

Proceedings

MSE 2007

**2007 IEEE
International Conference
on Microelectronic
Systems Education**

*3-4 June 2007
San Diego, CA*

Sponsored by

IEEE Computer Society Technical Committee on Design Automation
IEEE Computer Society Technical Committee on VLSI
IEEE Test Technology Technical Council

Los Alamitos, California
Washington • Tokyo

MSE 2007

2007 IEEE International Conference on Microelectronic Systems Education

Table of Contents

Message from the General Chair	xii
Message from the Program Chair	xiii
Conference Committee	xv
Technical Program Committee	xvi

Session 1: Embedded Systems

Introduction: **Mark Johnson**
Purdue University (General Chair)

Invited Speaker:

Model-Based Design of Embedded Systems	3
<i>Pieter Mosterman, Senior Research Scientist, The Mathworks, Inc</i>	

Invited Speaker:

Trends in Embedded Systems -- A Microsoft Perspective	4
<i>Stewart Tansley, Program Manager in External Research & Programs, Microsoft Research</i>	

Reflections on Implementing and Teaching an Advanced Undergraduate Course in Embedded Systems.....	5
<i>D. Helvick, R. Mercado, Z. Zhang, and D. T. Rover</i>	

A Senior-Level Course in Hardware-Software Codesign.....	7
<i>Patrick Schaumont</i>	

Session 2: Poster Session I

Poster Chair: **John Nestor**
Lafayette College

Challenges and Innovations in Microelectronics Education in Developing Nations	11
<i>Ndubuisi Ekekwe and Chinyeaka Ekenedu</i>	
A Novel Graduate Course Takes a Systematic Approach to Teaching Digital System Timing	13
<i>John D. Lynch</i>	
Simulink Based Real-Time Laboratory Course Development	15
<i>James Kang, Brita Olson, Alan Felzer, Rajan Chandra, and Salomon Oldak</i>	
A Unified Environment for Design Entry and 3D Animation of Analog Circuits Schematics.....	17
<i>Joachim Becker, Stanis Trendelenburg, and Yiannos Manoli</i>	
AnaDig - An Educational Chip for VLSI Device Characterization	19
<i>E. Piwowarska, W. Kuzmicz, G. Farkas, A. Poppe, M. Hristov, E. Manolov, B. Weber, J. Butas, G. Jablonski, A. Jarosz, A. Kos, A. Golda, and R. Dlugosz</i>	
Capstone Design Project for a Ubiquitous Sensor Network	21
<i>Naehyuck Chang and Younghyun Kim</i>	
Stream Manager, Easy CAD Tools Switching in Academic Context	23
<i>Jean-Marc Gallière and Guy Cathebras</i>	
Graduate School in Information and Communication Technologies. Experiences at Tallinn University of Technology	25
<i>Gert Jervan, Margus Kruus, and Ennu Rüstern</i>	
Development and Distribution of TSMC 0.25 μ m Standard CMOS Library Cells	27
<i>Jeannette Donan Djigbenou and Dong Sam Ha</i>	
Introducing TCAD Tools in a Graduate Level Device Physics Course	29
<i>David Wahlgren Parent and Lourdes Del Rio-Parent</i>	
Teaching Informatics Students the Secrets of Hardware Design	31
<i>Thilo Pionteck</i>	
Using an FPGA Processor Core and Embedded Linux for Senior Design Projects.....	33
<i>Tyson S. Hall and James O. Hamblen</i>	
A Pioneering Integrated Circuit Design Program - High Volume Fast Track Hiring and Integration of Engineers	35
<i>Ronnie Choo Hean Ng</i>	
Simulating a Reconfigurable Cache System for Teaching Purposes	37
<i>Ezequiel Herruzo, J. Ignacio Benavides, Ricardo Quisiant, Emilio L. Zapata, and Oscar Plata</i>	

