TABLE OF CONTENTS

2007 Fifteenth IEEE International Workshop on Quality of Service

Table of Contents	III
--------------------------------	------------

Message From Co-Chairs.....	VI
------------------------------------	-----------

Committee Members	VII
--------------------------------	------------

Session 1: Congestion Control

Competitive Considerate Congestion Control for Bulk Data Transfers	1
Shao Liu (<i>University of Illinois</i>), Milan Vojnovic (<i>Microsoft Research</i>), Dinan Gunawardena (<i>Microsoft Research</i>)	

PIQI-RCP: Design Analysis of Rate-Based Explicit Congestion Control.....	10
Saurabh Jain (<i>Texas A&M University</i>), Dmitri Loguinov (<i>Texas A&M University</i>)	

Fairness Attacks in the Explicit Control Protocol.....	21
Christo Wilson (<i>U. C. Santa Barbara</i>), Chris Coakley (<i>U. C. Santa Barbara</i>), Ben Y. Zhao (<i>U. C. Santa Barbara</i>)	

Session 2: Peer-to-Peer Networks and Network Coding

Decentralized Replication Algorithms for Improving File Availability in P2P Networks	29
W.K.Lin (<i>The Chinese University of Hong Kong</i>), C.Ye (<i>The Chinese University of Hong Kong</i>), D.M.Chiu (<i>The Chinese University of Hong Kong</i>)	

On the Resilience-Complexity Tradeoff of Network Coding in Dynamic P2P Networks.....	38
Di Niu (<i>University of Toronto</i>), Baochun Li (<i>University of Toronto</i>)	

Parallelized Progressive Network Coding With Hardware Acceleration	47
Hassan Shojania (<i>University of Toronto</i>), Baochun Li (<i>University of Toronto</i>)	

Session 3: QoS in Wireless and Sensor Networks

Probabilistic Field Coverage using a Hybrid Network of Static Mobile Sensors.....	56
Dan Wang (<i>Simon Fraser University, Burnaby, British Columbia</i>), Jiangchuan Liu (<i>Simon Fraser University, Burnaby, British Columbia</i>), Qian Zhang (<i>Hong Kong University of Science and Technology, Hong Kong</i>)	

Improving Routing Quality of Greedy Forwarding in Wireless Networks	65
Chen Wang (<i>Michigan State University</i>), Li Xiao (<i>Michigan State University</i>)	

Evaluation of a Stateful Transport Protocol for Multi-channel Wireless Mesh Networks	74
Ashish Raniwala (<i>Stony Brook University</i>), Srikant Sharma (<i>Stony Brook University</i>), Pradipta De (<i>Stony Brook University</i>), Rupa Krishnan (<i>Stony Brook University</i>), Tzi-cker Chiueh (<i>Symantec Research Labs</i>)	

On the Stability Region of Linear-Memory Scheduling for Time Varying Channels (Short Paper)	83
Mahdi Lotfinezhad (<i>University of Toronto</i>), Ben Liang (<i>University of Toronto</i>), Elvino S. Sousa (<i>University of Toronto</i>)	

On Area of Interest Coverage in Surveillance Mobile Sensor Networks (Short Paper)	87
Yu Dong, Wing-Kai Hon, David K. Y. Yau	

Session 4: Multi-Homing, QoS Provisioning, and Policy-Constrained Routing

On the Feasibility of Switching ISPs in Residential Multihoming	91
Ahsan Habib (<i>Siemens TTB Center, Berkley Ca.</i>), Nicolas Christin (<i>Carnegie Mellon University</i>), John Chuang (<i>University of California, Berkley</i>)	

Load Balancing Routing of Fault Tolerant QoS-Guaranteed VPNs	100
Kartik Gopalan (<i>Binghamton University</i>), Tzi-cker Chiueh (<i>Stony Brook University</i>), (<i>Symantec Research Labs</i>), Yow-Jian Lin (<i>Telcordia Technologies</i>)	

