contaminants in the Drinking Water Cycle	88
<i>Susan Glassmeyer</i>	

Assessment of Advanced Treatment Technologies and Processes for Removal of Chemical Pollutants for Water Reuse - Peter Ruiz-Haas	89
<i>Peter Ruiz-Haas</i>	
Occurrence, Fate and Transport of Trace Contaminants and Endocrine Disrupting Compounds in a Pilot Water Reclamation System for Groundwater Replenishment	94
<i>Kathleen Esposito</i>	
Membrane Contactor Processes for Removal of Natural Hormones from Wastewater	95
<i>Tzahi Y. Cath</i>	
Overview of Treatment Techniques for Compounds of Emerging Concern	96
<i>Alan Ellingson</i>	
Sustainable Removal of Organic Micropollutants Through Riverbank Filtration (RBF) and Artificial Recharge and Recovery (ARR)	97
<i>Christiane Hoppe</i>	
Modeling Transport of Selected Organic Trace Pollutants during Riverbank Filtration Conditions	98
<i>Gretchen Oldham</i>	
Electrokinetic Soil Processing as a Supplement to Bank Filtration for Removing Persistent Organic Contaminants	99
<i>Mary Beth Sullivan</i>	
Attenuation, Sorption, and Release of Pharmaceutical and Personal Care Products through Soils on a Reuse Golf Course	100
<i>Joseph F. Leising</i>	
Legislative and Regulatory Developments in the EC World	101
<i>Jeremy Jungreis</i>	
Litigation and Emerging Contaminants	102
<i>Alfred Smith</i>	
Regulatory Concepts for Addressing Emerging Contaminant Threats-a State Regulator's Perspective	103
<i>Peggy Harris</i>	
The DoD's MERIT Program on Emerging Contaminants	104
<i>Carole LeBlanc</i>	
Overview of Genomic Techniques Currently Being Investigated by U.S. EPA to Assess Source, Exposure and Effects of Pharmaceuticals in the Environment	105
<i>James Lazorchak</i>	
Development of a Gene Microarray for the Study of Environmental Contaminant Effects on Early Life-Stages	106
<i>Maria Sepulveda</i>	
Ecotoxicogenomic Approaches for Monitoring Exposure and Effects of Emerging Chemicals in Aquatic Systems	107
<i>Helen Poynton</i>
