TABLE OF CONTENTS

VOLUME 1

ADVANCES IN LID BMP DESIGN METHODS

BIORETENTION DESIGN AND CONSIDERATION

An Approach to Analyze the Hydrologic Effects of Rain Gardens	1
<i>Daniel Christensen, Arthur R. Schmidt</i>	
An Investigation of Rain Garden Planting Mixture Performance and the Implication for Design	10
<i>Donald D. Carpenter, Laura Hallam</i>	
Cold Climate Issues for Bioretention: Assessing Impacts of Salt and Aggregate Application on Plant Health, Media Clogging, and Groundwater Quality	20
<i>Chris Denich, Andrea Bradford</i>	
Design and Modeling of Bioretention for Hydromodification Control: An Assessment of Alternative Model Representations	30
<i>Aaron L. Poresky, Gary E. Palhegyi</i>	
Design of Integrated Bioretention-Infiltration Systems for Urban Retrofits	40
<i>William C. Lucas</i>	
Lessons Learned from Monitoring of a Natural Drainage System in West Seattle’s High Point Neighborhood	50
<i>John Lenth, Andy Rheäume, Tracy Tackett</i>	

ECOROOF / GREENROOF MONITORING

A Laboratory Comparison of Green-Roof Runoff Water Quality	59
<i>Norman Buccola, Graig Spolek, Gwynn R. Johnson</i>	
A Study of Green Roof Hydrologic Performance in the Cascadia Region	69
<i>Bryan Berkompas, Kurt W. Marx, Heidi M. Wachter, Doug Beyerlein, Bob Spencer</i>	
Early-Life Roof Runoff Quality: Green vs. Traditional Roofs	79
<i>Shirley E. Clark, Brett V. Long, Christina Y. S. Siu, Julia Spicher, Kelly A. Steele</i>	
Flow Monitoring of Three Ecoroofs in Portland, Oregon	89
<i>Tim Kurtz</i>	
The Stormwater Control Potential of Green Roofs in Seattle	99
<i>Brian L. Taylor</i>	

GREEN INFRASTRUCTURE

LID As a Tool to Transform a DOT's Design Manual and Method of Doing Business: The Anacostia Urban Design Standards and the Green Highway Movement	109
<i>John F. Deatrck, Jeffrey M. Seltzer</i>	

GREEN ROOFS

Green Envelopes: Contribution of Green Roofs, Green Façades, and Green Streets to Reducing Stormwater Runoff, CO₂ Emissions, and Energy Demand in Cities	120
<i>Daniel Roehr, Jon Laurenz, Yuewei Kong</i>	
A Deterministic Lumped Dynamic Green Roof Model	128
<i>Nian She, Joseph Pang</i>	
Quantifying Evapotranspiration Rates for New Zealand Green Roofs	142
<i>Elizabeth Fassman, Emily Voyde, Robyn Simcock, Julia Wells</i>	

GREEN STREETS

Portland's Green Streets: Lessons Learned Retrofitting our Urban Watersheds	155
<i>David Elkin</i>	
Green Highways	164
<i>N. Weinstein, M. Pawlish, A. English, J. Bitting, R. Lukes, C. Kloss</i>	
Green Streets—An Opportunity to Transform Our Roads	171
<i>Gibson Peters, Kathryn Gwilym, Tom von Schrader, Greg Giraldo</i>	
Legacy LID: Stormwater Treatment in Unimproved Embankments along Highway Shoulders in Western Washington	181
<i>Dylan Ahearn, Richard Tveten</i>	
Managing Street Runoff with Green Streets	191
<i>Tim Kurtz</i>	
Rain Gardens and Green Streets: The Future of Municipal Stormwater Management in the U.S.	201
<i>Abby Hall</i>	

PERMEABLE PAVEMENTS

Low Impact Development and Permeable Interlocking Concrete Pavements: Working with Industry for Material Development and Training Offerings	213
<i>Ann English, William F. Hunt</i>	
Pervious Concrete Bicycle Lanes—Roadway Stormwater Mitigation within the Right-of-Way	222
<i>Craig Tosomeen, Zheng Lu</i>	
Porous Concrete Sidewalks—How to Build Sidewalks, Not Stormwater Ponds	229
<i>Craig Tosomeen</i>	
Pervious Pavement System Evaluation	238
<i>Amy A. Rowe, Michael Borst, Thomas P. O'Connor</i>	
Under-Pavement Infiltration Demonstration—Decatur Street Low Impact Development Roadway Project	247
<i>Andy Haub, Craig Tosomeen</i>	
Hydrologic and Water Quality Evaluation of Four Permeable Pavements in North Carolina, USA	255
<i>Kelly A. Collins, William F. Hunt, Jon M. Hathaway</i>	

