

# **2009 5th Asia-Pacific Conference on Environmental Electromagnetics**

**(CEEM 2009)**

**Xi'an, China  
16 – 20 September 2009**

**IEEE Catalog Number: CFP09497-PRT  
ISBN: 978-1-4244-4343-7**

# Contents

## Keynote Speech

K-1 Michel Ianoz	
Power Network Disturbances due to the Presence of FACTS.....	1
K-2 William A. Radasky	
Progress in IEC SC 77C High-Power Electromagnetics Publications in 2009.....	5
K-3 Shuichi Nitta, Taichi Murakami, Junichi Yoshino, Atsuo Mutoh	
A Consideration on the Mismatching between the Measured Electromagnetic Environment and the Immunity Test Results for Electronic Apparatus - A Case Study on Noise Propagation Characteristics in Printed Circuits Boards.....	9
K-4 Shi Li-hua, Yu Yang, Zhou Ying-hui, Zhou Bi-hua	
Statistical Results on the EMP Conductive Susceptibility of a Serial Network Measurement and Control Device.....	13
K-5 Jacob Gavan, Saad Tapuchi SCE	
The Potential of High Altitude Platforms (HAPS) for Low Interference and Broadband Radio Services.....	17
K-6 Junhong Wang	
Research on the Interception Power of Finite Object in Plane Wave.....	26

## 17P1 Session

17P1-01 Xu Jun, Lv Ying-hua09082	
System-Level Construction of Multiconductor Transmission Line Capacitance Matrix.....	30
17P1-02 Takaki Hirose, Toshikazu Sekine, Yasuhiro Takahashi	
Modeling of Dielectric Dispersive Characteristics and the Step Response of Transmission Line .....	34
17P1-03 Min Qu, Zhixun Huang, Guizhen Lu	
Goos-Hänchen and Focal Shift of a Reflected Beam at a Dielectric Interface.....	38
17P1-04 Zhenguang Liang, Hui Dou	
Simulation of Electromagnetic Transients in Air Insulated Substation due to Switch Operation.....	43
17P1-05 Liu Yin-long, Zhang Qing-yi, Nie Bai-sheng	
Analysis on electromagnetic field of coal or rock body fracture with taking a vertical electrical dipole as the emitter by the Counter-Propagation Deduction (CPD) method.....	47
17P1-06 Stanislav A.Sokolov	
High voltage line electrical field influence upon suspended fiber cable.....	51

17P1-07 Zhou Ying-Hui, Shi Li-Hua, Zhou Bi-Hua, Gao Cheng , Chen Bin Comparison of the Measurement Method for Surface Transfer Impedance in Frequency-Domain and Time-Domain.....	54
17P1-08 Satoshi Fukatsu, Toshikazu Sekine, Yasuhiro Takahashi A Comparison of Incorporation of Dissipation in the FDTD Analysis of Transmission Lines Using Stability Analysis.....	58
17P1-09 Zhang Jin-ling, Lu Ying-hua, Yang Jin-sheng, Chang Le, Yang wen-han, Xiang wan-chun Research of 2.45GHz Continuous Wave Magnetron Harmonic.....	62
17P1-10 Yang Yuling Zhang Qingyi Application of Counter Propagation Deduction (CPD) method in transmission line Impedance matching system.....	66
 <b>17P2 Session</b>	
17P2-01 HE Wei, MA Fang-fang, FU Xiao-ru, XIONG Han, PENP Yue-hong Cell Membrane Electroporation Model in Low Intensity Electromagnetic Pulse.....	67
17P2-02 Feng Lu, Hai-Jun Wan, Li-Hua Shi, Yan-Xin Li, and Bi-Hua Zhou Effect of Optical Transmitter on the Bounded-Wave EMP Simulator.....	71
17P2-03 Ning Jianjian, Yuan Qingyun, Wu Yong Correlation Between Coupled Voltage and Discharge Current.....	75
17P2-04 Amitabh Nag and Vladimir A. Rakov Lightning Discharges Producing Very Strong Radiation in Both VLF-LF and HF-VHF Ranges.	79
17P2-05 Shi Qiu, Bi-hua Zhou, Wan-sheng Dong, Yi Zhang Source Charge Model and Its Application in Simulation of Lightning Discharges.....	85
17P2-06 Z.L. Tan, Z.Y. Xiang, B. Xu, P.H. Xie Investigation on ESD EMP Damage Effects of Electronic Components.....	89
17P2-07 Shi Li-hua, Guo Yao-hua, Guo Dong-yi, Gao Cheng Design of Magnetic Field Sensor for Three Dimensional LEMP Measurement.....	93
17P2-08 Wei Ming, Wang Xiang-dong, Chen Xiang, Wang Shu-ping Compensation Arithmetic for Electrostatic Dynamic Potential Measurement Based on System Identification.....	97
17P2-09 Guo Fei, Zhou Bihua Influence of Branch Geometry on Radiation Field Characteristics From Lightning Return Strokes in the Time Domain.....	101
17P2-10 Yuan Qingyun, Liu Shanghe, Zhang Xijun, Xiao Zhiwei The Influence of Discharge Voltage on ESD Parameters for Air Discharge.....	105
17P2-11 Ikuko MORI and Osamu FUJIWARA	

