# TABLE OF CONTENTS

## Volume 1

### **1118: SOFTWARE AND HARDWARE FOR EDUCATORS I**

|                                                                                                                     |    |
|---------------------------------------------------------------------------------------------------------------------|----|
| <b>1166: TOWARD AN INTERACTIVE ENVIRONMENT FOR EMBEDDED SYSTEMS DESIGN</b> .....                                    | 1  |
| <i>Fadi Obeidat, Ruba Alkhasawneh, Jerry Tucker, Robert Klenke</i>                                                  |    |
| <b>1304: AN APPLICATION-BASED APPROACH TO INTRODUCING MICROCONTROLLERS TO FIRST-YEAR ENGINEERING STUDENTS</b> ..... | 11 |
| <i>Warren Rosen, Eric Carr</i>                                                                                      |    |
| <b>45: HDL BASED DESIGN PROBLEMS FOR COMPUTER ARCHITECTURE</b> .....                                                | 20 |
| <i>Chad Hager, Steven Barrett, Cameron Wright, Jerry Hamann</i>                                                     |    |

### **1125: EARLY ENGINEERING DESIGN EXPERIENCES**

|                                                                                                                                                    |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>561: HIGH SCHOOL ENTERPRISE: INTRODUCING ENGINEERING DESIGN IN A HIGH SCHOOL TEAM ENVIRONMENT</b> .....                                         | 40  |
| <i>Douglas Oppliger, Jean Kampe</i>                                                                                                                |     |
| <b>136: AN AUTOMATED BOTTLE FILLING AND CAPPING PROJECT FOR FRESHMAN ENGINEERING STUDENTS</b> .....                                                | 60  |
| <i>Kala Meah, Timothy Garrison, James Kearns, Laura Garrison, Wayne Blanding, Emine Celik, Stephen Kuchnicki, Jennifer Dawson, Barry McFarland</i> |     |
| <b>1416: UNDERGRADUATE ENGINEERING DESIGN COURSE ON PROSPECTIVE OF PHD STUDENT</b> .....                                                           | 82  |
| <i>Aezeden Mohamed, Myron (Ron) Britton</i>                                                                                                        |     |
| <b>1144: INTRODUCING ENGINEERING DESIGN USING IMPROMPTU DESIGN PROJECTS</b> .....                                                                  | 91  |
| <i>Garrett Clayton</i>                                                                                                                             |     |
| <b>437: EXPLORING THE VALUE OF DESIGN AND BUILD EXPERIENCES FOR UNDERGRADUATE ENGINEERING STUDENTS</b> .....                                       | 100 |
| <i>Robert Prins, Eric Pappas</i>                                                                                                                   |     |

### **1139: ADVANCES IN ENGINEERING ECONOMY PEDAGOGY**

|                                                                                                                       |     |
|-----------------------------------------------------------------------------------------------------------------------|-----|
| <b>1469: A LOOK INTO THE ENGINEERING ECONOMY EDUCATION LITERATURE</b> .....                                           | 116 |
| <i>Emily Evans, Heather Nachtmann, Kim Needy</i>                                                                      |     |
| <b>1477: INTEGRATION OF ENGINEERING ECONOMICS, STATISTICS, AND PROJECT MANAGEMENT: REINFORCING KEY CONCEPTS</b> ..... | 123 |
| <i>Paul Kauffmann, Stephanie Sullivan, Gene Dixon, B. J. Kim</i>                                                      |     |
| <b>3: INCORPORATING UNCERTAINTY INTO LEARNING CURVES: A CASE STUDY IN OIL DRILLING ESTIMATES</b> .....                | 131 |
| <i>Christopher Jablonowski</i>                                                                                        |     |

### **1140: NOVEL METHODS IN ENGINEERING ETHICS**

|                                                                                                           |     |
|-----------------------------------------------------------------------------------------------------------|-----|
| <b>12: ETHICS' ORPHAN: UNINTENDED CONSEQUENCES</b> .....                                                  | 142 |
| <i>Marilyn Dyrud</i>                                                                                      |     |
| <b>1825: THE CREATION AND VALIDATION OF MEASURES FOR ETHICS IN CROSS DISCIPLINARY STUDENT TEAMS</b> ..... | 156 |
| <i>Jill May, Daniel Gandara, Margaret Huyck</i>                                                           |     |
| <b>1428: INTEGRATING ETHICS CURRICULUM WITHIN A SERVICE-LEARNING DESIGN CONTEXT</b> .....                 | 165 |
| <i>Craig Titus, Carla Zoltowski, William Oakes</i>                                                        |     |
| <b>1395: HOW TO TEACH AN ENGINEERING ETHICS COURSE WITH CASE STUDIES</b> .....                            | 180 |
| <i>Carlos Bertha</i>                                                                                      |     |

