# TABLE OF CONTENTS

## Volume 1

|  |     |
|--|-----|
| <b>Advantages of Heritage Atlas Systems for Human Spaceflight</b> .....  | 1   |
| <i>L. Pollard, E. Tribbett</i>   |     |
| <b>Design Considerations for a Commercial Crew Transportation System</b> .....   | 6   |
| <i>K. Reiley, M. Burghardt, M. Wood, J. Ingham, M. Lembeck</i>   |     |
| <b>Achieving Full Ascent Abort Coverage with the Dream Chaser Space System</b> .....   | 12  |
| <i>Z. Krevor, R. Howard, T. Mosher, M. Sanchez, J. Curry</i>   |     |
| <b>Spacecraft Operator Duty of Care</b> .....  | 28  |
| <i>J. Rendleman, R. Ryals</i>  |     |
| <b>Exploring the Effects of International Traffic in Arms Regulations on Innovation in the US Space Industrial Base</b> .....      | 45  |
| <i>K. Landry, J. Wirthlin, A. Thal</i>   |     |
| <b>Headquarters Air Force Space Command Requirements Improvement Initiatives</b> .....   | 63  |
| <i>S. Strickland, M. Gilchrist, J. Smith, J. Haywood</i>   |     |
| <b>Space Architecting: Seeking the Darwinian Optimum Approach</b> .....  | 71  |
| <i>R. Ewart</i>  |     |
| <b>Leveraging Development of Space Systems with Knowledge Management Tools and Principles</b> .....                                | 80  |
| <i>R. Ewart, E. Hibsman, J. Betsler</i>  |     |
| <b>Integration Process for the Habitat Demonstration Unit Deep Space Habitat</b> .....   | 87  |
| <i>T. Gill, J. Merbitz, K. Kennedy, T. Tri, L. Toups, A. Howe, D. Smitherman</i>   |     |
| <b>ATHLETE Mobility Performance in Long-Range Traverse</b> .....   | 104 |
| <i>J. Townsend</i>   |     |
| <b>The Logistics Development of a cis-Lunar Transfer Vehicle</b> .....   | 113 |
| <i>A. Carlson</i>  |     |
| <b>Lunar/NEO Commercial Initiatives</b> .....  | 158 |
| <i>R. Kelso</i>  |     |
| <b>From Importing to Exporting: The Impact of ISRU on Space Logistics</b> .....  | 159 |
| <i>D. Bienhoff</i>   |     |
| <b>A Cis-Lunar Propellant Infrastructure for Flexible Path Exploration and Space Commerce</b> .....                                | 173 |
| <i>R. Oeftering</i>  |     |
| <b>ISRU - From Concept to Reality: NASA Accomplishments and Future Plans</b> .....   | 193 |
| <i>W. Larson, G. Sanders, M. Hyatt</i>   |     |
| <b>Real-World Mining Feasibility Studies Applied to Asteroids, the Moon and Mars</b> .....   | 208 |
| <i>M. Zacharias, L. Gertsch, A. Abbud-Madrid, B. Blair, K. Zacny</i>   |     |
| <b>Capture a 2m Diameter Asteroid, a Mission Proposal</b> .....  | 218 |
| <i>L. Fast</i>   |     |
| <b>Facility Layout Optimization of Planetary Industrial Sites</b> .....  | 228 |
| <i>J. Casler</i>   |     |
| <b>The Engineering Practices Necessary for Producing Equipment that Meets both Performance and Mission Life Requirements</b> ..... | 242 |
| <i>L. Losik</i>  |     |
| <b>Spacecraft Program Schedule Length Distributions</b> .....  | 264 |
| <i>E. Conrow</i>   |     |
| <b>Incorporation of RD-180 Failure Response Features in the Atlas V Booster Emergency Detection System</b> .....                   | 270 |
| <i>F. Chelkis, T. Chwiedor, P. Connolly, J. Hansen</i>   |     |
| <b>Taking the APL Mini-MOC Concept to the Next Level (Down)</b> .....  | 284 |
| <i>S. Bucior, P. Clark, T. Miralles, R. Nichols, K. Weber</i>  |     |
| <b>Legacy of the Space Shuttle From an Aerodynamic and Aerothermodynamic Perspective</b> .....                                     | 293 |
| <i>F. Martin</i>   |     |
