

# **2008 IEEE International Symposium on Electromagnetic Compatibility**

**Detroit, MI  
18-22 August 2008**

**Pages 1-536**

**IEEE Catalog Number:  
ISBN 13:**

**CFP08EMC-PRT  
978-1-4244-1699-8**

# Table of Contents

<b>Broadband DCI as a multi usable EMC-Test Method .....</b>	<b>1</b>
<i>M. Rothenhäusler, A. Ruhfass, T. Leibl</i>	
<b>Comparing Full Lateral Metallization and Reference Plane Stitching in LTCC Boards for Satellite Applications.....</b>	<b>6</b>
<i>A. Trave, A. Di Pasquale , G. Antonini , A. Orlandi</i>	
<b>Signal Integrity Analysis of Single-Ended and Differential Signaling in PCBs with EBG structure.....</b>	<b>12</b>
<i>A. Ciccomancini Scogna, A. Orlandi, V. Ricchiuti</i>	
<b>Techniques for Measuring the Common Mode Current and Voltage of ASIC Devices.....</b>	<b>18</b>
<i>Randall Flinders, John McHenry, Edward Nakauchi</i>	
<b>Analysis of MIL-STD-461E and MIL-STD-461F RE102 Test Setup Configurations below 100 MHz .....</b>	<b>27</b>
<i>D. D. Swanson</i>	
<b>Study of a conformal hidden wire antenna used for the detection of stolen cars.....</b>	<b>38</b>
<i>A. Ciccomancini Scogna, J.Wang</i>	
<b>Detecting E and H Fields with Microstrip Transmission Lines.....</b>	<b>44</b>
<i>Tze Wee Chen, Timothy J. Maloney, Bruce Chou</i>	
<b>Determination of Gain for Pyramidal-Horn Antenna on Basis of Phase Center Location .....</b>	<b>50</b>
<i>Katsushige Harima, Makoto Sakasai, and Katsumi Fujii</i>	
<b>Advanced EMC Modeling by Means of a Parallel MLFMM and Coupling with Network Theory .....</b>	<b>55</b>
<i>Ulrich Jakobus, Johann van Tonder, and Marlize Schoeman</i>	
<b>Validation of MOM/FEM in Modelling Studies of Loaded Enclosures With Apertures .....</b>	<b>60</b>
<i>Sibel Yen Kaya</i>	
<b>Signal Integrity Analysis of a 26 Layers Board with Emphasis on the Effect of Non-Functional Pads.....</b>	<b>65</b>
<i>A. Ciccomancini Scogna</i>	
<b>Statistical Analysis of Induced Ground Voltage Using the TLM+UT Method .....</b>	<b>71</b>
<i>Joao B. J. Pereira, Leonardo R.A.X. de Menezes, Geovany A. Borges</i>	
<b>An Investigation on the Reduction Technique of Radiated Emission from Chassis with PCB.....</b>	<b>75</b>
<i>Hiroki Funato, Takashi Suga</i>	
<b>Transient Analysis Of Crosstalk Coupling Between High-Speed Carbon Nanotube Interconnects.....</b>	<b>81</b>
<i>M. D'Amore, M.S. Sarto, A. Tamburrano</i>	
<b>A statistical approach to evaluating alternative test methods.....</b>	<b>87</b>
<i>Kunihiko Osabe, Atsuya Maeda, Jiro Kawano</i>	
<b>Electromagnetic Environment Characterization of Below-Deck Spaces in Ships .....</b>	<b>92</b>
<i>Gregory B. Tait and Michael B. Slocum</i>	
<b>Investigation of Conducted Immunity and Spatial Distribution of RF Currents for a 2-Sided PCB.....</b>	<b>98</b>
<i>Cyrous Rostamzadeh</i>	
<b>A Study on the Correlation between the Stray Capacitance of a Signal Transformer and the Magnetic Field Emitted from Communication Lines.....</b>	<b>103</b>
<i>Yoshihiro Akeboshi and Seiichi Saito, Shuichi Nitta</i>	
<b>A Finite Element Method for Transient Analysis of Power Electronic Motor Drives Including Parasitic Capacitive Effect and External Circuit.....</b>	<b>108</b>
<i>W. N. Fu and S. L. Ho</i>	
<b>Parameter Extraction of Eddy-current Magnetic Field - Circuit Coupled Problems Using Matrix Analysis Method.....</b>	<b>114</b>
<i>W. N. Fu and S. L. Ho</i>	

