

# **IEEE ISPLC 2008**

**2008 IEEE International Symposium on  
Power Line Communications and Its Applications**

**April 2-4, 2008  
Ramada Plaza Jeju Hotel, Jeju Island, Korea  
<http://www.isplc2008.org>**

# Table of Contents

## Session A1: Channel Measurements and Modeling I

1. **High Voltage Channel Measurements and Field Test of a Low Power OFDM System** .....1  
Ricard Aquilue, Joan Lluís Pijoan, Ramon Llull University, Spain;  
German Sanchez, ENDESA Network Factory, Spain
2. **Channel Characteristic Comparison of Armored Shipboard Cable and Unarmored one** .....7  
Shinji Tsuzuki, Michinori Yoshida, Yoshio Yamada, Ehime University, Japan;  
Kazuhiro Murai, Hiroyuki Kawasaki, Uzushio Electric Co., Ltd., Japan;  
Kenta Matsuyama, Preminet Inc., Japan;  
Terushi Shinpo, Kinden Corporation, Japan;  
Yoshihiro Saito, Shunsuke Takaoka, Yuge National College of Maritime Technology, Japan
3. **Design of a PLC System Onboard Trains: Selection and Analysis of the PLC Channel** .....13  
S. Barmada, A. Musolino, R. Rizzo, M. Raugi, M. Tucci, University of Pisa, Italy;  
A. Gaggelli, Trenitalia S.p.A, Italy
4. **Measurement of Narrowband Channel Characteristics in Single-Phase  
Three-Wire Indoor Power-Line Channels** .....18  
Yoshie Sugiura, Takaya Yamazato, Masaaki Katayama, Nagoya University, Japan
5. **Analysis of Impedance Characteristics of MV Power Distribution Line for BPLC** .....24  
Jae-Jo Lee, Sungsoo Choi, KERI, Korea;  
Sugoog Shon, Hyo Suk Kim, Dong Seok In, Suwon University, Korea;  
Jee-Sik Park, Korea Polytechnic University, Korea
6. **The Influence of Time-varying Channels Synchronized with Commercial Power  
Supply on PLC Equipments** .....30  
Daisuke Umehara, Taro Hayasaki, Satoshi Denno, Masahiro Morikura, Kyoto University, Japan

## Session B1: Medium Access Control I

1. **A Fast Retransmission Mechanism in Power Line Communication Network** .....36  
Jianfeng Chen, Corporate Research, China
2. **Scheduling Strategies for Service Admission in Powerline Communication  
Access Networks with QoS Support** .....41  
Le Phu Do, Ralf Lehnert, Technische Universität Dresden, Germany
3. **Identity-Based Mutual Device Authentication Schemes for PLC System** .....47  
Joon Heo, Choong Seon Hong, Kyung Hee University, Korea;  
Moon Seok Choi, Seong Ho Ju, Yong Hoon Lim, KEPRI KEPCO, Korea
4. **A Distributed QoS Control Architecture for Heterogeneous Networks Applied to PLC Networks** .....52  
Rodrigo Filev Maia, Denis Gabos, Moacyr Martucci Jr, Escola Politécnica USP, Brazil
5. **A Cross-layer Scheduling Scheme for Multimedia Services over Power Line Networks** .....58  
Anna Papaioannou, Fotini-Niovi Pavlidou, Aristotle University of Thessaloniki, Greece
6. **Securing Powerline Communications** .....64  
Vamsi Paruchuri, University of Central Arkansas, USA;  
Arjan Durrezi, Indiana University-Purdue University Indianapolis, USA;  
Ramesh M, Unified Gateways, India

## Session A2: Channel Measurements and Modeling II

- 1. Urban Underground Medium Voltage Channel Measurements and Characterization .....70**  
Ricard Aquilue, Miquel Ribo, Joan Ramon Regue, Joan Lluís Pijoan, Ramon Llull University, Spain;  
German Sanchez, Endesa Network Factory, Spain
- 2. Power Line Channel Modelling for Industrial Application .....76**  
C. Konate, M. Machmoum, J. F. Diouris, Institut de Resherche en Electrotechnique et Electronique  
de Nantes Atlantique, France;  
A. Kosonen, J. Ahola, Lappeenranta University of Technology, Finland
- 3. Improvement of Indoor Powerline Channel Response .....82**  
S. Roblot, A. Zeddou, France Telecom, France
- 4. An IIR-Filter Approach to Time Variant PLC-Channel Modelling .....87**  
Gabriel Moreno-Rodriguez, Lars T. Berger, Design of Systems on Silicon, Spain

