

**2008 5th European Conference on
Electrical and Instrumentation Applications
in the Petroleum & Chemical Industry**

10 - 12 June 2008

Weimar, Germany

	Page
Plenary	
WE-03 Adapting the Spectral Composition of Artificial Lighting to Safeguard the Environment	3
WE-10 The Cost of Measurement Uncertainty	9
WE-21 Case Study: To Eliminate Major Root Causes of Failures with VFDS installations	17
WE-39 Electrical Safety Program Impact on Process Safety Performance	24
Large projects	
WE-04 Design of Large Power Plant in Oil & Gas Facilities	30
WE-05 Large-Scale Petrochemical Projects – Modern Approach to Execution	39
WE-22 An Overview of Canadian Oil Sand MegaProjects	46
WE-29 An Objective Based Electrical Code for Industrial Users in Canada	55
Lighting	
WE-01 Safety Centered Approach to Quality of Light for Petrochemical Facilities Safety	62
WE-30 Advances in Hazardous Location and Industrial Lighting – Past, Present and Future	70
Maintenance	
WE-06 The Proper Maintenance for Electrical Equipment in Hazardous Areas with Potentially Explosive Atmosphere	77
WE-33 Predictable Non-evasive Maintenance in Chemicals Industry for Low Voltage Intelligent Motor Control System (IMCS): Case Study	82
Motor	
WE-08 Reliability of Electrical Submersible Pumps at Oil Field	88
WE-09 Influence of Elastic Foundation Structures on the Rotor Dynamics of Large Drive Trains	94
WE-16 Overvoltage Protection Study on Vacuum Breaker Switched MV Motors	102
WE-38 A Comparison of Totally Enclosed Motor Coolers Commonly Used in the COG Industry	109
Power	
WE-25 DART: The New Dimension in Intrinsic Safety	114
WE-41 Have You Ever Sat Offshore In The Dark?	120
Protection	
WE-11 Is Your Plant Well Protected?	127
WE-15 Electromagnetic Compatibility of Digital Protective Relays Installed in Medium Voltage Switchgear	133
Safety	
WE-34 SIL Classification for Intelligent Motor Control Systems in Accordance with the ATEX Directive	144
WE-40 Practical Experience with Inspection in Plants at Risk of Explosive Atmospheres	150
Standards	
WE-13 Inside the Standardization Jungle: IEC 62061 and ISO 13849-1, Complementary or Competing?	159
WE-14 How Progressing Standards Lead to Confusion With ATEX Certification	164
WE-17 Systematic Approach for the SIL-proof of Non-standard Safety-loops	171
WE-18 Safety Improvements of Non-sparking and Increased Safety Motors	179
VFDs	
WE-02 Variable Frequency Drives and Centrifuges for Zone 1 Hazardous Area	188
WE-12 Experience with New Large Adjustable Speed Drive Technology for Multiple Synchronous Motors	196
