

International Conference on  
Internet Surveillance and Protection  
(ICISP'06)

Cap Esterel, Cote d'Azur, France

August 26-29, 2006

# Proceedings

*ICISP 2006*

## Table of Contents

<b>Preface</b> .....	xviii
<b>Organizing Committee</b> .....	xix

---

### **ICISP1: MONIT**

*Session chair: Thomas Lindh*

Monitoring of SIP-Based Communication: Using Signalling Information for Performance Measurements .....	
<i>Thomas Lindh and Emma Roos</i>	
VIP Bridge: Integrating Several Sensor Networks into One Virtual Sensor Network .....	
<i>Shu Lei, Hui Xu, Wu Xiaoling, Jinsung Cho, and Sungyoung Lee</i>	
Measurement Based Approach of Congestion Control for Enforcing a Robust QoS in the Internet.....	
<i>Philippe Owezarski and Nicolas Larrieu</i>	
Monitoring & Forensic Analysis for Wireless Networks .....	
<i>Kevin P. Mc Grath, John Nelson</i>	

### **ICISP2: IPERF I**

*Session chair: F.J. González-Cañete*

Evaluation of a Multi-Queue Web Caching Scheme that Differentiates the Content-Type of Documents.....	
<i>F.J. González-Cañete, E. Casilari, and A. Triviño-Cabrera</i>	
Complementary Visualization of perfSONAR Network Performance Measurements.....	
<i>Andreas Hanemann, Vedrin Jeliaskov, Olav Kvittem, Luis Marta, Joe Metzger, and Igor Velimirovic</i>	
Modeling Internet Traffic: Performance Limits .....	
<i>H. Hassan, J.M Garcia, and C. Bockstal</i>	
Design and Evaluation of an Overload Control System for Crisis-Related	

Web Server Systems .....  
*Mikael Andersson, Martin Höst, Jianhua Cao, Christian Nyberg, and Maria Kihl*

### **ICISP3: IPERF II**

*Session chair: Selin Cerav-Erbas*

The Interaction of IGP Weight Optimization with BGP.....  
*Selin Cerav-Erbas, Olivier Delcourt, Bernard Fortz, and Bruno Quoitin*  
Public Domain P2P File-Sharing Networks Measurements and Modeling .....  
*Jaime Lloret, Juan R. Diaz, Jose M. Jimenez, and Fernando Boronat*  
Overload Protection in a SIP Signaling Network .....  
*Masataka Ohta*  
Evolution of the Current Telecommunications Networks and the Next Generation  
Optical Networks.....  
*Cebraıl Taşkin, Hüseyin Ekiz, Hayrettin Evirgen, and Ali Yavuz Çakir*

### **ICISP4: TRASI I**

*Session chair: Thomas Duebendorfer*

Initial Results from an IPv6 Darknet .....  
*Matthew Ford, Jonathan Stevens, and John Ronan*  
Traffic Analysis of a Congested Link.....  
*Denis Collange and Patrick Brown*  
Flow-Based Identification of P2P Heavy-Hitters .....  
*Arno Wagner, Thomas Dübendorfer, Lukas Hämmerle, and Bernhard Plattner*

### **ICISP5: TRASI II**

*Session chair: Feng Cao*

Crawler Detection: A Bayesian Approach.....  
*Athena Stassopoulou and Marios D. Dikaiakos*  
On the Power-Law of the Internet and the Hierarchy of BGP Convergence.....  
*Jinjing Zhao, Peidong Zhu, and Xicheng Lu*  
Monitoring Challenges and Approaches for P2P File-Sharing Systems.....  
*Danny Hughes, James Walkerdine, and Kevin Lee*

### **ICISP6: SYNEV**

*Session chair: Emmanouil Serrelis*

Improving Network Infrastructure Security by Partitioning Networks Running.....  
Spanning Tree Protocol  
*K. H. Yeung, F. Yan, and T. C. Leung*  
Disaster Recovery Sites as a Tool of Managing Extreme Attacks.....  
*Emmanouil Serrelis and Nikos Alexandris*  
Simple Provisioning, Complex Consolidation — A Pragmatic Step Towards a New Optical Layer.....

<i>Tamás Kárász and Tivadar Jakab</i>	
A New Planning Methodology for IP Networks with Dynamic Traffic Demand and Full Survivability Guarantee Against Link Failures .....	
<i>Kwok-shing Ho and Kwok-wai Cheung</i>	

**ICISP7: USSAF I**

*Session chair: Ivar Jørstad*

Authentication in an Internet Banking Environment: Towards Developing a Strategy for Fraud Detection.....	
<i>Kane Baxter Bignell</i>	
A Generic Authentication System based on SIM .....	
<i>Audun Wangensteen, Lars Lunde, Ivar Jørstad, and Do van Thanh</i>	
Using the Discrete Squaring Function in the Delayed Message Authentication Protocol.....	
<i>Bogdan Groza, Toma-Leonida Dragomir, and Dorina Petrica</i>	
Cooperative Itinerant Agents (CIA): Security Scheme for Intrusion Detection Systems .....	
<i>Rafael Pérez, Cristina Satizábal, and Jordi Forné</i>	

**ICISP8: USSAF II**

*Session chair: David Penedo*

Technical Infrastructure of a CSIRT .....	
<i>David Penedo</i>	
Home and Small Office Monitoring and Automation over the Internet .....	
<i>Jeferson Martin de Araujo, Luis Carlos Trevelin</i>	
SEMAFOR: A Framework for Authentication of Adaptive Multimedia Content Platform and Delivery for Heterogeneous Networks .....	
<i>Ahmed Reda Kaced and Jean-Claude Moissinac</i>	

**ICISP9: RTSEC**

*Session chair: Spyridon Papastergiou*

SeCReT: A Security Framework for Enhancing Chain of Response Trust in Session Initiation Protocol .....	
<i>Feng Cao</i>	
Towards New Security Framework for Voice Over IP.....	
<i>Carole Bassil, Ahmed Serhrouchni, and Nicolas Rouhana</i>	
TOES: Trustful and Open e-Ordering Service for SMEs .....	
<i>Despina Polemi and Spyridon Papastergiou</i>	

<b>Author Index</b> .....