Severity Evaluation of Immunity Test for Air and Contact Discharges of ESD Generator ....	110
17P2-12 LIU Weidong, LIU Shanghe, HU Xiaofeng	
Feature Extraction and Pattern Recognition of Signals Radiated from Partial Discharge....	114
17P2-13 Fangming Ruan, Dan Shi, Yougang Gao, Zeyun Song	
Influence on Discharge Properties of ESD Sub-process from Large Speed of Moving Electrode.....	118
<b>17P3 Session</b>	
17P3-01 Yan-Fu Bai, Xin-Huai Wang, Xiao-Wei Shi, Yue-Yan Yang and Ping Li	
The optimization design of power filter by Genetic Algorithm.....	122
17P3-02 XiaoQun Chen, XinHuai Wang and XiaoWei Shi	
Tri-band Bandpass Filter Using DGS Symmetrical Split Ring Resonator.....	126
17P3-03 Jing Bai, Yougang Gao, Yuanmao Shen, Dan Shi	
Shielding Effectiveness of an Enclosure with PCB.....	130
17P3-04 Feng Lu, Hai-Jun Wan, Li-Hua Shi, Yan-Xin Li, Bi-Hua Zhou	
Effect of the Ground on the Bounded-Wave EMP Simulator.....	135
17P3-05 Evgeny G.Sokolov	
Electromagnetic field attenuation in magnetodielectric cable sheath.....	139
17P3-06 Feng Wei, Lei Chen, Xiao-wei Shi, Jin Tian, Qiu-lin Huang	
Microstrip Low-Pass Filter with Wide Stopband Using Coupled-Line Hairpin Unit.....	142
17P3-07 WU Hai, GAO Cheng, SU Li-yuan, LU Feng, ZHOU Bi-hua	
Theoretical Analysis and Experimental Research on TGR.....	147
17P3-08 Jinhua Xu, Guangbin Liu, Zhiyong Yu	
Research on EMC analysis of 1553B Bus shielding Cable.....	151
17P3-09 Rui Wang, Yougang Gao, Dan Shi, Yuanmao Shen	
Application of the Transmission Line Method to the Shielding Effectiveness with Incident Wave of Arbitrary Polarization.....	155
<b>18A1 Session</b>	
18A1-01 JIANG Hui, ZHOU Bihua, LI Yanxin	
The Latest Design and Development of the Field Mill Used as Atmospheric Electric Field Sensor.....	159
18A1-02 Da Gang Xie, Dong Yun Hou, Chong Hua Fang, Ming Liang Huang	
On Simulation of Response Characteristic of EMI Test Receiver RF Front End.....	164
18A1-03 Ying Wang, Yunfei Mao, Bin Chen	