| <b>Shuttle Program Loads Integration: Going from Concept to Operations and Staying Successful</b> .....                            | 310 |
| <i>K. Bernstein, G. James, A. Mackey, C. Modlin, N. Murphy, S. Brolliar</i>  |     |
| <b>Why Major Programs Need Innovation Support Labs: An Example from the Space Shuttle Launch Program at KSC</b> .....              | 327 |
| <i>R. Youngquist, S. Starr, C. Stevenson, J. Rivera, S. Sullivan</i>   |     |
| <b>U-turn and Glide-back of a Reusable Booster: A Non-dimensional Parametric Study</b> .....                                       | 357 |
| <i>E. Ustinov</i>  |     |

|  |     |
|--|-----|
| <b>Integrated Thermal Analysis Trades Studies of a Reusable Booster Experiment Test Vehicle</b> .....  | 367 |
| <i>H. Stumph, M. Frede, J. Zweber, S. Morris, D. Erdahl</i>  |     |
| <b>Reusable Booster Sizing Sensitivities and Flight Envelope Identification Using Response Surface Methods</b> .....   | 380 |
| <i>S. Edwards, R. Douglas, D. Mavris, B. Hellman</i>   |     |
| <b>Evolution of Abort Management of Crewed Launch Vehicles from Mercury ASIS to Commercial Crew EDS</b> .....  | 390 |
| <i>G. Herbella, R. Mingee, T. Heinsheimer</i>  |     |
| <b>Development of the Orion PA-1 Launch Abort System - From Conception to Demonstration</b> .....  | 400 |
| <i>R. Sullivan, K. Bocam, P. Escalera</i>  |     |
| <b>Effects of Parametric Geometry Changes on Abort Tower Static Aerodynamics</b> .....   | 411 |
| <i>K. Langone, L. Bermudez, P. Huseman</i>   |     |
| <b>Applications of Fractionated Spacecraft Architectures</b> .....   | 425 |
| <i>D. Kwon, M. Cheplak</i>   |     |
| <b>Caerus - Concept through Flight in Eleven Months: A Story of Rapid Response and Lessons Learned</b> .....   | 436 |
| <i>J. Barrett, M. Aherne, W. Bezouska, J. Sachs, L. Hoag</i>   |     |
| <b>The EarthSCAN CubeSAT Mission: Application of Technologies for Responsive Space</b> .....   | 449 |
| <i>A. Santangelo</i>   |     |
| <b>Electrolysis Propulsion for CubeSat-Scale Spacecraft</b> .....  | 458 |
| <i>R. Zeledon, M. Peck</i>   |     |
| <b>Commercial Payload Processing Experience</b> .....  | 465 |
| <i>V. Blum, C. Kuehnel, R. Dunklee, K. Kuehnel, H. Zachrau</i>   |     |
| <b>The International Lunar Research Park</b> .....   | 471 |
| <i>F. Schowengerdt, J. Hamilton, C. Anderson, D. Rasky, J. Crisafulli</i>  |     |
| <b>Standards and Specifications for Ground Processing of Space Vehicles: from an Aviation-based Shuttle Project to Global Application</b> .....                | 481 |
| <i>J. Ingalls, J. Cipolletti</i>   |     |
| <b>Concept for Human Exploration of NEO Asteroids Using MPCV, Deep Space Vehicle, Artificial Gravity Module, and Mini-Magnetosphere Radiation Shield</b> ..... | 501 |
| <i>M. Benton, R. Bamford, B. Bingham, T. Todd, L. Silva, P. Alves</i>  |     |
| <b>Human Missions to Near-Earth Objects: Examining Enabling Science Instruments and Mission Technologies</b> .....   | 546 |
| <i>D. Akin, M. Bowden, S. Saripalli, K. Hodges</i>   |     |
| <b>Comparison of Deimos and Phobos as Destinations for Human Exploration and Identification of Preferred Landing Sites</b> .....                               | 560 |
| <i>J. Hopkins, W. Pratt</i>  |     |
| <b>Canadian Microrovers for Planetary Exploration</b> .....  | 573 |
| <i>Wanping Zheng, Jean-Claude Piedboeuf, Luminita Ilinca Ignat</i>   |     |