RAINWATER HARVESTING

Integrating Rainwater Harvesting and Stormwater Management Infrastructure: Double Benefit-Single Cost	265
<i>Philip C. Reidy</i>	
Matching Rainwater Harvesting Strategies with Ecological Flow Needs	272
<i>A. Bradford, S. Pentelow, C. Denich</i>	
Performance of Rainwater Harvesting Systems in the Southeastern United States	282
<i>Matthew Jones, William F. Hunt</i>	
Study on the Economical Volume for Rainwater Harvesting	290
<i>W. Che, G. Q. Pan, J. Q. Li, H. Y. Li, J. P. He, H. L. Wang</i>	

WATER REUSE AND HARVESTING

Residential Manmade Lake System Design for Storm Water Treatment	299
<i>Bruce M. Phillips</i>	
Subsurface Wetland Systems for On-Site Wastewater Treatment and Reuse	307
<i>Ni-Bin Chang, Marty Wanielista</i>	
Study on Application of Gravity-Flow Compound Ecological Filter Bed in the Purification of Urban River Water	316
<i>Jun Liu, Danping Xie, Siming Liu, Heping Hu</i>	

CASE STUDIES

LID-LEED-SMART GROWTH

A Case Study on the Use of LEED, LID, and BMPs in the Redevelopment of a Midwestern Urban Campus	326
<i>Donald D. Carpenter</i>	
Case Study: Low Impact Development Retrofit at Pillar Point Air Force Station	336
<i>Chad S. Helmle, Scott D. Struck, Tim P. Tringali, Joong G. Lee</i>	
From the Mountains to the Coast—LID Case Studies from North Carolina	347
<i>Scott Job, Heather Fisher</i>	
Implementation of Low Impact Development (LID) Practices in the District of Columbia: Lessons Learned	357
<i>Walter K. Caldwell</i>	
Integration of Water Resource Planning into Stormwater Design	368
<i>Alan Black, Dale E. Anderson</i>	
Lincoln Center: Integrating Innovative Stormwater Management Technology into a Mixed Use Community	375
<i>A. Hayes, J. Heisler, E. Laramore, M. Clar</i>	
Low Impact Development Wal-Mart in North Carolina	385
<i>W. G. Lord, R. A. Brown</i>	
Trade Winds Farm, Winchester, Connecticut—How to Create a LID Subdivision	392
<i>Steven D. Trinkaus</i>	

CODES, REGULATIONS, CONSTRAINTS, GUIDELINES

CODES

Emerging State LID Regulatory Approaches and Compliance Tools for Local Governments.....	401
<i>H. L. Fisher, M. K. Frey</i>	
LID in Regulatory Water Pollution Control Programs: The District of Columbia Experience.....	411
<i>Mohsin R. Siddique</i>	
Mimicking Predevelopment Hydrology Using LID: Time for a Reality Check?.....	417
<i>Randell K. Greer</i>	
Without a Standard, Low Impact Development Is Another Form of High Impact Development	422
<i>Thomas W. Holz</i>	

IMPEDIMENTS TO USING LID AND EXAMPLES OF REMOVING THOSE BARRIERS – FROM PUBLIC ACCEPTANCE TO REGULATORY CONSTRAINTS

Ahead of the Curve—Tolland, Connecticut Adopts Low Impact Development Regulations.....	431
<i>Steven D. Trinkaus</i>	
Seattle's Policy and Pilots to Support Green Stormwater Infrastructure.....	441
<i>Tracy Tackett</i>	
Transforming Gray to Green in the Right-of-Way: Blurring the Lines...Softening the Edges	445
<i>T. Lowry, S. DeWald, D. LaClergue</i>	
Understanding and Overcoming Legal and Administrative Barriers to LID: A Florida Case Study	455
<i>Thomas Ruppert, Mark Clark</i>	
Using Rainwater to Grow Livable Communities: A New Tool to Promote Multi-Benefit BMPs	465
<i>M. K. Frey, V. Ober, J. Kulik, L. Shoemaker</i>	

