

2007 Latin American Network Operations and Management Symposium

**Petropolis, Rio de Janeiro, Brazil
10-12 September 2007**

IEEE Catalog Number:
ISBN 10:
ISBN 13:

CFP0742C-PRT
1-4244-1181-5
978-1-4244-1181-8

Table of Contents - LANOMS 2007

Invited Paper Session 1

- A Test-oriented Architecture for Network Fault Management** 1
Ronaldo Salles, Edmundo Cecílio, and Sérgio Cardoso (IME),
Adolfo Correia, and Fábio Bleasby (Silicon Strategy)
- Management Issues on Wireless Mesh Networks** 8
Jairo L. Duarte, Diego Passos, Rafael L. Valle, Etienne Oliveira,
Débora Muchaluat-Saade, and Célio V. Albuquerque (UFF)
- A Management Platform for Multimedia Distribution in Country-wide Networks** 20
Daniel C. Uchôa, Raoni Kulesza, Reinaldo Matushima,
Samuel Kopp, Graça Bressan, and Regina M. Silveira (USP)

Invited Paper Session 2

- Implementing and Deploying Network Monitoring Service Oriented Architectures** 28
Leobino Sampaio, Ivo Koga, Rafael Costa, Herbert Monteiro,
and José A. Suruagy Monteiro (UNIFACS),
Fausto Vetter, Guilherme Fernandes, and Murilo Vetter (UFSC)
- The RUCA Project and Digital Inclusion** 38
Ricardo C. Carranoa, Raphael R. Martins, and Luiz Claudio Schara Magalhães (UFF)

Technical Session 1: Network Management

- Open Source Tool for Management Network Information** 50
Vreixo Formoso, Fidel Casheda, Víctor Carneiro, and Juan Valiño (Univ. de A Coruña)
- On Metrics to Distinguish Skype flows from HTTP traffic** 57
Emanuel P. Freire, Ronaldo M. Salles (IME), and Artur Ziviani (LNCC)
- Using Statistical Discriminators and Cluster Analysis to P2P and Attack Traffic Monitoring** 67
Marcus Fábio F. do Carmo, Gabriel P. Siqueira Júnior, and Raimir Holanda (UNIFOR),
José Everardo Bessa Maia (UECE), and José Neuman de Sousa (UFC)
- A PCE-based Connectivity Provisioning Management Framework** 76
E. Grampín, A. Castro, M. Germán, F. Rodríguez,
G. Tejera, and M. Sanguinettio (Universidad de la República)

Technical Session 2: Service, Security and Policy Management

- Team and Task Based RBAC Access Control Model** 84
Wei Zhou and Christoph Meinel (University of Postdam)
- Policy Interactions and Management of Traffic Engineering Services Based on Ontologies** 95
Steven Davy, Keara Barrett, Brendan Jennings, and Sven van der Meer (Waterford Institute of Technology), Martín Serrano (Universitat Politècnica de Catalunya),
and John Strassner (Motorola Labs)
- Service Level Agreement Design and Service Provisioning for Outsourced Services** 106
Filipe T. Marques, Jacques P. Sauvé, and Antão Moura (UFCEG)
- The Design of a New Policy Model to Support Ontology-Driven Reasoning for Autonomic Networking** 114
John Strassner, David Raymer, and Srinu Samudrala (Motorola Labs), José Neuman de Souza (UFC), Steven Davy and Keara Barrett (Waterford Institute of Technology)
