# Contents

## Part 1

|   |      |
|---|------|
| Analysis on Emergency Management Training Strategy of China's Education System<br><i>Yongmin Wu, Na Yang</i> .....  | (1)  |
| The Research of Citizen Participation in Public Crisis Management<br><i>Yujuan Gao, Yangyang Wang</i> .....   | (5)  |
| Study on Supply Chain Emergency Management Based on Flexible Strategy<br><i>Yan Li, Hongxia Li</i> .....  | (8)  |
| Psychological Emergency Intervention on the Emergency Accidents Happened in College and University<br><i>Suqin Bian, Limei Liu, Chunyan Lu</i> .....              | (12) |
| Strategic Risk & Emergency Management of Real Estate Firm<br><i>Fairtown Zhou Ayoungman</i> .....   | (15) |
| Studies on the Marketing theory to Crisis Management in Tourism Industry<br><i>Jing Zhu</i> .....   | (19) |
| Research on the Enterprise Emergency System of Anti-Dumping from the Perspective of Synergetic Theory<br><i>Fangcheng Sun, Xinglong Yang</i> .....                | (25) |
| Research on Undergraduates' Psychology Intervention System<br><i>Shuxian Wu, Lanlan Jiang</i> .....   | (30) |
| Study on the Method of The Development of School's Emergency Plans<br><i>Xiaohui Zhang</i> .....  | (35) |
| University Public Emergency Plan Formulation: Current Situation and Countermeasures<br><i>Na Yang, Yongmin Wu</i> .....   | (40) |
| Database Design for Multi-Start Earthquake Rescue Transportation Optimization System<br><i>Yanping Wang, Yanbin Wang, Jing Li, Yongjun Niu, Yongan Zhao</i> ..... | (44) |
| Research on Improved Evolution Strategies Based Multi-Gene Mutation<br><i>Wenzheng Li, Jianjun Ou</i> .....   | (48) |
| Discussion on the Construction of Railway Emergency Management System Based on the Theory of Execution<br><i>Long Jing, Mengjun Wang</i> .....                    | (52) |
| Research on Railway Emergency Management System<br><i>Yanchun Zhang, Qi Wang, Chaoxian Tang</i> .....   | (57) |
| The Analysis of Response mechanism to Public Health Emergencies in University<br><i>Ying Wang, Yaojun Yan</i> .....   | (62) |
| Analysis on Relationship between People's Vulnerability and Emergency Becoming into Disaster<br><i>Wen Du</i> .....   | (67) |
| Research on the Stressors in the Unconventional Emergencies Real-Time Decision-Making<br><i>Yun Feng, Hui Jiang, Jun Huang</i> .....                              | (72) |
| The System of Government CIO and Emergency Management<br><i>Yang Liu</i> .....  | (77) |
| On Emergency Management of Rural Mass Incidents of Public Security Organs<br><i>Huijun Chen</i> .....   | (82) |
| Feedforward control theory based on University Security and Protection System<br><i>Hong Li, Yaojun Yan</i> .....   | (86) |
| The Role of Opinion Leaders in Unconventional Emergency   |      |

|   |       |
|---|-------|
| <i>Liang Zhao, Ying Liu, Yuxiao Li</i> .....  | (90)  |
| Influence of Web Media on Online Public Opinion   |       |
| <i>Ying Liu, Yuxiao Li, Liang Zhao</i> .....  | (94)  |
| Study on Requirement Analysis of Response Training  |       |
| <i>Zhengfan Zhao, Jianping Hao, Xingxin Li, Yong Qin</i> .....                                  | (98)  |
| The Research on the Feed-Forward Control Mode of Social Management                              |       |
| <i>Jingyi Hou, Yaojun Yan</i> .....   | (102) |
| Research on Emergency Drillings' "Authenticity" Problem   |       |
| <i>Xiyan Liang, Shuxian Wu, Qianmei Xiang</i> .....   | (107) |
| Prevention and Early-Warning System against Emergencies for Urban Large-Scale Sports Events     |       |
| <i>Jianming Zeng</i> .....  | (111) |
| Research on the Evolution Pattern of Rail Transit Emergency                                     |       |
| <i>Wei Zhu</i> .....  | (115) |
| Research on the Emergency Measures of Ice Dispatching in the Ningxia and Inner Mongolia Reach   |       |
| <i>Yu Deng, Juan Wang</i> .....   | (120) |
| Study on the Type of Sudden Events in University and the Countermeasure to Emergency Management |       |
| <i>Lu Yang, Xiaobing Zhang, Min Liu</i> .....   | (123) |
| The Analysis of Typical Case in Conflicting Groups of Social Events                             |       |
| <i>Chunmei Cheng, Fengxin Zhang, Xinye Chen</i> .....   | (127) |
| Study of Possibility of Environmental Restoration and Reconstruction Mechanism in Emergencies   |       |
| <i>Hongwei Qian</i> .....   | (131) |
| Emergency Resource Demands Analysis Based on Rescue Process                                     |       |
| <i>Guoqing Wang, Ye Wang, Jun Huang</i> .....   | (135) |
| The Phase Division of Emergency Rescue and Volunteers' Scientific Involvement                   |       |
| <i>Ye Wang, Guoqing Wang</i> .....  | (139) |
| A Framework for Research on GCPR Principle in Internet Environment                              |       |
| <i>Dongsheng Liang, Benfu Lv</i> .....  | (143) |
| The Research Development of Scenario Analysis in Emergency Management                           |       |
| <i>Hui Jiang, Jie Sui, Jun Huang</i> .....  | (147) |
| Classification and Emergency Exercise Scenario Factors for Chemical Terror Attack               |       |
| <i>Jie Sui, Hui Jiang, Jun Huang</i> .....  | (152) |
| Decision Support System for Unconventional Emergency Resource Coordination based on SOA         |       |
| <i>Xuping Wang, Chao Ma, Xiaolong Li</i> .....  | (155) |
| Emergency Management Process on the Way of Just in Time Distribution                            |       |
| <i>Xiuming Mo, Fei Ruan, Shanjie Wu, Yuantao Song</i> .....                                     | (159) |
| Information, the Gap of Education and the Emergency Management on the Education                 |       |
| <i>Gang Li, Yunfa Jia, Chunfang Deng, Yahui Wang</i> .....                                      | (163) |