Analysis of the Influence of the Ground to TEM Horn Antennas for Pulse Radiation with Parallel FDTD Method.....	168
18A1-04 XIONG Han, HE Wei, PENP Yue-hong, LIU Youju Optimal Design Dielectric Layer of Lunberg-Lens Antenna.....	172
18A1-05 H. Wang, D. G. Fang, P. Ge Mutual Coupling Reduction Between Two Conformal Microstrip Patch Antennas.....	176
18A1-06 Yi-Guo Xu, Cheng Gao, Yan-Xin Li, Bi-Hua Zhou Design of Optic Fiber Transmission System Used in the Measurement of Broadband EMP Signal.....	180
18A1-07 Min Zhang, Xin-Huai Wang, Xiao-Wei Shi, Chang-Yun Cui , Bin Wu A planar monopole antenna design for UWB applications.....	184
18A1-08 Zheng Hui-zhi, Wu Zhan-cheng, Liu Wei-lian1, Pan Hui-qiang Design of the Electrostatic Potential Sensor.....	188
18A1-09 Si-Yang Sun, Ying-Hua Lu, Dong-Sheng La Application of Genetic Algorithm in Broadband Microstrip Antenna design.....	192
18A1-10 XinHuai Wang, XiaoQun Chen, XiaoWei Shi,YanFu Bai, Feng Wei and Ping Li EMC Design for an Anti-jamming Smart Antenna System.....	196
 <b>18A2(1) Session</b>	
18A2(1)-01 Yang Xiaoshuan, Chen Bin, Zhou Bihua, Xiong Run, Yin Qin Application of MW-FDTD to Simulate the Electromagnetic Pulse(EMP) Propagation in Tunnel.....	200
18A2(1)-02 Zeng Dongdong, Lu Guizhen and Lin Jincai Measurement at 820MHz for Indoor Wave Propagation.....	204
18A2(1)-03 FEI Zhiqiang, WEI Guanghui, GENG Lifei, Fu Li Energy Coupling Channels and Effecting mechanism of Continuous Wave Irradiation to Radio Fuze.....	208
18A2(1)-04 P.H. Xie, Z.L. Tan, J.J. Bi, W.L. Liu Simulation Analysis of One Electronic Equipment.....	212
18A2(1)-05 Li Anping, QianZhaojun, ShiDan Crosstalk Analysis between Two Parallel Micro-strip Transmission Line Based on PCBMod.	216
 <b>18A2(2) Session</b>	
18A2(2)-01 YONG-BIN CHEN, JUAN TAN, XIA MIAO, JING LI, GUO-ZHEN GUO Electromagnetic Pulse's Effects on Insulin's Bioactivity and Mechanism Study.....	217

18A2(2)-02 Walter Van Loock	
Elementary effects in humans exposed to electromagnetic fields and radiation.....	221
18A2(2)-03 Xiao Jiang, Dan Shi, Yuanmao Shen, Yougang Gao	
Simulation of nerve action potential under different temperature.....	225
18A2(2)-04 MIAO Xia, ZENG Li-Hua, REN Dong-Qing, ZHANG Jie, CHEN Yong-Bin, LI Jing, WANG, Xiao-Wu, GUO Guo-Zhen	
Effect of Electromagnetic Pulse on the changes of myocardial enzyme spectrumin in the canis familiaris.....	230
18A2(2)-05 Kangchu Li, Shirong Ma, Guiying Zeng, Dongqing Ren, Junye Liu, Jing Li, Yurong Li, Guirong Ding, Yao Guo, Guozhen Guo	
Effects of EMP irradiation on production of IL-2 in spleen cells of mice.....	234
<b>18A3 Session</b>	
18A3-01 Wu Lei, Song Xiao Ting	
Information Integrity and Its Protection in Networks.....	238
18A3-02 Yuli WAKADUKI, Tetsushi WATANABE, Yoshitaka TOYOTA, Kengo IOKIBE, Ryuji KOGA	
Estimation of Radiated Emissions from Multilayered Printed Circuit Board by Common-Mode Antenna Model.....	242
18A3-03 Kazuki MAEDA, Kengo IOKIBE, Yoshitaka TOYOTA, Ryuji KOGA	
De-embedding of Board Parasitics with T-parameters for S-parameter Measurements of Integrated Circuits on PCB – Examinations in One-port Measurements–.....	246
18A3-04 Chen Song, Chen Yazhou	
Design and Simulation of Impulse Current Circuit Based on the Standard Lightning Currents.....	250
18A3-05 YanXiao, Song Qijun, Zhang Hongshun, Shao Lulu	
Dynamic Spectrum Allocation Based on Cognitive Radio.....	254
18A3-06 Gong Bo, Xie Jinghu	
The EMC Research on Mobile multimedia broadcasting system equipment.....	258
18A3-07 Yu Zhi-yong , Zhuang Xin-wu, Yu Jian	
The High Precision Frequency Measurement Base on Direction Estimation System.....	264
18A3-08 ZhaoYang	
18A3-08 ZhaoYang, Dong yinghua, Feng Zhiming, YanWei, Li Shijin, Yuedong	
Application of EMI Noise Separating Network for Predicting Radiated Noise in Power-Line Communication System.....	268
18A3-09 Lu Xiaoquan, ZhaoYang, LuoYongchao, YanWei, Dong Yinghua, Yue Dong	
Radiated EMI diagnosis and noise modeling for cellular phone.....	272

