PLENARY

Renewable energy policy Dr Hermann Scheer	Not available
Renewable energy policy and ambition in South Africa Richard Worthington.....	Not available
CIS-based thin film technology: Transition from R&D to commercial production Prof Vivian Alberts	Not available
The future of solar electricity Prof Eicke Weber	Not available
Eskom strategic investment Mr Barry MacColl.....	Not available
Structure and dynamic of 100% renewable energy supply Dr Harry Lehmann.....	Not available
How solar cities can help us reach our climate change Ms Monica Oliphant.....	Not available
426 The sacred cow Mr Alexandros Tombazis	1
Energy and climate Prof Hartmut Grassl.....	Not available
338 The recent Hubbert peak of world oil production, its likely impacts on population, lifestyles, conflicts, globalization and the environment; and the challenge and opportunity it offers ISES Francis de Winter and Ronald B. Swenson	3
422 Measuring, managing and alternatives to the age of scarcity Peet du Plooy	È.....J

RESOURCE ASSESSMENT : ORAL : Theme 1

314	Statistical comparisons of clearance-index-based diffuse solar radiation correlations in Aljouf, Saudi Arabia Z.A. Al-Mostafa, A.H. Maghrabi and S.M. Alshehri	19
66	Modelling the conditional variance of wind farm output utilising realised volatility J. Boland, B. Ridley and M. Agrawal	25
81	Bayesian model selection of solar diffuse fraction models P. Lauret, J. Boland and B. Ridley.....	34
382	Effect of photovoltaic array tilt-angle on seasonal energy generation for Lagos - Nigeria M.A.C. Chendo and N.E. Erusiafe	41
250	Temporal and spatial availability of solar energy resources in Zimbabwe A. Chikukwa and J. Lovseth.....	49
112	The state of energy resource assessment in Chile A. Ortega, R. Escobar, H. Vidal, S. Colle and S.L. Abreu	59
408	Comparison of solar resource assessments for South Africa T.P. Fluri and T.W. von Backström.....	68
219	Applying measured reflection from the ground to simulations of thermal performance of solar collectors J. Dragsted and S. Furbo	77
123	Spectral solar irradiance estimation with metrological parameters J. Hashimoto, K. Saito, T. Kobayashi, J. Yoshino, T. Yasuda, A. Itagaki, T. Yamada and Y. Saito	86
196	Evaluation of projected beam irradiation for selected Zambian sites S. Hatwaambo, B. Perers and B. Karlsson	96
54	Methodology of analysis of biomass potential using GIS K. Havlíčková, J. Weger, J. Suchý and J. Šedivá	103
240	Solar energy potentials in Gobi Desert by remote sensing approach M. Ito and K. Kurokawa	112
45	Rational use of renewable energy on earth K. Jian	119
346	Solar, hydro and wind electricity generation potential of the Free State province, South Africa A.J. Meyer, T.P. Fluri and D. Palmer.....	124
263	Empirical correlations of Global irradiation and weather data at Kumasi E.W. Ramde, K. Darkwah, Y. Azoumah and A. Bagre.....	134
115	Toward a physically based, high resolution surface solar irradiance climatology from geostationary satellites M. Sengupta, I. Laszlo, W. Straka, A. Heidinger, S. Miller and D. Renne	142
6	Fast alternation of solar radiation T. Tomson	149
294	Biomass potential of Sub-Sahara Africa and next generation technologies to maximize bioenergy usage W.H. van Zyl, J.F. Görgens, J.H. Knoetze, H. von Blottnitz and M. Bloom	156
313	Empirical correlations for diffuse and global solar radiation in AlJouf City, Saudi Arabia A.H. Maghrabi, Z.A. Al-Mostafa and S.M. Alshehri	157
21	Evaluation of global solar radiation models for Riyadh, Saudi Arabia A.H. Maghrabi, Z.A. Al-Mostafa and S.M. Alshehri	163
20	A simple model of the monthly global solar radiation in Madina, Saudi Arabia, based on four meteorological variables A.H. Maghrabi, Z.A. Al-Mostafa and S.M. Alshehri	174

