

2008 IEEE Internet Network Management Workshop

**Orlando, FL
19 October 2008**

IEEE Catalog Number:
ISBN 13:

CFP08INN-PRT
978-1-4244-2964-6

Table of Contents

A Hidden Markov Model Approach to Available Bandwidth Estimation and Monitoring	1
<i>Cesar D. Guerrero, Miguel A. Labrador</i>	
CleanBGP: Verifying the Consistency of BGP Data	7
<i>Ashley Flavel, Olaf Maennel, Belinda Chiera, Matthew Roughan, Nigel Bean</i>	
Cross-Domain Fault Localization: A Case for a Graph Digest Approach	13
<i>William D. Fischer, Geoffrey G. Xie, Joel D. Young</i>	
Towards validated network configurations with NCGuard	19
<i>Laurent Vanbever, Grégory Pardoën, Olivier Bonaventure</i>	
Interdomain Traffic Engineering in a Locator/Identifier Separation Context	25
<i>Damien Saucez, Benoit Donnet, Luigi Iannone, Olivier Bonaventure</i>	
Exposing server performance to network managers through passive network measurements	31
<i>Jeff Terrell, Kevin Jeffay, F. Donelson Smith, Jim Gogan, Joni Keller</i>	
Using Visualization to Support Network and Application Management in a Data Center	37
<i>Danyel Fisher, David A. Maltz, Albert Greenberg, Xiaoyu Wang,</i>	
Adaptive Parsing of Router Configuration Languages	43
<i>Donald Caldwell, Seungjoon Lee, Yitzhak Mandelbaum</i>
