

2011 IEEE AUTOTESTCON

**Baltimore, Maryland, USA
12-15 September 2011**

**IEEE Catalog Number: CFP11AUT-PRT
ISBN: 978-1-4244-9362-3**

Table of Contents

General Chairman's Message	xiii
Technical Committee Chairman's Message	xiv
AUTOTESTCON 2011 Committee	xvi
AUTOTESTCON Board of Directors	xvii
AUTOTESTCON 2011 Sponsors	xvii
AUTOTESTCON 2011 Gold Partners	xviii
IEEE AUTOTESTCON Frank McGinnis Professional Achievement Award	xix
NDIA Automatic Testing Committee John Slattery Professional Achievement Award	xxi
IEEE Aerospace & Electronics Systems Society Pioneer Award	xxiii
Best Paper Awards	xxiv
Student Paper Awards	xxv
AUTOTESTCON Sites	xxvi
2012 Call for Papers	xxvii
AUTOTESTCON 2011 Technical Program Schedule	xxviii

Tuesday, September 13

3:30 PM - 5:00 PM

Modernization

Session 1A4

Chair: Anthony Geneva (US Navy, USA)

ATE and TPS Management.....	1
<i>Julie Altham (Warner Robins Air Logistics Center, US Air Force, USA)</i>	
<i>John Stabler (Warner Robins Air Logistics Center, US Air Force, USA)</i>	
<i>Betty Spofford (Warner Robins Air Logistics Center, US Air Force, USA)</i>	
<i>Phong Do (Warner Robins Air Logistics Center, US Air Force, USA)</i>	
Modernizing a DoD ATS Family - Part II.....	8
<i>Marty Reagan (NAVAIR PMA260 & Eagle Systems Inc., USA)</i>	
Future Logistics Approaches	12
<i>Betty Spofford (Warner Robins Air Logistics Center, US Air Force, USA)</i>	
<i>Julie Altham (Warner Robins Air Logistics Center, US Air Force, USA)</i>	
<i>John Stabler (Warner Robins Air Logistics Center, US Air Force, USA)</i>	

Instrumentation

Session 1C4

Chair: Anthony Estrada (BAE Systems, USA)

The Vector Network Analyzer - An Essential Tool in Modern ATE Measurements.....	16
<i>Anthony Estrada (BAE Systems, USA)</i>	

Rapid Development and Porting of New Waveforms for Synthetic Instrumentation.....	22
<i>Charna Parkey (Astronics, AES Corporation & University of Central Florida, USA)</i>	

Scalable Benchtop Test System Applying IEEE P1693 MIPSS Standard	26
<i>Michael J. Stora (System Interconnect Technologies, USA)</i>	
<i>Richard Freeman (Lockheed Martin Simulation, Training & Support, USA)</i>	
<i>Byron James (IE Test Systems, USA)</i>	

Test Platforms

Session 1D4

Chair: Marie G. Juliano (US Navy, USA)

Relays Fail, Test Systems Don't Have To.....	35
<i>Jordan A. Dolman (National Instruments, USA)</i>	
<i>Luke Schreier (National Instruments, USA)</i>	

Common RF Test Platform.....	40
<i>Richard Hooper (AAI Corporation, USA)</i>	
<i>David Savage (AAI, USA)</i>	

The Development of a Business Case Template for Organizational-Level Testers.....	47
<i>Mel Hocker (USAF, USA)</i>	
<i>Virginia Slay (USAF, USA)</i>	

Wednesday, September 14

8:00 AM - 9:30 AM

TPS Transport

Session 2A1

Chair: Robert R. Fox (US Navy, USA)

When Should Intermittent Failure Detection Routines be part of the Legacy Re-Host TPS?.....	54
<i>Larry V. Kirkland (WesTest Engineering, USA)</i>	

A Transportability Microcosm As An Enabler For A Family Of Testers.....	60
<i>Randall Marion (The Boeing Company, USA)</i>	

A Statistical Approach to TPS Transport Optimization	66
<i>James L Orlet (The Boeing Company, USA)</i>	
<i>Gerald Murdock (The Boeing Company, USA)</i>	

Diagnostics

Session 2B1

Chair: Shane Strasser (Montana State University, USA)

Integrated Model-based and Data-driven Fault Detection and Diagnosis Approach for an Automotive Electric Power Steering System 70