### **1147: CURRICULUM IN TELECOMMUNICATIONS ENGR TECH**

|                                                                                                                                                                        |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>268: ON THE USE OF VIRTUALIZATION FOR ROUTER NETWORK SIMULATION</b> .....                                                                                           | 189 |
| <i>Tianyi Li, Walter E. Thain Jr., Thomas Fallon</i>                                                                                                                   |     |
| <b>613: PREPARING THE INFORMATION TECHNOLOGY PROFESSIONALS OF TOMORROW: WHAT INFORMATION TECHNOLOGY PROGRAMS CAN DO TO ENSURE THEIR GRADUATES ARE EMPLOYABLE</b> ..... | 200 |
| <i>Kim Nankivell, Joy Colwell, Jana Whittington</i>                                                                                                                    |     |

|                                                                                                          |            |
|----------------------------------------------------------------------------------------------------------|------------|
| <b>901: COMPUTER ARCHITECTURE EDUCATION AND RESEARCH INVOLVING RECONFIGURABLE HARDWARE PLATFORM.....</b> | <b>217</b> |
| <i>Muhammad Hasan</i>                                                                                    |            |
| <b>1421: WIRELESS SENSOR NETWORK FOR INTRA-VEIN FLUID LEVEL INDICATOR APPLICATION .....</b>              | <b>229</b> |
| <i>Veeramuthu Rajaravivarma</i>                                                                          |            |

#### **1148: CURRICULUM IN ELECTRICAL POWER ENGINEERING TECHNOLOGY**

|                                                                                                                                     |            |
|-------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>1983: INSTRUCTIONAL ALGORITHMS ENHANCE STUDENT UNDERSTANDING OF PLC LADDER LOGIC PROGRAMMING .....</b>                           | <b>240</b> |
| <i>James Rehg, Glenn Sartori</i>                                                                                                    |            |
| <b>10: DEVELOPMENT OF A FOUR-STORY ELEVATOR SYSTEM FOR TEACHING MOTION CONTROL CONCEPT WITH PROGRAMMABLE LOGIC CONTROLLER .....</b> | <b>253</b> |
| <i>Shiyoung Lee</i>                                                                                                                 |            |
| <b>208: A GUIDED INQUIRY APPROACH TO TEACHING FAN SELECTION .....</b>                                                               | <b>263</b> |
| <i>Robert Edwards, Gerald Recktenwald</i>                                                                                           |            |

#### **1149: CURRICULUM IN MECHANICAL ENGR TECH: PART I**

|                                                                                                                                |            |
|--------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>308: A PLATFORM INDEPENDENT METHODOLOGY FOR TEACHING STUDENTS TO LEVERAGE THE POWER OF PARAMETRIC DESIGN TOOLS .....</b>    | <b>286</b> |
| <i>Michael Johnson, Udaya Bhanu Prakash Sunku</i>                                                                              |            |
| <b>133: TESTING SEVERAL COMPOSITE MATERIALS IN A MATERIAL SCIENCE COURSE UNDER THE ENGINEERING TECHNOLOGY CURRICULUM .....</b> | <b>296</b> |
| <i>N. M. Hossain, Jason Durfee</i>                                                                                             |            |
| <b>730: DESIGN OF A PNEUMATIC VALVE FOR AUTOMATIC SEAT LIFTING OR DOOR OPENING MECHANISMS .....</b>                            | <b>318</b> |
| <i>Cheng Lin</i>                                                                                                               |            |
| <b>1022: FACULTY'S USE OF TABLET-PC TO ENHANCE LEARNING FOR TECHNOLOGY STUDENTS .....</b>                                      | <b>329</b> |
| <i>Rungun Nathan</i>                                                                                                           |            |

#### **1153: INTRODUCING PROGRAMMING IN THE FIRST YEAR**

|                                                                                                                                                                              |            |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>869: USING COMPUTER MODELING PROBLEMS FOR UNDERGRADUATE ENGINEERING EDUCATION .....</b>                                                                                   | <b>335</b> |
| <i>Steven Gordon</i>                                                                                                                                                         |            |
| <b>1431: INTEGRATION OF GRAPHICAL PROGRAMMING INTO A FIRST-YEAR ENGINEERING COURSE .....</b>                                                                                 | <b>346</b> |
| <i>Gregory Bucks, William Oakes</i>                                                                                                                                          |            |
| <b>1840: WORK IN PROGRESS: ADOPTION OF CCS0 COMPUTATIONAL METHODS AND CIRCUIT ANALYSIS TECHNIQUES INTO AN INTRODUCTORY PROGRAMMING COURSE FOR ELECTRICAL ENGINEERS .....</b> | <b>359</b> |
| <i>Virgilio Gonzalez, Eric Freudenthal</i>                                                                                                                                   |            |