# Table of Contents

<b>A Study of Enclosure Shielding Effectiveness Measurement using Frequency Stirring in a Mode-Stirred Chamber</b> .....	121
<i>Andrew C Marvin, Yuhui He</i>	
<b>Statistical Response of Nonlinear Equipment in a Reverberation Chamber</b> .....	127
<i>Ian Flintoft, Andrew Marvin and Linda Dawson</i>	
<b>Aspects of Using the IEC 61000-4-20 for Transient Testing with Broadband Signals</b> .....	133
<i>Holger Thye, Dirk Zamow, Michael Koch, Heyno Garbe</i>	
<b>Assessment of the Robustness of Commercial Data Communication Interfaces to a Military EMI Environment</b> .....	138
<i>Elya B. Joffe</i>	
<b>Fast Frequency Domain Crosstalk Analysis for Board-Level EMC Rule Checking and Optimization</b> .....	143
<i>Mosin Mondal, Samuel Connor, Bruce Archambeault and Vikram Jandhyala</i>	
<b>Experimental Study on DC Biasing Impact on Transformer's Vibration and Sound</b> .....	149
<i>Hongbin Ma, Jinliang He, Bo Zhang, Rong Zeng, Shuiming Chen, Lin Cao</i>	
<b>On Determination of Conducted RF Immunity Test Methodology for Automotive Remote Keyless Entry Receivers</b> .....	153
<i>Cyrous Rostamzadeh, Frank Pavatich</i>	
<b>Equivalent Radiation Source Extraction Method for System Level EMI and RFI Prediction</b> .....	159
<i>Jin Shi, Jiangqi He, Edward Chan and Kevin Slattery, Jin Zhao, Jeremy Fejfar and Fabrizio Zanella</i>	
<b>A mixed nodal-mesh formulation of the PEEC method based on efficient graph algorithms</b> .....	164
<i>Giuseppe Miscione, Giulio Antonini, Daniele Frigioni</i>	
<b>Effect of slider conductive adhesive on EMI radiation of hard disk drives</b> .....	170
<i>Eunkyu Jang, Ho-Joong Choi, Young-Min Ku</i>	
<b>Description and classification of electromagnetic environments - revision of IEC 61000-2-5</b> .....	173
<i>Bernd W Jaekel</i>	
<b>The Use of High-Performance HF Antenna Arrays To Optimize Reception In Urban Noise Environments</b> .....	177
<i>Virgilio P. Arafiles, David P. Anderson, Michael T. Bail</i>	
<b>Functional Safety and EMC for the Automotive Industry</b> .....	182
<i>Sabine Alexandersson</i>	
<b>Prediction of Parasitic Components in an Automotive Environment</b> .....	188
<i>Sabine Alexandersson, Mats Alaküla, Hans Bångtsson</i>	
<b>Slots on Ground Fillings of Multi-layer Printed Circuit Board for Suppressing Indirect Crosstalk between Digital Clock Line and RF Signal Line in Mixed Mode Mobile Systems</b> .....	195
<i>Jun So Pak, Gawon Kim, Frank Hong, Austin Kim, Joungho Kim</i>	
<b>Inductance Calculations For Advanced Packaging in High-Performance Computing</b> .....	201
<i>Hocheol Kwak, Haixin, Ke, Todd Hubing, Byoung Hwa Lee</i>	
<b>Fundamental Examination about Cooling Approach for a Heated EM-Wave Absorber under High Power Injection</b> .....	205
<i>Shinya Watanabe, Akitoshi Taniguchi, Osamu Hashimoto</i>	
<b>Analysis of Electrode Speed Correlation of Discharge Parameters Applying Short-gap Electrostatic Discharge Model</b> .....	210
<i>Fangming Ruan, Dan Shi, Yougang Gao</i>	
<b>A Fast Radiated Emission Model for Arbitrary Cable Harness Configurations Based on Measurements and Simulations</b> .....	214
<i>Heinz Rebholz, Stefan Tenbohlen</i>	

# Table of Contents

<b>Analysis and Improvement the Isolation between antennas on airborne platform with Traveling Wave antennas method .....</b>	<b>219</b>
<i>Hou Yanchun, Su Donglin, Chen Wenqing, Ding Kejia</i>	
<b>Electromagnetic PCB Pattern Modeling Techniques for RF Hardware Simulation of Mobile Phones.....</b>	<b>223</b>
<i>Yongsup Kim, Soonjae Kwon, Austin S. Kim</i>	
<b>EMC Feasibility Study of the use of 2.4-GHz-WLAN Applications on Bridges of Cruise and Container Vessels .....</b>	<b>227</b>
<i>Tobias Pilsak and Jan Luiken ter Haseborg</i>	
<b>IN SITU TESTING OF LARGE MACHINES: ALTERNATIVE METHODS FOR CONDUCTED EMISSION MEASUREMENTS .....</b>	<b>233</b>
<i>Johan Catrysse, Filip Vanhee, Jos Knockaert, Ivan Hendrickx, Véronique Beauvois</i>	
<b>IN SITU TESTING OF LARGE MACHINES: ALTERNATIVE METHOD FOR RADIATED EMISSION MEASUREMENT .....</b>	<b>239</b>
<i>Johan Catrysse, Filip Vanhee, Jos Knockaert, Ivan Hendrickx, Véronique Beauvois</i>	
<b>Numerical Investigation of Techniques for Reducing Radiated Emission of PCBs with Attached Cables in Complex Systems .....</b>	<b>245</b>
<i>Spartaco Caniggia, Francescaromana Maradei</i>	
<b>Converting Total-Radiated-Power Measurements to Equivalent E-Field Data.....</b>	<b>251</b>
<i>Heyno Garbe, Sven Battermann</i>	
<b>SHIELDING EFFECTIVENESS OF FLAT SAMPLES AND CONDUCTIVE GASKETS: NEW MEASURING CELL FOR THE FREQUENCY RANGE 1-18 GHZ .....</b>	<b>257</b>
<i>Johan Catrysse</i>	
<b>Fast Evaluation of Electromagnetic Interference Between Antenna and PCB Traces for Compact Mobile Devices .....</b>	<b>263</b>
<i>S. Grivet-Talocia, M. Bandinu, F. G. Canavero, I. Kelander, and P. Kotiranta</i>	
<b>Response of a Magnetic Loop Probe to the Current and Voltage on a Microstrip Line .....</b>	<b>268</b>
<i>Matthias Spang, Manfred Albach, Goeran Schubert</i>	
<b>Calculation of Antenna Pattern Influence on Radiated Emission Measurement Uncertainty .....</b>	<b>273</b>
<i>Alexander Kriz</i>	
<b>Efficient Computation of the Shielding Effectiveness of Metallic Enclosures Loaded with Conductors.....</b>	<b>280</b>
<i>Rodolfo Araneo, Giampiero Lovat</i>	
<b>Modelling Interference Phenomena between Cosite Radiocommunication Equipments to Evaluate Systems Performance Degradation .....</b>	<b>286</b>
<i>E. Yalain, C. Girard, M. Cabellie M. Helier, G. Alquie, J.-L. Montmagnon</i>	
<b>High-Resolution Time-Domain Site Attenuation Measurements using Conventional EMC Test Antennas- A Numerical Study .....</b>	<b>292</b>
<i>Robert T. Johnk</i>	
<b>Multimodal Circuit Model for The Analysis of Asymmetric Shunt Impedance Transitions.....</b>	<b>298</b>
<i>Pablo Rodriguez-Cepeda, Miquel Ribó, Francisco-Javier Pajares, Joan-Ramon Regué, Albert-Miquel Sánchez, Antonio Pérez</i>	
<b>EMC Characterization for Switching Noise Investigation on Power Transistors .....</b>	<b>303</b>
<i>Emmanuel Batista, Jean-Marc Dienot</i>	
<b>Cable EMI Shielding Measurements using a Reverberation Chamber .....</b>	<b>310</b>
<i>Joseph C. (Jay) Diepenbrock</i>	
<b>EMC for the Functional Safety of Automobiles Why EMC Testing is Insufficient, and What is Necessary.....</b>	<b>316</b>
<i>EurIng Keith Armstrong</i>	