## Session B2: Medium Access Control II

- 1. Available Bandwidth Characteristics and Estimation of in-Home Power Line Networks .....93**  
Shiann-Chang Yeh, Chang-Kuan Lin, Homer H. Chen, National Taiwan University, Taiwan
- 2. A Simulation Study of the PLC-MAC Performance using Network Simulator-2 .....99**  
Min-Soo Kim, Dong-Min Son, Ajou University, Korea;  
Young-Bae Ko, Young-Hyun Kim, KEPRI, Korea
- 3. A Concept to Enhance System Data Rate for PLC Access Networks .....105**  
Ana Vukicevic, Farhad Rachidi, Swiss Federal Institute of Technology, Switzerland;  
Markus Bittner, Current Technologies International Gewerbepark, Switzerland;  
Abraham Rubinstein, Marcos Rubinstein, University of Applied Sciences of Western Switzerland, Switzerland
- 4. Rate Adaptation Scheme in Power Line Communication .....111**  
Sung-Guk Yoon, Saewoong Bahk, Seoul National University, Korea

## Session A3: Modulation and Coding

- 1. Maximum-likelihood Block Decoding of Noncoherent Coded FSK for CENELEC Band .....117**  
Anil Mengi, A. J. Han Vinck, Univeristy of Duisburg-Essen, Germany
- 2. Coded Adaptive Linear Precoded Discrete Multitone Over PLC Channel .....123**  
Fahad Syed Muhammad, Jean-Yves Baudais, Jean-Francois Helard, Matthieu Crussiere,  
Institute of Electronics and Telecommunications of Rennes, France
- 3. Performance of Array Codes on Power Line Communications Channel .....129**  
Nikoleta Andreadou, Fotini-Niovi Pavlidou, Aristotle University of Thessaloniki, Greece
- 4. Synchronization using Insertion/Deletion Correcting Permutation Codes .....135**  
Ling Cheng, Theo G. Swart, Hendrik C. Ferreira, University of Johannesburg, South Africa

## Session B3: Network and Service Management

- 1. Solving the Generalized Base Station Placement Problem in the Planning of  
Broadband Power Line Communications Access Networks .....141**  
Abdelfatteh Haidine, Ralf Lehnert, Dresden University of Technology, Germany

<b>2. Convergence of High-speed Powerline Communication and WiMedia UWB for Multimedia Home Networks .....</b>	<b>147</b>
Kwangil Lee, Junhee Park, Kyeongdeok Moon, ETRI, Korea	
<b>3. Definition of Common PLC MIB and Design of MIB Mapper for Multi-vendor PLC Network Management .....</b>	<b>152</b>
Chang-Keun Park, Joon-Myung Kang, Mi-Jung Choi, James Won-Ki Hong, POSTECH, Korea; Yong-hun Lim, Seongho Ju, Moon-suk Choi, KEPRI, Korea	
<b>4. Feasible Connectivity Solutions of PLC for Rural and Remote Areas .....</b>	<b>158</b>
Daniel Fink, Rho Jae Jeung, Information and Communication University, Korea	

