Table of Contents

Volume I

Preface

Table of Contents Volume I

Table of Contents Volume II

Committees of the 25th ITTC	1
The Advisory Council	7
1. Membership and Meetings	7
2. Activities and Recommendation of the Advisory Council	7
3. Officers for the 26th ITTC Advisory Council	9
The Executive Committee	11
1. Introduction	11
2. Obituaries	11
3. Committee Membership	16
4. Committee Meetings	16
5. Committee Decisions	18
The Resistance Committee	21
1. Introduction	21
2. Resistance Committee Questionnaire	22
3. Trends in Experimental Fluid Dynamics	26
4. Scaling and Extrapolation Methods	32
5. Trends in Computational Fluid Dynamics	39
6. Validation of Prediction Techniques	45
7. Facility Bias World Wide Campaign	50
8. Design References and Optimization	58
9. Far Field Waves and Wash	60
10. Airwakes	63
11. Recommendations	68
12. References	68
The Propulsion Committee	83
1. Introduction	83
2. Update the State-of-the-Art for Propulsion Systems Emphasising Developments Since the 2005 ITTC Conference	85
3. Review ITTC Recommended Procedures	98
4. Critically Review Examples of Validation of Prediction Techniques Identify and Specify Requirements for New Benchmark Data	109
5. Review the Development and Progress in Unconventional Propulsors Such as Tip-rake, Trans-cavitating and Composite Propellers (Hydroelasticity and Cavitation Erosion Susceptibility Taken into Account)	112
6. Review Propulsion Issues in Shallow Water and Formulate Recommendations for Research	117

7.	Review the Methods for Predicting the Performance of Secondary Thrusters and Compare with Operational Experience	120
8.	Finalise the Benchmark Tests for Waterjets and Analysis of the Data	125
9.	Conclusion	131
10.	References	134
The Manoeuvring Committee		143
1.	Introduction	143
2.	Overview of Manoeuvring Prediction Methods	145
3.	Progress in System Based Simulations	150
4.	Progress in CFD Based Manoeuvring Simulation Methods	154
5.	Validation of Simulations & Benchmark Data: SIMMAN 2008	161
6.	Manoeuvring and Course Keeping in Waves	171
7.	New Experimental Techniques	176
8.	Shallow and Confined Waters and Ship-Ship Interactions	180
9.	Standards and Safety	184
10.	Procedures	191
11.	Conclusions	195
12.	Recommendations to the ITTC	197
The Seakeeping Committee		209
1.	General	209
2.	Review of State-of-the-Art	211
3.	ITTC Recommended Procedures	244
4.	Conclusions and Recommendations	245
5.	References and Nomenclature	251
The Ocean Engineering Committee		263
1.	General	263
2.	Bottom-Founded Structures	265
3.	Predicting the Behaviour of Stationary Floating Structures and Ships	269
4.	Dynamically Positioned Ships, Mobs	276
5.	Wind, Waves and Current	278
6.	Hydroelasticity and Impact	280
7.	Renewable Energy Systems	283
8.	New Experimental Techniques	286
9.	Progress in CFD	290
10.	Existing Procedures	292
11.	Benchmark Data for Validation of CFD Codes	293
12.	Validation of Software for Predicting Wave Loads and Responses of Offshore Structures	294
13.	Multiple-Scale Model Testing	294
14.	Modelling Wind in Model Basins	298
15.	Conclusions	301
16.	Recommendations	304
17.	Appendix: Benchmark Data for Validating CFD Codes	304
18.	References	308
The Quality Systems Group		325
1.	General	325
2.	Tasks Performed	325