RESOURCE ASSESSMENT : POSTER : Theme 1

167	Predicting global solar radiation using sunshine duration and ambient temperature S.N. Agbo and F.I. Ezema	182
105	Determination of solar radiation in urban environments supported by a GIS considering the obstacles incidence A. García, J.L. Torres, M. de Blas, A. Gracia, A. Huarte, A. Garrués, G. Vargas and L. Baigorrotegui	188
60	Status and perspectives of wind power in China X. Yu and H. Qu	197
106	Solar UV and global radiations measured at Pernambuco, Brasil C. Tiba, S. S. Leal and R. Piacentini	204
107	Estimating atmospheric Linke turbidity index from climatic data for Pernambuco C. Tiba and V.M. Pimentel.....	211

SOLAR HEATING & COOLING : ORAL : Theme 2

25	A comparative study of brackish water desalination using indigenously prepared solar desalination unit G. Abbas, R. Raza and A. Ahmad	217
214	Experimental investigation of PCMs for the hot side of a vapour compression heat pump to adjust tariff rates F. Agyenim and N. Hewitt	230
275	Assessment and optimization of the performance of a novel solar refrigeration system applied in agro-food industry O. Ayadi, M. Aprile and M. Motta.....	241
206	A novel system of combined power generation and water desalination using a renewable energy source F. Bai, A. Akbarzadeh and R. Singh	252
65	Design of a MaReCo collector for high solar fraction L.R. Bernardo, B. Perers and B. Karlsson	260
378	Collector parameter identification methods and their uncertainties C. Budig, J. Orozaliev, A.C. de Keizer, O. Kusy and K. Vajen	270
402	Cost assessment of an optimized solar assisted water ejector cooling cycle with a booster using CO ₂ as working fluid S. Colle, J. Cardemil, H. Vidal and R. Escobar	282
335	Novel concept for a solar cooler/heater based on adsorption cycle for domestic application L. Crema, A. Bozzoli, G. Cicolini and A. Zanetti	291
157	Performance testing of solar thermal systems combined with heat pumps B. Mette, H. Drück, S. Bachmann and H. Müller-Steinhagen	301
159	Low temperature chemical heat storage - new technologies and developments H. Kerskes, B. Mette, F. Bertsch, H. Drück and H. Müller-Steinhagen	311
232	Ten year study of a novel ICPC solar collector installation: optical modelling and material degradation W.S. Duff and J. Daosukho	322
16	Efficiency and lifetime of solar collectors for solar heating plants J. Fan, Z. Chen, S. Furbo, B. Perers and B. Karlsson	331
260	Thermal stratification in a hot water tank established by heat loss of the tank J. Fan and S. Furbo.....	341
202	Holistic system testing – 10 years of concise cycle testing R. Haberl, E. Frank and P. Vogelsanger	351
332	Solar transmittances for glass covers with and without anti reflection treatment under real climatic conditions S. Furbo, Z. Chen, J. Fan and J.M. Schultz	361

