

2010 CANEUS Fly by Wireless Workshop

(FBW 2010)

**Orono, Maine, USA
24 – 27 August 2010**

**IEEE Catalog Number: CFP1020M-PRT
ISBN: 978-1-4244-9255-8**

TABLE OF CONTENTS

Wireless Cooperative Relaying Using Game Theory	1
<i>F. Afghah, A. Razi, A. Abedi</i>	
Application of Wireless Technology to CALVEIN Launch Vehicles	3
<i>J. Culbertson, E. Besnard, J. Garvey</i>	
Fly-By-Wireless: Benefits, Risks and Technical Challenges	5
<i>O.E. Gomez</i>	
Modeling and Simulation of Heterogeneous Electronic System Based on Smart Sensors with Frequency Acquisition for Aerospace Structural Health Monitoring	7
<i>C. Ferrer, P.L. Alvarez, R. Aragones, J. Oliver</i>	
Coded Wireless Temperature Sensors with Design Specified Sensitivity	9
<i>J.H. Hines, L.P. Solie</i>	
Impact Localization and Scaling for SHM of Inflatable Habitats	11
<i>K. Schrader, A. Abedi, V. Caccese</i>	
Aircraft Wireless Sensor Network for In-Flight Fault Diagnostics and Control	13
<i>H.H.T. Liu</i>	
Experimental Evaluation of Ultra Wideband Wireless Transmission within a Spacecraft for Replacing Wired Interface Buses	15
<i>A. Matsubara, T. Ichikawa, A. Tomiki, T. Toda, T. Kobayashi</i>	
A Network Architecture Based on Information, Control and Behavior Definitions	17
<i>H.E. Michel</i>	
Conceptual Design Study of a Structural Health Monitoring System	19
<i>J. Pinsomault, W.L. Liu</i>	
Hierarchical Network Development of Wireless Passive Sensors	21
<i>A. Razi, F. Afghah, A. Abedi</i>