| <b>A Plan for Lunar Outpost Construction by Using Robots</b> .....   | 580 |
| <i>S. Nishida, H. Kamimura, S. Wakabayashi, K. Matsumoto</i>   |     |
| <b>Microrovers for Assisting Humans on the Moon and Elsewhere: Microrover Catalog, Requirements, and General Design Conclusions</b> .....                      | 588 |
| <i>B. Betts, M. Peck, D. Stetson, J. Shoer, T. Svitek, J. Bell, T. Jones, F. Purnell</i>   |     |
| <b>Best Practices for Ensuring Successful Agreements Processing</b> .....  | 591 |
| <i>B. Copeland</i>   |     |
| <b>Creating Processes Associated with Providing Government Goods and Services under the Commercial Space Launch Act at Kennedy Space Center</b> .....          | 595 |
| <i>J. Letchworth</i>   |     |
| <b>AFRL/RVS Photonics &amp; Opto-Electronics Efforts</b> .....   | 601 |
| <i>K. Avery, D. Craig, C. Collier</i>  |     |
| <b>Dynamic Radiation Modeling for Space Mission Operability Determination</b> .....  | 607 |
| <i>R. Lowell, R. Ewart</i>   |     |
| <b>Modular Architecture for Signal-Processing, Tracking, Exploitation Research (MASTER)</b> .....  | 615 |
| <i>J. Jacquot, M. Ghafourian</i>   |     |
| <b>ISS Interface Mechanisms and their Heritage</b> .....   | 620 |
| <i>J. Cook, V. Aksamentov, T. Hoffman, W. Bruner</i>   |     |
| <b>A Modular, Reusable Latch and Decking System for Securing Payloads During Launch and Planetary Surface Transport</b> .....                                  | 678 |
| <i>W. Doggett, J. Dorsey, T. Jones, B. King, C. Mercer, M. Mikulas</i>   |     |
| <b>Adding a Second Ku-Band Antenna to the International Space Station</b> .....  | 685 |
| <i>C. Dusold, S. Kwatra, C. Thacker</i>  |     |

|  |     |
|--|-----|
| <b>Advanced Sensor Simulation In Virtual Testbeds: A Cost-Efficient Way to Develop and Verify Space Applications.....</b>          | 702 |
| <i>M. Emde, J. Rossmann, B. Sondermann, N. Hempe</i>   |     |
| <b>Developing a Heavy Lift Launch Vehicle Systems Architecture Using a Model Based Systems Engineering Approach .....</b>          | 713 |
| <i>M. Foster</i>   |     |
| <b>Development of an Efficient Uncertainty Quantification Framework Applied to an Integrated Spacecraft System .....</b>           | 729 |
| <i>T. Winter, B. Bettis, S. Hosder</i>   |     |
| <b>The Reusable Solid Rocket Booster (RSRB) – an Booster System .....</b>  | 742 |
| <i>D. Moore, J. Phelps, T. Wood, M. Vaccaro, H. Kanner, D. Freeland, D. Olson</i>  |     |
| <b>AIAA Technical Paper - External Tank Program – Legacy of Success .....</b>  | 775 |
| <i>J. Pilet, D. Diecidue-Conners, M. Worden, M. Guillot, K. Welzyn</i>   |     |
| <b>Space Shuttle Orbiter Structures &amp; Mechanisms .....</b>   | 801 |
| <i>A. Gilmore, L. Estes, J. Eilers, J. Logan, B. Evernden, W. Decker, J. Hagen, R. Davis, J. Broughton, C. Campbell, K. Carney</i> |     |
| <b>Space Shuttle Main Engine – The Relentless Pursuit of Improvement .....</b>   | 829 |
| <i>K. Van Hooser, D. Bradley</i>   |     |
| <b>Space Transportation Infrastructure Supported By Propellant Depots .....</b>  | 845 |
| <i>D. Smitherman, G. Woodcock</i>  |     |
| <b>Trade Study of Using and Refueling Large Upper Stages as In-Space Stages for Flexible Path Missions .....</b>                   | 869 |
| <i>D. Arney, A. Willite</i>  |     |
| <b>An Exploration Architecture Based on Oxygen Tank Depots .....</b>   | 879 |
| <i>J. Martin</i>   |     |

Volume 2

|   |      |
|---|------|