57	Sorption storages for solar thermal energy – possibilities and limits A. Hauer	371
195	Design and performance of a solar air-conditioning system powered by heat-pipe evacuated tube collectors H. Zinian and L. Wei	381
127	Effect of convection using two PCMs on the thermal performance of BIPV systems M.J. Huang and N. Hewitt	388
216	Solar water heater employing heat pipe M. Bahray	397
203	Solar thermal water disinfection: 500 litres of clean water per day for 500\$ initial investment L. Konersmann and E. Frank	413
423	Comparison of five approaches to solar assisted cooling P. Kovacs, B. Perers, A. Jardeby, R. Nordman and J.O. Dalenbäck	423
256	Improving the compatibility between steady state and quasi dynamic testing for new collector designs U. Pettersson, P. Kovács and B. Perers	431
336	Solar process heat in breweries - potential and barriers of a new application area C. Lauterbach, B. Schmitt, K. Vajen and U. Jordan	437
414	Experimental study of a humidification and dehumidification desalination system of solar air collector with evacuated tubes X. Li, Z. Wang, G. Yuan, H. Li, L. Lu and Z. Xu	445
288	Hybrid photovoltaic thermal (PV/T) - desiccant integrated infrared drying technique C. Punlek, R. Pairintra, S. Chindaraksa, C. Lertsatitthanakorn and S. Maneewan	454
83	Innovative example for central solar heating plant with seasonal thermal energy storage in Germany R. Marx, F. Ochs, W. Heidemann and H. Müller-Steinhagen	468
192	Characterisation of a novel concentrating parabolic trough solar collector: A comparison of international models S.A. Miller, S. Pearce and J. Dreyer	477
34	Determination of a focal point of a parabolic reflector using a red laser diode J.S.P. Mlatho, M. McPherson, R.J.J. van den Heetkamp and S.H. Taole	489
189	Experimental evaluation of a novel heat exchanger for solar water heating systems J.D. Mondol, M. Smyth, A. Zacharopoulos and V. O'Brien	499
37	Optically selective surfaces in low concentrating PV/T-systems J. Morfeldt	508
370	Misalignment effects in a point focus solar concentrator M. Mouzouris and M.J. Brooks	518
365	CPC-trough—compound parabolic collector for cost efficient low temperature applications M.N. Baig and I.A. Khan	524
191	Evaluation of a solar adsorption cooling device 2009 K.J. Nwamba, C.F. Meyer and M. Mbarawa	530
376	Freshwater and cooling cogeneration by solar energy G. Franchini and A. Perdichizzi	540
255	Investigation of dynamic effects in evacuated tubular collectors B. Perers, U. Pettersson and P. Kovacs	550
257	Solar/electric heating system for the future energy system B. Perers, S. Furbo, E. Anderssen and J. Fan	556
10	Internal thermal coupling in direct-flow coaxial vacuum-tube collectors J. Glembin, H. Dieckmann, D. Eggert, G. Rockendorf and J. Scheuren	566
100	Solar heating and cooling for the solar city Gleisdorf A. Thuer and M. Vukits	578
406	Analysis of incentives using an energy system model for solar water heater installation in Gauteng megacity region, South Africa J. Tomaschek, A. Dobbins, E. Doruk Özdemir and U. Fahl	587
311	Guaranteed Solar Results for Commercial Solar Hot Water Systems D. Tudor Jones and H. Reiche	600

208	Development of a modular and compact charge and discharge unit for large-scale solar thermal systems K. Zass, C. Wilhelms, K. Vajen, U. Jordan and W. Kramer.....	604
19	Introduction for demonstration projects of solar heating and cooling in China Z. Ruicheng, H. Tao, Z. Xinyu, H. Zhulian and D. Yu.....	611