#### **1154: LEADERSHIP AND STRATEGIC PLANNING**

|                                                                                                                             |            |
|-----------------------------------------------------------------------------------------------------------------------------|------------|
| <b>745: A QUALITATIVE EXAMINATION OF FACULTY BELIEFS RELATED TO ENTREPRENEURSHIP EDUCATION.....</b>                         | <b>368</b> |
| <i>Kirsten Hochstedt, Sarah Zappe, Elizabeth Kisenwether, Angela Shartrand</i>                                              |            |
| <b>2012: CROSS-DISCIPLINARY TRAINING OF RESEARCHERS IN ENTREPRENEURIAL DISCOVERY .....</b>                                  | <b>386</b> |
| <i>Robert Keynton, James Fiet, Pankaj Patel</i>                                                                             |            |
| <b>1455: A MULTI-FACETED STRATEGIC PLANNING PROCESS FOR INNOVATION .....</b>                                                | <b>392</b> |
| <i>Monica Cardella, Robert Davis, Shripad Revankar, Loring Nies, Carolyn Percifield, Leah Jamieson</i>                      |            |
| <b>2218: BRINGING INNOVATION AND THE ENTREPRENEURIAL MINDSET (BACK) INTO ENGINEERING: THE KEEN INNOVATORS PROGRAM .....</b> | <b>401</b> |
| <i>Cynthia Fry, William Jordan, Gregory Leman, Brian Garner, Brian Thomas</i>                                               |            |

#### **1155: METHODS, TECHNIQUES AND NEW PROGRAMS IN GRADUATE EDUCATION**

### Volume 6

## **1549: INNOVATIVE CURRICULUM AND PRACTICES IN ENGR. TECH.**

|                                                                                                                                        |      |
|----------------------------------------------------------------------------------------------------------------------------------------|------|
| <b>2209: DEVELOPMENT OF AN INTELLIGENT REMEDIAL TUTORIAL LEARNING SYSTEM FOR NON-TRADITIONAL AND ADVANCED PLACEMENT STUDENTS</b> ..... | 4405 |
| <i>Steven Walk, Roland Lawrence</i>                                                                                                    |      |
| <b>559: CONSTRUCTING THE NORM OF THE PROBLEM SOLVING ABILITIES OF SENIOR STUDENTS OF MING-CHI UNIVERSITY OF TECHNOLOGY</b> .....       | 4419 |
| <i>Hsi-Hsun Tsai</i>                                                                                                                   |      |

## **1553: RESEARCH ON THE FIRST YEAR I**

|                                                                                                                |      |
|----------------------------------------------------------------------------------------------------------------|------|
| <b>479: TEACHING DECISION-MAKING IN ENGINEERING: A REVIEW OF TEXTBOOKS AND TEACHING APPROACHES</b> .....       | 4426 |
| <i>Senay Purzer, Jing Chen</i>                                                                                 |      |
| <b>1788: ANALYSIS OF FRESHMAN-TO-SOPHOMORE RETENTION IN YEAR TWO OF A FIRST-YEAR ENGINEERING PROGRAM</b> ..... | 4435 |
| <i>Richard Cassady, Gigi Secuban</i>                                                                           |      |
| <b>1033: SUCCESSFUL STUDENTS: SMART OR TOUGH?</b> .....                                                        | 4446 |
| <i>Beverly Jaeger, Susan Freeman, Richard Whalen, Rebecca Payne</i>                                            |      |
| <b>1483: EVALUATION OF A SUMMER BRIDGE PROGRAM ON ENGINEERING STUDENTS' PERSISTENCE AND SUCCESS</b> .....      | 4467 |
| <i>Rhonda Kowalchuk, Tarnisha Green, Robert Ricks, John Nicklow</i>                                            |      |
| <b>1195: DESIGN OF THE LEARNING ENVIRONMENT FOR INCLUSIVITY: A REVIEW OF THE LITERATURE</b> .....              | 4483 |
| <i>Chirag Variawa, Susan McCahan</i>                                                                           |      |