Rajeev Ghimire (University of Connecticut, USA)

Chaitanya Sankavaram (University of Connecticut, USA)

Alireza Ghahari (University of Connecticut & Maharan Corporation, USA)

Krishna Pattipati (University of Connecticut, USA)

Youssef A. Ghoneim (General Motors Research and Development, USA)

Mark Howell (General Motors Company, USA)

Mutasim Salman (General Motors Research, USA)

A Non-Destructive High-Voltage Low-Energy Intermittent Fault Location System 78

Michael Ballas (Astronics, AES Corporation, USA)

Charna Parkey (Astronics, AES Corporation & University of Central Florida, USA)

Craig Hughes (Astronics, DME Corporation, USA)

Nicholas Locken (Astronics, AES Corporation, USA)

Bit/Bite/ED/EP/IVHM and ATE in Dept. of the Army 87

Willis Yarnall (CGI, USA)

Charles Moore (CGI, USA)

Philip Dussault (US Army, USA)

Satellite Testing I

Session 2C1

Chair: Steve Thibault (JHU/Applied Physics Laboratory)

Improving Electrical Ground Support Equipment Development for Satellite Testing 92

James Canoy (Grove Resource Solutions, USA)

Development of a Command and Telemetry Processing Interface to be Independent of Ground Control Systems 102

Lisa Segal (Johns Hopkins University Applied Physics Laboratory, USA)

Cost Impact of Automated Acceptance Testing of Electrical Ground Support Equipment for Spacecraft Testing 109

Hien D Nguyen (Johns Hopkins University / Applied Physics Laboratory, USA)

Iain A Miller (Javelin Technology Group, LLC, USA)

ATS Framework I

Session 2D1

Chair: Mike Malesich (NAVAIR, USA)

An Overview of the ATML Family and Related Standards 117

Chris C Gorrige (Cassidian Test Engineering Services Ltd., United Kingdom)

Michael Seavey (Northrop Grumman Corporation, USA)

Teresa P Lopes (Teradyne, USA)

Software Tools: A Key Component in the Successful Implementation of the ATML Standards 124

Ron G Taylor (Summit Test Solutions, USA)

Achieving Optimum Test by Applying Standardization 130

Dr. Russell A Shannon (NAVAIR, USA)

Mukund Modi (NAVAIR, USA)

Joseph J Stanco (Support Systems Assoc. Inc., USA)

10:00 AM - 11:30 AM

Commercial Architectures Session 2A2

Chair: Louis Y. Ungar (A.T.E. Solutions, Inc., USA)

Testable and Diagnosable Commercial off the Shelf (COTS) Electronics 135
Louis Y. Ungar (A.T.E. Solutions, Inc., USA)

Creating Real-Time High Performance Computing Systems based on COTS Technology 141
Chetan Kapoor (National Instruments, USA)

Building Hardware-In-The-Loop Communication Test Channels 145
Mark Lombardi (RT Logic, USA)

Prognostics Session 2B2

Chair: Patrick W Kalgren (Impact Technologies, LLC, USA)

Multiple Model Moving Horizon Estimation Approach to Prognostics in Coupled Systems..... 149
Bharath Pattipati (University of Connecticut & Systems & Optimization Lab, USA)
Chaitanya Sankavaram (University of Connecticut, USA)
Krishna Pattipati (University of Connecticut, USA)
Yilu Zhang (General Motors R&D Center, USA)
Mark Howell (General Motors Company, USA)
Mutasim Salman (General Motors Research, USA)

Diagnostic Alarm Sequence Maturation in Timed Failure Propagation Graphs 158
Shane Strasser (Montana State University, USA)
John W. Sheppard (Montana State University, USA)

On-line Adaptive Data-Driven Fault Prognostics of Complex Systems 166
Datong Liu (Harbin Institute of Technology, P.R. China)
Shaojun Wang (Harbin Institute of Technology, P.R. China)
Peng Yu (Harbin Institute of Technology, P.R. China)
Xiyuan Peng (Harbin Institute of Technology, P.R. China)

Satellite Testing II Session 2C2

Chair: Steve Thibault (JHU/Applied Physics Laboratory, USA)

Proposed System for Automating Electrical Verification and Validation of Spacecraft Liquid Propulsion Systems..... 174
Iain A Miller (Javelin Technology Group, LLC, USA)