## 18P1 Session

18P1-01 ChongHua Fang, XinYang Shi, DongAn Song , Liang Cheng , Yang Xu and ZhiYao Ding Two atypical methods for Ship RCS measurement with the laser and the acoustic wave technique.....	276
18P1-02 Lei Xiaoyong, Liu Shanghe, Li Guangqiang, Jia Mingjie Research on Remote EMC Testing System.....	281
18P1-03 Pan Xiaodong, Wang Qingguo, Dai Hongbin, FAN Li-si Research on the Substitute Method of Electromagnetic Emulation for Reverberation Chamber.....	285
18P1-04 Pawel Bienkowski, Hubert Trzaska Non-Stationary EMF Surveying Accuracy Improvement.....	289
18P1-05 Yuan Yan-xing The Influence of the Beamwidth of Transmit Antenna on RS103, Radiated Susceptibility....	293
18P1-06 Zhao Yang, Yan Wei, Feng Zhiming, Luo Yongchao, Li Shijin, Yue Dong Investigation on Radiated EMI Noise Identification for High Speed Digital PCB.....	297
18P1-07 CHENG Er-wei, WANG Qing-guo, QU Zhao-ming, JIA Rui New Technique for SE Measurement of Small Enclosures within Reverberation Chamber..	301
18P1-08 Wei Guanghui Pan Xiaodong Liu Cunli Research on the Calibration Equipment for Electrostatic Dynamic High Voltage.....	305
18P1-09 Qu Zhaoming, Wang Qingguo, Cheng Erwei, Jia Rui Simulation and Experiment Research on Shielding Effectiveness of Enclosure using Reverberation Chamber.....	309

## 18P2 Session

18P2-01 Hai-lin Chen, Bin Chen, Li-hua Shi, Cheng Gao Stability analysis of ADI-BOR-FDTD method.....	313
18P2-02 Yantao Duan, Bin Chen, Ying Wang, Yun Yi, Bihua Zhou An Improved Unconditionally Stable WLP-FDTD Method.....	317
18P2-03 Shi Ling Fei,Zong Zhi Yuan,Xu Rong Rong,Wu Wen A Novel Multiband Frequency Selective Surface Based On Y-loop Elements.....	320
18P2-04 Zhanghong Tang, Qun Wang and Hongxia Guo An Improved Adaptive Finite Element Method for the Simulation of Electromagnetic Field in PPFDs.....	324
18P2-05 Yantao Duan, Bin Chen, Yun Yi, Hailin Chen, Bihua Zhou A Memory-Efficient Formulation with UPML-ABC for the WLP-FDTD Method.....	328
18P2-06 Junyi Liu, Xiaoning Chen, Yunsheng Zhang ,Xiaofeng Zhou	