3. Other Matters	333
4. Conclusions	335
5. Recommendations to the Conference	335
6. Recommendation for Future Work	336
Appendix 1: Interim Tasks and Structure of the 26th ITTC Technical Committees and Group	337
1. Structure of Technical Committees	337
2. Terms of Reference for the General and Specialist Technical Committees and Group	337
3. Mechanism for Identifying New Specialist Technical Committees	338
4. Proposed Structure of the Technical Committees and Group for 26th ITTC	338
5. Tasks of the Technical Committees and Group of the 26th ITTC	339
Appendix 2: Form for Curriculum Vitae of Nominees to ITTC Technical Committees	349
Appendix 3: Technical Committees Members Performance Evaluation Sheet	351
Appendix 4: Application Form to ITTC Membership	353
Appendix 5: Rules of International Towing Tank Conference (Current Version)	355
1. Aims	355
2. Activities	355
3. Membership	355
4. Organisation	355
5. Meetings	358
6. Composition of Executive Committee Based on GEO-Graphic Areas	359
7. List of Geographic Areas	359
8. General Additional Guide-Lines for the Operation of the ITTC	359
Appendix 6: Rules of International Towing Tank Conference (Proposal of the Revised Version)	361
1. Description	361
2. Aims	361
3. Activities	361
4. Membership	361
5. Full Conference	362
6. Executive Committee	363
7. Advisory Council	365
8. Technical Committees	365
9. Groups	367
10. Serving in More Than One Capacity	367
11. ITTC Secretary	367
12. Management of ITTC Funds	368
13. The Conference	369
14. Communications	370
Appendix 7: List of Member Organizations	377
Appendix 8: List of Representatives (R), Members of Committees and Group (M) and Observers (O), Invited for the 25th ITTC	387

Table of Contents

Volume II

Preface

Table of Contents Volume I

Table of Contents Volume II

The Specialist Committee on Powering Performance Prediction	397
1. Executive Summary	397
2. Introduction	397
3. Tasks Set from the 24th ITTC	398
4. Foreword	398
5. Powering Performance Prediction	398
6. Predicting Powering Margins	421
7. Resistance of High Speed Marine Vehicles	422
8. Conclusions and Recommendations	425
9. References	427
Appendix A: Data Sheets for Database of Model and Full Scale Trials	429
The Specialist Committee on Uncertainty Analysis	433
1. Introduction	433
2. Completed Procedures	435
3. Structure of the Report	435
4. Uncertainty Analysis	435
5. Repeatability versus Reproducibility	440
6. Inter-laboratory Comparison	444
7. Guide to the Expression of Uncertainty in Experimental Hydrodynamics	446
8. Instrument Calibration	449
9. Laser Doppler Velocimetry	452
10. Uncertainty Analysis for PIV Measurements	453
11. Uncertainty Analysis Procedures for Captive Model Tests	455
12. Free-Running Model Tests	458
13. Uncertainty in Water Properties	462
14. Conclusions	462
15. Recommendations	463
16. References	463
Specialist Committee on Cavitation	473
1. Introduction	473
2. Cavitation Survey	474
3. Cavitation Modeling	477
4. Current Cavitation Modeling Methods	478
5. Multiphase Flow Cavitation Modeling	486
6. Rudder Cavitation	494
7. Waterjet Cavitation	499

8. Summary and Conclusion	503
9. Recommendations	505
10. References	505
Appendix A: Unconventional Rudders and Rudders Behind Highly-Loaded Propellers	513
Appendix B: Waterjet Cavitation Issues	517
The Specialist Committee on Wake Fields	535
1. General	535
2. Introduction	536
3. Survey of Numerical Methods for prediction of Wake Fields at Model and Full Scale	537
4. Review of Experimental Methods of Determining the Velocity Distribution in the Wake	543
5. Development of Procedures for Measuring the Velocity Distribution in the Ship Wake at Model Scale	551
6. Review and Update of the Existing Guidelines for the Simulation of the Wake Fields for Cavitation Testing	552
7. Guidelines for the Use of PIV in Determining the Velocity Distribution in the Wake	553
8. Recommendations to the Conference	555
9. References and Nomenclature	556
10. Literature Survey	560
The Specialist Committee on Azimuthing Podded Propulsion	563
1. Membership and Meetings	563
2. Recommendations of the 24th ITTC (Committee's Tasks)	563
3. Introduction	564
4. State-of-the-Art	564
5. Podded Propulsor Tests and Extrapolation	567
6. Guidelines on Extrapolation to Full-Scale	573
7. Questionnaires	582
8. Review and Analysis of Cavitation Behaviour of Podded Propulsors Under the Effect of Pod Steering Angle	586
9. Special Applications for Podded Propulsion	594
10. Technical Conclusions	599
11. References	599
The Specialist Committee on Stability in Waves	605
1. Introduction	605
2. Prediction of Extreme Motions and Capsizing of Intact Ships	606
3. Prediction of Dynamics of Damaged Ships	611
4. Stability Safety Assessment	624
5. Conclusions and Recommendations	632
6. References and Nomenclature	633
The Specialist Committee on Vortex Induced Vibrations Committee	641
1. General	641
2. Review of the State of the Art	643
3. Assessment of Prediction Methods	657
4. Technical Conclusions	659
5. References	660
