## TABLE OF CONTENTS

### VOLUME 1

#### Association Information

#### GAS MEASUREMENT

|                                                                                |     |
|--------------------------------------------------------------------------------|-----|
| <b>Basics of High Pressure Measuring and Regulating Station Design</b> .....   | 1   |
| <i>E. D. Woomer Jr.</i>                                                        |     |
| <b>Compressibility of Natural Gas</b> .....                                    | 9   |
| <i>Jeffrey L. Savidge</i>                                                      |     |
| <b>Coping with Changing Flow Requirements at Existing Meter Stations</b> ..... | 24  |
| <i>James M. Doyle</i>                                                          |     |
| <b>Design of Distribution Metering and Regulating Stations</b> .....           | 27  |
| <i>Edgar Wallace Collins Jr.</i>                                               |     |
| <b>Determination of Leakage and Unaccounted for Gas - Transmission</b> .....   | 33  |
| <i>Rick Tompkins</i>                                                           |     |
| <b>Effects and Control of Pulsation in Gas Measurement</b> .....               | 37  |
| <i>Robert J. Mckee, Ray Durke</i>                                              |     |
| <b>Effects of Abnormal Conditions on Accuracy of Orifice Measurement</b> ..... | 48  |
| <i>Dean Graves</i>                                                             |     |
| <b>Fundamentals of Gas Measurement I</b> .....                                 | 55  |
| <i>Douglas E. Dodds</i>                                                        |     |
| <b>Fundamentals of Gas Measurement II</b> .....                                | 61  |
| <i>Jerry Paul Smith</i>                                                        |     |
| <b>Fundamentals of Gas Measurement III</b> .....                               | 66  |
| <i>James W. Keating</i>                                                        |     |
| <b>Fundamentals of Gas Turbine Meters</b> .....                                | 72  |
| <i>Tom Hudson</i>                                                              |     |
| <b>Installation and Operation Errors in Gas Measurement</b> .....              | 77  |
| <i>Thomas B. Morrow, Edgar B. Bowles Jr.</i>                                   |     |
| <b>Low Pressure Gas Measurement Using Ultrasonic Technology</b> .....          | 88  |
| <i>Volker Herrmann, Toralf Dietz</i>                                           |     |
| <b>Mass Meters for Gas Measurement</b> .....                                   | 100 |
| <i>Karl Stappert</i>                                                           |     |
| <b>Multipath Ultrasonic Flow Meters for Gas Measurement</b> .....              | 116 |
| <i>John Lansing</i>                                                            |     |

|                                                                            |     |
|----------------------------------------------------------------------------|-----|
| <b>Orifice Fittings and Meter Tubes</b> .....                              | 135 |
| <i>Bob Carlson</i>                                                         |     |
| <b>Orifice Meters - Operation and Maintenance</b> .....                    | 142 |
| <i>Scott Smith</i>                                                         |     |
| <b>Problems Unique in Offshore Gas Measurement</b> .....                   | 146 |
| <i>David Wofford</i>                                                       |     |
| <b>Thermometry in Gas Measurement</b> .....                                | 151 |
| <i>Joshua J. Kinney</i>                                                    |     |
| <b>Wet Gas Measurement</b> .....                                           | 159 |
| <i>Richard Steven</i>                                                      |     |
| <b>Contaminant Accumulation Effect on Gas Ultrasonic Flow Meters</b> ..... | 171 |
| <i>John Lansing</i>                                                        |     |

## **LIQUID MEASUREMENT**

|                                                                          |     |
|--------------------------------------------------------------------------|-----|
| <b>Application of Densitometers to Liquid Measurement</b> .....          | 188 |
| <i>Mike Pritchard</i>                                                    |     |
| <b>Application of Turbine Meters in Liquid Measurement</b> .....         | 196 |
| <i>Jack Heath</i>                                                        |     |
| <b>Automated Truck Loading Systems</b> .....                             | 202 |
| <i>Jason Casilio</i>                                                     |     |
| <b>Calculation of Liquid Petroleum Quantities</b> .....                  | 209 |
| <i>Peter W. Kosewicz</i>                                                 |     |
| <b>Calibration of Storage Tanks</b> .....                                | 219 |
| <i>Michael J. Yeandle</i>                                                |     |
| <b>Crude Oil Blending</b> .....                                          | 229 |
| <i>Kevin B. MacDougall</i>                                               |     |
| <b>Crude Oil Gathering by Truck Metering versus Manual Gauging</b> ..... | 233 |
| <i>J. W. Sulton</i>                                                      |     |
| <b>Design, Operation and Maintenance of LACT Units</b> .....             | 238 |
| <i>Glen E. Meador, Ken Steward</i>                                       |     |
| <b>Displacement Meters for Liquid Measurement</b> .....                  | 245 |
| <i>R. Gary Barnes</i>                                                    |     |
| <b>Effects of Flow Conditioning on Liquid Measurement</b> .....          | 252 |
| <i>James E. Gallagher</i>                                                |     |
| <b>Effects of Petroleum Properties on Pipeline Measurement</b> .....     | 260 |
| <i>James E. Gallagher</i>                                                |     |
| <b>Ethylene Measurement</b> .....                                        | 270 |
| <i>Henry James, Steve Martindale</i>                                     |     |
| <b>Evaporation Loss Measurement from Storage Tanks</b> .....             | 277 |
| <i>Warren A. Parr Jr.</i>                                                |     |
| <b>Fundamentals of Liquid Measurement I - Physical Properties</b> .....  | 283 |
| <i>David Beitel</i>                                                      |     |

|                                                                              |     |
|------------------------------------------------------------------------------|-----|
| <b>Fundamentals of Liquid Measurement II - Static</b> .....                  | 292 |
| <i>Doug Arrick</i>                                                           |     |
| <b>Fundamentals of Liquid Measurement III - Dynamic</b> .....                | 299 |
| <i>Peter W. Kosewicz</i>                                                     |     |