# Table of Contents

<b>Determining the Maximum Allowable Heatsink Voltage to Ensure Compliance with a Given Radiated Emissions Specification .....</b>	<b>322</b>
<i>Xinbo He, Haixin Ke, and Todd Hubing</i>	
<b>Modeling Experiences with Full-Wave Frequency- Domain Modeling Software.....</b>	<b>325</b>
<i>Changyi Su, Xinbo He, Hua Zeng, Haixin Ke, and Todd Hubing</i>	
<b>Fundamental Models for Near-Field Shielding.....</b>	<b>329</b>
<i>Richard J. Mohr</i>	
<b>A Study on Electromagnetic Coupling between Transmission Line on Model Chip.....</b>	<b>333</b>
<i>Yoshiki Kayano and Hiroshi Inoue</i>	
<b>Assessment of Active Implantable Medical Device Interaction in Hybrid Electric Vehicles .....</b>	<b>338</b>
<i>Jody J. Nelson, Wes Clement, Brian Martel, Richard Kautz, Katarina H. Nelson</i>	
<b>The Effect of EUT Position on Gigahertz Transverse Electromagnetic (GTEM) Cell Correlation Algorithms.....</b>	<b>344</b>
<i>Michael T. Reich, Robert M. Nelson, Cherish Bauer-Reich</i>	
<b>Evaluation of Interference between MB-OFDM UWB and Wireless LAN Systems using a GTEM Cell .....</b>	<b>351</b>
<i>Haruki Kamiya, Masashi Yamada, And Masamitsu Tokuda, Shinobu Ishigami, Kaoru Gotoh, Yasushi Matsumoto</i>	
<b>Digital to RF Coupling Analysis Methodology for Mixed-Signal Systems .....</b>	<b>357</b>
<i>Dongsoon Lim, Yongsup Kim, Austin S. Kim</i>	
<b>Modeling of the Substrate Coupling Path for Direct Power Injection in Integrated Circuits .....</b>	<b>362</b>
<i>Ali Alaeldine, Richard Perdriau, Mohamed Ramdani, Etienne Sicard, M'hamed Drissi and Ali M. Haidar</i>	
<b>Antenna performance of mobile phone and corresponding human exposure inside fully and partially enclosed metallic elevator.....</b>	<b>368</b>
<i>C K Tang, K H Chan, L C Fung, and S W Leung</i>	
<b>A high sensitivity electromagnetic field sensor using resonance.....</b>	<b>373</b>
<i>Hiroshi Tsutagaya , Satoshi Kazama</i>	
<b>A Study for Grounding Effect to Improve Performance of WWAN.....</b>	<b>379</b>
<i>Sang-Rock Yoon, Sung-Kyu Lee , Ki-Seob Lee, On-Sik Choi, Nam-Deog Kim, Ki-Chai Kim , Yong-Wan Park</i>	
<b>A Novel HU-shaped Common-mode Filter for GHz Differential Signals.....</b>	<b>383</b>
<i>Shu-Jung Wu, Hao-Hsiang Chuang, Ting-Kuang Wang and Tzong-Lin Wu</i>	
<b>Non-contacting Near-field Mapping of Planar Circuits in Microwave Frequency Band.....</b>	<b>387</b>
<i>Chun-Ping Chen, Kohei Sugawara, Keren Li, Hiroshige Nihei, Tetsuo Anada and C. Christopoulos</i>	
<b>New Radiated RF Immunity/Susceptibility Test Method Using RF-pulsed Rotating-EM Field .....</b>	<b>393</b>
<i>Kimitoshi Murano, Majid Tayarani, Fengchao Xiao and Yoshio Kami</i>	
<b>Optical Feeding Antenna with Wide Bandwidth for Evaluation of Radiated Emission Test Sites above 1 GHz .....</b>	<b>398</b>
<i>Hideki Abe, Hideyasu Tanaka and Masamitsu Tokuda, SShinobu Ishigami</i>	
<b>Time varying instruction current EMC simulation improvement .....</b>	<b>404</b>
<i>Shih-Yi Yuan, Huai-En Chung, Chiu-Kuo Chen, Shry-Sann Liao</i>	
<b>Suppression of Emissions Radiated from Solar Cells in Photovoltaic Power Generation System .....</b>	<b>409</b>
<i>Mariko Tomisawa, Masamitsu Tokuda</i>	
<b>CISPR Specification and Measurement Uncertainty of the Time-domain EMI Measurement System .....</b>	<b>415</b>
<i>Stephan Braun, Arnd Frech, Peter Russer</i>	
<b>Influence of the Receiving Antenna Pattern on the Site-VSWR Validation Procedure above 1 GHz .....</b>	<b>419</b>
<i>Sven Battermann, Heyno Garbe</i>	

