ISBN: 978-1-60423-857-0

Some issues inherent in the e-media version may also appear in this print version.

Communications Forum
World Forum on Customer-Centric Converged
Communication and Content Networks and Technologies
2007

TABLE OF CONTENTS

VOLUME I

WORKSHOP 1 – MOVING INTO THE DIGITAL HOME

Moving into the Digital Home	1
<i>Y. Tjoens</i>	
Is the World Ready for "No New Wires"?	4
<i>J. Fink</i>	
Growth by Service Innovation	13
<i>J. Goubert</i>	

WORKSHOP 2 – BEYOND TRIPLE PLAY, MAKING SURE THE NEXT KILLER APPLICATION(S) WILL BE AVAILABLE ON YOUR NETWORK

Beyond Triple Play - Making Sure the Next Killer Application(s) Will be Available on Your Network	38
<i>M. Engstrom</i>	
DONG Energy Fibernet.....	52
<i>G. Elikofer</i>	
A "Vision Network" Suitable for Tomorrows Applications & Business Environment	78
<i>P. Hovell</i>	
Ubiquitous Ethernet - A Prerequisite for IMS Proliferation	83
<i>Y. Saad</i>	
Beyond Triple Play - Making Sure the Next Killer Application(s) Will be Available on Your Network	109
<i>D. Sjoberg</i>	
True Freedom Requires True Broadband Networks	129
<i>P. Van Bourgondien</i>	

WORKSHOP 3 – THE METRO NETWORK IN THE BROADBAND ERA: EVOLUTION OR DISRUPTION?

The Metro Network in the Broadband era: Evolution or Disruption?	137
<i>E. Iannone</i>	
PBB - TE: Provider Backbone Transport.....	161
<i>N. Bragg</i>	

Challenges for the Development of an Optical Packet Metro in an NGN2 Environment	181
<i>S. Nocentini</i>	
Traffic Design for Carrier Grade Metro Networks	199
<i>E. Zerbini</i>	

WORKSHOP 4 – IS CARRIER ETHERNET READY TO SUPPORT IMS ARCHITECTURE

Is Carrier Ethernet Ready to Support IMS Architecture?	220
<i>I. Abramovich</i>	
Customer-Centric Converged Communication and Content	244
<i>R. Braun</i>	
Carrier Ethernet and IMS The Ultimate Convergence?	259
<i>M. Lum</i>	
Are Network-based QoS Capabilities in Carrier Ethernet Sufficient?	271
<i>E. Svanberg, C. Merrick</i>	
Is Carrier Ethernet Ready to Support IMS Architecture?	282
<i>R. Micali</i>	
Ubiquitous Ethernet - A Prerequisite for IMS Proliferation	303
<i>Y. Saad</i>	

WORKSHOP 5 – INTEROPERABILITY BETWEEN CARRIERS AND VENDORS IN A 21ST CENTURY NETWORK – THE BT EXPERIENCE

Interoperability Between Carriers and Vendors in the 21st Century	329
<i>D. Covey</i>	
Bringing It All Together	334
<i>M. Beal</i>	
21CN Perspective	340
<i>J. Hey</i>	
Challenges and Lessons in BT's 21 CN Project	347
<i>A. Lewis</i>	
BT 21 CN and Lesson's Learned	358
<i>A. Stevenson</i>	
SFR Convergence Strategy	365
<i>C. Bach</i>	

SESSION A1 – DELIVERING FMC WITH EXISTING GSM INFRASTRUCTURES

Deploying the Right Infrastructure to Capture FMC Opportunities Today	375
<i>F. Potter</i>	
FMC in the France Telecom Group: Lessons Learned and Next Steps	396
<i>N. Foret</i>	
MobileIPCentrex	404
<i>I. Rummelg</i>	

SESSION A2 – MEDIA AND TELECOMS: WHICH SOLUTIONS AND OFFER BUNDLES MAKE THEM ALLIES?