## Part 2

|   |       |
|---|-------|
| The Evolution of Online Public Opinion in Abnormal Emergency: A Case Study of Deng Yujiao Incident                      |       |
| <i>Huihui Li, Jinghong Xu</i> .....   | (167) |
| Measuring and Calculating on the Best Match Points in Quantities of Purchase and Stock in Emergency Supplies Management |       |
| <i>Jinkui Chang</i> .....   | (172) |
| A Systematic Analysis of the Causes of Urban Water Pollution Public Safety Event  |       |
| <i>Jinzhong Ye, Lian She</i> .....  | (176) |

|   |       |
|---|-------|
| The Analysis of Netizen Attitude in Internet Public Opinion under Unconventional Emergencies                                |       |
| <i>Lisha Hou, Jinghong Xu</i> .....   | (180) |
| “Rabble”? — Irrational Characteristics of the Network Group in Unconventional Emergencies                                   |       |
| <i>Tongqing Wang, Jinghong Xu</i> .....   | (186) |
| The Study on Governmental Communication Behavior in Internet Public Opinion under Unconventional Emergency                  |       |
| <i>Chunxia Zhang, Yuxiao Li, Jinghong Xu</i> .....  | (192) |
| Research on Comprehensive Evaluation of Subway Emergency Response Capacity Based on Fuzzy Centralization Statistical Theory |       |
| <i>Nannan Sun</i> .....   | (197) |
| Research of Logistics Solutions’ Choice in Emergency Conditions Based on AHP and Gray System Theory                         |       |
| <i>Xiangguo Ma, Tongjuan Liu, Xi Lin</i> .....  | (202) |
| The Fuzzy Project Construction Unit the Department of Safety Evaluation of Emergency Managemen                              |       |
| <i>Qian Wu, Meng Wan, Xin Hu</i> .....  | (207) |
| A Multi-Objective Approach for Emergency Facility Planning  |       |
| <i>Fang Lei</i> .....   | (212) |
| Calculation of Reliability for Emergency Response System Based on Minimum Path  |       |
| <i>Ruliang Liu, Qiuxian Dong, Weidong Liu</i> .....   | (215) |
| The Evaluation Method for the Emergency Preplan of Public Health Emergency  |       |
| <i>Chunrong Zuo, Jing Wang, Xiaomei Shi</i> .....   | (219) |
| A Multi-Periods Emergency Materials Scheduling Model Based on Rough Set   |       |
| <i>Lei Zhou, Nan Liu</i> .....  | (223) |
| Application of Credal Network on Evaluating Campus Emergency Management Capacity  |       |
| <i>Yanan Wang, Weige Ji</i> .....   | (227) |
| The Study on Class Drift in Unconventional Emergency  |       |
| <i>Chao Li, Bin Wu, Bai Wang, Zhonghui Zhang</i> .....  | (231) |
| Emergency Decision Support System of Hazardous Chemicals Leakage accident Based on CBR                                      |       |
| <i>Kaixuan Guo, Kaoding Shang</i> .....   | (235) |
| Reasonable Arrangement of Eye Hospital Beds   |       |
| <i>Yongquan Dong, Tangqin Song</i> .....  | (239) |
| Empirical Analysis of Public Relations Crisis Management  |       |
| <i>Fengxin Zhang, Xinye Chen, Chunmei Cheng</i> .....   | (243) |
| Preliminary Research on the Stability Conditions of Relief Inventory in China based on Safeguard Rate                       |       |
| <i>Jingxing Liao, Wenguo Yang, Tie Liu, Jun Huang</i> .....   | (247) |
| Theory and Application of Knowledge Management Maturity Model   |       |
| <i>Suxia Gai, Wei Zhan, Congwei Xu</i> .....  | (251) |
| Study of Dissipative Structure and Ecological Trend of Environmental Recovery and Reconstruction Process in Emergencies     |       |
| <i>Hongwei Qian</i> .....   | (255) |
| Study on Coordinated Resource Scheduling Problem in Unconventional Emergency Management                                     |       |
| <i>Min Zhang, Jun Huang, Jianming Zhu, Jing Wang</i> .....  | (258) |