SUCCESSFUL COLLABORATIVE FUNDING APPROACHES TO LID

Organisational Change in Urban Stormwater Quality Management Programs.....	475
<i>Phil Edwards, Matt Francey</i>	

USING LID TO HELP MITIGATE IMPACTS OF CLIMATE CHANGE ON STORMWATER AND WASTEWATER SYSTEMS

Sustaining Ecological Processes in High Density Urban Sprawl Areas in China	485
<i>Dihua Li, Ke Liu, Kongjian Yu, Xiangfeng Kong</i>	

COMPUTATIONAL METHODS

EXISTING COMPUTATIONAL METHODS

Preparing a Pollution Loading Analysis for Land Development Projects	495
<i>Steven D. Trinkaus</i>	
Continuous Simulation of Integrated Bioretention-Infiltration Systems for Urban Retrofits	504
<i>William C. Lucas</i>	
Continuous Hydrology with Subbasin Specificity and LID: The Flow Duration Design Model	514
<i>Phil Pommier, Seth Jelen</i>	
Determining Cost Effective Pollution Reduction BMP Scenarios for Low Impact Redevelopment and a Watershed Plan Using WinSLAMM	521
<i>Karen C. Kabbes, Stephen McCracken, John W. Hood</i>	
Development and Calibration of a High Resolution SWMM Model for Simulating the Effects of LID Retrofits on the Outflow Hydrograph of a Dense Urban Watershed	531
<i>Omar Khader, Franco A. Montalto</i>	
LID Analysis Considerations in Western Washington	540
<i>Douglas Beyerlein</i>	

INNOVATIVE COMPUTATION TOOLS

A Practical Methodology to Evaluate Hydromodification Performance of Conventional and Low Impact Stormwater Controls	549
<i>Elise Ibendahl, Dan Medina</i>	
A Simplified Approach for Sizing Green Stormwater Infrastructure in the City of Seattle	558
<i>Alice Lancaster</i>	
The Road to LID Plan Approval in Coastal North Carolina: Development of a Spreadsheet Modeling Tool for LID Based Design	568
<i>Hunter Freeman</i>	
Stochastic Analysis for the Effectiveness of BMP Implementation in a Watershed	578
<i>Yuan Cheng</i>	

EDUCATION, TRAINING, OUTREACH

COMMERCIAL/INDUSTRIAL/INCENTIVES PROGRAMS

Stormwater BMP Maintenance and Certification Program in North Carolina, USA	588
<i>W. G. Lord, W. F. Hunt</i>	

LID EDUCATION, TRAINING, OUTREACH WITH SINGLE-FAMILY RESIDENTS

LID Design for a Residential Lot in the Truckee River Watershed, CA	594
<i>Deborah Stewart, Donna Bodine, Peter Mangarella, Lynell Garfield</i>	

INTERNATIONAL APPLICATIONS OF LID

International Experiences with Low Impact Development (LID)	601
<i>Eddy Akinyemi</i>	
Design and Hydrologic Estimation Method of Multi-Purpose Rain Garden: Beijing Case Study	611
<i>J. Q. Li, L. L. Xiang, W. Che, R. L. Ge</i>	
Growth of Low Impact Design in the Auckland Region (New Zealand) through an Innovative Grants Programme	621
<i>Hayden Easton, Judy-Ann Ansen</i>	
The Auckland Sustainability Framework, Urbanisation, and Low Impact Design in the Auckland Region (New Zealand)	633
<i>Matthew D. Davis, Hayden Easton, Judy-Ann Ansen, Brenna Waghorn, Claire Mortimer, Alan Johnson</i>	
Innovative Stormwater Management in Canada	645
<i>Hans Schreier, Jiri Marsalek</i>	
Sustainable Stormwater Management: Implementation of Pilot Low Impact Development Stormwater Controls at US Department of Defense Installations in Europe	655
<i>Claudio Albano, Cristian Carlone, Serena Cattaneo, Daniel E. Medina</i>	