## **Session A4: Multicarrier System**

<b>1. HomePlug AV System and DLC Bit-loading Algorithm over OPERA Power-line Channels with Impulsive Noise .....</b>	<b>164</b>
Eleonora Guerrini, Lorenzo Guerrieri, Dora Spa, Italy; Daniele Veronesi, MGTech Srl, Italy	
<b>2. Receiver Windowing for the HomePlug AV System .....</b>	<b>170</b>
Simone Bois, Paola Bisaglia, Dora Spa, Italy; Daniele Veronesi, MGTech Srl, Italy	
<b>3. Nonlinear Decision Feedback Estimation for Multicarrier Power Line Communication .....</b>	<b>176</b>
Mauro Tucci, Marco Raugi, Antonino Musolino, Sami Barmada, University of Pisa, Italy	
<b>4. Novel Frame Synchronization of OFDM Scheme for High-Speed Power Line Communication Systems .....</b>	<b>182</b>
Young Sun Lim, Jae Sung Park, Jin Young Kim, Kwangwoon University, Korea	
<b>5. Advanced Signal Processing for PLCs: Wavelet-OFDM .....</b>	<b>187</b>
S. Galli, Pannasonic, USA; H. Koga, N. Kodama, Panasonic Communications Co. Japan	
<b>6. Time-Varying Power Line Block Transmission Models over Doubly Selective Channels .....</b>	<b>193</b>
Tae-Eung Sung, Anna Scaglione, Cornell University, USA; Stefano Galli, Panasonic, USA	

## **Session B4: AMR, Experimental Systems, and Field Trials**

<b>1. An Information-Theoretic Analysis of Electricity Consumption Data for an AMR System .....</b>	<b>199</b>
Quentin H. Spencer, Aclara Power-Line Systems, Inc., USA	
<b>2. Analysis of Zero Crossing Synchronization for OFDM-Based AMR Systems .....</b>	<b>204</b>
Timo Kistner, Michael Bauer, Andreas Hetzer, Klaus Dostert, Universitat Karlsruhe, Germany	
<b>3. Powerline Effects over VDSL2 Performances .....</b>	<b>209</b>
Andrea Bergaglio, Umberto Eula, Mariano Giunta, Angelantonio Gnazzo, Telecom Italia S.p.A, Italy	
<b>4. Wire Integrity Testing Using Intemodulation Product Processing .....</b>	<b>213</b>
Bamidele Adebisi, Bahram Honary, Lancaster University, UK; Alistair Sutherland, BCF Designs Limited, UK	
<b>5. An Influence on Transmission Characteristics of Power Line Communication when using Surge Protective Devices .....</b>	<b>218</b>
Hiroshi Iwao, Nishiyama Corporation, Japan; Hitoshi Kijima, Polytechnic University, Japan; Kenju Takato, Fujitsu Access Limited, Japan	

<b>6. Modeling and Performance Analysis of PLC Channels with External Interference in Outdoor and Indoor Environments .....</b>	<b>222</b>
Eliezer A. Teixeira, Elton Mendes de Souza, Companhia Energetica de Goias, Brazil;	
Thienne M. Johnson, University of Amazonia, Brazil;	
Moises V. Ribeiro, Federal University of Juiz de Fora, Brazil;	
Fabio S. Marques, Sergio Granato de Araujo, Federal University of Goias, Brazil	

## **Session A5: Multimedia Transmission and Signal Processing**

<b>1. Maximum-Likelihood Estimation of the Frequency Response of a Low Frequency Powerline Communications Channel .....</b>	<b>228</b>
David W. Rieken, Aclara Power-Line Systems, Inc., USA	
<b>2. MMFSK-EOD System using Binary Hopping Patterns .....</b>	<b>234</b>
Suguru Hasegawa, Shin'ichi Tachikawa, Gen Marubayashi, Nagaoka University of Technology, Japan	
<b>3. FH/MFSK Lump Likelihood Ratio Decision Method and its Application for PLC .....</b>	<b>239</b>
Shin'ichi Tachikawa, Takuma Maeda, Nagaoka University of Technology, Japan	
<b>4. Uniformly Distributed Hopping Patterns For MMFSK In Power Line Communications .....</b>	<b>244</b>
Bamidele Adebisi, Saqib Ali, Bahram Honary, Lancaster University, Japan	

## **Session B5: Electromagnetic Compatibility**

<b>1. Electromagnetic Interferences caused by Power Line Communications in the HF Bands .....</b>	<b>249</b>
Joong Geun Rhee, Eugene Rhee, Jee-Sik Park, Hanyang University, Korea	
<b>2. On the Efficiency of Notching Technique to Reduce EM Radiations from PLC Networks .....</b>	<b>253</b>
Ana Vukicevic, Farhad Rachidi, Swiss Federal Institute of Technology, Switzerland;	
Abraham Rubinstein, Marcos Rubinstein, University of Applied Sciences of Western Switzerland, Switzerland	
<b>3. Outline about the EMC Properties and Throughputs of the PLC Systems up to 100 MHz .....</b>	<b>259</b>
Mohamed Tlich, INNOVAS, France;	
Richard Razafferson, Gautier Avril, Ahmed Zeddami, Orange Labs, France	
<b>4. Evaluation of the Interference Potential of In-Home Power Line Communication Systems .....</b>	<b>263</b>
Ming Zhang, Wilfred Lauber, Communications Research Centre Canada, Canada	