SOLAR HEATING & COOLING : POSTER : Theme 2

259	Low cost solar powered ultra violet water purification system for rural communities O. Omitade, O.O. Ajani, O. Ogedengbe and R.A. Akanbi.....	617
334	Optimal design of fabric inlet stratifiers E. Andersen and S. Furbo.....	627
169	Fabrication of common man solar water heater R.N. Arle.....	634
211	Assessment of the efficiency of a solar radiation concentrating system C. Artur, B. Cuamba, S. Pillay and J. Lovseth.....	638
247	Experimental investigation on a rock-bed for high temperature solar thermal storage H.B. Madessa, J. Løvseth and O.J. Nydal.....	639
269	Özçelik, Y. Sun, W. Yang, J. Yang and Z. Zhang.....	646
222	Modelling of a novel volumetric absorber, suitable for compact solar concentrators with rock storage A. Chikukwa and J. Lovseth.....	650
397	Optimization and modelling of a high temperature solar thermal storage adapted to operate as hotplates A. Chikukwa and J. Lovseth.....	660
417	Novel concept for a solar cooler/heater based on adsorption cycle for domestic application L. Crema, A. Bozzoli, G. Cicolini and A. Zanetti.....	670
251	Implementation of a modular approach for large-scale solar thermal systems in TRNSYS A.C. de Keizer, S. Küthe, K. Zass, C. Wilhelms and K. Vajen.....	671
47	A circulating pump powered by local heat for liquid solar installations Y. Dobriansky, M. Duda and D. Chludzinski.....	680
300	Microcontroller based data acquisition and control of a solar thermal energy system G. Doho and K. Govender.....	681
154	Modular specification of large-scale solar thermal systems for the implementation of an intelligent monitoring system A. Dröscher, P. Ohnewein, M.Y. Haller and R. Heimrath.....	682
178	Developing a new energetically-based control method for solar heating systems R. Kicsiny and I. Farkas.....	689
184	Collector efficiency testing - The 2-node collector model ready for implementation in European standard EN 12975 S. Fischer and H. Müller-Steinhagen.....	699
331	Long term investigations of thermal performance and energy savings for a solar combi system S. Furbo, J. Fan and A. Thür.....	708
201	Potential improvement in the design of immersed coil heat exchangers W. Logie and E. Frank.....	717
363	Influence of different load profiles on the performance of a solar hot water system M. Lundh and E. Wäckelgård.....	727
374	Performance analysis of solar hybrid PV-thermal system incorporating PCM C.S. Malvi, M. Masala, R. Crook and D.W. Dixon-Hardy.....	736
396	Software for solar district heating systems design used in low income houses L.P.P Faria, E.M.D. Pereira, A.S. Andrade, L.P. Carvalho, C.C.P. Chaves, V.A. Medeiros, K.F. Silva, R. Huebner and J.M.C. Barbosa.....	742
398	Mathematical modelling and experimental evaluation of non-uniform water flow in flat plane solar collectors L.P.P. Faria, E.M.D. Pereira and R. Huebner.....	750

424	Dynamic model for small scale concentrating solar energy system with heat storage K. Nyeinga, E.J.K.B. Banda, O.J. Nydal, J. Løvseth and H.B. Madessa.....	758
318	Temperature profile in rock bed heat storage for food preparation D. Okello, E.J.K.B. Banda, J. Løvseth and O.J. Nydal	765
264	Review of solar ejector air-conditioning systems E. Ramde, K. Owusu-Achaw and A. Brew-Hammond	771
145	Comparative study on transmittance of transparent coverings for solar collectors D.B. Riffel, R.R.D. Andrade, P.V.S.R. Domingos, F.A. Belo and A.P.F. Leite	772
146	Experimental assay for adsorptive cycles measurements D.B. Riffel, F. B. Cortés, J.M. Mejía, F. Chejne, R.R.D. Andrade, M.M. Machado, F.A. Belo and A.P.F. Leite	781
78	Thermal evaluation of a high temperature solar air heater E. Rincón, A. Lentz and M.D. Durán	787
361	Single pass solar water heaters T B Scheffler.....	788
42	High efficiency flat plate solar collector based on a selective double glazing S. Foeste, N. Ehrmann, P. Degenhardt, G. Rockendorf and J. Scheuren	797
43	Soil regeneration by unglazed solar collectors in heat pump systems E. Bertram, J. Glembin, J. Scheuren and G. Zienterra.....	804
241	The temperature of the liquid flowing in the solar collectors tubes P. Shipkovs, G. Kashkarova, K. Lebedeva, M. Vanags, A. Snegirjovs and L. Vasilevska.....	810
266	Evaluation of optical and thermal performance of community type parabolic solar cooker G.T. Shirole, M.G. Takwale, K.C. Mohite and A.M. Pathak	816
305	Convective and radiant heat transfer in the solar water heater E.M. Slingerland, Renaldi, A. B. Schaap, C.C.M. Rindt and C.R. Kleijn.....	821
405	An innovative solar simulator for research and development of solar thermal collectors F. Luginsland, J. Steinmetz, C. Zahler, A. Häberle and K. Kramer	831
317	Solar hot water storage with storage volumes up to 50 m ³ C. Wilhelms, K. Vajen, K. Zaß, R. Heinzen and U. Jordan	838
109	Simulation and optimization of a solar driven air conditioning system for a house in Chile H. Vidal, R. Escobar and S. Colle	844
218	State-of-the-art solar simulator with dimming control and flexible mounting A. Zacharopoulos, J.D. Mondol, M. Smyth, T. Hyde and V. O'Brien	854