# Table of Contents

<b>Synchronous Rectified Step-Down Converter Susceptibility to Conducted and Radiated EMI</b> .....	424
<i>Cyrous Rostamzadeh</i>	
<b>Measured Radiated Field From UWB Signal Over Powerline Channel</b> .....	429
<i>Getahun Mekuria, Holger Hirsch</i>	
<b>Characterization of the EM environment of railway spot communication systems</b> .....	435
<i>Jon del Portillo, Mikel Osinalde, Eluska Sukia, Iñaki Sancho, Jaizki Mendizabal, Juan Meléndez</i>	
<b>Domain Separation with Port Interfaces for Calculation of Emissions from Enclosure Slots</b> .....	441
<i>Christian Poschalko, Siegfried Selberherr</i>	
<b>Investigation on the Shielding Effectiveness of Planar Microstructured Screens</b> .....	447
<i>Giampiero Lovat, Salvatore Celozzi</i>	
<b>Shielding Effectiveness of Planar Negative-Permeability Screens</b> .....	453
<i>Giampiero Lovat, Salvatore Celozzi</i>	
<b>Radiated Emission of Bent Microstrip Line Using Hertzian Dipole Method</b> .....	459
<i>Yee See Khee, Mohd Zarar Mohd Jenu</i>	
<b>Improvement of Dispersion of Radiated Emission Measurement Results by VHF-LISN</b> .....	465
<i>Chiharu Miyazaki, Katsuyuki Tanakajima, Masanori Yamaguchi, Shozo Satake, Jiro Kawano</i>	
<b>Transient Detection Circuit for System-Level ESD Protection and Its On-Board Behavior with EMI/EMC Filters</b> .....	469
<i>Ming-Dou Ker, Chi-Sheng Liao, and Cheng-Cheng Yen</i>	
<b>A New Direct Method for SEdB Determination</b> .....	473
<i>Mihai Badic, Lia-Elena Aciu, Petre Ogrutan</i>	
<b>Absorber Loading Study in FOI 36.7 m3 Mode Stirred Reverberation Chamber for Pulsed Power Measurements</b> .....	479
<i>Olof Lundén, Mats Bäckström</i>	
<b>EMI Gasket Shielding Effectiveness Evaluation Method Using Transmission Theory</b> .....	483
<i>Dheena Moongilan, Eugene Mitchell</i>	
<b>Generation and Measurement of a Reference Field for Round-Robin Comparison Purposes</b> .....	489
<i>Carlo Carobbi, Marco Cati, Carlo Panconi</i>	
<b>The Behavioral Simulation of EMI System by DNA Method at the System Level</b> .....	495
<i>Chen Wenqing, Su Donglin, Sun Wei, Hou Yanchun</i>	
<b>Prediction of the Common-mode Radiated Emission from the Board to Board Interconnection through Common-mode Antenna Model</b> .....	498
<i>Makoto Torigoe, Akifumi Sadatoshi, Yoshitaka Toyota, Kengo Iokibe, Ruji Koga, Tetsushi Watanabe, Osami Wada</i>	
<b>Radio Frequency Compatibility of an RFID Tag on Glideslope Navigation Receivers</b> .....	502
<i>Truong X. Nguyen, John J. Mielnik</i>	
<b>An Approach for The Predictin of Sensitive I/O Ports using Noise Distribution on PCB-Level</b> .....	508
<i>Mohamed Taki, Christian Hedayat, Werner John</i>	
<b>Defining and Assessing the Uncertainty Contributions in the Line-Injection Measurements of Transfer Impedance</b> .....	513
<i>Carlo Carobbi, Marco Cati, Carlo Panconi</i>	
<b>Power/Ground Noise Immunity Test in Wireless and High-Speed UWB Communication System</b> .....	519
<i>Changwook Yoon, Hyunjeong Park, Woojin Lee, Minchul Shin, Jun So Pak, Jounggho Kim</i>	
<b>A 6.4Gbps On-chip Eye Opening Monitor Circuit for Signal Integrity Analysis of High Speed Channel</b> .....	525
<i>Minchul Shin, Jongjoo Shim, Jaemin Kim, Jun So Pak, Chulsoon Hwang, Changwook Yoon, Jounggho Kim, Hyungsoo Kim, Kunwoo Park, Yongju Kim</i>	

