

**29th Annual GCSSEPM Foundation  
Bob F Perkins Research  
Conference 2009**

**Unconventional Resources: Making  
the Unconventional Conventional**

**Houston, Texas, USA  
6 – 8 December 2009**

**Editors:**

**Tim Carr  
Tony D'Agostino  
William Ambrose**

**Jack Pashin  
Norman C. Rosen**

**ISBN: 978-1-61567-960-7**

**Printed from e-media with permission by:**

Curran Associates, Inc.  
57 Morehouse Lane  
Red Hook, NY 12571

**Some format issues inherent in the e-media version may also appear in this print version.**

# TABLE OF CONTENTS

## **KEYNOTE ADDRESS**

<b>The Unconventional Bridge to an Alternate Energy Future</b> .....	1
<i>S.W. Tinker, E.C. Potter</i>	

## **SESSION I: GAS HYDRATES**

<b>Gas Hydrate Petroleum Systems in Marine and Arctic Permafrost Environments</b> .....	60
<i>T.S. Collett</i>	
<b>Initial Results of Gulf of Mexico Gas Hydrate Joint Industry Project Leg II Logging-While-Drilling Operations</b> .....	123
<i>R. Boswell, W. Shedd, P. Godfriaux, R. Dufrene, T.S. Collett, D. McConnell, M. Frye, S. Mrozewski, G. Guerin, A. Cook, D. Shelander, J. Dai, E. Jones</i>	
<b>Production of Gas from Hydrate: How Much and How Soon?</b> .....	196
<i>A.H. Johnson</i>	
<b>Resource Potential of Deep-Water Hydrates Across the Gulf of Mexico: Part 1, Estimating Hydrate Concentration from Resistivity Logs and Seismic Velocities</b> .....	213
<i>D. Sava, B. Hardage</i>	
<b>Resource Potential of Deep-Water Hydrates Across the Gulf of Mexico: Part 2, Evaluating Hydrate Systems with 4C OBC Seismic Data</b> .....	256
<i>B. Hardage, D. Sava, P. Murray, M. DeAngelo</i>	

## **SESSION II: GAS SHALE**

<b>How Technology Transfer Will Expand the Development of Unconventional Gas, Worldwide</b> .....	305
<i>S.A. Holditch, W.B. Ayers</i>	
<b>Addressing Conventional Parameters in Unconventional Shale-Gas Systems: Depositional Environment, Petrography, Geochemistry, and Petrophysics of the Haynesville Shale</b> .....	371
<i>U. Hammes, R. Eastwood, H.D. Rowe, R.M. Reed</i>	
<b>Ancestral Basin Architecture: A Possible Key to the Jurassic Haynesville Trend</b> .....	424
<i>B.J. Martin, T.E. Ewing</i>	
<b>Arkoma Basin Shale Gas and Coal-Bed Gas Resources</b> .....	467
<i>R.C. Milici, D.W. Houseknecht, C.P. Garrity, B. Fulk</i>	
<b>Unconventional Seals for Unconventional Gas Resources: Examples from Barnett Shale and Cotton Valley Tight Sands of East Texas</b> .....	482
<i>A. Chaouche</i>	
<b>Lithostratigraphy and Petrophysics of the Devonian Marcellus Interval in West Virginia and Southwestern Pennsylvania</b> .....	495
<i>M.L. Boyce, T.R. Carr</i>	

## **SESSION III: COAL-BED METHANE AND OIL SHALE**

<b>Estimating Resources and Reserves in Coal-Bed Methane and Shale Gas Reservoirs</b> .....	550
<i>C. Jenkins</i>	
<b>Developing Exploration Strategies for Coal-Bed Methane and Shale Gas Reservoirs</b> .....	602
<i>A.R. Scott</i>	
<b>Getting Natural Gas Out of Shales and Coals</b> .....	604
<i>I. Palmer</i>	
<b>Implications of Variable Gas Saturation in Coalbed Methane Reservoirs of the Black Warrior Basin</b> .....	650
<i>J. Pashin</i>	
<b>Coal-Bed Natural Gas Production and Gas Content of Pennsylvanian Coal Units in Eastern Kansas</b> .....	698
<i>K.D. Newell, T.R. Carr</i>	
<b>Prospects and Progress in the Green River Formation Oil Shale, Western United States</b> .....	728
<i>A.R. Carroll</i>	

<b>The History of US DOE Unconventional Energy Resources in the US, An Archive of References Available for Application to Current Oil Shale and Tar Sand Resources .....</b>	<b>766</b>
<i>T.H. Mroz</i>	

**SESSION IV: TIGHT GAS SANDS**

<b>Tight-Gas Sandstone Reservoirs: The 200-Year Path from Unconventional to Conventional Gas Resource and Beyond .....</b>	<b>796</b>
<i>J. Coleman</i>	
<b>Many Technologies Applied to Develop Wattenberg Field, a Giant in Denver's Backyard .....</b>	<b>827</b>
<i>T.J. Birmingham</i>	
<b>Geology of the Piceance Mesaverde Gas Accumulation .....</b>	<b>887</b>
<i>S.P. Cumella</i>	
<b>Fracture Diagenesis and Producibility in Tight Gas Sandstones .....</b>	<b>930</b>
<i>S.E. Laubach, J.E. Olson, P. Eichhubl</i>	
<b>Case Studies Examining the Discovery Sequence and Gas Accumulations in Tight-Gas Sandstones .....</b>	<b>940</b>
<i>J. Coleman, E. Attanasi</i>	
<b>Author Index</b>