IP-TV: Which Business Model for Broadcaster and Carriers?	420
<i>A. Capuzzello</i>	

SESSION A3 – CONVERGENT MEDIA PLATFORM FOR CONTENT AND COMMUNICATION FIELD

The Lifecycle of a Service Provider in the Content Marketplace	442
<i>P. Kleiner</i>	

SESSION A4 – THE ROLE OF CARRIER ETHERNET IN THE 21ST CENTURY NETWORK: SERVICES, BUSINESS MODELS, AND ROI

Ethernet Services Strategies	456
<i>U. Kukreja</i>	
Carrier Ethernet over Copper - Making an Attractive Business Case	478
<i>K. Hoult</i>	
Carrier Ethernet as a Mean to Reduce CAPEX and Guarantee Competition	493
<i>S. Orlando</i>	
Carrier Ethernet The Road Ahead	504
<i>E. Rosen</i>	

PLENARY PANEL – ROLE OF ETHERNET SUPPORTING CONVERGED SERVICES

The Role of Ethernet in Supporting Converged Services	528
<i>I. Masson</i>	
The Convergence of Ethernet with Optical to Deliver the Transport Architecture of NGN	577
<i>K. Davison</i>	
Carrier Ethernet Access	590
<i>Y. Saad</i>	

PLENARY PANEL – LESSONS LEARNED FROM IMS DEPLOYMENTS

Lessons Learned from IMS Deployments	599
<i>M. Furustam</i>	
Lessons Learned from IMS Deployments	604
<i>J. De Los Rios</i>	
Lesson Learned from IMS Deployment: How IMS Impact Networks and Organisation	613
<i>N. Foret</i>	

VOLUME II

Lessons Learned from IMS Deployments	621
<i>K. Forsberg</i>	

Lessons Learned from IMS Deployments: The Safety Dance!.....	627
<i>S. Teral</i>	

KEYNOTE ADDRESS

21st Century Network - Platform for Open Innovation.....	636
<i>M. Bross</i>	

SESSION B1 – BROADBAND MOBILE INTERNET: HOW WILL THE INTERNET OF TOMORROW EVOLVE?

Broadband Mobile Internet: How Will the Internet of Tomorrow Evolve?	648
<i>A. Stagni</i>	

From Mobile 1.0 to Mobile 2.0: New Technologies and New Value Chains	652
<i>G. Elia</i>	

Experiences	671
<i>F. Falzea</i>	

Broadband Mobile Internet Challenges & Perspectives	684
<i>V. Mazzoni</i>	

Broadband Mobile Internet: Opportunities in a Difficult World.....	698
<i>A. Pradayrol</i>	

SESSION B2 – SET THEM FREE – HOW FREEDOM OF CHOICE CAN REDUCE BOTH REVENUE LOSS AND COSTS ASSOCIATED TO CHURN

Set them Free - How Freedom of Choice Can Reduce Both Revenue Loss and Costs Associated with Churn	711
<i>M. Engstrom</i>	

Varying Models of Broadband Deployment in Sweden	718
<i>R. Kjellberg</i>	

Service Providers and Network Providers Roles in NGN2	744
<i>S. Nocentini</i>	

Strategy of the Incumbent Cable-TV and Broadband ISP.....	755
<i>H. Weerman</i>	

SESSION B3 – MANAGING MIGRATION OF NETWORKS, AND SUPPORT SYSTEMS: OPERATIONS AND CUSTOMERS

Managing Migration of Networks and Support Systems: Operations and Customers	777
<i>B. Cheetham</i>	

The New Global Village: Migrating Networks - CIO's Peace of Mind	837
<i>P. Duijves</i>	
When Assessing IP-Based Network Infrastructure, Examine Timing Closely	847
<i>C. Ferreira</i>	
Network Data - An Opportunity to Clean Up	866
<i>J. Mellis</i>	

SESSION B4 – ACCESS ALTERNATIVES FOR THE FUTURE NETWORK

B4 Access Networks - C5 Milan 2007	886
<i>P. Linder</i>	
Future Access Network: Telecom Italia View	901
<i>P. Cinato</i>	
The Access Technology for Realizing AMM and Broadband Services	N/A
<i>A. Mohamad</i>	
C-5 World Forum Access Alternatives for Future Networks	919
<i>A. Shuper, D. Voghera</i>	

SESSION B5 – USING A SERVICE DELIVERY PLATFORM AS A MOVE INTO IMS

ZIMS Soultion - C5: Using SDP as a Move into IMS	933
<i>F. Toupin</i>	

SESSION B6 – IPTV NETWORK DESIGN: TECHNOLOGY ADVANCES AND BUSINESS DRIVERS

IPTV Network Design: Looking for Simplicity and Availability of Content and Applications Everywhere, at Anytime	945
<i>Y. Sfadya</i>	
Content Everywhere Strategy	954
<i>J. Abou</i>	
IPTV Middleware Design	971
<i>S. Gordhan</i>	
IPTV Network Design Technology Advances and Business Drivers	994
<i>H. Mehta</i>	
IPTV Network Design: Technology Advances and Business Drivers	1009
<i>M. Schenk</i>	

