Proceedings of the Carl Loper Cast Iron Symposium

Table of Contents

A New Look at Micro Wear	1
A New Thermal Analysis Method for Compact Graphite Iron Production.....	9
Alloy Design for High Temperature Abrasion Resistant Cast Iron.....	20
Autonomous Optimization in Iron Casting Process Simulation.....	27
Cast Iron-An Old Name for a New Benchmark Material.....	33
Cast Iron Solidification with Non-Contact Acoustic Stimulation.....	43
Defect Formation of Gray Iron Casting	51
Experimental Evidence of Metallurgical Modification Associated to Chunky Graphite in Heavy-Section Ductile Iron Casting	59
Experimental Investigation on the Effect of Copper Upon the Eutectoid Transformation of As-Cast and Austenitized Spheroidal Graphite Cast Iron.....	69
High Temperature Thermal Fatigue Property of Thin-Section Spheroidal Graphite Cast Iron ..	80
Looking at Graphite Spheroids	92
Macro and Micro Modeling of Solidification Process of Spheroidal Graphite Iron Castings...	104
Mechanism of the Silicon Influence on Chilling Tendency Index and Chill of Ductile Iron in Thin Wall Castings.....	112
Microstructure and Properties of Cast Iron with Semi-Solid Process Using Cooling Plate Technique.....	120
On Modeling and Simulation of Mechanical Properties of Cast Irons with Different Morphologies of Graphite.....	126
On the Mechanism of Casting Skin Formation in Compacted Graphite Cast Iron	138
Oxygen Activity and Slag Formation in Cast Irons.....	145
Review of Funded Cast Iron Research Activity	162
Theory of Graphite Nucleation in Lamellar Graphite Cast Iron.....	168
Thermo-Chemistry of Non-Metallic Inclusions in DI	179
Three-Stage Model for the Nucleation of Graphite in Grey Cast Iron	191
