

# **Proceedings of the International RILEM Conference on Material Science (MatSci) – Volume III**

## **Additions Improving Properties of Concrete (AdIPoC)**

**RILEM Proceedings Pro 77**

**Aachen, Germany  
6-8 September 2010**

**Editors:**

**Wolfgang Brameshuber**

**ISBN: 978-1-61839-463-7**

**Printed from e-media with permission by:**

Curran Associates, Inc.  
57 Morehouse Lane  
Red Hook, NY 12571

**Some format issues inherent in the e-media version may also appear in this print version.**

## Contents

|                      |   |     |
|----------------------|---|-----|
| <b>Preface</b> ..... |   | XV  |
| <br>                 |   |     |
| <b>1</b>             | <b>INVITED LECTURES</b>   |     |
|                      | <b>Controlling Properties of Concrete through Nanosized Particles and Fibers</b> .....                        | 3   |
|                      | <i>S. P. Shah, M. S. Konsta-Gdoutos</i>   |     |
|                      | <b>Fifty Years Experience in the UK Using GGBS as an Addition to Concrete</b> .....                           | 15  |
|                      | <i>D. Higgins</i>   |     |
| <br>                 |   |     |
| <b>2</b>             | <b>FLY ASH IN GENERAL</b>   |     |
|                      | <b>Coal Combustion Products in Europe - Production, Utilisation, Standardisation -</b> .....                  | 23  |
|                      | <i>N. Bech, H.-J. Feuerborn, J. van den Berg</i>  |     |
|                      | <b>The Use of Fly Ash in Completely Recyclable Concrete</b> .....   | 35  |
|                      | <i>M. De Schepper, P. Van den Heede, N. De Belie</i>  |     |
|                      | <b>Research for Durable Concrete with Fly Ash</b> .....   | 45  |
|                      | <i>T. Eck</i>   |     |
| <br>                 |   |     |
| <b>3</b>             | <b>FLY ASH REACTIVITY</b>   |     |
|                      | <b>Enhanced Fly Ash Reaction Induced by Organic Additives</b> .....   | 59  |
|                      | <i>M. Göbel, L. Urbonas, H. Hilbig, D. Heinz</i>  |     |
|                      | <b>Reactivity of Mineral Additions in Autoclaved UHPC</b> .....   | 69  |
|                      | <i>P. Fontana, C. Lehmann, U. Müller, B. Meng</i>   |     |
|                      | <b>Investigations on Ten Years Old Hardened Cement Paste Samples</b> .....                                    | 79  |
|                      | <i>A. Vollpracht, W. Brameshuber</i>  |     |
| <br>                 |   |     |
| <b>4</b>             | <b>FLY ASH, FRESH CONCRETE</b>  |     |
|                      | <b>Improving the Workability of Concrete - Additions of Fly Ash and Use of Small Maximum Grain Size</b> ..... | 95  |
|                      | <i>L. Lohaus, T. Gläser</i>   |     |
|                      | <b>Influence of Optimum Fly Ash Content on Compressive Strength and Porosity of Concrete</b> .....            | 105 |
|                      | <i>U. A. Dogan, M. H. Ozkul</i>   |     |

|  |     |
|--|-----|
| <b>Palm Oil Fuel Ash (POFA): An Environmentally-Friendly Supplemental Cementitious Material for Concrete Production.....</b> | 113 |
| <i>N.M Altwair and Shahid Kabir</i>  |     |

## 5 SAP I

|   |     |
|---|-----|
| <b>Enhancing Early-Age Resistance to Cracking in High-Strength Cement-Based Materials by Means of Internal Curing Using Super Absorbent Polymers.....</b> | 129 |
| <i>L. Dudziak, V. Mechtcherine</i>  |     |

|   |     |
|---|-----|
| <b>Preliminary Findings from Research to Extend Internal Curing Concepts to Mixtures with Higher Volumes of Fly Ash .....</b> | 141 |
| <i>I. De la Varga, J. Castro, and J. Weiss</i>  |     |

|   |     |
|---|-----|
| <b>The Effect of SAPs on Drying Shrinkage, Porosity and Setting of Concrete .....</b> | 155 |
| <i>H.-W. Reinhardt, A. Assmann</i>  |     |

## 6 SAP II

|  |     |
|--|-----|
| <b>Combined Effect of Internal Curing and Shrinkage-Reducing Admixture on Cracking Potential of High-Strength Concrete .....</b> | 165 |
| <i>S. Zhutovsky, K. Kovler</i>   |     |

|  |     |
|--|-----|
| <b>Neutron Tomography Measurements of Water Release from Superabsorbent Polymers in Cement Paste .....</b> | 175 |
| <i>P. Trtik, B. Muench, W.J. Weiss, G. Herth, A. Kaestner, E. Lehmann, P. Lura</i>                         |     |

## 7 GGBFS IN GENERAL

|   |     |
|---|-----|
| <b>The K-Value Concept Applied for GGBFS – Principles and Experiences .....</b> | 189 |
| <i>R. Härdtl</i>  |     |

|  |     |
|--|-----|
| <b>Investigation on the Effectiveness of Ground Granulated Blast Furnace Slag Additive in Concrete .....</b> | 199 |
| <i>A. Vollpracht, H. Nebel, W. Brameshuber</i>   |     |

|  |     |
|--|-----|
| <b>A Study on Surface Activation and Quick-Setting Characteristics of Blast Furnace Slag .....</b> | 211 |
| <i>Woongul Lee, Hun Choi, Hyunju Kang, YoungJin Song, Myongshin Song<sup>†</sup></i>               |     |