LID AND SUSTAINABILITY

GREEN INFRASTRUCTURE

Assessing Sustainability for Urban Regeneration in a River Corridor—Accounting for Climate Change	664
<i>R. M. Ashley, P. Moug, T. Wild, A. L. Hurley, S. Molyneux-Hodgson</i>	
Building the Marketplace for LID: A New Habitat-Based Approach	674
<i>Josh F. Cerra</i>	
Green Infrastructure for Urban Stormwater Management	682
<i>Chris Kloss</i>	
Low Impact Development in Utah: Progress, Constraints, and Future Outlook	689
<i>Steven Burian, Michael Dietz, Christine Pomeroy, Benjamin Görges, William Flower</i>	
Seattle Public Utilities’ Natural Drainage System Operation and Maintenance	699
<i>Drena Donofrio, Tracy Tackett</i>	
Stormwater Concepts—No Adverse Impact	705
<i>Robert G. Traver, Allen P. Davis, William F. Hunt, Mow-Soung Cheng</i>	
The Low Impact Design Charrette: Engaging the Public and Expanding Green Stormwater Management in San Francisco	710
<i>Rosey Jencks, Scott Durbin, Kerry McWalter</i>	

LID AND STREAM RESTORATION

A Watershed-Based Approach to Low Impact Development	719
<i>S. Bry Sarte, Manon Terrell</i>	
Effect of Bioretention on Runoff Temperature in Trout Sensitive Regions	729
<i>Matthew Jones, William F. Hunt</i>	

Inventory and Prioritization of LID Projects at a Sub-Watershed Scale.....736
David Elkin

Stream Restoration through Stormwater Runoff Management and Retrofit: New Objectives, New Approaches747
Marit Larson, Christopher J. Walsh, Tim D. Fletcher, Darren Bos, Sharyn Rossrakesh

SOILS AND VEGETATION

Ecological Functions Evaluation Study of Urban Landscape Construction Based on LID.....757
Nianfeng Liu, Jiao Sun, Aijun Zhan, Shaohui Rong, Xun Xiong, Haibo Di, Feng Liu, Tao Wu, Peng Kuai

Improvements in Infiltration Rates of Compacted Soil with Tillage and Compost769
N. C. Olson, G. Schmalle, L. Adekola, J. S. Gulliver, J. L. Nieber

Pollutant Transport within the Vadose Zone of Natural Soils: With Focus on the Interactions of Individual Soil Horizons776
Daniel P. Treese, Shirley E. Clark, J. Bradley Mikula, Katherine H. Baker

Start with the Soil: Changing Construction Site Soil and Vegetation Management in Washington.....785
David McDonald

LID INCENTIVES FOR NEW CONSTRUCTION

COST COMPARISION-TRADITIONAL VS. LID

Cost-Benefit Evaluation of Ecoroofs.....789
Ed MacMullan, Sarah Reich, Tom Puttman, Kelly Rodgers

INCENTIVES FOR INCORPORATING LID

An Approach to Mainstreaming Low Impact Development (LID) Technology in Municipal Engineering Practices799
Eddy Akinyemi

Integrated Water Management Demonstration Project for Low Impact Development Urban Retrofit and Decentralized Wastewater Treatment Systems in the Upper Patuxent River Watershed, Prince George’s County, Maryland.....809
Alfonso Blanco, William E. Roper, Mow-Soung Cheng

Reducing Stormwater Costs through LID Strategies and Practices.....819
Dov Weitman, Anne Weinberg, Robert Goo

Seattle’s Stormwater Facility Credit Program: Incentivizing Onsite Stormwater Management829
R. Kirschbaum, T. Lowry

RECENT MONITORING/PERFORMANCE FINDINGS

BIORETENTION MONITORING

An Evaluation of Planting Soil Mixtures on Bioretention Cell Performance	838
<i>Laura Hallam, Donald D. Carpenter</i>	
Bacterra by Filterra Advanced Bioretention System: Discussion of the Benefits, Mechanisms, and Efficiencies for Bacteria Removal	848
<i>Larry S. Coffman, Mindy Ruby</i>	
Enhancing Rain Garden Design to Promote Nitrate Removal via Denitrification.....	861
<i>Emilie K. Stander, Michael Borst</i>	
Bioretention Performance in the Upper Coastal Plain of North Carolina.....	871
<i>R. A. Brown, W. F. Hunt</i>	
Estimation of Evapotranspiration and Groundwater Recharge from Bioretention Areas Using Weighing Lysimeters.....	881
<i>Andrea Bradford, Chris Denich</i>	
Four Levels of Assessment for LID Practices	888
<i>J. S. Gulliver, B. C. Asleson, R. S. Nestingen, J. L. Nieber, R. M. Hozalski</i>	