# Table of Contents

<b>Evaluation of Equipment-Level Enclosure Shielding Properties in a Reverberation Chamber: Numerical and Experimental Analysis .....</b>	<b>531</b>
<i>Dario Fedeli, Gabriele Gradoni, Franco Moglie, and Valter Mariani Primiani</i>	
<b>An estimation of the backdoor coupling of UWB pulses on commercial wireless USB adapters .....</b>	<b>537</b>
<i>Christian Klünder and Jan Luiken ter Haseborg</i>	
<b>On Contact Conditions in Connectors to Cause Common Mode Radiation .....</b>	<b>542</b>
<i>Yu-ichi Hayashi, Yoshiki Kayano, Takaaki Mizuki, Hideaki Sone, Hiroshi Inoue</i>	
<b>Impact of thermal stress on the characteristics of conducted emissions.....</b>	<b>546</b>
<i>I Montanari, A. Tacchini, M. Maini</i>	
<b>Modeling Experiences With Full-Wave Time-Domain Modeling Software .....</b>	<b>550</b>
<i>Hua Zeng, Changyi Su, Haixin Ke, and Todd Hubing</i>	
<b>EMC Macro-modeling of CMOS Inverter Using LECCS-I/O Model with Additional Current Source .....</b>	<b>554</b>
<i>Kengo Iokibe, Akihiro Ohsaki, Yoshitaka Toyota, Ryuji Koga, Osami Wada</i>	
<b>Analysis of Distributed Coupling along Nonparallel Traces using PEEC with Phase Term Expansions.....</b>	<b>558</b>
<i>Michael A. Cracraft, James L. Drewniak</i>	
<b>Efficient Simulation of Narrow Weakly Nonlinear Bandpass System .....</b>	<b>564</b>
<i>Iteris Demirkiran, Donald D. Weiner, Andrew Drozd</i>	
<b>Outdoor Vehicular Test Range Turntable Impact on Electric-Field Uniformity Study .....</b>	<b>572</b>
<i>Janalee Graham, Donald Hibbard, Doug Martin, Scott Yencer, David Novotny, Chriss Grosvenor, Nino Canales, Robert Johnk, Louis Nagy, Tyrone Roach</i>	
<b>Experimental Validation of Imbalance Difference Model to Estimate Common-Mode Excitation in PCBs .....</b>	<b>578</b>
<i>Yoshitaka Toyota, Tohlu Matsushima, Kengo Iokibe, Ryuji Koga, Tetsushi Watanabe</i>	
<b>Simulation and Measurement of Low Frequency Open Surface Magnetic Field Shielding .....</b>	<b>584</b>
<i>Joseph D. Brunett, Valdis V. Liepa</i>	
<b>Defining a measure for the immunity of analogue to digital converters exposed to electric fields.....</b>	<b>588</b>
<i>Tobias Aurand, John F. Dawson, Martin P. Robinson, Andrew C. Marvin</i>	
<b>Understanding Pantograph Arcing in Electrified Railways - Influence of Various Parameters.....</b>	<b>592</b>
<i>Surajit Midya, Dierk Bormann, Anders Larsson, Thorsten Schütte, Rajeev Thottappillil</i>	
<b>An Electromagnetic Compatibility Course for Computer Engineers .....</b>	<b>598</b>
<i>Nathan Ida</i>	
<b>Multiconductor Transmission Line Modeling with VHDL-AMS for EMC Applications.....</b>	<b>600</b>
<i>H. Zhang, K. Siebert, S. Frei, T. Wenzel, W. Mickisch</i>	
<b>Using Conductive Plastic for EMI Cover Shielding.....</b>	<b>606</b>
<i>Tim McMillan</i>	
<b>Assessing the performance of ZigBee in a Reverberant Environment Using a Mode Stirred Chamber .....</b>	<b>609</b>
<i>David Hope, John Dawson, Andy Marvin, Mark Panitz, Christos Christopoulos, Philip Sewell</i>	
<b>Noise Coupling between Signal and Power/Ground Nets due to Signal Vias Transitioning through Power/Ground Plane Pair .....</b>	<b>615</b>
<i>Jun Fan, Matteo Cocchini, Bruce Archambeault, James L. Knighten, James L. Drewniak, and Samuel Connor</i>	
<b>Method and Applications of Oscilloscope Waveform Deembedding .....</b>	<b>620</b>
<i>Xiaoning Ye, Ben Smith, Per Fornberg, Adam Norman</i>	
<b>The Repeatability of System Level ESD Test and Relevant ESD Generator Parameters.....</b>	<b>626</b>
<i>Kai Wang, John Mass, Masayuki Hirata, Andy Martwick, Jayong Koo, Qing Cai, and David Pommerenke</i>	
<b>Problematic Concepts in the Introduction of EMC .....</b>	<b>632</b>
<i>Arnold S de Beer</i>	