## 8 GGBFS AND DURABILITY

|  |     |
|--|-----|
| <b>Effectiveness of Ground Granulated Blast Furnace Slag in Preventing Deleterious ASR in Concretes Exposed to Alkali-Containing Deicer Solutions.....</b> | 221 |
| <i>C. Giebson, K. Seyfarth, J. Stark</i>   |     |

|   |     |
|---|-----|
| <b>Improving Sulfate Resistance of Mortars Produced with Sands Contaminated by Natural Sulfate.....</b> | 231 |
| <i>H. N. Atahan, D. Dikme</i>   |     |

|   |     |
|---|-----|
| <b>A Comparative Study of the Durability of Ordinary Portland Cement Concrete and Concrete Containing (High) Percentages of Blast-Furnace Slag.....</b> | 241 |
| <i>E. Gruyaert, P. Van den Heede, M. Maes, N. De Belie</i>  |     |

## 9 RESIDUAL ASHES

|  |     |
|--|-----|
| <b>Synergic Effect of Rice Husk Ash and Silica Fume on Compressive Strength of Ultra High Performance Concrete .....</b> | 255 |
| <i>Nguyen Van Tuan, Guang Ye, Klaas van Breugel, Pham Huu Hanh</i>   |     |

|  |     |
|--|-----|
| <b>Internal Curing of Ultra High Performance Concrete by Using Rice Husk Ash .....</b> | 265 |
| <i>Nguyen Van Tuan, Guang Ye, Klaas van Breugel</i>                                    |     |

|   |     |
|---|-----|
| <b>Durability and Strength Properties of Concrete Containing Coal Bottom Ash.....</b> | 275 |
| <i>I. M. Martins, A. Gonçalves, J. C. Marques</i>                                     |     |

## 10 SILICA FUME AND NANOSILICA

|   |     |
|---|-----|
| <b>Investigations of the Pozzolanic Reaction of Silica Fume in Ultra High Performance Concrete (UHPC) .....</b> | 287 |
| <i>C. Pfeifer, B. Möser, C. Weber, J. Stark</i>   |     |

|  |     |
|--|-----|
| <b>Influence of Nano Silica Dispersant on the Properties of Cementitious Materials .....</b> | 299 |
| <i>HyunJu Kang, SuJae Song, MyongShin Song<sup>†</sup>, JongHun Park, JuYoung Kim</i>        |     |

|  |     |
|--|-----|
| <b>Enhancement of Frost Durability by Application of Nanomaterials .....</b> | 307 |
| <i>A.Cwirzen, K. Habermehl-Cwirzen</i>                                       |     |

## 11 KAOLINITE AND NANOSILICA

|   |     |
|---|-----|
| <b>Studies on the Effect of Kaolinite Blended Cement Mortar and Concrete.....</b> | 317 |
| <i>G.Ramakrishna , S.Sivamoorthy Reddy, V.L.Narasimha</i>                         |     |

|  |     |
|--|-----|
| <b>Utilizing Vietnamese Kaolin for Manufacturing Meta-Kaolin as an Additive in HPC .....</b> | 329 |
| <i>H.Phungthithu, H.-M. Ludwig, H. Kletti</i>  |     |

|   |     |
|---|-----|
| <b>Influence of Nano SiO<sub>2</sub> on Mechanical Properties of Mortars Containing Fly Ash .....</b> | 345 |
| <i>D. Gundogdu, B.Y. Pekmezci, H.N. Atahan</i>  |     |

## 12 KAOLINITE & SCC

|  |            |
|--|------------|
| <b>Effects of Fine-Grained Inert Mineral Additives on Fresh and Hardening Concrete .....</b> | <b>357</b> |
|--|------------|

*H.-W. Krauss, H. Budelmann*

|   |            |
|---|------------|
| <b>Particle Distance Model to Describe the Rheological Behaviour of Self-Compacting Mortars Containing High Amounts of Additions.....</b> | <b>367</b> |
|---|------------|

*S. Uebachs, W. Brameshuber*

|  |            |
|--|------------|
| <b>SCC with High Green Strength – Thixotropic Investigations on Paste.....</b> | <b>377</b> |
|--|------------|

*R. Breitenbücher, A. Cokovik*

## 13 MINERAL ADDITIONS

|   |            |
|---|------------|
| <b>Early Age Properties of Green Concrete Containing High Mineral Additions .....</b> | <b>391</b> |
|---|------------|

*Muhammad Irfan Ahmad Khokhar, Stéphanie Staquet*

|   |            |
|---|------------|
| <b>Performance-Concept, K-Value Approach – Which Concept Offers Which Advantages? .....</b> | <b>403</b> |
|---|------------|

*A. Vollpracht, W. Brameshuber*

|  |            |
|--|------------|
| <b>Principles and Use of Acid-Resistant Concretes.....</b> | <b>413</b> |
|--|------------|

*M. Lichtmann, T. Neumann, S. Rasch, R. König*

## 14 ORGANIC ADDITIONS

|  |            |
|--|------------|
| <b>Influence of EPS 180 on Cement Based Material Properties.....</b> | <b>423</b> |
|--|------------|

*S. Roux, N. Bur, F. Feugeas, B. Tribollet, G. Ferrari*

|  |            |
|--|------------|
| <b>Experimental Research on the Crack Self-Healing Properties of Cement Mortar with EVA Heat-Melt Adhesive .....</b> | <b>433</b> |
|--|------------|

*X. Z. Yuan, W. Sun, H. Li, X. B. Zuo*

|                          |            |
|--------------------------|------------|
| <b>Author Index.....</b> | <b>443</b> |