### Part 3

|   |       |
|---|-------|
| Prevention against Escape from Traffic Accidents from the Perspective of Cost-Benefit                   |       |
| <i>Pengfei Gong, Ying Zhang</i> .....   | (262) |
| Requirement Change Control in Emergency Information Platform Development                                |       |
| <i>Zhicai Du</i> .....  | (267) |
| A Study of Sudden Leakage of Hazardous Chemicals and Emergency Decision-Making System of Hazard Control |       |

|  |       |
|--|-------|
| <i>Xin Li, Yiwei Hu</i> .....  | (271) |
| Research on the Patter of Emergency Decision-making based Scenario Analysis and CBR  |       |
| <i>Youliang Wang, Jianjun Gao</i> .....  | (274) |
| On the Identification and Risk Level Assessment of Mass Disturbances   |       |
| <i>Yunqi Tai</i> .....   | (279) |
| The Research of Net Opinion Formation Based on Social Combustion Theory  |       |
| <i>Qianqian Li</i> .....   | (282) |
| Optimization and Simplification for Location Selecting of Emergent Resource Pool   |       |
| <i>Jun Li</i> .....  | (286) |
| Research on Prediction of Major Animal Epidemics   |       |
| <i>Zhenyu Yan, Jianping Tao, Jiapeng Xu</i> .....  | (290) |
| Research on the Online Public Opinion’s Topic Evolution of the University’s the Unconventional Emergency --Taking “Google Event” as an Example |       |
| <i>Wenyuan Ji, Yuxiao Li, Jinghong Xu</i> .....  | (294) |
| The Study of the Internet Public Opinion Monitoring and Controlling Based on the Cybernetics Theory  |       |
| <i>Lei Zhang, Jinghong Xu</i> .....  | (301) |
| Short-Term Significant Yield Emergency Management Plans in Surface Mine  |       |
| <i>Shuzhao Chen, Qingxiang Cai, Cangyan Xiao</i> .....   | (307) |
| Simulating Study on Equipment Support Process Based on QSIM Algorithm  |       |
| <i>Xin Wei, Liu Zhang, Weifeng Tian, Li Lin</i> .....  | (311) |
| The View of Chinese Emergency Rescue and Training Facilities Construction from 2009 SCO Joint Rescue Exercises                                 |       |
| <i>Ning He, Handong Wei</i> .....  | (316) |
| Research on the Apocalypses of Emergency Advisoryn Organizations of American Government  |       |
| <i>Xiyan Liang, Shuxian Wu, Qianmei Xiang</i> .....  | (320) |
| Research on the Role and Method of Emergency Information Publicity   |       |
| <i>Jingjing Wen, Shuaiyin Niu</i> .....  | (325) |
| Research on Local Financial Risk Forecasting System  |       |
| <i>Chuanliang Li, Lian She, Xin He, Jiyang Li</i> .....  | (329) |
| Study on Safety Management Decision Support System for City Gas Pipelines  |       |
| <i>Xiaobing Zhang, Chunhua Gao, Junhua Li</i> .....  | (334) |
| The Field of Smart Card Meter MIS Manager System Emergency Analyse   |       |
| <i>Chunhui Dong</i> .....  | (338) |
| Risk Analysis on the Leakage of West-East Natural Gas Transmission Pipeline  |       |
| <i>Jianwen Zhang, Da Lei</i> .....   | (343) |
| Some Aspects on Back-Calculation of Source Intensity under Chemical Release  |       |
| <i>Jianwen Zhang, Zhao Boshun, Zhang Haifeng</i> .....   | (347) |
| Study on Emergency Preparation Capability System in Urban Communities Based on Emergencies   |       |
| <i>Xiaotao Wu</i> .....  | (353) |
| An overview on Emergency Management of City Power System   |       |
| <i>Wengang Lu</i> .....  | (357) |
| The Mutual Aid Model of American Local Emergency Resources   |       |
| <i>Guiying Yang</i> .....  | (362) |
| Research on Scenario Planning of Major Incidents of United States and Revelation to Planning in China  |       |
| <i>Shuaiyin Niu, Jingjing Wen</i> .....  | (366) |
| China Emergency Relief Volunteers to Participate in the Performance Analysis   |       |
| <i>Yijun Xue</i> .....   | (371) |

The SIR Epidemic Model-Based Analysis on the Group Behavior under the Situation of Unconventional Emergency  
*Lian She, Zhaolei Shen, Shuizhen Guo*..... (375)

A Space-Time Permutation Scan Statistic for Decision Support System of BioChemical Terror Events  
*Xiaoxiang Li, Cheng Jiang, Hua Yu, Jie Sui*..... (380)
