

---

*Proceedings*

**20th Conference on  
Software Engineering Education & Training**

***(CSEE&T 2007)***

---

**3-5 July 2007  
Dublin, Ireland**

---

**Sponsored by**

IEEE Computer Society Technical Council  
on Software Engineering (TCSE)  
The Irish Software Engineering Research Centre (LERO)  
Dublin City University (DCU)

**In cooperation with**

Carnegie Mellon® Software Engineering Institute (SEI)

Los Alamitos, California  
Washington • Tokyo

---

Table of Contents

**20th Conference on  
Software Engineering Education & Training  
(CSEE&T 2007)**

---

<b>Foreword</b> .....	<b>x</b>
<b>Conference Organizers</b> .....	<b>xi</b>
<b>Steering Committee</b> .....	<b>xiii</b>
<b>Program Committee</b> .....	<b>xiv</b>
<b>Keynote Addresses</b> .....	<b>xv</b>

---

**Keynote Addresses**

Software Engineering Education in China .....	xvi
<i>Yulin Wang</i>	
Graduate Training from an Industry Perspective .....	xvii
<i>Marie Moloney</i>	
Resolving Dilemmas in Software Engineering Education .....	xviii
<i>David Parnas</i>	

**Paper Session A: SE Education – Global Scenario**

A Graduate Program on Embedded Software Engineering in China .....	3
<i>Yimei Kang</i>	
Lessons Learned from Establishing a Software Engineering Academic Programme in Developing Countries .....	11
<i>Amir Zeid</i>	
Software Engineering Education in Russia: A Comparative Study of People, Process and Technology a Four Year Perspective .....	19
<i>Gil Taran and Mel Rosso-Llopart</i>	

**Paper Session B: Students' Projects – Continuing Attention**

Exploiting Multiplicity to Teach Reliability and Maintainability in a Capstone Project .....	29
<i>Janet Burge</i>	
Maintaining High Process Capability in a Student Project Course .....	37
<i>Terence P. Rout and John Seagrott</i>	
How Students Perceive Risk: A Study of Senior Capstone Project Teams .....	45
<i>Dennis P. Groth and Matthew P. Hottell</i>	

## **Paper Session C: Educational Theory and Pedagogy**

Learning from Reflection: Practitioners as Adult Learners.....55 <i>Jocelyn Armarego</i>	
Globalising Software Development in the Local Classroom..... 64 <i>Ita Richardson, Sarah Moore, Valentine Casey, Daniel Paulish, and Dolores Zage</i>	
Lab Partners: If they are Good Enough for the Sciences, Why aren't they Good Enough for us?.....72 <i>Laurie Williams and Lucas Layman</i>	

## **Paper Session D: Meeting the Needs of Industry - I**

Experience in Training Software Quality Engineers to Achieve a Professional Certification..... 83 <i>Marcelo Jenkins</i>	
Empirical Software Engineering in Industry Short Courses ..... 89 <i>David S. Janzen, Clark S. Turner, and Hossein Saiedian</i>	
Preparing Software Engineering Graduates for an Industry Career .....97 <i>Shanika Karunasekera and Kunal Bedse</i>	

## **Paper Session E: Curriculum and Design of Courseware - I**

A Case for Software Engineering.....107 <i>Thomas B. Hilburn and Massood Towhidnejad</i>	
Increased Retention of Early Computer Science and Software Engineering Students Using Pair Programming..... 115 <i>Jeffrey C. Carver, Lisa Henderson, Julia Hodges, and Donna Reese</i>	
Supporting the Formal Analysis of Software Designs..... 123 <i>Ann E. K. Sobel and Sherrie Campbell</i>	

## **Paper Session F: Curriculum and Design of Courseware - II**

Using Model-Driven Development in Time-Constrained Course Projects .....133 <i>Wilson Pádua</i>	
Stages in Teaching Software Design..... 141 <i>A. J. Cowling</i>	
A Comparison of the Software Assurance Common Body of Knowledge to Common Curricular Standards ..... 149 <i>Dan Shoemaker, Antonio Drommi, and Nancy Mead</i>	
Practice and Transfer of Learning in the Teaching of Software Testing ..... 157 <i>Cem Kaner and Sowmya Padmanabhan</i>	