Value of Supporting Class-of-Service in IP Backbones (Short Paper)	109
Murat Yuksel (<i>University of Nevada – Reno</i>), K. K. Ramakrishnan (<i>AT&T Labs Research</i>), Shivkumar Kalyanaraman (<i>Rensselaer Polytechnic Institute</i>), Joseph D. Houle (<i>AT&T</i>), Rita Sadhvani (<i>AT&T</i>)	

Efficient Algorithms For Optimizing Policy-Constrained Routing (Short Paper)	113
Andrew R. Curtis (<i>Colorado State University</i>), Ross M. McConnell (<i>Colorado State University</i>), Dan Massey (<i>Colorado State University</i>)	

Session 5: QoS Analysis and Modeling

Drop Counters Are Enough	117
Rade Stanojevi (<i>Hamilton Institute, Ireland</i>), Robert Shorten (<i>Hamilton Institute, Ireland</i>)	

Slow Steady: Modelling Performance Analysis of the Network Entry Process in IEEE 802.16	126
Matthias Hollick (<i>Technische Universit�at Darmstadt, Germany</i>), Parag S. Mogre (<i>Technische Universit�at Darmstadt, Germany</i>), Christian Schott (<i>Technische Universit�at Darmstadt, Germany</i>), Ralf Steinmetz (<i>Technische Universit�at at Darmstadt, Germany</i>),	

Recall and Precision in Distributed Bandwidth Allocation (Short Paper).....	135
Patrick Stuedi (<i>ETH Zurich, Switzerland</i>), Gustavo Alonso (<i>ETH Zurich, Switzerland</i>)	

Improving Individual Flow Performance with Multiple Queue Fair Queuing (Short Paper).....	141
Manfred Georg (<i>Washington University in St. Louis</i>), Christoph Jechlitschek (<i>Washington University in St. Louis</i>), Sergey Gorinsky (<i>Washington University in St. Louis</i>)	

Session 6: Network Security

Detecting Stealthy Spreaders Using Online Outdegree Histograms.....	145
Yan Gao (<i>Northwestern University, Evanston, Il</i>), Yao Zhao (<i>Northwestern University, Evanston, Il</i>), Robert Schweller (<i>Northwestern University, Evanston, Il</i>), Shobha Venkataraman (<i>Carnegie Mellon University</i>), Yan Chen (<i>Northwestern University, Evanston, Il</i>), Dawn Songy (<i>Carnegie Mellon University</i>), Ming-Yang Kao, (<i>Northwestern University, Evanston, Il</i>)	

Securing BGP Through Keychain-Based Signatures	154
Heng Yin (<i>College of William Mary</i>), Bo Sheng (<i>College of William Mary</i>), Haining Wang (<i>College of William Mary</i>), Jianping Pan (<i>University of Victoria</i>)	

Session 7: QoS for Multimedia & E-Commerce

Designing Networks With Hop Bounded Protection Paths	164
Mansoor Alicherry, Randeep Bhatia, Yung-Chun (Justin) Wan	

Performance Metrics Configuration Strategies For Group Network Communication	173
Tom Z. J. Fu (<i>The Chinese University of Hong Kong</i>), Dah Ming Chiu (<i>The Chinese University of Hong Kong</i>), John C. S. Lui (<i>The Chinese University of Hong Kong</i>)	

Structuring Multi-Layer Scalable Streams to Maximize Client- Perceived Quality (Short Paper)	182
Cheng-Hsin Hsu (<i>Simon Fraser University, Canada</i>), Mohamed Hefeeda (<i>Simon Fraser University, Canada</i>)	

Profit-aware Admission Control for Overload Protection in E-commerce Web Sites (Short Paper).....	188
Chuan Yue (<i>College of William Mary</i>), Haining Wang (<i>College of William Mary</i>)	

Author Index	194