An In-Depth Look at the Radio Frequency Ground Support Equipment for the Radiation Belt Storm Probes Mission..... 182
Judy Bitman (JHU / APL, USA)

ATS Framework II
Session 2D2
Chair: Mike Malesich (NAVAIR, USA)

Demonstrating the Capabilities of IEEE SIMICA Standards in Support of the DoD ATS Framework in a Net-centric Maintenance Environment	189
<i>Joseph J Stanco (Support Systems Assoc. Inc., USA)</i>	
<i>Mukund Modi (NAVAIR, USA)</i>	

Automation Hooks Architecture for Flexible Test Orchestration - Concept Development and Validation	197
<i>Chatwin Lansdowne (NASA, USA)</i>	
<i>John Maclean (METECS, USA)</i>	
<i>Christopher Winton (METECS, USA)</i>	
<i>Patrick McCartney (METECS, USA)</i>	

1:30 PM - 3:00 PM

System Design Issues
Session 2A3
Chair: Dennis E Hecht (Boeing, USA)

System Design of a C-17 Radome Test Station	203
<i>Peter Bryant (Mercer University Engineering Research Center, USA)</i>	
<i>Tracy Tillman (Mercer University Engineering Research Center, USA)</i>	

Mobile Power Issues with Test Equipment; ATS	212
<i>Elizabeth DePuy (Air Force & WR-ALC, USA)</i>	

MEMS: An Alternative Paradigm for ATE RF Designers	215
<i>Robert Buckley (M&T Company, USA)</i>	

Wiring, Cable, and Connector Diagnosis
Session 2B3
Chair: Richard Goebel (Northrop Grumman, USA)

Analyzing Artifacts in the Time Domain Waveform to Locate Wire Faults	221
<i>Charna Parkey (Astronics, AES Corporation & University of Central Florida, USA)</i>	
<i>Craig Hughes (Astronics, DME Corporation, USA)</i>	
<i>Nicholas Locken (Astronics, AES Corporation, USA)</i>	

Automated Fiber Optic Cable End Face Field Inspection Technology	226
<i>Abhijit Bhoite (Impact Technologies LLC, USA)</i>	
<i>Nikhil Beke (Impact Technologies LLC, USA)</i>	
<i>Timothy Duffy (Impact Technologies LLC, USA)</i>	
<i>Michael Moore (Impact Technologies LLC, USA)</i>	
<i>Myra Torres (Impact Technologies LLC, USA)</i>	

On-line Intermittent Connector Anomaly Detection	235
<i>Antonio E Ginart (Impact Technologies, LLC, USA)</i>	
<i>Irfan Ali (Impact Technologies, LLC, USA)</i>	
<i>Jonathan Goldin (Impact Technologies, LLC, USA)</i>	
<i>Irtaza Barlas (Impact Technologies, USA)</i>	
<i>Patrick W Kalgren (Impact Technologies, LLC, USA)</i>	
<i>Michael J Roemer (Impact Technologies, LLC, USA)</i>	
<i>Edward Balaban (NASA, USA)</i>	

**Signal Generation
Session 2C3**

Chair: Michael Bodkin (Lockheed Martin Global Training and Logistics, USA)

Signal Based Domain Specific Language (SBDL) - A Proposal for a Next Generation Test Language 240

Michael Bodkin (Lockheed Martin Global Training and Logistics, USA)

Joe Headrick (Lockheed Martin STS, USA)

Robert R Fox (US Navy, USA)

Timothy W Davis (NAVAIR, USA)

Kevin Dusch (NAVAIR, USA)

Dan Wolfe (NAVAIR, USA)

Where Did My Signal Go? A Discussion of Signal Loss between the ATE and UUT 245

Tushar Gohel (Teradyne, USA)

Polymorphic Analog Instrument Environment 254

David J Lind (Teradyne, Inc., USA)

3:30 PM - 5:00 PM

**Software Design Issues
Session 2A4**

Chair: Dean Matsuura (Teradyne, Inc., USA)

TPS Development using the Microsoft .NET Framework 259

Teresa P. Lopes (Teradyne, USA)

Yonet A Eracar (Teradyne, Inc., USA)

Why Did We Add LabVIEW Applications to Our ATLAS TPSs? 266

Larry V. Kirkland (WesTest Engineering, USA)