# Table of Contents

<b>Characterization and Modeling of Faceplates by a Frequency- Dependent Impedance Matrix .....</b>	<b>636</b>
<i>Hirayr M. Kudyayn</i>	
<b>Closed-Form Expressions for Determining Approximate PMC Boundaries around an Aperture in a Metal Cavity Wall.....</b>	<b>642</b>
<i>Francesco de Paulis, Yaojiang Zhang, Jun Fan, Jason Mix, Xiaopeng Dong, Daniel Hua, Kevin Slattery</i>	
<b>The Influence of Test Parameters on TEM Cell Measurements of ICs .....</b>	<b>648</b>
<i>Vijay Kasturi and Daryl Beetner</i>	
<b>An Improved LC Filter for Reduction of WWAN Noise.....</b>	<b>654</b>
<i>Sung-Kyu Lee, Kwang-Soo Park, Ki-Seob Lee, Sang-Rock Yoon, On-Sik Choi, Nam-Deog Kim, Masashi Hayakawa, Yoshio Kami</i>	
<b>EMI Analysis Methods for Synchronous Buck Converter EMI Root Cause Analysis .....</b>	<b>658</b>
<i>Keong W. Kam, David Pommerenke, Cheung-Wei Lam, Robert Steinfeld</i>	
<b>A Study of Grounded-Heatspreader for EMI Mitigation of ASIC IC Package.....</b>	<b>665</b>
<i>Alpesh U. Bhohe, Philippe Sochoux</i>	
<b>Effects of Discrete Bypass Capacitors in Power/Ground Planes with EBG Structures .....</b>	<b>668</b>
<i>S. Mohamad Dawood Farzan, Omar M. Ramahi</i>	
<b>Shielding Effectiveness with a Twist .....</b>	<b>674</b>
<i>P. F. Keebler, K. O. Phipps</i>	
<b>The Impact of Common Mode Currents on Signal Integrity and EMI in High-Speed Differential Data Links .....</b>	<b>680</b>
<i>Samuel Connor, Bruce Archambeault, Mosin Mondal</i>	
<b>Shielding Analysis of Enclosure with Aperture irradiated by Plane Wave with arbitrary incident Angle and Polarization Direction .....</b>	<b>685</b>
<i>Dan Shi, Yuanmao Shen, Fangmin Ruan, Zhongan Wei, Yougang Gao</i>	
<b>Effects of Thermoregulatory Mechanisms on the Eye Thermal Elevation Produced by Intense RF Exposures .....</b>	<b>690</b>
<i>Valerio De Santis, and Mauro Feliziani</i>	
<b>Estimation of the Statistical Variation of Crosstalk in Wiring Harnesses.....</b>	<b>696</b>
<i>Meilin Wu, Daryl Beetner, Todd Hubing, Haixin Ke, Shishuang Sun</i>	
<b>HF RFID Electromagnetic Emissions and Performance.....</b>	<b>703</b>
<i>David R. Novotny, Jeffrey R. Guerrieri, Michael Francis, Kate Remley</i>	
<b>Using TWDP to Quantify Channel Performance with Frequency-Domain S-Parameter Data.....</b>	<b>709</b>
<i>Surbhi Mittal, Francesco De Paulis, Zhiping Yang, and Jun Fan</i>	
<b>Aperture Modeling Using a Hybrid Method for RFI Analysis.....</b>	<b>713</b>
<i>Liehui Ren, Zhenwei Yu, Gang Feng, Francesco de Paulis, Yaojiang Zhang, Jun Fan, Xiaopeng Dong, Jason A. Mix, Daniel Hua, Kevin Slattery</i>	
<b>Study on the Mitigation of the Resonance due to the Power-Bus Structure using Periodic Metal- Strip Loaded Sheets .....</b>	<b>717</b>
<i>Sungtek Kahng</i>	
<b>Advanced full wave ESD generator model for system level coupling simulation.....</b>	<b>721</b>
<i>Cai Qing, Jayong Koo, Argha Nandy, and David Pommerenke, Jong Sung Lee and Byong Su Seol</i>	
<b>Orthogonal Loops Probe Design and Characterization for Near-Field Measurement.....</b>	<b>727</b>
<i>Tun Li, Yong Cheh Ho, David Pommerenke</i>	
<b>Structure for the Introduction of EMC Design.....</b>	<b>731</b>
<i>Arnold S de Beer</i>	