SESSION C1 – BUSINESS MODEL FOR THE FIRST MILE

C5 Business Model Debates for First Mile Alternatives	1015
<i>B. Ross</i>	
FTTX in a Competitive Arena: A Challenge for Telcos	1019
<i>G. D'Orazio</i>	
Carrier Ethernet for Residential, Business, and Mobile Service Delivery	1036
<i>K. Daines</i>	

The Business Case for GPON.....	1061
<i>D. Pratt</i>	

SESSION C2 – A DIFFERENT PERSPECTIVE FOR THE USER-ORIENTED HOME GATEWAY AND RELATED SERVICES

A Different Perspective for the User-Oriented Home Gateway and Related Services	1079
<i>C. Rocca</i>	
Delivering Multiplay Services	1093
<i>B. Bissell</i>	
Digital Life in a Digital Home	1104
<i>A. Fuggetta</i>	
The Home Gateway Initiative: When the Gateway Meets Networks, Devices and Services	1112
<i>P. Pastorino</i>	

SESSION C3 – CARRIER GRADE ETHERNET AND SERVICE LEVEL AGREEMENTS

Carrier Grade Ethernet and Service-Level Agreements.....	1135
<i>M. Lum</i>	

SESSION C4 – AUTOMATED PROVISIONING OF NEW SERVICES: AUTOMATED DISTRIBUTION FRAMES

Automated Main Distribution Frame	1175
<i>G. Lowndes</i>	
Telecom Italia View and Perspectives	1191
<i>S. Panattoni</i>	

SESSION C5 – SEAMLESS MOBILITY: AN INSIDE LOOK INTO FIXED-MOBILE CONVERGENCE

Seamless Mobility: An Inside Look into Fixed-Mobile Convergence	1215
<i>M. Sauer</i>	
C5 World Forum: Seamless Mobility.....	1227
<i>L. Bryant</i>	

VOLUME III

Fixed Mobile Convergence: The Path to Merging Services Between Wireline and Wireless	1236
<i>C. Derenale</i>	
FMC - Towards IP and Bandwidth	1253
<i>S. Shoham</i>	

SESSION C6 – WiMAX ALTERNATIVE: ORDINARY OR EXTRAORDINARY

Impact of WiMAX on OSS.....	1277
<i>B. Atwater</i>	

PLENARY PANEL – FUTURE NETWORKS: BUILT BY GROWING THE CORE OR AGGREGATING THE EDGES?

Future Networks - Built by Growing the Core or Aggregating the Edges?	1290
<i>R. Saracco</i>	
Shaping the Future Networks through the Design of New Business Models	1291
<i>C. Chiarenza</i>	
Future Networks - Built by Growing the Core or Aggregating the Edges?	1300
<i>A. Gelman</i>	
The Trends Driving the Edge Evolution.....	1309
<i>A. Lotti</i>	
Some Challenges Facing Network Operators	1323
<i>D. Martin</i>	
Growing the Core or Aggregating the Edge?.....	1330
<i>J. Mellis</i>	
Content-Aware Networking: Network Evolution Beyond IP	1336
<i>S. McAllister</i>	

PLENARY PANEL – NGN DEPLOYMENT: THE HUMAN IMPACTS – CARRIER PERSPECTIVES

NGN Deployments: The Human Impact.....	1347
<i>J. Costa E Silva</i>	

SESSION D1 – SUCCESSFUL ETHERNET SERVICE DEPLOYMENTS

Successful Ethernet Service Deployments: Strategies that Really Win Customers and Grow Top Line Revenue	1357
<i>U. Kukreja</i>	
Successful Ethernet Service Deployments: Orange Business Services	1368
<i>V. Cacheux</i>	
Active Ethernet and Open Access	1382
<i>D. Guillot</i>	
Successful Ethernet Service Deployments with Copper Access	1398
<i>K. Hoult</i>	

SESSION D2 – WiMAX 802.16e-2005: AN OPERATOR CASE STUDY FOR WIRELESS BROADBAND

WiMAX 802.16e - 2005: Operator Case Study for Wireless Broadband	1416
<i>B. Potdevin</i>	

Intel WiMAX Technology	1426
<i>G. Karolkowski</i>	
WiMAX - Operator Case Study.....	1449
<i>P. Ziegelwanger</i>	