Comparing Software Design for Testability to Hardware DFT and BIST 272

Jack Alanen (California State University, Northridge & ATE Solutions, Inc, USA)

Louis Y. Ungar (A.T.E. Solutions, Inc., USA)

**Historical Data Analysis
Session 2B4**

Chair: Simon Jessop (Impact Technologies, LLC, USA)

Ontology-guided Knowledge Discovery of Event Sequences in Maintenance Data 279

Michael A. Schuh (Montana State University, USA)

John W. Sheppard (Montana State University, USA)

Shane Strasser (Montana State University, USA)

Rafal Angryk (Montana State University, USA)

Clemente Izurieta (Montana State University, USA)

Capacitive Transducer for Condition Based Maintenance after Harsh Landing Events 286

Oliver Tivadar Sagi (Budapest University of Technology and Economics, Hungary)

David Maynard (University of Arizona, USA)

Eniko Enikov (University of Arizona, USA)

Anecdotal Experiences on the Value of Limited Environmental Testing for the Analysis of "No Fault Found" Units 292

Raymond White (Hill AFB, USA)

Brian Richardson (Hill AFB, USA)

Standards Applications

Session 2C4

Chair: Chris C. Gorringer (Cassidian Test Engineering Services Ltd., UK)

Broadband PXI Local Oscillator Modules with Low Phase Noise and Fast Switching Speed..... 297

Alexander Chenakin (Phase Matrix, Inc., USA)

Suresh Ojha (Phase Matrix, Inc., USA)

Shyam Nediyanath (Phase Matrix, Inc., USA)

Vladimir Bykhovsky (Phase Matrix Inc., USA)

Steven McClellan (Phase Matrix, Inc., USA)

Hue Ngo (Phase Matrix, Inc., USA)

A Subsystem that Behaves as an LXI Instrument 303

Brandon Thorpe (Teradyne, Inc., USA)

Creating Test Systems using AXIe and PXI Modules..... 309

Steve Narciso (Agilent Technologies & AXIe Consortium, USA)

ATS Architectures

Session 2D4

Chair: Michael Seavey (Northrop Grumman Corporation)

Next Generation Test System Architectures for Depot and O-Level Test 316

Michael J Dewey (Geotest - Marvin Test Systems, USA)

James Ginn (DME / Astronics, USA)

The Impact of Test Instrumentation with Distributed Processing Capabilities on Test Program Set (TPS) Architecture and Development 321

Michael McGoldrick (Teradyne, Inc, USA)

Using General Purpose Digital Hardware to Perform Boundary Scan Tests 328

Terry Borroz (Teradyne, Inc., USA)

Thursday, September 15

8:00 AM - 9:30 AM

Information Management

Session 3A1

Chair: Joe Stanco (Support Systems Assoc. Inc., USA)

System Models Effect on Test Integration Cost 333

Hugh A. Pritchett (Analysis Integration & Design Inc. (AIDI), USA)

A Practical Use for ATML Capabilities..... 340

Chris C Gorringer (Cassidian Test Engineering Services Ltd., United Kingdom)

Teresa P Lopes (Teradyne, USA)

Dan Pleasant (Agilent Technologies, USA)

Supporting a Family of Test Program Languages using a Single Open Markup Language 347

Steve Wegener (The Boeing Company, USA)

Information Management

Session 3A1

Chair: Joe Stanco (Support Systems Assoc. Inc., USA)

System Models Effect on Test Integration Cost 333

Hugh A. Pritchett (Analysis Integration & Design Inc. (AIDI), USA)

A Practical Use for ATML Capabilities 340

Chris C Gorrige (Cassidian Test Engineering Services Ltd., United Kingdom)

Teresa P Lopes (Teradyne, USA)

Dan Pleasant (Agilent Technologies, USA)

Supporting a Family of Test Program Languages using a Single Open Markup Language 347

Steve Wegener (The Boeing Company, USA)

Analog Health Assessment

Session 3B1

Chair: Robert Wade Lowdermilk (BAE Systems, USA)

Dynamic Testing of an ADC for Real Application Input 354

Deepak Mishra (SGS Institute of Technology & Science, Indore, India)

Radheshyam Gamad (Shri G. S. Institute of Technology and Science, India)

Research on Features for Diagnostics of Filtered Analog Circuits Based on LS-SVM 360

Bing Long (University of Electronic Science and Technology of China, P.R. China)

