

American Concrete Institute

**8th CANMET/ACI
International Conference on
Recent Advances in Concrete
Technology
2006**

ACI Special Publications Series SP-235

May 31 – June 3, 2006
Montreal, Quebec, Canada

Printed from e-media with permission by:

Curran Associates, Inc.
57 Morehouse Lane
Red Hook, NY 12571

The American Concrete Institute disclaims any and all responsibility for the application or consequences of any information appearing on all WWW pages posted on www.concrete.org. The American Concrete Institute also disclaims any and all responsibility for any information attributed to ACI on web sites not emanating from www.concrete.org. The Institute bears no responsibility and does not endorse any links to www.concrete.org from WWW pages residing on other domains.

Any draft documents residing on this site are in the process of being developed and have not at this time been approved by the Institute for use or reference. The American Concrete Institute disclaims any and all responsibility for application of the stated principles. The Institute shall not be liable for any loss or damage arising therein. Access to these documents must be given by the American Concrete Institute or a representative of a technical, educational, certification, or convention committee designated by the American Concrete Institute.

TABLE OF CONTENTS

SP-235—1: Influence of Capillary Porosity on the Transport Properties of Self Compacting Concrete	1
<i>K. Audenaert, V. Boel, G. De Schutter</i>	
SP-235—2: Development of Shrinkage Reduced Self Compacting Concrete	13
<i>A.B. Eberhardt, J. Kaufmann</i>	
SP-235—3: State-of-the-Art Radar Tomography for Concrete Structure Assessment	31
<i>B. Giroux, P. Rivard, E. Gloaguen, M.C. Chouteau</i>	
SP-235—4: Development of an Appropriate Grout for the Consolidation of the Column Foundations in Our Lady’s Basilica at Tongeren (B)	50
<i>R. Keersmaekers, L. Schueremans, F. Van Rickstal, D. Van Gemert</i>	
SP-235—5: An Advanced Hybrid Admixture for High Performance Concrete	67
<i>M. Kinoshita, K. Saito</i>	
SP-235—6: Experimental Research on Square Steel Tubular Columns Filled with Steel-Reinforced Self-Consolidating High-Strength Concrete under Axial Load	87
<i>W. Qing-xiang, Z. Mei-chun, W. Hai-dan</i>	
SP-235—7: Corrosion of Steel Bars in Cracked Concrete: Very Beginning to the Early Age of Exposure	100
<i>T.U. Mohammed, H. Hamada</i>	
SP-235—8: Development of Low Cost Housing Materials Based on Phosphogypsum and Calcium Sulfoaluminate Cement	121
<i>J. Ambroise, C. Angulski da Luz, J. Péra</i>	
SP-235—9: Thermal Gradient Control of Roller Compacted Concrete Dams	133
<i>A.A. Ramezani pour, A. Hassankhani, A.M. Ramezani pour</i>	
SP-235—10: Beneficial Use of Carbonation for Concrete	143
<i>S. Monkman, C. Logan, Y. Shao</i>	
SP-235—11: Hybrid Organic-Inorganic Admixtures for Cement Based Materials	158
<i>F. Švegl, L. Škrlep, J. Šuput-Strupi, K. Kalcher</i>	
SP-235—12: Effect of Rubber Aggregates from Grinding of End-of-Life Tires on the Properties of SCC	172
<i>M. Garros, A. Turatsinze, J.-L. Granju</i>	
SP-235—13: Fresh Properties of High-Volume Fly Ash Self Consolidating Concretes	183
<i>M. Şahmaran, İ.Ö. Yaman, M. Tokyay</i>	
SP-235—14: New Method Manufacturing High-Quality Recycled Aggregates by Mechanical Grinding	196
<i>K. Yoda, A. Shintani, F. Sakuramoto, K. Aoki</i>	
SP-235—15: Novel Polymer Blends as Concrete Superplasticizers	210
<i>X. Zhang, M. Pagé, Y. Dénommé, C. Jolicœur</i>	
SP-235—16: In-Situ Detection of Chlorides in Capillary Water of Cementitious Materials with Potentiometric Sensors	233
<i>F. Švegl, K. Kalcher, M. Kolar</i>	
SP-235—17: Application and Research of the Housing Base Concrete to the Curing Using New Heating Sheets	249
<i>A. Fukai, M. Sugiyama</i>	

SP-235—18: The Combined Use of Steel Fibers and Stirrups as Shear Reinforcement in Reinforced Concrete Beams	261
<i>S.R. Sarhat, R.B. Abdul-Ahad</i>	
SP-235—19: Selecting the Optimum HRWR for SCC	274
<i>I. Schober, U. Mäder</i>	
SP-235—20: Use of Recycled Concrete Aggregates in Hot-Mix Asphalt	282
<i>A. Topal, A.U. Öztürk, B. Baradan</i>	
SP-235—21: Physical Properties of High-Strength Concrete in Large-Size Columns and Walls Temperature Rise and Strength Development	296
<i>H. Sugiyama</i>	
SP-235—22: Model Systems for Investigation of the Stability and Rheological Properties of Cement-Based Materials	313
<i>N. Mikanovic, C. Jolicoeur, K. Khayat, M. Pagé</i>