# Table of Contents

<b>Link Path Design on a Block-by-Block Basis .....</b>	<b>736</b>
<i>Francesco de Paulis, Jun Fan, Jay Diepenbrock, Bruce Archambeault, Samuel Connor, Antonio Orlandi</i>	
<b>PCB Ground Fill Design Guidelines for Radiated EMI.....</b>	<b>742</b>
<i>Weifeng Pan, David Pommerenke, Shuai Xu, Jun Jia</i>	
<b>Time Synchronized Near-field and Far-field for EMI Source Identification .....</b>	<b>748</b>
<i>Gang Feng, Wei Wu, David Pommerenke, Jun Fan, Daryl G. Beetner</i>	
<b>HF model of DC motor impedance.....</b>	<b>753</b>
<i>R. Kahoul, P. Marchal, Y. Azzouz, B. Mazari</i>	
<b>Determination of coupling of UWB pulses into complex PCB line structures using multi-alignment measurements.....</b>	<b>758</b>
<i>Kai Haake, Jan Luiken ter Haseborg</i>	
<b>Advanced Parallel Algorithm for System-Level EMC Modeling of High-Speed Electronic Package.....</b>	<b>763</b>
<i>Er-Ping Li, En-Xiao Liu</i>	
<b>The Discontinuous Galerkin Finite Element Time Domain Method (DGFETD).....</b>	<b>768</b>
<i>S. D. Gedney, T. Kramer, C. Luo, J. A. Roden, R. Crawford, B. Guernsey, John Beggs, J. A. Miller</i>	
<b>Simple Load Balancing in Binary-Tree Based Parallel Multilevel Low-Rank Compression Techniques .....</b>	<b>772</b>
<i>Miguel Astner, Heinz-D. Bruns, Hermann Singer</i>	
<b>A Flexible and Efficient Bit Error Rate Simulation Method for High-Speed Differential Link Analysis Using Time-domain Interpolation and Superposition .....</b>	<b>776</b>
<i>Kai Xiao, Beomtaek Lee, Xiaoning Ye</i>	
<b>Estimation of very low BER using Quasi-Analytical Method.....</b>	<b>782</b>
<i>DingDing Lu, Sanjeev Gupta, Mihai Marcu</i>	
<b>Duty-Cycle Distortion and Specifications for Jitter Test-Signal Generation .....</b>	<b>786</b>
<i>Mihai Marcu, Sriram Durbha, Sanjeev Gupta</i>	
<b>A Fast and Parallel Stroud-Based Stochastic Collocation Method for Statistical EMI/EMC Analysis .....</b>	<b>790</b>
<i>Hakan Bagci, Çağlar Yavuz, Abdülkadir C. Yücel, Jan S. Hesthaven, Eric Michielssen</i>	
<b>Proper Model Validation is Important for all EMI/EMC Applications .....</b>	<b>795</b>
<i>Bruce Archambeault, Samuel Connor</i>	
<b>Enhanced Hybrid MPI-OpenMP Parallel Electromagnetic Simulations Based on Low-Rank Compressions .....</b>	<b>803</b>
<i>Xiren Wang and Vikram Jandhyala</i>	
<b>A New Frequency Domain Waveform Relaxation Algorithm for PEEC Models .....</b>	<b>808</b>
<i>Giulio Antonini, Albert E. Ruehli</i>	
<b>Jitter Modeling in Statistical Link Simulation .....</b>	<b>814</b>
<i>Yu (Sam) Chang, Dan Oh, and Chris Madden</i>	
<b>Progress in the Development of a 2D Feature Selective Validation (FSV) Method .....</b>	<b>818</b>
<i>A. Orlandi, G. Antonini, C. Polisini, A. Duffy, H. Sasse</i>	
<b>Signal Integrity Testing using Multiple Out-of-Band Sources in a Reverberation Chamber.....</b>	<b>824</b>
<i>A Duffy, A Orlandi, H Nisanci, K Armstrong</i>	
<b>Crosstalk Analysis of a System Based on XAUI HMZd Evaluation Backplane Data .....</b>	<b>829</b>
<i>Barry Katz, Michael Steinberger, Todd Westerhoff</i>	
<b>Quantifying EM noise coupling to antenna coax cable placed in a digital device.....</b>	<b>835</b>
<i>Shinichi Ikami, Akihisa Sakurai</i>	
<b>The Impact of External RF Energy on High-Speed Differential Signal Quality of Long Cables .....</b>	<b>840</b>
<i>Samuel Connor, Bruce Archambeault, Joseph C. (Jay) Diepenbrock</i>	

# Table of Contents

<b>Radiated Immunity Tests of Automotive EMC Challenge Vehicle Active Antenna Designs.....</b>	<b>844</b>
<i>Jean-Roger K. Kuvedu-Libla</i>	
<b>Time-Domain Modeling Techniques for Periodic Structures.....</b>	<b>850</b>
<i>Rui Qiang, David Jackson, Don Wilton, and Ji Chen, Wolfgang Kainz</i>	
<b>Noise Coupling Between Power/Ground Nets Due To Differential Vias Transitions in a Multilayer PCB.....</b>	<b>855</b>
<i>Matteo Cocchini, Jun Fan, Bruce Archambeault, James L. Knighten, Xin Chang, James L. Drewniak, Yaojiang Zhang and Samuel Connor</i>	
<b>Differential Vias Transition Modeling in a Multilayer Printed Circuit Board .....</b>	<b>861</b>
<i>Matteo Cocchini, Wheling Cheng, Jianmin Zhang, John Fisher, Jun Fan, James L. Drewniak, Yaojiang Zhang</i>	
<b>Frequency Modulated (FM) Radio Band Audio Interference Pre-Compliance Test .....</b>	<b>868</b>
<i>Scott Mee, Sreeniwas Ranganathan</i>	
<b>Statistical and Transient Channel Modeling for Crosstalk, Bit Error, Jitter, and EMI.....</b>	<b>872</b>
<i>Guy Barnes, Richard I. Mellitz, Michael Tsuk, Rob Holoboff, Steven G. Pytel</i>	
<b>Guide to Accreditation of EMC Laboratories in the US.....</b>	<b>878</b>
<i>Werner Schaefer</i>	
<b>Practical EMI Filter Design Workshop IEEE 2008 Detroit.....</b>	<b>895</b>
<i>Alexander Gerfer &amp; Michael Eckert</i>	
<b>Experimental Study on DC Biasing Impact on Transformer's Vibration and Sound.....</b>	<b>928</b>
<i>Hongbin Ma, Jinliang He, Bo Zhang, Rong Zeng, Shuiming Chen, Lin Cao</i>

