

PROCEEDINGS OF THE 2010 SPRING SIMULATION MULTICONFERENCE
11-15 April – Orlando, FL USA

2010 Spring Simulation Multiconference Books:

Book 1 - Agent-Directed Simulation Symposium (ADS)

Book 2 - 43rd Annual Simulation Symposium (ANSS)

Book 3 - 13th Communications & Networking Symposium (CNS)

Book 4 - Symposium on Theory of Modeling & Simulation – DEVS Integrative M&S
Symposium (DEVS)

Book 5 - Emerging M&S Applications in Industry & Academia Symposium (EAIA)

Book 6 - High Performance Computing Symposium (HPC)

Book 7 - Military Modeling & Simulation Symposium (MMS)

Book 8 - Symposium on Simulation for Architecture & Urban Design (SimAUD)

Book 9 - 9th International Conference on Bond Graph Modeling & Simulation (ICBGM)

Production Editors:

Michael J. Chinni

Diane “DJ” Weed

2010 INTERNATIONAL CONFERENCE ON BOND GRAPH MODELING AND SIMULATION (ICBGM'10)

ICBGM 2010 Preface	iii	
ICBGM 2010 Leadership	iv	
ICBGM 2010 Plenary Speaker & Abstract	v	Jeffrey L. Stein
SpringSim Preface	1	
BOND GRAPH THEORY I		
Parameter Sensitivities of Transfer Functions and of Residuals	4	Wolfgang Borutzky
Using Factored Bond Graphs for Distributed Diagnosis of Physical Systems	11	Indranil Roychoudhury Gautam Biswas Xenofon Koutsoukos
Modeling Considerations for Nano-Systems Using Bond Graph Techniques	19	Luke J. Gibbons José J. Granda
BOND GRAPH THEORY II		
Understanding Structural Problems in Structural Damping with Bond Graphs	30	Dean Karnopp
Two-equation Traffic Flow Models Framed Within the Bond Graph Theory	35	Catalin Marian Chera Jorge Luis Baliño Geneviève Dauphin-Tanguy
Bond Graph Representation of Standard Interconnection Model	43	Mariem El Feki Wilfrid Marquis-Favre Laurent Krähenbühl Daniel Thomasset
THERMODYNAMICS, ENERGY AND TOOLS		
Simulation Software for Thermodynamic Models, Part 1	54	Forbes T. Brown
Simulation Software for Thermodynamic Models, Part 2	62	Forbes T. Brown
Coupling of Classical and Renewable Energy Sources, Modeling and Power Flow Management	69	Roberto Sanchez Frédéric Colas Geneviève Dauphin-Tanguy Xavier Guillaud
ROBOTICS AND CONTROL SYSTEMS		
Observer for an Omnidirectional Mobile Robot	80	Naima Hadji Ahmed Rahmani

Force Control in Single DOF Dual Arm Cooperative Space Robot	87	Haresh Patolia P. M. Pathak S. C. Jain
Steady State of a Planar Robot: A Bond Graph Approach	95	Gilberto González Aaron Padilla
MECHATRONICS SYSTEMS		
A Bond Graph Model of an Electromagnetic Launcher	106	Michael D. Bryant
Bond Graph Modeling of Series-Parallel Hybrid Electric Vehicle Power Train Dynamics	116	Joško Deur Mihael Čipek Joško Petrić
Comparative Study of Railway Drive Systems Using Bond-Graph	126	José Antonio Lozano Jesús Félez José Manuel Mera Juan de Dios Sanz
Reconfiguration of Four Legged Walking Robot for Actuator Faults	134	V. L. Krishnan P. M. Pathak S. C. Jain A. K. Samantaray
MECHANICAL SYSTEMS		
Bond Graph Modeling of a Cracked Rotor	144	Vikas Rastogi Chandan Kumar
The Effect of Weight on Bit on the Contact Behavior of Drillstring and Wellbore	151	Ahmad Ghasemloonia D. Geoff Rideout Stephen Butt
Bond Graph for a Finite Element of a Beam Subjected to Axial Force and Lateral Excitation, with Applications	158	Vjekoslav Damić Majda Čohodar
Finite Element Bond Graph Model of Rotors	164	Mohsen Nakhaeinejad Sanghoon Lee Michael D. Bryant
BIOMECHANICS AND INDUSTRIAL APPLICATIONS		
Modelling and Simulation of a Thrombectomy Probe Applied to the Middle Cerebral Artery by Using the Bond Graph Technique	172	Gregorio Romero Irene Higuera Jesús Félez Gilliam Pearce Neil D. Perkinson
Pseudo Bond Graph for Fault Detection and Isolation of an Industrial Chemical Reactor, Part I: Bond Graph Modeling	180	Rafika El Harabi Belkacem Ould-Bouamama Mohamed Kony Ben Gayed Mohamed Naceur Abdelkrim

Pseudo Bond Graph for Fault Detection and Isolation of an Industrial Chemical Reactor, Part II: FDI System Design

190

**Rafika El Harabi
Belkacem Ould-Bouamama
Mohamed Kony Ben Gayed
Mohamed Naceur Abdelkrim**

GROUND AND AEROSPACE VEHICLES

Identifying An Aircraft Fuel Pump Failure Using Bond Graph Modeling

200

Donald Margolis

Flexible Truck Modeling and Investigation of Coupling Between Rigid and Flexible Dynamics

209

**D. Geoff Rideout
M. Tanveer Khan**

Bond Graph Dynamic Modeling and Stabilization of a Quad-Rotor Helicopter

219

**Mohammed Raju Hossain
D. Geoff Rideout
Nicholas Krouglicof**