| <b>Aerodynamic Properties of Vertical Stabilizer Placement for a Reusable Booster System.....</b>   | 891  |
| <i>B. Hellman, A. Piplica, K. Feld</i>  |      |
| <b>Development of an Automated Parametric Geometry Environment for a Reusable Booster .....</b>   | 907  |
| <i>D. Garmendia, R. Douglas, D. Mavris, B. Hellman</i>  |      |
| <b>Development of an Environment for Determining Vehicle Mass Properties of a Reusable Booster Design .....</b>   | 919  |
| <i>J. Sharma, L. Vidal, R. Douglas, D. Mavris, B. Hellman</i>   |      |
| <b>Atlas V LRO/LCROSS Mission Overview: A Study in Lunar Mission Design Evolution .....</b>   | 929  |
| <i>J. Reed, D. Schreier, B. Lathrop, J. Dekruif, P. Alstott</i>   |      |
| <b>The MSFC Collaborative Engineering Process for Preliminary Design and Concept Definition Studies .....</b>   | 939  |
| <i>J. Mulqueen, D. Jones, R. Hopkins</i>  |      |
| <b>Eddy-Current Space Tug .....</b>   | 945  |
| <i>B. Reinhardt, M. Peck</i>  |      |
| <b>Electrodynamic Gravity Generator .....</b>   | 953  |
| <i>P. Jevtovic</i>  |      |
| <b>New Recipe for Space Aquisition: Can There be a Moore's Law for Space? .....</b>   | 966  |
| <i>R. Basl</i>  |      |
| <b>Could Air Force Space Command Benefit from Commercial Space Companies like SpaceX, XCOR, Virgin Galactic, and Bigelow Aerospace?.....</b>  | 972  |
| <i>J. Smith</i>   |      |
| <b>Parametric Simulation Study---Using Atmosphere Integration Technology with Personal Computers to Join the Best and Most Appropriate Information to Establish the Database of Space Weather .....</b> | 987  |
| <i>H. Fu, M. Hu, Y. Wang, H. Yang, C. Wu</i>  |      |
| <b>On-Demand Small Payload Return Solution from ISS: Low-Temperature Passive Thermal Control Design .....</b>   | 999  |
| <i>J. Leidich, E. Bannon, T. Leimkuehler, S. Chiesi, N. Mayer, K. Boronowsky, M. Murbach</i>  |      |
| <b>Space Vehicle Powerdown Philosophies Derived from the Space Shuttle Program.....</b>   | 1010 |
| <i>M. Willsey, B. Bailey</i>  |      |
| <b>Electronic Procedures for Medical Operations in Space.....</b>   | 1027 |
| <i>M. Hudson, A. Molin, D. Kortenkamp</i>   |      |
| <b>Kedalion: NASA's Adaptable and Agile Hardware/Software Integration and Test Lab .....</b>  | 1036 |
| <i>M. Mangieri, J. Vice</i>   |      |

|   |      |
|---|------|
| <b>Development of a Hybrid Noise Cancellation System for Crew Quarters</b> .....  | 1049 |
| <i>A. Shapoury, D. Bock, K. Kim</i>   |      |
| <b>Using Distributed Operations to Enable Science Research on the International Space Station</b> .....   | 1060 |
| <i>A. Bathew, S. Dudley, G. Lochmaier, R. Rodriguez, D. Simpson</i>   |      |
| <b>ISS Operations Cost Reductions through Automation of Real-Time Planning Tasks</b> .....  | 1068 |
| <i>T. Hall, W. Clancey, A. McDonald, J. Toschlog, T. Tucker, A. Khan, S. Madrid</i>   |      |
| <b>History of POIC Capabilities and Limitations to Conduct International Space Station Payload Operations</b> .....   | 1080 |
| <i>R. Grimaldi, T. Horvath, D. Morris, E. Willis, L. Stacy, M. Shell, M. Faust, J. Norwood</i>  |      |
| <b>Feasibility of Space Vehicle Debris Hazard Airspace Stratification</b> .....   | 1091 |
| <i>M. Reyhanoglu, S. Drakunov, J. Alvarado</i>  |      |
| <b>Spacecraft Clock Maintenance for MESSENGER Operations</b> .....  | 1100 |
| <i>J. Hudson, E. Colwell</i>  |      |
