3rd International RILEM PhD Student Workshop on Modelling the Durability of Reinforced Concrete 2009

RILEM Proceedings Pro 69

Guimaraes, Portugal 22 – 24 October 2009

Editors:

R. M. Ferreira C. Andrade J. Gulikers

ISBN: 978-1-61782-275-9

Printed from e-media with permission by:

Curran Associates, Inc. 57 Morehouse Lane Red Hook, NY 12571

Some format issues inherent in the e-media version may also appear in this print version.

Contents

Prefa R.M.	ace Ferreira, J. Gulikers, C. Andrade	KX
1	A new formulation based on thermodynamical assessments to model steel concrete interface behaviour including corrosion effects B. Richard, C. Cremona, F. Ragueneau, L.H. Adelaide	1
2	Accelerated test method for chloride resistance – comparison between different test methods M. Rod Jones, T. A. Harrison, Z.F. Abu Hassan	10
3	The influence of electrical conductive fibres on the electrical resistivity of concrete composites – An experimental and modeling approach A.O.S. Solgaard, A. Michel, H. Stang, M.R. Geiker	20
4	An innovative apporach to measure clhoride threshold levels in reinforced concrete N. Silva, T. Luping, S. Rauch	28
5	Critical chloride content in reinforced concrete U. Angst	35
6	Carbonation models comparative? I. Galan, C. Andrade	41
7	Chloride binding in OPC hydration products M. Marinescu, H.J.H. Brouwers	50
8	Improving the Rapid Chloride Migration test P. Spiesz, H.J.H. Brouwers	58
9	Influence of resistivity on the corrosion of reinforcement in concrete A. Michel, A.O.S. Solgaard, M.R. Geiker, H. Stang, J.F. Olesen	67
10	Modelling chloride ingress into cracked and crack-free Strain-Hardening Cement-based Composites (SHCC) F. Altmann, V. Mechtcherine	75

- 11Numerical modelling of multispecies transport in carbonated and partially
saturated concrete within a performance-based and probabilistic framework
X. Wang, V. Baroghel-Bouny, M. Thiery84
- Passivation, pitting corrosion and stress corrosion cracking of high Strength
 Stainless Steel for prestressing structures in contact with alkaline media
 F.J. Recio, M.C. Alonso
- Modelling the time dependency of the transport properties of concrete with 100 respect to chloride ingress
 M.T. Silva, R.M. Ferreira, J.Gulikers