SOLAR ELECTRICITY : ORAL : Theme 3

369	Thermal energy storage in a rock bed K.G. Allen, D.G. Kröger and T.P. Fluri	864
24	Investigation of ITO physical properties with and without ZnO buffer layer on different substrates S. Bagherzadeh, N. Manavizadeh and E. Asl-Soleimani.....	876
82	PV system concepts and energy efficiency H. Aust.....	882
92	Concentrator photovoltaic systems with AC system efficiencies >23% field proven A. Gombert, I. Heile, J. Wüllner, T. Gerstmaier, A. Hakenjos, S. van Riesen, M. Klein, M. Röttger and V. Bellini.....	892
111	Effect of non-uniform temperature distribution in the photovoltaic array on efficiency of photovoltaic systems V. Benda, Z. Machacek, P. Wolf and K. Stanek.....	901
114	Web-based solar photovoltaic hybrid design tool for rural clinics in Africa K. Burman, P. Lilienthal and D. Kline	910
35	Photovoltaic devices based on photosynthetic reaction center protein L. Frolov, M. Chichik, O. Wilner, L. Kravarsky, Y. Rosenwaks, C. Carmeli, S. Richter and I. Carmeli.....	920
29	Outdoor test for energy consistency in amorphous silicon photovoltaic modules using general linear modelling M.A. Case and Y.A. Owusu	927

404	A monthly average solar irradiation based algorithm to access the life cost savings of photovoltaic – diesel hybrid power plants for isolated grids S. Colle, B. Felten and S.L. de Abreu	934
391	Performance and prospects of a lightweight water-borne PV concentrator, including virtual storage via Hydroelectric-Dams P.M. Connor.....	941
337	The use of kites to provide maritime wind propulsion F. de Winter and D. Culp	950
99	Solar hybrid innovation powers Marble Bar and Nullagine, The two hottest towns in Western Australia D. Edwards	954
77	Solar thermal power plant model to determine fossil fuel backup consumption for different locations in northern Chile T.J. Larrain and R.A. Escobar	962
409	Potential assessment for concentrating solar power in South Africa T.P. Fluri	972
79	Analysis of performance of photovoltaic modules connected to the electric network after twenty years of operation J. Bione, P. Carvalho and R. Fellows	973
80	Universalization of electric energy through energy distributed by photovoltaic systems in isolated communities in Brazil J. Bione, P. Carvalho and R. Fellows	974
128	Small hydropower for rural electrification in South Africa - using experiences from other African countries W.E. Jonker Klunne.....	975
327	High productivity wind turbines J.H. Jooste	981
319	Techno-economic modelling of solar power systems 2009 T.H. Huang and D.M. Joseph.....	990
17	Numerical simulation of glass-to-metal sealing stress in solar receiver tube D.Q. Lei, Z.F. Wang and J. Li	999
226	Ageing of grid connected Li-ion traction batteries used for storage of fluctuating renewable energy B. Lenz, M. Meyer and C. Agert	1007
401	Performance characteristics of airfoil-blade micro wind turbines M.K.H. Leung and H.K. Lee	1008
233	Thermal stress and fatigue life analysis on molten salt central receiver X. Li, F. Bai, X. Song, C. Chang and Z. Wang	1017
162	Design, construction and characterization of a multiple sensor solar radiation detector M.A. Macome, B. Cuamba, S. Pillay and J. Lovseth	1026
242	A self-powered hybrid photovoltaic and solar thermal cell A. Nurick and C. J. Sheppard.....	1033
94	Small scale solar ORC system for distributed power in Lesotho M. Orosz.....	1042
357	Preliminary study of a 1200 house off-grid development powered from biomass D. Palmer and A.J. Meyer	1049
381	Laminar separation bubble prediction with CFD W.T. Pierce and T.W. von Backström	1057
353	Linear fresnel collectors as an emerging option for concentrating solar thermal power W.J. Platzer	1065
98	Regulating solar chimney power plant output according to demand J.P. Pretorius and D.G. Kröger	1075
53	Assessment of parabolic trough solar power plant in typical Chinese northern region H. Qu and J. Zhao	1085
268	Self-assembled solar lighting systems T.J. Cumberbatch, D. Berger, M. Gazes, P. Momori, N. Ayikutu, C. Mtiamoah, F. Akorli, D. Anipa and F. Akuffo	1091