| <b>Slot Architecture for Separating Satellites in Sun-Synchronous Orbits</b> .....  | 1110 |
| <i>K. Bilimoria, R. Krieger</i>   |      |
| <b>Using the Resources of the Moon to Create a Permanent, Cislunar Space Fairing System</b> .....   | 1123 |
| <i>P. Spudis, A. Lavoie</i>   |      |
| <b>Experimental Methods in Attitude Control</b> .....   | 1147 |
| <i>K. Matthews, S. Motiwala</i>   |      |
| <b>Satellite Risk Analysis Literature Review</b> .....  | 1155 |
| <i>A. Stovall, J. Black, D. Jacques, B. Engberg</i>   |      |
| <b>Conceptual Design and Testing of a Landing Gear System for the TALARIS Lunar and Planetary Surface Exploration Hopper Prototype</b> .....                      | 1165 |
| <i>H. Shafa, P. Cunio, L. Brevault, E. Willis, J. Hoffman</i>   |      |
| <b>Designing the STS-134 Re-Rendezvous: A Preparation for Future Crewed Rendezvous Missions</b> .....   | 1169 |
| <i>T. Stuit</i>   |      |
| <b>The Final Count Down: A Review of Three Decades of Flight Controller Training Methods for Space Shuttle Mission Operations</b> .....                           | 1198 |
| <i>G. Dittmore, C. Bertels</i>  |      |
| <b>Evolution of Space Shuttle Range Safety Ascent Flight Envelope Design</b> .....  | 1209 |
| <i>J. Brewer, J. Davis, C. Glenn</i>  |      |
| <b>NASA Flight Planning Branch Space Shuttle Lessons Learned</b> .....  | 1223 |
| <i>J. Clevenger, D. Bristol, G. Whitney, M. Blanton, F. Reynolds</i>  |      |
| <b>NASA/MOD Operations Impacts from Shuttle Program</b> .....   | 1242 |
| <i>G. Mattes, M. Fitzpatrick, H. Griffith, M. Grabois</i>   |      |
| <b>Significant Incidents and Close Calls in Human Spaceflight: Context for Understanding Space Shuttle Lessons Learned</b> .....                                  | 1257 |
| <i>R. Bobola, D. Pate</i>   |      |
| <b>Docking Offset Between the Space Shuttle and the International Space Station and Resulting Impacts to the Transfer of Attitude Reference and Control</b> ..... | 1260 |
| <i>W. Helms, K. Pohlkamp</i>  |      |
| <b>The Evolution of Utilizing Manual Throttling to Avoid Excessively Low LH<sub>2</sub> NPSP at the SSME Inlet</b> .....  | 1271 |
| <i>R. Henfling</i>  |      |
| <b>Space Shuttle Day-of-Launch Trajectory Design Operations</b> .....   | 1283 |
| <i>B. Harrington, B. Picka, H. Cordova</i>  |      |
| <b>Summary of Results from Space Shuttle Main Engine Off-Nominal Testing</b> .....  | 1296 |
| <i>J. Horton, J. Megivern, L. McNutt</i>  |      |
| <b>Migrating Communications Services Towards Ka-band - From Trends to Focused Development</b> .....   | 1313 |
| <i>L. Loge, O. Gangaas</i>  |      |
| <b>Complexity Analysis of Spacecraft Architectures</b> .....  | 1325 |
| <i>S. Tamaskar, K. Neema, D. Delaurentis</i>  |      |
| <b>New Approach to Formation-Keeping Problem of Multiple Satellites with Attitude Requirements</b> .....  | 1334 |
| <i>H. Cho, F. Udwardia</i>  |      |
| <b>The Habitat Demonstration Unit Project: A Modular Instrumentation System for a Deep Space Habitat</b> .....  | 1363 |
| <i>K. Rojdev, K. Kennedy, H. Yim, R. Williams, S. Hafermalz, R. Wagner</i>  |      |
| <b>Increasing Number of Communication Sessions with Small Satellites</b> .....  | 1372 |
| <i>Mohamed Ibrahim, Salwa El Ramly, Mohamed Zahra, Mohamed Yousef</i>   |      |
| <b>Low-Cost Rapid TLE Updating Method For Nano-Satellites Using Doppler Signature</b> .....   | 1378 |
| <i>C. Hsu, D. Koh, O. Rahman, T. Barrett</i>  |      |