SESSION D3 – SIMPLIFYING NETWORK MANAGEMENT WITH ROADM TECHNOLOGY

Simplifying Network Management with ROADM Technology	1463
<i>B. Gartner</i>	
Simplifying Network Management with ROADM Technology	1478
<i>D. Dunphy</i>	
Case Study: Implementation of NGN Backbone.....	1499
<i>P. George</i>	
How to Simplify Network Management with ROADMs in Regional/LH Networks	1530
<i>S. Voll</i>	

SESSION D4- DYNAMIC ICT IN SERVICE PROVIDER ENVIRONMENTS

IT within NGN Production. Support for Efficiency and Flexibility.....	1538
<i>H. Damker</i>	
Consolidation, Convergence & IP Driving: Platform Evolution and the COTS Ecosystem	1549
<i>T. Jokiah</i>	
The Business Case for Communications Servers.....	1560
<i>C. Williams</i>	

SESSION D5 – DEFENSE IN DEPTH: A STRATEGY FOR SECURING IMS NETWORKS

The Experts in Communication Forensics	1579
<i>E. De Bueger</i>	
IMS Security - Threats, Countermeasures and Future Topics	1593
<i>G. Liebe</i>	
Secure IMS/WiMax Interworking to Realize a Fixed-Mobile Converged Network Architecture	1618
<i>S. Wines</i>	

SESSION D6 – THE NEW INTERNET BUSINESS MODEL BASED ON Ipv6: DRIVERS, CHALLENGES, AND WAY FORWARD

3G Innovation Using IPv6: An Italian Testbed	1633
<i>K. El Malki</i>	
The Internet Business Model Based on IPv6: Drivers, Challenges, and Way Forward	1650
<i>T. Meriem</i>	

IPv6 Business Case PTC'07	1669
<i>T. Hain</i>	

SESSION E1 – FIBER TO THE MOST ECONOMICAL POINT: IS IT FINALLY HAPPENING?

Moving to Mass Market Access.....	1714
<i>J. Lartigue</i>	
Orebro City Network	1723
<i>C. Karlsson</i>	
Fiber to the Most Economical Point: Telecom Italia Strategic Issues for Fiber Access Deployment	1734
<i>A. Marconda</i>	
FTTH Deployment Dynamics: Overview and French Case.....	1759
<i>R. Montagne</i>	
Assessing the Accessibility of Next Generation Access.....	1796
<i>M. Weldon</i>	

SESSION E2 – RATIONALIZING TELEPHONY NETWORKS COST EFFICIENTLY

Rationalizing Telephony Networks Cost Efficiently	1814
<i>O. Anebygd</i>	
TeliaSonera at a Glance.....	1816
<i>M. Andersson</i>	
Effecting Voice Migration: Cost, Competition and Complexity.....	1830
<i>M. Beal</i>	
Telephony in a Full Service Broadband Network	1837
<i>L. Moberg</i>	

VOLUME IV

Carrier Network Transformation - Voice as the Catalyst	1852
<i>B. Tratz-Ryan</i>	

SESSION E3 – A FLEXIBLE END-TO-END QoS CONTROL CAPABILITY FOR RETAIL AND WHOLESALE

A Flexible End-to-End QoS Control Capability for Retail and Wholesale: Panel Intro	1868
<i>No Author Given</i>	
QoS Control for Multiple Services: A Key Business Differentiator	1874
<i>O. Schelen</i>	
The Role of Admission Control and Policy Management in QoS Model.....	1886
<i>N. Kraft</i>	

End to End QoS - Broadband Providers and Carriers Working Together	1904
<i>V. Ihora</i>	
A Unified Policy Management Approach for Retail and Wholesale QoS Delivery	1918
<i>P. Momtahan</i>	
A Flexible End-to-End QoS Control Capability for Retail & Wholesale.....	1937
<i>M. Siviero</i>	

SESSION E4 – COMMON IP CENTRIC NETWORK FOR THE FIXED-MOBILE CONVERGENCE

Evaluation of Packet Transport Technology to Enable the IP-Centric FMC.....	1952
<i>I. Abramovich</i>	
How Does a Converged Operator Look Like?	1973
<i>K. Valtari, M. Mattinen</i>	
FMC is NOT as usual: Business Trends & Challenges Towards Full-IP	1997
<i>L. Theobaldt</i>	