## **Industry Application Session**

<b>1. Experimental Studies of the Noise Recovery Ability of In-House Powerline Equipment .....</b>	<b>269</b>
Bente Jenson, AU-IBT, Denmark	
<b>2. A Novel Hybrid Network for Hospital Environment Incorporating IEEE802.16 and HomePlug AV Standards .....</b>	<b>274</b>
Peng Wang, University of Leeds, UK;	
Xufeng Huo, Garik Markarian, University of Lancaster, UK	
<b>3. Design of Integrated Meter Reading System based on Power-Line Communication .....</b>	<b>280</b>
Moonsuk Choi, Seongho Ju, Yonghun Lim, KEPRI, Korea	
<b>4. SAMBA Project: A Test Bed for PLC Application as a Digital Inclusion Tool .....</b>	<b>285</b>
Moacyr Martucci Junior, Andre Riyuiti Hirakawa, Escola Politecnica da Universidade de Sao Paulo, Brazil;	
Pedro Luiz de Oliveira Jatoba, Eletrobras, Brazil	

<b>5. Large Scale Broadband over Powerline Field Trial on Medium Voltage Overhead Circuits .....</b>	<b>289</b>
C. M. Arteaga, Y. J. Yang, Global Technology Services/IBM, USA	

## Poster Session

<b>1. Coupling Circuitary for Impedance Adaptation in Power Line Communications using VCGIC .....</b>	<b>293</b>
Chong-Yeun Park, Kwang-Hyun Jung, Won-Ho Choi, Kangwon National University, Korea	
<b>2. Reduction of the Impulsive Noise Emitted by a Resistive Load Commutation .....</b>	<b>299</b>
Vincent Guillet, Guy Lamarque, Philippe Ravier, Christophe Leger, University of Orleans, France	
<b>3. A Study on Adaptive Modulation of OFDM under Impulsive Power Line Channel .....</b>	<b>304</b>
Takahiro Tsugi, Makoto Itami, Tokyo University of Science, Japan	
<b>4. A Survey of Communication Network Paradigms for Substation Automation .....</b>	<b>310</b>
Mahmood Qureshi, Ali Raza, Dileep Kumar, Sang-Sig Kim, Un-Sig Song, Min-Woo Park, Hyuk-Soo Jang, Myongji University, Korea; Hyo-Sik Yang, Sejong University, Korea; Byung-Seok Park, KEPRI, Korea	
<b>5. Automatic Repeat Protocol for Distribution Automation System through Powerline Communication .....</b>	<b>316</b>
Byung-Seok Park, Seong-Ho, Ju, KEPRI, Korea; Cheoul-Shin Kang, Eun-Jeong Lim, Gi-Seok Ahn, Hannam University, Korea; Jin-Seok Bae, Korea Agency for Technology and Standards, Korea	
<b>6. Broadband Power-line Communication Channel Model: Comparison between Theory and Experiments .....</b>	<b>322</b>
Justinian Anatory, Mussa M. Kissaka, Nerey H. Mvungi, University of Dar es Salaam, Tanzania; Nelson Theethayi, Rajeev Thottappillil, Uppsala University, Sweden	
<b>7. Experimental Verification of the Compensation of Fades with Spectral Shaping in PLC .....</b>	<b>325</b>
K. Ouahada, A. J. Snyders, H. C. Ferreira, T. G. Swart, University of Johannesburg, South Africa	
<b>8. An Approach for Block Transmission Based Precoding and Equalisation with Improved Performance .....</b>	<b>331</b>
Chi Hieu Ta, Chungguang Liu, Stephan Weiss, University of Strathclyde, UK	
<b>9. A Fast Bit Loading Algorithm Synchronized with Commercial Power Supply for In-home PLC Systems .....</b>	<b>336</b>
Shinya Honda, Daisuke Umehara, Taro Hayasaki, Satoshi Denno, Masahiro Morikura, Kyoto University, Japan	
<b>10. Developing a PLC Module of Electricity Meter for AMR .....</b>	<b>342</b>
Jonghwa Song, Chul Lim, ILJIN Electric Co., Ltd., Korea; Soon-Woo Lee, Haesoo Park, KERI, Korea	
<b>11. Performance Analysis of Clustered-OFDM System with BitLoading Algorithm for Broadband PLC .....</b>	<b>345</b>
Fabricio P. V. de Campos, Moises V. Ribeiro, Federal University of Juiz de Fora, Brazil	
<b>12. Channel Model Simulation Technique for Power Line Communications .....</b>	<b>351</b>
Masashi Kitayama, Junichi Abe, Mitsubishi Electric Corporation, Japan	