Shulin Tian (University of Electronic Science and Technology of China, P.R. China)

Qiang Miao (University of Electronic Science and Technology of China, P.R. China)

Michael Pecht (University of Maryland, USA)

Modeling of Jitter and its Effects on Time Interleaved ADC Conversion 367

Charna Parkey (Astronics, AES Corporation & University of Central Florida, USA)

David Chester (Harris Corporation, USA)

Matthew T. Hunter (ZTEC Instruments & University of Central Florida, USA)

Wasfy Mikhael (University of Central Florida, USA)

Test Measurement

Session 3C1

Chair: Michael J Dewey (Geotest - Marvin Test Systems, USA)

Structural and Physical Measurements at the Speed of Light 373

Nathan Yang (National Instruments, USA)

Managing Sources of Error in Automated Test Systems 377

Paul Packebush (National Instrument Corporate Metrology & National Instruments, USA)

Carl Heide (National Instruments, USA)

An Integrated Automatic Test Generation and Executing System 383

Huxun Chen (Beijing HeroTec Test & Control Ltd., P.R. China)

Deqing Chen (Microsoft Corp., USA)

Jinlin Ye (HeroTec Test & Control Ltd., P.R. China)

Weizhou Cao (HeroTec Test & Control Ltd., P.R. China)

Lei Gao (HeroTec Test & Control Ltd., P.R. China)

DoD Initiatives I

Session 3D1

Chair: Timothy W Davis (NAVAIR, USA)

DoD/MOD Coalition Efforts for ATS 391

Mike Malesich (NAVAIR, USA)

Malcolm Brown (UK MoD, United Kingdom)

CASS Family TPS Support Toolset 396

Gilberto Garcia (Fleet Readiness Center Southeast (FRCSE), USA)

Robert Loe (NAVAIR, Jacksonville, FL, USA)

Brad Bravo (DOD, USA)

Jose Cifredo (DoD, USA)

A Methodology for Enhancing Legacy TPS/ATS Sustainability via Employing Synthetic Instrumentation Technology 403

David R Carey (US Army & Tobyhanna Army Depot, USA)

Robert Wade Lowdermilk (BAE Systems, USA)

Alexis Allegra (BAE Systems, USA)

Christopher Antall (Tobyhanna Army Depot, USA)

10:00 AM - 11:30

Economic Issues

Session 3A1

Chair: Steven Butcher (SWB Associates LLLC, USA)

The Economics of Diagnostics and Repair in Development, Production and Support 410

Duane Lowenstein (Agilent Technologies, USA)

Logistics Challenges with COTS Dominated Army ATE 415

Patrick Curry (PD TMDE & US Army, USA)

Joseph Cuccaro (US Army RDECOM, USA)

21st Century Strategies for Minimizing Cost of Test Ownership while Maximizing Availability and Technology Refresh for Test and Measurement Assets 419

Tanya Jamison (ElectroRent, USA)

Duane Lowenstein (Agilent Technologies, USA)

Switching Systems

Session 3C2

Chair: Jeff Murrill (Northrop Grumman, USA)

Optimal Switching Architecture for Automated Test Equipment 423

Richard Hooper (AAI Corporation, USA)

A System-Level Approach to Designing Modular Switching Software Interfaces 428

Tom Sarfi (VTI Instruments, USA)

The Test, Usage and Maintenance of Power Switching Systems 435

Kevin Paton (Teradyne Corp, USA)

DoD Initiatives II

Session 3D2

Chair: Timothy W Davis (NAVAIR, USA)

Remote Automatic Test Equipment Software Management - Information Assurance Vulnerability Alert Management	440
<i>Craig Koepping (NAVAIR, USA)</i>	
<i>Paul Rajcok (NAVAIR, USA)</i>	
<i>Christopher Yoon (NAVAIR, USA)</i>	
V-22 Aircraft Flight Data Mining	443
<i>Christopher Jaworowski (NAVAIR Lakehurst, USA)</i>	
<i>Robert J Meseroll (NAVAIR Lakehurst, USA)</i>	
<i>Michael Burger (NAVAIR, USA)</i>	
Solderless Fault Insertion Test Set to Enhance ATE Operator Training.....	448
<i>Christopher P Heagney (US Naval Air Systems Command, USA))</i>	
AUTHOR INDEX	454
