CONTENTS

Keynote Addresses

Environmental and Social Constraints to Mineral Mining Projects – Finding the Key to Unlock the Resource	<i>A M Avis</i>	1
A Fortunate Life – 45 Years in Heavy Minerals	<i>A R Sale</i>	17

Papers

Drilling Techniques for Resource Estimation of Mineral Sand Deposits	<i>M Z Abzalov, J Dumouchel, Y Bourque, F Hees and C I Ware</i>	27
The Grande Côte Mineral Sands Project	<i>M C Ackland</i>	41
Challenges and Lessons Learnt Operating the Tiwest ‘North Mine’ (Cooljarloo Mine, Western Australia)	<i>D Audeyev and N Lawler</i>	61
Process Implications of Ferrollysis in Hyper-Saline Water	<i>J Bean and R P Hattingh</i>	73
Improving Rehabilitation Outcomes using Biocrusts	<i>S Doudle, W Williams and V Galea</i>	85
Dry versus Wet Magnetic Separation – Horses for Courses	<i>J Elder and I Sherrell</i>	99
Wet High Intensity Magnetic Separators Circuit Modelling	<i>J D Grobler and M K G Vermaak</i>	107
Exploration and Resource Modelling of the Goondicum Industrial Minerals Project, Central Queensland, Australia	<i>H Hoogvliet and K Whitehouse</i>	121
Heavy Mineral Prospectivity in the Eucla Basin	<i>B Hou, J L Keeling and R M Hocking</i>	135
Mineral Sands Resource Security – Underpinning Market Share in a Global Growth Context	<i>R Kjar</i>	147
The Effect of Particle Size Distribution in Electrostatic and Magnetic Separation on Mineral Recovery and Yields	<i>J Ledgerwood, W van Zyl and P V A van der Westhuyzen</i>	157
Characterisation and Carbothermal Reduction of a Murray Basin Ilmenite Concentrate	<i>Y Li, M I Pownceby, G Zhang, C Kong, W Fan and O Ostrowski</i>	171
Attritioner Scrubber Performance Evaluation	<i>O S Maluleke and J D Grobler</i>	185
Titanium Feedstocks – Opaque Quality Requirements	<i>D McCoy, B Coetzee, M Keegel and E Bender</i>	197
Improvements on Estimation Tools and the Effect on Mineralisation Base Definition on the Zulti North Heavy Mineral Sand Deposit, Richards Bay, Kwa-Zulu Natal, South Africa	<i>J M Nel, J E Glanvill and C I Ware</i>	205

Application of Ground Magnetic Surveys over Heavy Mineral Sand Strands to Increase Confidence in the Interpreted Continuity of the Modelled Resources	<i>V O'Brien</i>	227
The Use of Finite Element Modelling to Better Understand Electrostatic Separation	<i>R A Pax</i>	239
Sulfidisation of Ilmenite Concentrates Contaminated with Chrome Spinel – A New Approach to Impurity Separation	<i>M I Pounceby, D E Freeman, M J Fisher-White and W J Bruckard</i>	251
Influence of Saline Water on Electrostatic/High Tension Separation	<i>P Ramsaywok, O S Maluleke, J D Grobler and J A Venter</i>	263
Chemical Enhancement to Magnetic Separation for Effective Separation of Silicates from Titanium Phases at Finer Particle Size Fraction	<i>S A Ravishankar, R Raitani, S Jiang, M Davis and D Holt</i>	271
TiRON – A New Process for the Production of High-Grade Feedstock for TiO ₂ Pigment Manufacture	<i>J M Shekiri, J J Barnes, P Hill, G Liu, S E Lyke and D Nguyen</i>	283
Land Use Geoscience – Protecting Western Australia's Titanium-Zircon Resources for Future Extraction	<i>C D Strickland and W R Ormsby</i>	295
A Study on the Impact of Utilising Sea Water for Wet Concentration of Beach Minerals Deposits on the Recovery and Quality of Ilmenite Produced by High Tension Separation	<i>C Swamydas, A D Rajaretnam and V Subramanian</i>	305
Kelsey Centrifugal Jig Implementation at Namakwa Sands for Zircon Recovery from Quartz Rejects	<i>P V A van der Westhuyzen, T A Jones and W Malonde</i>	311
Sand Mining Restoration on the Swan Coastal Plain using Topsoil – Learning from Monitoring of Previous Rehabilitation Attempts	<i>E J B van Etten, C D McCullough and M A Lund</i>	323
Setting Restoration Goals for Restoring Pit Lakes as Aquatic Ecosystems – A Case Study from Southwest Australia	<i>E J B van Etten, C D McCullough and M A Lund</i>	339
The Development of the Aircore Sampling System	<i>J M Wallis and G D Wallis</i>	351
Operational Challenges and Lessons Learnt at Xinli Nonferrous Co Ltd's Ilmenite Smelter	<i>H Weitz, J H Zietsman, J H Wen and A E de Jong</i>	363
A Phased Approach to Test Programs to Meet Feasibility Study Requirements	<i>E Williams and E Dardengo</i>	375
Geometallurgy in Mineral Sands Deposits – Linking Geological Artifacts to Metallurgy and Mine Planning	<i>G Williams, S K Gilman and Z Marlowe</i>	383
Author Index		393
