Sl.No.	PAPER TITLE	Page No.
1	A Biometric Approach Towards Recognizing Face In Various Dark Illuminations	1
2	A Temporal Table Authenticated Routing Protocol For Adhoc Networks	8
3	An Approach Towards Improved Cyber Security By Hardware Acceleration of Open SSL Cryptographic Functions	13
4	An Efficient Data Replication Method For Data Access Applications In Vehicular Ad-Hoc Networks	17
5	Automation of Supply Chain Management In Rourkela Steel Plant	23
6	Comprehensive Analysis of Delay In UDSM CMOS Circuits	29
7	Denoising of MST Radar Data Using Complex Wavelets	33
8	Design & Implementation of ARM Based Data Acquisition System	38
9	Developing Application Specific Integrated Circuits(ASIC) For Cloud Computing	43

10	EDA Based Automatic Detection of Epileptic Seizures Using Wireless System	47
11	Employee Monitoring & HR Management Using RFID	53
12	Evaluation of The Performance of FSO System Using OOK And M-PPM Modulation Schemes In Inter-Satellite Links With Turbo Codes	59
13	Eye Features Normalization And Face Emotion Detection For Human Face Recognition	64
14	Fault Tolerant Wireless Sensor Network For Remote Data Acquisition	69
15	Investigation And Management Solution For Privacy Identification And Electrical Energy Theft	73
16	Land Cover Classification Using Adaptive Resonance Theory- 2	78
17	Modeling And Performance Analysis of PID Power System Stabilizer Using Adaptation Law In Simulink Environment	83
18	Optimized Gain EDFA of Different Lengths With An Influence Of Pump Power	90
19	Performance Analysis of Labeling Technique For Coronary Arteries In Angiogram Images	96
20	Pseudo-Orthogonal Signature Sequences For Fiber Optic CDMA LAN	101
21	Security Enhancement For MIMO Based Wireless Network Using Codebook And Diversity Multiplexing	105
22	Security Layers And Reliable Communications Towards Green Computing	110
23	VLSI Implementation Of Sorting Network For ACSFD In WSN	116