## **Paper Session G: Meeting the Needs of Industry - II**

SE and CS Collaboration: Training Students for Engineering Large, Complex Systems.....	167
<i>Mohammad Nauman and Muhammad Uzair</i>	
Beyond PBL: Preparing Graduates for Professional Practice .....	175
<i>Jocelyn Armarego</i>	
Towards a European Master Programme on Global Software Engineering .....	184
<i>Patricia Lago, Henry Muccini, Ljerka Beus-Dukic, Ivica Crnkovic, Sasikumar Punnekkat, and Hans van Vliet</i>	

## **Paper Session H: Learning Environments and Tools**

Comprehensive Evaluation of an Educational Software Engineering Simulation Environment .....	195
<i>Emily Oh Navarro and Andre van der Hoek</i>	
Key Software Engineering Concepts for Project Success: The Use of “Boot-Camp” to Establish Successful Software Projects .....	203
<i>Dave Root, Mel Rosso-Llopart, and Gil Taran</i>	
Using Games in Software Engineering Education to Teach Risk Management.....	211
<i>Gil Taran</i>	

## **Paper Session I: Drivers for Effective SE Education -I**

Using Students as Subjects in Experiments - A Quantitative Analysis of the Influence of Experimentation on Students' Learning Process.....	221
<i>Miroslaw Staron</i>	
IEEE Software Engineering Standards: A Student's Version .....	229
<i>Richard Hall Thayer and Andrew D. McGettrick</i>	
Report from the 3rd International Symposium on Software Engineering Course Projects(SWECF 2006) .....	237
<i>Scott Tilley, Ken Wong, and Spencer Smith</i>	

## **Paper Session J: Innovative Tools for Delivery of SE Education**

Electronic Portfolios through a Qualitative Lens.....	247
<i>Rebecca L. Fiedler and Cem Kaner</i>	
Student Project Collaboration Using Wikis.....	255
<i>Joseph Chao</i>	
Laptop Enabled Active Learning in the Software Engineering Classroom: An Experience Report .....	262
<i>Dan Port and Rick Kazman</i>	

## **Paper Session K: Focusing on Software Architecture in SE Education**

Using an Architecture Reasoning Tool to Teach Software Architecture .....	275
<i>John D. McGregor, Felix Bachman, Len Bass, Philip Bianco, and Mark Klein</i>	
Creating Meaningful Assessments for Professional Development Education in Software Architecture .....	283
<i>Elspeth Golden and Len Bass</i>	
Educational Approach to an Experiment in a Software Architecture Course .....	291
<i>Alf Inge Wang, Erik Arisholm, and Letizia Jaccheri</i>	

## **Paper Session L: Drivers for Effective SE Education -II**

Addressing Communication Issues in Software Development: A Case Study Approach.....	301
<i>Ann Brady, Marika Seigel, Thomas Vosecky, and Charles Wallace</i>	
A Study of the Effectiveness of Case Study approach in Software Engineering Education .....	309
<i>Kirti Garg and Vasudeva Varma</i>	
Analysis of the Relation between the Teaching Materials and Motivation in Programming Education .....	317
<i>Yasuhiro Takemura, Hideo Nagumo, Kuo-Li Huang, and Kenichi Matsumoto</i>	

## **Paper Session M: Larger Societal Aspects of SE Education**

Holistic Software Engineering Education Based on a Humanitarian Open Space Project.....	327
<i>Heidi J.C. Ellis, Ralph A. Morelli, Trishan R. de Lanerolle, and Gregory W. Hislop</i>	
Cross-Community Collaboration and Learning in Customer-Driven Software Engineering Student Projects .....	336
<i>Birgit Krogstie and Bendik Bygstad</i>	
Challenges and Lessons Learned in Teaching Software Engineering and Programming to Hearing Impaired Students .....	344
<i>Damiano Distante and Shihong Huang</i>	

## **Workshop Position Papers**

Testing as a Mental Discipline: Practical Methods for Affecting Developer Behavior.....	355
<i>Stephen Frezza and Mei-Huei Tang</i>	
Developing Effective Teaming & Presentation Skills to Facilitate Collaborative Software Development.....	357
<i>Margaret R. Heil and Robert J. Fornaro</i>	

## Panel Position Papers

Software Engineering Education for a Flat World .....	361
<i>Dan Port and Ramanathan Narayanan</i>	
On the Feasibility of Specialization within Software Engineering Degree Programs .....	362
<i>Nancy R. Mead, Thomas B. Hilburn, James McDonald, Michael Ryan, and Dan Shoemaker</i>	

## “Birds of a Feather” Session

Preparing Students for Software Engineering Research .....	367
<i>Ita Richardson</i>	

<b>Author Index .....</b>	<b>369</b>