272	Design of a multi-purpose target-aligned heliostat field T. H. Roos, R. Buck and A. Pfahl	1101
119	Coupling analysis of PV powered fan systems for low power without batteries V. Salas, P.J. Débora and E. Olías	1111
120	Field analysis of commercial PV inverters in the 5KW power range with respect to MPPT effectively V. Salas, P.J. Débora and E. Olías	1120
97	Analysis of an offshore wind farm in India for sustainable energy I. Selvarasan, J. Herbert, S. Loganathan and A.S. Arthur.....	1126
5	Non-destructive test method for determining encapsulation cure levels L. Strzegowski	1127
156	Distributed generation systems for South Africa based on renewable energy resources S. Szewczuk.....	1128
118	A review of potential bulk solar power generation options for the Upington area of South Africa J.C. Tempies, M.J. Brooks and N.M. Ijumba	1138
85	Parameter extraction from I-V characteristics of PV devices E.Q.B. Macabebe, C.J. Sheppard and E.E. van Dyk.....	1149
380	Stall considerations in solar chimney turbines T.W. von Backström and S.M. Maliage	1156
254	Decentralized solar lighting can enhance health and living conditions of the poor S. von Wolff	1166
36	Hybrid backup solutions for unstable grids M. Wollny and S. Tapanlis	1167
101	The international business alliance for renewable energy in developing countries M. Wollny and G. Glania.....	1174

SOLAR ELECTRICITY : POSTER : Theme 3

23	Physical properties of aluminum doped zinc oxide films prepared by RF sputtering method F. Dehghan Nayeri, M. Hoseini and E. Asl-Soleimani	1181
26	Effect of Al ₂ O ₃ thin film on ZnO electrical and optical properties deposited by RF sputtering Sh. Kabiri Ameri Abootorabi, N. Khazamipour and E. Asl-Soleimani.....	1187
129	Fabrication of ZnO nanowires on AlZnO thin film with potential application in high efficient solar cells S. Baghbani Kordmahale, E. Asl-Soleimani and H. Ghafari-Fard.....	1192
364	Assessment and optimization of the performance of a novel solar refrigeration system applied in agro-food industry O. Ayadi, M. Aprile and M. Motta.....	1199
385	Selection of non-alloyed contacts for ZnO nanowire based devices S. Baghbani Kordmahale, E. Asl-Soleimani and H. ghafari-Fard	1210
344	Development of high frequency nano-rectifiers for solar power generation A. Ayachit, M. Kumar and V.B.R. Mullapudy	1211
194	Experimental research of turbulent heat transfer in a STP absorber tube with non-uniform heat flux C. Chung, Z. Wang, X. Li, F. Bai and W. Kong.....	1212
73	Optical tests for sunlight concentrators D. Fontani, P. Sansoni, F. Francini, L. Mercatelli and D. Jafrancesco	1213
89	Energy consumption of a photovoltaic-powered reverse osmosis system O.C. Vilela, G.A. Lima and N. Fraidenaich.....	1222
236	Concentrating solar power baseload renewable power: The convenient truth! S. Fredman.....	1232
389	Modelling, design and testing, of a solar thermionic convertor S. Furkert.....	1235
367	Development of advanced technologies for enhancing efficiency in sterling engines for solar power plants G. Abhishek, Om Prakash Chaubey and M.V. Bhaskara Rao.....	1236