Multi-user/Multi-test-bed Remote Hardware Laboratory with Job Management System	39
<i>Norihiro Fujii and Nobuhiko Koike</i>	
Applying e-Environments in Teaching the Basics of Digital Logic.....	41
<i>Tarmo Robal and Ahto Kalja</i>	
Design and Implementation of a Minuscule General Purpose Processor in an Undergraduate Computer Architecture Course	43
<i>Archana Chidanandan, J. P. Mellor, and Laurence D. Merkle</i>	
Graduate Education to Fight System Level Design Productivity in SoC Design	45
<i>Omar Hammami and Muhammad Omer Cheema</i>	
Distributed Collaborative Adaptive Sensing: A Unifying Theme for a Junior Level Embedded Systems Course.....	47
<i>Dhruv Kumar and Wayne Burlison</i>	
A CAL Tool to Aid the Understanding of Logic Synthesis.....	49
<i>Reginaldo Tavares, William Lautenschläger, and Ricardo Reis</i>	
Education for 21st Century Microelectronics and Semiconductor Technology	51
<i>Santosh Kurinec, Lynn Fuller, and Mustafa Abushagur</i>	
WARP, a Unified Wireless Network Testbed for Education and Research	53
<i>Kiarash Amiri, Yang Sun, Patrick Murphy, Chris Hunter, Joseph R. Cavallaro, and Ashutosh Sabharwal</i>	
Integrating Nano-logic into an Undergraduate Logic Design Course	55
<i>Saket Srivastava and Sanjukta Bhanja</i>	
A Student-Oriented Course in Digital VLSI Design.....	57
<i>Kjell Jeppson</i>	
KARMA: A Didactic Tool for Two-Level Logic Synthesis	59
<i>C. E. Klock, F. R. Schneider, M. V. N. Gomes, D. S. Moura, R. P. Ribas, and A. I. Reis</i>	
Teaching Fault Tolerant FPGA Design for Aerospace Applications	61
<i>Dan Fay, Scott Campbell, Greg Miller, and Dan Connors</i>	
An Entrepreneurship Emulation Platform.....	63
<i>Ren-Song Tsay</i>	
Design-for-Debug: A Vital Aspect in Education	65
<i>Prawat Nagvajara and Baris Taskin</i>	
Hardware Security: Preparing Students for the Next Design Frontier	67
<i>Farinaz Koushanfar and Miodrag Potkonjak</i>	
HDL-s for Students with Different Background	69
<i>Uljana Reinsalu, Anton Arhipov, Teet Evertson, and Peeter Ellervee</i>	
TACT as a Learning Tool for Radio Design	71
<i>Delia Rodríguez de Llera González, Ana Rusu, Wangren Xu, and Mohammed Ismail</i>	

A Holistic Approach Towards a Unified CpE Laboratory Platform.....	73
<i>Peter Athanas and Cameron Patterson</i>	
Accurate Back-of-the-Envelope Transistor Model for Deep Sub-micron MOS.....	75
<i>Zhenyu (Jerry) Qi and Mircea R. Stan</i>	
Building an Evolvable Low-Cost HW/SW Educational Platform – Application to Virtual Instrumentation	77
<i>Andres Cicuttin, Maria Liz Crespo, Alexander Shapiro, and Nizar Abdallah</i>	
Experiences Teaching Physical Synthesis of FPGAs and ASICs	79
<i>Don Bouldin and Pradeep Chimakurthy</i>	

Luncheon Speakers

Microelectronic Systems Education in the Global Economy Era.....	83
<i>Andrzej Rucinski, University of New Hampshire</i>	
<i>Don Bouldin, University of Tennessee</i>	

Session 3: EDA Panel Discussion

Moderator: **James Duckworth**
Worcester Polytechnic Institute (Moderator)

Session 4: Poster Session II

Poster Chair: **John Nestor**
Lafayette College

Multifunctional Digital Embedded Platform	87
<i>Philip Van Pelt, Patrick Pelgrims, Tom Tierens, Wim Dams, and Bjorn Van de Vondel</i>	
Teaching Top-Down ASIC/SoC Design vs Bottom-Up Custom VLSI.....	89
<i>Mircea Stan, Adam Cabe, Sudeep Ghosh, and Zhenyu Qi</i>	
Improving Student Confidence with Analog Circuits.....	91
<i>Tina A. Hudson and Matthew Goldman</i>	
Experiences Teaching Functional Verification Techniques with Practical Designs.....	93
<i>Tun Li, Guo Yang, SiKun Li, Wei Dong, and RangYu Deng</i>	
A Low Cost and Interactive Rapid Prototyping Platform for Digital System Design Education	95
<i>Dong-Soo Kang, Soo Yun Hwang, Kyoung-Son Jhang, and Kang Yi</i>	
MP3 Portable Player System-Level Glue Logic on FPGA.....	97
<i>Ketan J. Raut and Shashank S. Shriramwar</i>	
Readout and Control Circuit for a Four Pixel Digital Camera as Semester Project.....	99
<i>Bjørn B. Larsen, Linga Reddy Cenkeramaddi, and Jukka Typpö</i>	

Extensive Coverage of Functional Verification of Hardware Designs	101
<i>Mihaela Radu</i>	
A Laboratory for Wireless and Mobile Embedded Systems	103
<i>Zeljko Zilic, Jean-Samuel Chenard, and Milos Prokic</i>	
Abstract Verilog: A Hardware Description Language for Novice Students.....	105
<i>Carl Ebeling and Brian French</i>	
Simulation and 3D Characterization of Microsystems	107
<i>Bogdan Bercu, Laurent Montès, Panagiota Morfouli, and Nathalie Mathieu</i>	
Globally-Collaborative “Homeland” Security System Design.....	109
<i>Henk Spaanenburg, Andrzej Rucinski, Kent Chamberlin, Thaddeus Kochanski, and Lennart Long</i>	
VLSI CAD Education and Exercise Course with Public Domain Tools	111
<i>Satoshi Komatsu, Kazuyoshi Takagi, Masahiro Fujita, and Kunihiko Asada</i>	
Developing and Integrating Lab Projects as Important Learning Components in an Embedded Systems Course	113
<i>L. Sousa, F. Alegria, and J. Germano</i>	
A High-Level Modeling Environment Based Approach for the Study of Configurable Processor Systems	115
<i>Jingzhao Ou and Shay Ping Seng</i>	
The RoboCup Nanogram League: An Opportunity for Project-Based Undergraduate Education in Microsystems	117
<i>Samara L. Firebaugh and Jenelle Armstrong Piepmeier</i>	
Introducing Embedded Design Concepts to Freshmen and Sophomore Engineering Students with LEGO MINDSTORMS NXT	119
<i>Shekhar Sharad</i>	
Student-Specified versus Instructor-Specified Projects: A Comparison of Outcomes	121
<i>Esther A. Hughes</i>	
Experiences Using the Xilinx Microblaze Softcore Processor and uCLinux in Computer Engineering Capstone Senior Design Projects	123
<i>R. H. Klenke</i>	
Active Learning Techniques in a CAD Course.....	125
<i>Scott Hauck</i>	
An FPGA Design Project: Creating a PowerPC Subsystem plus User Logic.....	127
<i>Rod Foist, André Ivanov, and Robin Turner</i>	
A Paradigm of Government/Industry/University Cooperation: A PSoC Controller for a NASA Robotic Arm	129
<i>Daniel Baker, Erik Goodman, Patrick Kane, and Michael Shanblatt</i>	