## **1554: POST BS ENTREPRENEURSHIP EDUCATION NEEDS**

|                                                                                                                                        |      |
|----------------------------------------------------------------------------------------------------------------------------------------|------|
| <b>44: 25 YEARS OF TECHNOLOGY ENTREPRENEURSHIP</b> .....                                                                               | 4498 |
| <i>David Barbe, James Green, Dean Chang</i>                                                                                            |      |
| <b>1282: MEASURING THE IMPACT OF ENTREPRENEURSHIP ACROSS THE CURRICULUM</b> .....                                                      | 4517 |
| <i>Andrew Borchers, Sung Hee Park, William Riffe, Michael Harris, Massoud Tavakoli</i>                                                 |      |
| <b>666: TECHNOLOGY ENTREPRENEURSHIP PROGRAMS IN U.S. ENGINEERING SCHOOLS: AN ANALYSIS OF PROGRAMS AT THE UNDERGRADUATE LEVEL</b> ..... | 4527 |
| <i>Angela Shartrand, Phil Weilerstein, Mary Besterfield-Sacre, Katharine Golding</i>                                                   |      |
| <b>413: DESIGNING AND LAUNCHING THE ENTREPRENEURSHIP AND INNOVATION LIVING-LEARNING PROGRAM FOR FRESHMEN AND SOPHOMORES</b> .....      | 4537 |
| <i>James Green</i>                                                                                                                     |      |
| <b>426: EARLY EXPOSURE TO ENGINEERING INNOVATION AND ENTREPRENEURSHIP</b> .....                                                        | 4549 |
| <i>Jerome Schaufeld, Gretar Tryggvason, McRae Banks</i>                                                                                |      |

## **1558: EMERGING INFORMATION TECHNOLOGIES**

|                                                                                           |             |
|-------------------------------------------------------------------------------------------|-------------|
| <b>1234: WIRELESS NETWORKS IN THE HEALTH CARE INDUSTRY: A DISCONNECT .....</b>            | <b>4560</b> |
| <i>Nipul Patel</i>                                                                        |             |
| <b>1620: A WEB-BASED BAYESIAN VAN HIELE PROBLEM SOLVER FOR COMPUTER PROGRAMMING .....</b> | <b>4570</b> |
| <i>J. Wey Chen</i>                                                                        |             |
| <b>1447: AN EXPERIENCE WITH CLOUD COMPUTING IN THE CLASSROOM .....</b>                    | <b>4587</b> |
| <i>Susan Miertschin, Cheryl Willis</i>                                                    |             |
| <b>62: A NEW MODEL FOR AUTHOR DRIVEN DIGITAL PUBLISHING .....</b>                         | <b>4597</b> |
| <i>Hugh Jack</i>                                                                          |             |
| <b>277: ANDROID BASED MOBILE ORDER MANAGEMENT SYSTEM .....</b>                            | <b>4605</b> |
| <i>Aloundeth Oupraxay, Mudasser Wyne, Patrick Olson</i>                                   |             |

## **1559: INSTRUMENTATION AND MEASUREMENT INNOVATION**

|                                                                                                                           |             |
|---------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>786: SMART GRID, CLEANTECH, SENSOR NETWORKS COME OF AGE .....</b>                                                      | <b>4618</b> |
| <i>Gary Mullett</i>                                                                                                       |             |
| <b>847: ELEVATOR CONTROL SYSTEM PROJECT .....</b>                                                                         | <b>4627</b> |
| <i>David Loker</i>                                                                                                        |             |
| <b>1213: MEMS ACCELEROMETER INVESTIGATION IN AN UNDERGRADUATE ENGINEERING TECHNOLOGY INSTRUMENTATION LABORATORY .....</b> | <b>4638</b> |
| <i>Dale Litwhiler</i>                                                                                                     |             |

## **1560: EXPORTING OF HIGHER EDUCATION TO DEVELOPING COUNTRIES**

|                                                                                                  |             |
|--------------------------------------------------------------------------------------------------|-------------|
| <b>41: TRANSFORMING MIDDLE EAST ECONOMIES THROUGH EDUCATION, RESEARCH AND INNOVATION .....</b>   | <b>4648</b> |
| <i>Russel Jones</i>                                                                              |             |
| <b>306: ON ENGINEERING EDUCATION REFORM IN THE ARAB STATES: A PATH FORWARD .....</b>             | <b>4656</b> |
| <i>Waddah Akili</i>                                                                              |             |
| <b>2429: GLOBALISATION FROM A SMALL COUNTRY PERSPECTIVE .....</b>                                | <b>4669</b> |
| <i>Gabor Bojar</i>                                                                               |             |
| <b>500: IMPLEMENTING SENIOR DESIGN PROJECTS IN THE DEVELOPING WORLD .....</b>                    | <b>4694</b> |
| <i>William Jordan</i>                                                                            |             |
| <b>2354: CHALLENGES AND OPPORTUNITIES IN STRENGTHENING HIGHER EDUCATION IN AFGHANISTAN .....</b> | <b>4709</b> |
| <i>Asad Esmaeily, Anil Pahwa, J. Thompson, Donald Watts</i>                                      |             |

## **1561: LIBERAL EDUCATION FOR 21ST CENTURY ENGINEERING**

|                                                                                                         |             |
|---------------------------------------------------------------------------------------------------------|-------------|
| <b>1335: LIBERAL EDUCATION FOR THE ENGINEER OF 2020: ARE ADMINISTRATORS ON BOARD? .....</b>             | <b>4716</b> |
| <i>Betty Harper, Lisa Lattuca, Alexander Yin, Patrick Terenzini</i>                                     |             |