## Session A6: Noise Management

<b>1. On Reliable Communications over Channels Impaired by Bursty Impulse Noise .....</b>	<b>357</b>
Dario Fertoni, Giulio Colavolpe, Universita di Parma, Italy	
<b>2. Equalization with Interference Cancellation for Hermitian Symmetric OFDM/OQAM systems .....</b>	<b>363</b>
Hao Lin, Chrislin Lele, Pierre Siohan, France Telecom, France	

<b>3. Impulsive Noise Detection on Masked Carriers .....</b>	<b>369</b>
G. Avril, F. Moulin, A. Zeddani, France Telecom Recherche&Developpement, France;	
M. Tlich, Teamlog, France;	
F. Nouvel, IETR, France	
<b>4. Improved Impulse Detection in Power Line Communication Systems .....</b>	<b>374</b>
Kyoungnam Seo, Haniph Latchman, University of Florida, USA;	
Kaywan H. Afkhamie, Intellon Corporation, USA	
<b>5. Joint use of Adaptive Equalization and Cyclic Noise Cancellation for Band-limited OQAM Based Multi-Carrier Transmission in Power-Line Communication Systems .....</b>	<b>380</b>
Hiromitsu Kunishima, Osamu Muta, Yoshihiko Akaiwa, Kyushu University, Japan;	
Hisao Koga, Panasonic Communications Co., Ltd., Japan	
<b>6. Mitigation of Effect of Impulsive Noise for OFDM Systems over Power Line Channels .....</b>	<b>386</b>
Yong-Hwa Kim, Hui-Myoung Oh, Kwan-Ho, Kim, KERI, Korea;	
Kyong-Hoe Kim, Seong-Cheol Kim, Seoul National University, Korea	

## **Session B6: PLC Command & Control and Hardware Design**

<b>1. WPC, A Breakthrough Technology for Control &amp; Command in Home .....</b>	<b>391</b>
M. Gaeta, P. Bertrand, Watteco, France	
<b>2. Street Lighting Control based on LonWorks Power Line Communication .....</b>	<b>396</b>
SungKwan Cho, Echelon Korea Asia Pacific Ltd., Korea;	
Vijay Dhingra, Echelon Corporation, USA	
<b>3. SoC Design and Implementation for High Reliable Narrow-Band Power-Line Communications .....</b>	<b>399</b>
Sungsoo Choi, Won-Tae Lee, Sungha Yun, KERI, Korea;	
Young-Chul Rhee, Kyungnam University, Korea	
<b>4. Design and Implementation of Analyzing Instrument for Broadband Powerline Communications .....</b>	<b>404</b>
Kyong-Hoe Kim, Seong-Cheol Kim, Seoul National University, Korea;	
Yong-Hwa Kim, KERI, Korea;	
Yong-Cheol Jeong., Sodiff E&T Co. Ltd., Korea	
<b>5. A Coupler with Transformer for Impedance Matching on MV Power Distribution Line for BPLC .....</b>	<b>409</b>
Hui-Myoung Oh, Sungsoo Choi, Jae-Jo Lee, KERI, Korea;	
Sugoog Shon, Hyo Suk Kim, Dong Seok In, Suwon University, Korea;	
Jinseok Bae, KATS, Korea