INTEGRATED PRACTICE MONITORING

A Comparison of Conventional and Low Impact Development Stormwater Best Management Practices.....	897
<i>Suzanne Osborne, James Packman</i>	
Field Evaluation of Hydrologic and Water Quality Benefits of Grass Swales with Check Dams for Managing Highway Runoff	907
<i>Nor Eliea Eluziea Jamil, Allen P. Davis</i>	
Field Evaluation of Level Spreaders for Runoff Reduction and Water Quality Impacts.....	915
<i>Ryan J. Winston, William F. Hunt</i>	
LID Performance Monitoring Challenges and Results for Infiltrating BMPs: Bioretention Cells, Raingardens, and Porous Pavements.....	925
<i>A. M. Braga, R. L. Fitsik</i>	

SITE DESIGN CONSIDERATIONS

LID APPLICATIONS

Design, Engineering, Installation, and O&M Considerations for Incorporating Stormwater Low Impact Development (LID) Practices in Urban, Suburban, Rural, and Brownfield Sites.....	937
<i>Bethany Eisenberg</i>	
Kitsap SEED—Marrying the Ultra-Modern with Zero-Discharge Requirements	947
<i>Tim Thomson, Mike Fowler, Patricia Buchanan</i>	
Lessons Learned: The North Carolina Backyard Rain Garden Program.....	955
<i>Mitch Woodward, William F. Hunt, Wendi Hartup</i>	

LID Feasibility, Design, and Implementation at Cape Lookout National Seashore	964
<i>J. D. Wright, W. F. Hunt</i>	
Low-Impact Development and Coastal Waters: Can Public Health Standards Be Protected?	968
<i>Todd Miller</i>	
Monitoring-Based Annual Water Balances as Targets for Minimal Impact Development	977
<i>Timothy C. Bartholomaus, John F. Stamm, Barry Hecht, Geof Syphers</i>	
Stormwater Management Conceived as Amenity: The Application of Artful Rainwater Design	987
<i>Stuart Echols, Eliza Pennypacker</i>	

WATERSHED RETROFIT WITH LID

CSO CONTROL AND LID

Advanced Drainage Concepts Using Green Solutions for CSO Control—The KC Approach	998
<i>Scott D. Struck, Tom Jacobs, Ginny Moore, Robert Pitt, Michael A. Ports, Deborah O’Bannon, Erich Schmitz, Kathlie S. Jeng-Bulloch, Richard Field</i>	
Enhancement of the Green Build-Out Model to Quantify Stormwater Reduction Benefits in Washington, DC	1009
<i>Michael Sullivan, Brian Busiek, Heather Whitlow, Meredith Upchurch, Jenny Molloy, Barbara Deutsch</i>	
Green Infrastructure Approaches to Control of Combined Sewer Overflows	1019
<i>Rajesh Rajan, Marc Cammarata, James T. Smullen, Dwayne Myers, Gary D. Martens, Shannon K. Reynolds</i>	
Risk Analysis Application for Assessing the Cost-Effectiveness of Low Impact Development for CSO Control Using LIDRA	1030
<i>Chris Behr, Franco Montalto</i>	

EXEMPLARY CASE STUDIES

Creating a LID Environment in an Ultra Urban Setting	1040
<i>Larry John Matel</i>	
Greening Stormwater Infrastructure: Integrating Low-Impact Development with Traditional Methods in Washington State	1049
<i>Dustin Atchison</i>	
Implementation of Low Impact Development Retrofits in a Low Income Neighborhood in Wilmington, NC	1059
<i>J. D. Wright, C. A. Perrin, W. F. Hunt, E. R. McCoy</i>	
Low Impact Development in San Diego—Demonstration Projects and Proposed Urban Retrofits	1069
<i>Karen Franz, Gabriel Solmer</i>	
Mt. Airy Rain Catchers—Rain Barrels and Gardens in a Suburban Watershed	1079
<i>Ward G. Wilson, Hale Thurston</i>	
OHSU Stormwater Management Plan: A Unique Approach to Stormwater Management for Campus Facilities Using Low Impact Development	1089
<i>Michelle M. Wittenbrink, Kevin J. Timmins, Quinn L. Donnelly</i>	

**Painting It Green—Replacing an All-Pipe Solution with an Integrated Solution
Emphasizing Low Impact Development**.....1099
Naomi Tsurumi, Bill Owen

**Retrofitting an Urban Watershed—Incentivizing and Incorporating LIDs One Parcel at a
Time**.....1109
Neal Shapiro

**Stormwater Retrofit at Mt. Tabor Middle School: Lessons Learned about Designing
Landscape Systems at Schools**1118
