

# **2007 25th National Radio Science Conference**

**Cairo, Egypt  
13-15 March 2007**

**Volume 1 of 2**

**Catalog Number:  
ISBN:**

**07EX1743  
977-5031-86-9**

# Table of Contents

|                                                                                                                                   |            |
|-----------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>Recent Progress in Reconfigurable Multi-Band Antennas for Switchable and Fixed-Service Laptop Wireless Applications .....</b>  | <b>1</b>   |
| <i>Chunna Zhang, Songnan Yang, Songwoo Lee, Helen K. Pan, Vijay K. Nair, Aly E. Fathy and Samir El-Ghazaly</i>                    |            |
| <b>Compact Broadband Microstrip Patch Antennas .....</b>                                                                          | <b>6</b>   |
| <i>Samir F. Mahmoud</i>                                                                                                           |            |
| <b>Design and Modeling of a Linear Array of Longitudinal Slots on Substrate Integrated Waveguide .....</b>                        | <b>12</b>  |
| <i>Mahmud Tariq Rashid and Abdel Razik Sebak</i>                                                                                  |            |
| <b>Advances in Microwave &amp; Millimeter-Wave Integrated Circuits .....</b>                                                      | <b>31</b>  |
| <i>Amin K. Ezzeddine</i>                                                                                                          |            |
| <b>Fast Block-Size Selection Using Residual Texture for VC-1 .....</b>                                                            | <b>39</b>  |
| <i>Michael Tammen</i>                                                                                                             |            |
| <b>Performance Enhancement of the Multi-Modulus Algorithm Based Adaptive Antenna Arrays Using Additional Constraints .....</b>    | <b>46</b>  |
| <i>Said E. El-Khamy, Darwish M. Abd-Elaziz and Roshdy K. Korayem</i>                                                              |            |
| <b>LMS Beamforming Using Pre and Post-FFT Processing for OFDM Communication Systems .....</b>                                     | <b>54</b>  |
| <i>Mohamed S. Heakle, Mohab A. Mangoud and Said Elnoubi</i>                                                                       |            |
| <b>Design and Analysis of Wideband Antenna With Application To Ground Penetrating Radar System .....</b>                          | <b>61</b>  |
| <i>G. E. Atteia, K. F. A. Hussein and A. A. Shaalan</i>                                                                           |            |
| <b>Subband Adaptive Array for Faded Signals in Multipath Environment.....</b>                                                     | <b>69</b>  |
| <i>Emad T. Abdel-Hameed, Nouredin M. Ibrahim, M. Moness and H. Tamaly</i>                                                         |            |
| <b>Optimization of an Antipodal Vivaldi Antenna Using Synthesis Neural Networks and a Novel Genetic Algorithms Approach .....</b> | <b>77</b>  |
| <i>Adel Elsherbini, A. H. Kamel and H. Elhennawy</i>                                                                              |            |
| <b>Wideband Circular Microstrip Antenna for Wireless Communication Systems.....</b>                                               | <b>84</b>  |
| <i>Darwish Abd El Aziz and Radwa Hamad</i>                                                                                        |            |
| <b>Analysis of Stacked Rectangular Microstrip Antenna .....</b>                                                                   | <b>92</b>  |
| <i>Ismael K. Moussa, Darwish A. E. Mohamed and Ihab Badran</i>                                                                    |            |
| <b>Microstrip Antenna With Shorting Pins as a Sensor for Landmines Detection .....</b>                                            | <b>103</b> |
| <i>S.H. Zainud-Deen, M. E. Badr, K.H. Awadalla and H.A. Sharshar</i>                                                              |            |
| <b>Empirical Formulation and Design of a Broadband Enhanced Epatch Antenna .....</b>                                              | <b>111</b> |
| <i>Amer Bzeih, Soubhi Abou Chahine, Karim Y. Kabalan, Ali El-Hajj and Ali Chehab</i>                                              |            |