SESSION E5 – FIXING IMS: DELIVERING MISSING FUNCTIONALITY FOR PROFITABLE NGNs

IMS: Delivering Missing Fuctionality for Profitable NGNs.....	2009
<i>S. Hourihan</i>	
Fixing IMS: Delivering Missing Functionality for Profitable NGNs.....	2014
<i>M. Sassi</i>	
When will Next Gen be This Gen?	2033
<i>D. Warren</i>	

SESSION E6 – SERVICE DELIVERY ON FIXED AND MOBILE WiMAX

Service Delivering for Fixed and Mobile WiMax	2043
<i>L. Bordonì</i>	
Service Delivery on Fixed and Mobile WiMAX	2057
<i>S. Mewada</i>	
Wireless Broadband Services and Applications	2067
<i>M. Sangiovanni</i>	

PLENARY PANEL – ARE CARRIER IP NETWORKS FULFILLING THE ENTERPRISE NEEDS AND EXPECTATIONS ON THE FRONT OF INNOVATION?

Managed IP Communications: Platform for Competitive Advantage.....	2090
<i>J. Caron</i>	
IP Transformation for SME.....	2102
<i>M. Intorrella</i>	
Market Dynamic on VoIP for the Enterprise Segment with Europe.....	2109
<i>R. Mastropasqua</i>	

The Ratios of Managed VoIP Service: Economic Benefits and New Services	
Introduction	2118
<i>M. Messina</i>	
Diffusion and Adoption Processes of VoIP Solutions in Italy	2124
<i>F. Pennarola</i>	
How to Address the Needs of Enterprises in Telephony: IP Telephony Managed	2141
<i>J. Sevilla</i>	

SESSION F1 – MIGRATE TO OPTICAL ACCESS

Fiber Access without Limits	2151
<i>S. Neidlinger</i>	
Economical Analysis of Solutions for the Optical Access	2164
<i>G. Bedo</i>	
Migrating to Optical Access: Perspectives from BT	2178
<i>D. Clarke</i>	
FTTH Architectures in Europe	2193
<i>W. Fischer</i>	
FTTx at TELUS: Decisions, Deployments, and Challenges	2214
<i>B. Sinclair</i>	

SESSION F2 – CONVERGENT CHARGING AND BILLING IN UNIFIED NETWORKS

Convergent Charging and Billing in Unified Networks	2229
<i>H. Alemdar, C. Orviss, S. Wallin, J. Fourie</i>	

SESSION F3 – METRO ETHERNET ACCESS METHODS: OPERATIONS, ADMINISTRATION AND MAINTENANCE (OAM) MANAGEMENT AND PROVISIONING

Metro Ethernet Access Methods: OAM Management & Provisioning	2237
<i>A. Goldberg, M. Burzio, K. Hoult, G. Poggi</i>	
Multiservice Access Network Evolution and OAM Impacts	2248
<i>M. Burzio</i>	
Intelligent Ethernet Access Anywhere!	2262
<i>K. Hoult</i>	
First Mile Optical Ethernet Access and IEEE 802.3ah OAM	2276
<i>G. Poggi</i>	

SESSION G1 – SINGLE IMS ACROSS MULTIPLE NETWORKS

Single IMS Across Multiple Networks	2290
<i>R. Amit</i>	
The Importance of Testing in Reducing IMS Deployment Risks	2305
<i>J. Van Den Breekel</i>	

SIP Proxy Home Gateway: A Solution of Single IMS Across Multiple Networks	2315
<i>L. Qiao</i>	

SESSION G2 – LEGACY AND FUTURE PROOFING THE NETWORK

Legacy and Future-Proofing the Network	2339
<i>B. Ette</i>	
A Brazilian CLEC View About the Evolution of the Network	2349
<i>R. Paschoareli</i>	
Broadband Access-Focus on Customer Experiences!	2358
<i>B. Tratz-Ryan</i>	
Legacy and Future-Proofing the Network	2374
<i>G. Williamson</i>	

SESSION G3 – UNIFIED DATABASE FOR ALL SUBSCRIBERS ACROSS MOBILE AND FIXED (HSS)

Unified User Data Center for FMC	2393
<i>P. Biasci</i>	
HSS+ at the Centre of BT's Converged Network	2412
<i>M. Crowther</i>	
HSS Challenges and Strategies	2425
<i>A. Di Pasquali</i>	
HSS - Convergent Database in an Converged Networks and Service Landscape	2441
<i>T. Rambold</i>	
Subscriber-Centric Distributed Real-Time Database	2455
<i>G. Zlotkin</i>	
Author Index