Study on Rapid Prototyping Methodology of the Lecture Contents for the IT SoC Certificate Program	131
<i>Eun-ok Kim and Jang-hyun Park</i>	
Open Hardware Platform Helps Students Getting Started in Analog and Digital Design	133
<i>Wim Dams, Marc Roggemans, Patrick Pelgrims, Tom Tierens, and Danny Pauwels</i>	
Interdisciplinary Embedded System Design in Education	135
<i>Tom Tierens, Patrick Pelgrims, Wim Dams, and Philip Van Pelt</i>	
Exploring RFID Prototyping in the Virtual Laboratory	137
<i>Alex K. Jones, Swapna R. Dontharaju, Leonid Mats, James T. Cain, and Marlin H. Mickle</i>	
FPGA e-Lab, a Technique to Remote Access a Laboratory to Design and Test	139
<i>Reza Hashemian and Jason Riddley</i>	
Collaborative VLSI-CAD Instruction in the Digital Sandbox.....	141
<i>Alex K. Jones, Steven Levitan, Rob A. Rutenbar, and Yuan Xie</i>	
Integrating Validation and Verification in the Digital Design Curriculum.....	143
<i>Shrirang M. Yardi and Michael S. Hsiao</i>	
An Electronic System Design Platform for SYSTEMatic Learning in ECE and ICT Curriculum	145
<i>Mihir Ravel and Mark McDermott</i>	
Rapid Prototyping Course on Mobile Computer Systems	147
<i>Asim Smailagic and Daniel P. Siewiorek</i>	
An Educational Tool for Design Automation of CMOS Cells	149
<i>Adriel Ziesemer, Cristiano Lazzari, and Ricardo Reis</i>	
Teaching Reconfigurable Hardware Using an Interdisciplinary Problem Based Model to Strengthen Digital Systems Design Skills in Electronic Engineering Undergraduates	151
<i>Jorge-Edson Loya-Hernández, José-Luis González-Vázquez, and Martha-Isela Garduño-Mota</i>	
Integration of Statistical Techniques in the Design Curriculum	153
<i>Farinaz Koushanfar and Miodrag Potkonjak</i>	
International Master Degree in Micro and NanoTechnology for Integrated Systems	155
<i>Laurent Montès and Panagiota Morfouli</i>	

Session 5: SoC

Moderator: **Dave Parent**
San Jose State University

Invited Speaker:

Leveraging FPGA Technology for Digital Logic and Embedded Systems Education	159
<i>Dr. Stephen Brown, University of Toronto and Altera Toronto Technology Center</i>	

Invited Speaker:

Dr. Ivo Bolsens, Chief Technology Officer, Xilinx, Inc.

NetFPGA - An Open Platform for Gigabit-Rate Network Switching and Routing 160
*John W. Lockwood, Nick McKeown, Greg Watson, Glen Gibb, Paul Hartke,
Jad Naous, Ramanan Raghuraman, and Jianying Luo*

Using a Low-Cost SoC Computer and a Commercial RTOS in an Embedded
Systems Design Course..... 162
James O. Hamblen

**Session 6: Innovative Teaching Methods
and Curricula**

Moderator: **Mihaela Radu**

Rose-Hulman Institute of Technology

Introduction to Digital Design: A Paradigm-Based Approach 167
Miodrag Potkonjak and Jennifer Wong

Experience with the CADAPPLETS Project..... 169
John A. Nestor

Incorporating Large-Scale FPAA's in Analog Design Courses..... 171
Christopher M. Twigg and Paul E. Hasler

FreePDK: An Open-Source Variation-Aware Design Kit 173
*James E. Stine, Ivan Castellanos, Michael Wood, Jeff Henson, Fred Love,
W. Rhett Davis, Paul D. Franzon, Michael Bucher, Sunil Basavarajaiah,
Julie Oh, and Ravi Jenkal*

Author Index..... 175