46	Efficiency and gas-water balance condition of solar energy $H_2O=H_2+\frac{1}{2}O_2$ power cycle K. Jian	1244
340	A hybrid thermoelectric solar system for domestic hot water and electricity production C. Lertsatitthanakorn and S. Maneewan	1250
207	Thermal performance analysis of silicon carbide ceramic foam used for solar air receiver F. Bai, X. Li, C. Chang and Z. Wang	1256
301	The development of high efficiency advanced multi-junction solar cells S. Michael.....	1266
281	Photovoltaic's market in the central and Eastern Europe S.M. Pietruszko	1273
72	Comparison of amorphous and crystalline silicon photovoltaic technologies in a water pumping system C. Radue and E.E. van Dyk	1274
177	Estimation of daily clear-sky biologically effective erythemal radiation from broadband (310-2800 nm) global solar radiation A. Sabziparvar and M.M. Farahani	1282
74	Analyses of solar divergence collimators P. Sansoni, D. Fontani, F. Francini, L. Mercatelli and D. Jafrancesco	1283
117	PV-H2-boat SOLGENIA: Swimming laboratory combines PV and hydrogen with a sophisticated energy management system C. Schaffrin and R. Leiner	1291
134	Biogas, as a renewable energy source, produced during the anaerobic digestion of organic waste H. Greben, L. M. Burke and S. Szewczuk.....	1292
258	Treatment of residual waters from industrial processes of washing jeans using solar energy D. C. C. Nascimento, C. Tiba and M. F. Andrade.....	1301
22	Replacing kerosine based lighting with white LED in rural area in Bangladesh S. Tofael Ahmed	1308
360	A new method for heliostat surface adjustment X. Wang and Z. Wang	1309
290	Modelling the potential capacity of PV systems to reduce peak electricity loads D.P. Weinholz, D.N. Harries and T.L. Pryor.....	1310

SOLAR BUILDINGS : ORAL : Theme 4

303	Assessment of daylight qualities in sustainable buildings L.O. Beltrán and F. Farias	1315
270	Case study on residential buildings design process integrated wall-mounted solar air collector in cold area in China B. Chen, J. Zhu, M. Liu and W. Yao	1325
182	A simplified method for evaluating the daylighting performance of Venetian blinds C. Tian and T.Y. Chen.....	1331
342	Summer cooling a new energy need in high latitude countries D.A. Chwieduk.....	1341
181	Climate zone definition for energy efficient solar buildings in South Africa F. Engelbrecht, D. Holm and I. Meiklejohn	1348
30	Comparison of sustainable energy technologies and their application to low energy building A. Girard	1349
27	Re-shaping our built environment for a RE future M. Halperin	1357
343	The basics of crystalline silicone based photo-voltaic module production R. Lange and C. Gisep.....	1358
279	Effect of difference glass types of pyramidal skylight on indoor conditions C. Lertsatitthanakorn and M. Ongwandee	1359

SOLAR ENERGY & SOCIETY : POSTER : Theme 5

322 Programmatic CDM as a financing opportunity for a mass SWH rollout in South Africa
D. Abel and T. Covary.....1847

359 How ISES will build their refinery in Nigeria
O.A. Afolabi1848

273 Energy as a key element of an integrated climate protection concept for the city region of
Gauteng - EnerKey
L. Eltrop and P. Goyns.....1857

55 Economic model of biomass prices
K. Havlickova, J. Knappek and J. Weger1859

183 Educating future solar technology leaders
A.A. Kaban1869

421 Brazilian solar water heating systems evaluation
E.M.D. Pereira, A.S. de Andrade, E.M. Duarte, L.P. Carvalho, C.V.T. Cabral,
L.E.M. de Vasconcellos, E. Salvador, G.C. dos Santos, J.T.V. Pereira, J.T. Fantinelli,
J.T. Pallottino and N.C. Guimarães1873

425 Cruz del Sur: a pilot solar village in Chile
R. Román L, J. Martínez and T. Oltersdorf.....1880

248 Solar energy use for sustainable development
P. Shipkovs, G. Kashkarova, K. Lebedeva, M. Vanags, A. Snegirjovs and L. Vasilevska.....1881

OTHER SUBMITTED PAPERS

RESOURCE ASSESSMENT : ORAL : Theme 1

166 Seasonal and spatial distribution of direct solar radiation over Nigeria
O. Onafeso1888

SOLAR HEATING & COOLING : ORAL : Theme 2

205 Sorption storage in agricultural solar drying applications
R. Heinzen, F. Roman, M. Jaradat, K. Vajen, O. Hensel and U. Jordan.....1889