<b>EMC and Modern Power Electronic Systems</b> .....	1053
<i>Firuz Zare</i>	
<b>EMC and Modern Power Electronic Systems</b> .....	1061
<i>Firuz Zare</i>	
<b>Advanced Topics for Antenna and Field Probes in Radiated Measurements: Site Validation above 1 GHz</b> .....	1067
<i>A. Kriz</i>	
<b>AIRCRAFT EMP HARDENING SPECIFICATIONS AND MEASUREMENTS METHODS TUTORIAL</b> .....	1080
<i>Kurt Sebacher</i>	
<b>Integral Equation Methods (MOM) in Numerical Modeling</b> .....	1087
<i>Ji Chen</i>	
<b>Introduction to Aircraft Lightning Attachment</b> .....	1092
<i>Anders Larsson</i>	
<b>Overview of Component Level EMC Characteristics for HEV application</b> .....	1101
<i>Hiroki Funato, Liang Shao</i>	
<b>EMC Component and Vehicle Validation Considerations for Hybrid Electric Vehicles</b> .....	1108
<i>Jody J. Nelson</i>	
<b>Using Component Level Measurements to Determine System-Level Radiated Emissions</b> .....	1125
<i>Todd Hubing</i>	
<b>Automotive EMC</b> .....	1134
<i>Todd Hubing</i>	
<b>Software Defined Radio and Cognitive Radio Techniques</b> .....	1154
<i>David A. Case</i>	
<b>Probes for Diagnosing EMC Problems</b> .....	1160
<i>Tom Van Doren</i>	
<b>What Is "Partial Inductance"?</b> .....	1166
<i>Clayton R. Paul</i>	
<b>Automotive EMC Expert System Software</b> .....	1189
<i>Roman Jobava</i>	
<b>Aircraft EMP Hardening Specifications and Measurement Methods</b> .....	1195
<i>William Prather</i>	
<b>COUPLING TO AIRCRAFT and AIRCRAFT HARDENING</b> .....	1196
<i>William Prather</i>	
<b>APERTURES AND LINE PENETRATIONS</b> .....	1206
<i>William Prather</i>	
<b>LOOP RESISTANCE TESTER</b> .....	1212
<i>William Prather</i>	
<b>Method of Moments Use, Validation and Limitations</b> .....	1215
<i>Colin E. Brench</i>	
<b>Computational EM applied to system level problems</b> .....	1221
<i>Charles F. Bunting</i>	
<b>Evaluation of Antenna Effective Length using MoM: Closing the Gap with Validation</b> .....	1231
<i>Bob Johnk</i>	
<b>Radio Frequency Interference</b> .....	1237
<i>Harry Skinner</i>	

# Table of Contents

<b>Radio Frequency Interference</b> .....	1243
<i>Kevin Slattery</i>	
<b>Radio Frequency Interference</b> .....	1256
<i>Kevin Slattery</i>	
<b>Evaluating Impact of RFI on WLAN / WWAN Performance</b> .....	1268
<i>Harry Skinner</i>	
<b>Current, if not Obstructed, will always Flow in the "Path of Least"</b> .....	1273
<i>Elya B. Joffe</i>	
<b>Cable Shield Tester</b> .....	1289
<i>Lothar (Bud) Hoeft,</i>	
<b>SPEHS Single Point Excitation for Hardness Surveillance</b> .....	1291
<i>Lothar (Bud) Hoeft</i>	
<b>Essential Elements of the R2SPG</b> .....	1294
<i>Lothar (Bud) Hoeft</i>	
<b>The Transmission Line Method</b> .....	1298
<i>David P. Johns</i>	
<b>Modeling and Measuring: Bridging the Great Schism in Engineering Electromagnetics</b> .....	1305
<i>Vince Rodriguez</i>	
<b>Where we Stand Today with Automotive EMC Simulation</b> .....	1313
<i>Stephan Frei</i>	
<b>Immunity to Continuous RF Disturbances</b> .....	1322
<i>John Maas</i>	
<b>Introduction to the Finite Element Method</b> .....	1327
<i>Charles F. Bunting</i>	
<b>Introduction to the Limitations of Modeling/Simulation Techniques</b> .....	1336
<i>Bruce Archambeault</i>	
<b>IEC Transient-Immunity Testing Overview</b> .....	1348
<i>Thomas E. Braxton</i>	
<b>Magnetic probe method</b> .....	1354
<i>Toshiki Shimasaki</i>	
<b>Fundamentals of Signal Integrity Introduction to PDN and Power Integrity</b> .....	1358
<i>Tzong-Lin Wu</i>	
<b>Introduction to VCCI Kit Module EMI Program An approach for module level EMI quantification</b> .....	1377
<i>Akihisa Sakurai, Hiroshi Yamane, Haruyoshi Nagasawa, Kojiro Yamada</i>	
<b>Generation of High-Altitude Electromagnetic Pulse (HEMP)</b> .....	1381
<i>William A. Radasky</i>	
<b>Practical Topics on Field Probes -Advanced</b> .....	1386
<i>Zhong Chen</i>	
<b>Half Power Beamwidth and High Power measurements: The dangers of using far field approximations in the near field</b> .....	1396
<i>Vince Rodriguez</i>	
<b>Time-Domain Analysis of Antennas used for EMC</b> .....	1402
<i>Dennis Camell</i>