Electromagnetic calculation of cylindrical linear induction motors.....	332
18P2-07 J.Tian, Z.Q.Lv, X.W.Shi, L.Xu and F.Weii	
A non-positive-definite multifrontal algorithm for finite element analysis.....	337
18P2-08 Xiong Run, Chen Bin, Yin Qin, Yang Xiaoshuan, Zhou Bihua	
Thin-Slot Formalism for the FDTD Analysis Of Thin-Slot Penetration Considering Ground Reflection.....	341
18P2-09 YIN Wen-lu, DENG Cong, PENG Da, CHAI Shun-lian, MAO Jun-jie	
Systematic Comparison of Various Kinds of Higher Order Vector Elements for Triangles...	345
18P2-10 Yang Bo, Zhou Bi-hua, Chen Yong-guang, Meng Xin	
Influences of Mesh Size and Lightning Channel Length on Lightning Electromagnetic Field Calculation using FDTD Algorithm.....	349
18P2-11 Zhanghong Tang, Qun Wang and Hongxia Guo	
A Domain Map Finite Element Method for Solving Open Boundary Electromagnetic Field Problem and its Application .....	353
18P2-12 Yin Qin , Chen Bin , Xiong Run , Yang Xiaoshuan , Zhou Bihua	
PML Implementation for WLP-FDTD in Cylindrical Coordinates.....	357
<b>18P3 Session</b>	
18P3-01 Hai-lin Chen, Bin Chen, Bi-hua Zhou, Yu-ling Pei	
Modeling Debye dispersive medium in BOR-FDTD method.....	361
18P3-02 Zhiyao Ding, Wenwu Song, Chonghua Fang, Yang Xu	
Study on the cosite interference cancellation using AIC technique.....	365
18P3-03 Feng Lu, Hai-Jun Wan, Li-Hua Shi, Yan-Xin Li, Bi-Hua Zhou	
Optimised Radiative Device of the EMP Simulator with Absorbing Stuff.....	369
18P3-04 Luo Yongchao, Zhao Yang, Yan Wei, Li Shijin, Yue Dong	
Characterization of Radiated EMI Generated by Digital Wireless Speaker.....	373
18P3-05 SUN Guozhi, FU Li, LEI Xiaoyong, ZHANG Yongqiang, AN Ting,	
A Typical electronic system Illuminated by Ultra-wide Band.....	377
18P3-06 Wang Pan, Chen Jiaqing, Zeng Fanchun, Liu Fengwei	
FDTD Analysis of the Potential Distribution in Reinforced Steel Frames of a Building under Direct Lightning Stroke.....	382
18P3-07 Qing-guo WANG, Erwei CHENG, Zhaoming QU, Rui JIA	
Simulation of the Effects of Polarization and Incident Angle of Plane Wave on The Field Distribution of Enclosure with Apertures.....	386
18P3-08 Dalin ma, Yougang Gao, Dan Shi, Yuanmao Shen, Yaozhong Zhou, Qinghai Yang	
Nonparametric Bootstrap Estimation of Confidence Interval in Base Station Test.....	390
18P3-09 Ding Jun, Liu Yang, Guo Chenjiang	

Arbitrary shape of prism invisibility cloak.....	395
18P3-10 Jingyu Han, Qun Wang, Hongxia Guo and Zhanghong Tang	
A Method to Simulate the Electromagnetic Parameters of Materials with Quasi-periodic Microstructures and its Applications.....	400
18P3-11 Yang Huichun, Gao Yougang, Shen Yuanmao, Shi Dan	
Design of low cost Inverted F Antenna with two parasitic elements for 2.4GHz WLAN.....	404
<b>20A1(1) Session</b>	
20A1(1)-01 Zhao Bo, Zhao Min, Feng Zhiming, Yao Min	
Standard Resistor Calibration Method in Measurement of Noise Source Impedance Using Dual-probe Approach.....	408
20A1(1)-02 ZhaoYang, LuoYongchao, YanWei ,Feng Zhiming, Li Shijin, Yuedong	
A Fast Measurement and Estimation Approach Applied in Radiated EMI Analysis of High-Frequency Circuit.....	412
20A1(1)-03 Qiang CHEN, Jerdvisanop CHAKAROTHAI, and Kunio SAWAYA	
Estimation of Current Distribution by Near-Field Measurement.....	416
20A1(1)-04 Zhou Xing, Wang Shuping, Wei Ming, Wang Qingguo	
Experimental Research on Effects of LEMP on Power Circuits.....	420
20A1(1)-05 Chen Li-an, Wei Shengbiao, Luo Chaoyi, Hong Congyi, Lin Jie	
Measurement of Electromagnetic Environment of Xiamen Island.....	424
<b>20A1(2) Session</b>	
20A1(2)-01 Huang Jin, Xiong Rui, Zhou Yunping	
Improving the Reliability and EMC performance in Speed Regulating System of Asynchronous Motor.....	429
20A1(2)-02 LI Ni	
The Standards of High Power Transient Phenomena.....	433
20A1(2)-03 Yunsheng Zhang, Xiaoning Chen, Bihua Zhou, Jue Yuan	
Study on the opening mode of High-Voltage Circuit Breaker for SLF to reduce educe the electromagnetic radiation.....	438
20A1(2)-04 JI Xiangfei, FENG Qingmei, ZHAO Tuan, YAO Hongzhi	
Research on HEMP Injection and Radiation effect Effect of EED.....	444
20A1(2)-05 YAO Hongzhi, FENG Qingmei, ZHAO Tuan, JI Xiangfei	
Pulse Sensitivity of EED.....	447
20A1(2)-06 ZHAO Tuan, FENG Qingmei, YAO Hongzhi,JI Xiangfei, WANG Lixia	
Study on the Test Technique of Induced current of EED in Electromagnetic Field.....	450
