

A publication of ISCA*:
International Society for Computers
and Their Applications

INTERNATIONAL JOURNAL OF COMPUTERS AND THEIR APPLICATIONS

TABLE OF CONTENTS

	Page
On-Line Single Event Upset Detection and Correction in Field Programmable Gate Array Configuration Memories	59
<i>Bradley F. Dutton and Charles E. Stroud</i>	
Overhead Reduction for an Off-the-Shelf Real-Time Operating System	70
<i>Smita S. Potdar and Kenneth G. Ricks</i>	
Optimizing Reconfigurable Hardware Resource Usage in System-on-a-Chip with Location-Aware Genetic Algorithm	84
<i>Sin Ming Loo and JingXia Wang</i>	
Case Study of Finite Resource Optimization in FPGA using Genetic Algorithm	95
<i>JingXia Wang and Sin Ming Loo</i>	
Design of Optimal Fault-Tolerant VLSI Systolic Array	102
<i>Chang N. Zhang and Hua Li</i>	
A New Digital Signature Scheme Based on Integer Factoring and Discrete Logarithm Problem	108
<i>Mustafa Al-Fayoumi, Sattar J. Aboud and Mohammad Al-Fayoumi</i>	

* "International Journal of Computers and Their Applications is abstracted and indexed in INSPEC."