SOLAR HEATING & COOLING : POSTER : Theme 2

13 Study on the heat stability of non-saturated solar pond
J. Cao1890

50 Effect of different dehydration methods (solar, oven and sun- drying) and preservatives on
the organoleptic properties of cow 's meat
A. Bouba and M. Talib1891

62 Analysis of an integrated solar collector-humidifier for seawater desalination
H. Abualhamayel and P. Gandhidasan.....1892

175 Experimental research of power output of two-phase solar heat pipe (TPHP)
Q. Jiao and X. Zhu1893

373 Numerical heat transfer analysis of parabolic trough collectors
R. Vasquez Padilla, Y. Goswami and E. Stefanakos.....1894

416 Radiation analysis of a single-slope basin solar still: effect of cover slope
M. Feilizadeh, M.R. Karimi Estahbanati, K. Jafarpour, A. Sedigh Ardakani and H. Taghvaei.....1895

SOLAR ELECTRICITY : ORAL : Theme 3

198	Current status of mini-grid PV / wind power plants in China C. Guangming	1896
387	Solar generated electricity - is it possible to achieve grid parity with fossil fuel generated electricity? L. Harriot	1897

SOLAR ELECTRICITY : POSTER : Theme 3

59	Hybrid system photovoltaic and fuel cell for supplying amazonian isolated communities B. Silva, L. Albuquerque, M. Severino and A. G. de Oliveira	1898
88	Design parameters of a solar power station of 1.0 MWe with linear focus collectors A. A. Oliveira, N. Fraidenaich and O. Castro Vilela	1899
238	Effect of crystalline silicon passivation by high concentration hydrogen treatments H.S. Chang, Y.J. Kim, K.T. Hwang, J. Kim and K. Choi	1900
295	Annual evaluation of the grid-connected photovoltaic system. Case study: Lampião system E. Barbosa, J. Melo and C. Tiba	1901
349	Photovoltaic pumping system to produce grape culture in region of the São Francisco river E. Moura de Souza Barbosa, O. de Castro and J. de Castro Melo	1902
351	Optimization of electrode grids dimensions for ITO-free organic photovoltaic devices A. Cheknane.....	1903
407	Evaluation of mathematical models for photovoltaic generation simulation O. Toledo, D. Oliveira Filho, A. Ferreira and E. Visser	1904

SOLAR BUILDINGS : ORAL : Theme 4

252	The propose of a Brazilian grid-connected photovoltaic roofs program, in connection with a comprehensive set of public policy measures I. Salamoni, A. Montenegro and R. Rütger	1905
324	Environmental responsive features of various Chinese traditional houses in cold areas and indoor thermal environment with comparative analysis of index of heat loss of building of representative city in cold region of China with passive house in Germany has been made, model of passive house suited to China's national conditions are presented. M. Liu, Y. Fan, B. Chen and S. Jian	1906
341	Evaluation of solar desiccant cooling system in a small office building T. Kusunoki, M. Udagawa and H. Roh	1907

SOLAR BUILDINGS : POSTER : Theme 4

113	The initial three years of inhabiting Germany's first affordable all-year solar house T. Leukefeld	1908
136	Study on design methods of low energy house and passive house in China M. Liu, Y. Fan and B. Chen	1909
277	Analysis of active façade structures finalized to an optimal handling of solar radiation in a civil building located in a Mediterranean climate C. Marino, A. Nucara, M. Pietrafesa and A. Pudano	1910

SOLAR ENERGY & SOCIETY : ORAL : Theme 5

339	Solar collectors classification using dimensionless numbers J. Duomarco	1911
-----	--	------

SOLAR ENERGY & SOCIETY : POSTER : Theme 5

7	Energy Planning for India with Focus on Solar Based Electricity Generation S Jebaraj and S Iniyar	1912
71	Deploying Concentrating Solar Thermal Technology in China J. Li.....	1913
86	Performance evaluation of renewable energy technologies in Nigeria A. Ahmed, K. Gidado, K. Ip and A. Miller	1914
358	Open and collaborative innovation as an enabler for solar water heating – a DSM challenge P. Nortje, I. Engelbrecht and I van Gass	1915