|                                                                                                                                                                |            |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>Performance Evaluation of Separated Aperture Sensor Gpr System for Land Mine Detection .....</b>                                                            | <b>120</b> |
| <i>Khalid Moustafa, K. F. A. Hussein and Abd-El-Hadi A. Ammar</i>                                                                                              |            |
| <b>3-D Full Wave Analysis Using Spectral Domain Method of Moments for a Ferrite Cross-Patch Antenna .....</b>                                                  | <b>129</b> |
| <i>Tarief M. F. Elshafiey</i>                                                                                                                                  |            |
| <b>Microsoft Word - B12-37.Doc.....</b>                                                                                                                        | <b>137</b> |
| <i>Administrator</i>                                                                                                                                           |            |
| <b>A Modified E-Shaped Microstrip Antenna for Ultra Wideband Wireless Systems.....</b>                                                                         | <b>144</b> |
| <i>Maher M. Abd-Elrazzak and Ibrahim S. Al-Nomay</i>                                                                                                           |            |
| <b>An Efficient Computational Approach in the Matrix Pencil Method To Find One Dimensional and Two Dimensional Direction of Arrival.....</b>                   | <b>150</b> |
| <i>Hassan M. Elkamchouchi, Darwish Abdel-Aziz and Mohammad M. M. Omar</i>                                                                                      |            |
| <b>Design of a Compact UWB Planar Antenna With Band-Notch Characterization .....</b>                                                                           | <b>158</b> |
| <i>Hany M. Zamel, Ahmed M. Attiya and Essam A. Hashish</i>                                                                                                     |            |
| <b>A Hybrid Finite Difference Frequency Domain and Particle Swarm Optimization Techniques for Forward and Inverse Electromagnetic Scattering Problems.....</b> | <b>166</b> |
| <i>S.H. Zainud-Deen, Mourad S. Ibrahim and Emad El-Deen</i>                                                                                                    |            |
| <b>One-Dimensional Electromagnetic Inversion Using Particle Swarm Optimization.....</b>                                                                        | <b>173</b> |
| <i>Amr M. Emad and Essam A. Hashish</i>                                                                                                                        |            |
| <b>A New Combined Scheme for Fast Pn Code Acquisition.....</b>                                                                                                 | <b>181</b> |
| <i>Salah EL-Agooz, Alaa Rohaim, and Ahmed Amin</i>                                                                                                             |            |
| <b>Blind Adaptive Multiuser Detection for Single-Rate and Multi-Rate DS/CDMA Systems .....</b>                                                                 | <b>188</b> |
| <i>Wesam Mesbah, Said Elnoubi and Mona Lotfy</i>                                                                                                               |            |
| <b>Optimum Time Shift Autocorrelation for Time Hopping Uwb System Using Ppm Technique.....</b>                                                                 | <b>199</b> |
| <i>J. George, Sh. Shaaban and Kh. El Shennawy</i>                                                                                                              |            |
| <b>Power Control in Cdma System Using Particle Swarm Optimization .....</b>                                                                                    | <b>205</b> |
| <i>Hassan M. Elkamchouchi, Hassan M. Elragal and Mina A. Makar</i>                                                                                             |            |
| <b>Immunity of the R3T Random Access Optical CDMA Protocol Against Receiver Noise .....</b>                                                                    | <b>213</b> |
| <i>Ziad A. El-Sahn1, Yousef M. Abdelmalek, Hossam M. H. Shalaby and El-Sayed A. El-Badawy</i>                                                                  |            |

|                                                                                                                   |            |
|-------------------------------------------------------------------------------------------------------------------|------------|
| <b>A New Public Key Multi-Message Dynamic Signcryption (PK-MM-DS) Scheme for Cryptographic Transmission.....</b>  | <b>221</b> |
| <i>Hassan M. Elkamchouchi, Abdel-Aty M. Emarah and Esam A. A. Hagra</i>                                           |            |
| <b>A New Public Key Dynamic Signcrypted Identification (Pk-Ds-Id) Protocol Using Smart Cards.....</b>             | <b>231</b> |
| <i>Hassan M. Elkamchouchi, Abdel-Aty M. Emarah and Esam A. A. Hagra</i>                                           |            |
| <b>Rebc2, Rotor Enhanced Block Cipher 2.....</b>                                                                  | <b>241</b> |
| <i>Hassan Elkamchouchi and Ahmed M. Elshafee</i>                                                                  |            |
| <b>On Line Data and Voice Encryption System Based on FPGA Technology.....</b>                                     | <b>248</b> |
| <i>I.S. Ashour</i>                                                                                                |            |
| <b>A New Symmetric Key Quantum Cryptographic Algorithm.....</b>                                                   | <b>255</b> |
| <i>Hassan M. Elkamchochi, Refaat A. Elattar and Amr H. Abd-Elhamied</i>                                           |            |
| <b>A New Approach for Key Controlled Agreement.....</b>                                                           | <b>268</b> |
| <i>Hassan Elkamchouchi and Mohammad Eldefrawy</i>                                                                 |            |
| <b>Wavelet Packet Transform With Iterative Technique Based on Method of Moments for Large-Scale Problems.....</b> | <b>275</b> |
| <i>S. H. Zainud-Deen, H. A. Malhat, K. H. Awadalla and H. A. Sharshar</i>                                         |            |
| <b>A Proposed Analog Speech Scrambler Based on Parallel Structure of Wavelet Transforms.....</b>                  | <b>283</b> |
| <i>Sattar B. Sadkhan, Nidaa Abdulmuhsen and Noor F. Al-Tahan</i>                                                  |            |
| <b>The Fbg Stream Cipher.....</b>                                                                                 | <b>295</b> |
| <i>Said E. El- Khamy, Mona Lotfy and Adel Hamdi Ali</i>                                                           |            |
| <b>Frequency Domain Approach for Blind Signal Separation of Convolutional Mixed Signals.....</b>                  | <b>303</b> |
| <i>Usama Sayed Mohammad and M. Fakhry Mahmoud</i>                                                                 |            |
| <b>Design and Implementation of Cosine Transforms Employing a CORDIC Processor.....</b>                           | <b>311</b> |
| <i>Sharaf El-Din El-Nahas, Ammar Mottie Al Hosainy and Magdy M. Saeb</i>                                          |            |
| <b>High-Speed, Area-Efficient Fpga-Based Floating-Point Arithmetic Modules.....</b>                               | <b>317</b> |
| <i>M. Taher, M. Aboulwafa, A. Abdelwahab and E. M. Saad</i>                                                       |            |
| <b>Image Enhancement Using a Contrast Measure in the Discrete Wavelet Transform.....</b>                          | <b>325</b> |
| <i>Ahmed A. Abdelwahab, Mohamed K. Ahmed and Somaya H. Hashem</i>                                                 |            |
| <b>An Integrated Image Fusion Technique for Boosting the Quality of Noisy Remote Sensing Images.....</b>          | <b>336</b> |
