

2nd International RILEM Conference on Progress of Recycling in the Built Environment 2009

RILEM Proceedings Pro 82

**Sao Paulo, Brazil
2-4 December 2009**

Editors:

**V. M John
S. C. Angulo**

**E. Vazquez
C. Ulsen**

ISBN: 978-1-62276-025-1

Printed from e-media with permission by:

Contents

OPENING

Preface

Prof. Enric Vazquez and Prof. Vanderley M. John

WASTE MANAGEMENT

Quantitative assessment of waste management in Brazilian construction sites

Lordsleem Jr., A. C. and Fucale, S 1

Estimation method of production and composition of construction and demolition debris

Martínez, I., Vázquez, C., González, B. and Martínez, F. 11

Gear project - an ambitious participative project

Pinto, V. A. E., Vazquez, i Ramonich, E. and Güell, F. A. 19

Gear project - diagnosis of the current recycling situation in Spain

Varela, E., Vazquez, E., Güell, A., Barra, M., Girbés, I., López, F., Martínez, M. I., Romero, A., Serna, P. and Tirado, A. 29

New foundations for the building industry: nine basic concepts to promote sustainability

Azambuja, J. A., Bonin, L. C., Zucchetti, L. and Masuero, A. B. 39

Management of waste generated by a group of concrete plants

Lorenzo, J., Gayarre, F. L., Santiago, R., Eguidazu, S., López-Colina, E. C., Suárez, F. J. and Martínez, A. L. 51

Characterization and use of construction and demolition wastes (CDW) of workmanships in engineering

Macedo, T. F. and Lafayette, K. P. V. 61

Gypsum plastering: waste evaluation

Pimentel, L. L. and Camarini, G. 71

Recycling in greater demolition projects and exploitation of the Irma city concept

Lauritzen, E. K. 83

RECYCLED PRODUCTS

Fine dredged marine sand on mortars

Limeira, J., Agulló, L. and Etxeberria, M. 91

Use of the recycled polystyrene as polymer admixture to produce polymer modified mortar

Motta, L. A. C., Alves Júnior, J. J., Motta, T. S., Meireles, C. S., Ribeiro, S., Assunção, R. M. N. and Rodrigues Filho, G. 103

Application of earth pressure balance tunnel boring machines sludge in construction projects

Barra, M., Vázquez, E., Aponte, D. F. and Ainchil, J. 109

Laboratory investigation on the use of stabilized bottom ashes for road pavements

Toraldo, E. and Saponaro, S. 119

Structural concretes made from recycled precast elements

Bassan, M., Quattrone, M. and Basilico, V. 129

Semi-experimental formulas to predict the reactions between mechanical properties of recycled concrete	
Hosseinian, M., Nili, M., Biglari joo, N. and Ahmadi, S.	141
Experimental section of concrete pavement using thin aggregates	
Limeira, J., Agulló, L., García, T. and Ainchil, J.	155
Design and execution of soil-cement layers with C&D materials	
Ainchil, J. P., Cadenas, J. M., Rios, C., Cortés, C., Sampedro, Á., Vázquez, E. and Navarro, J. M.	165
State-of-the-art on the use of fine recycled aggregates in concrete production	
Evangelista, L. and Brito, J. de	175
The feasibility of using natural self-ground rice husk ash in structural concrete	
G. C. Isaia, A. L. G. Gastaldini, L. Meira, M. Duart and R. Zerbino	185
Influence of the diameter of the bar and CDW content on the bond behavior of recycled reinforced concrete	
Reis, C. N. S., Leite, M. B. and Lima, P. R. L.	208
Production of concrete blocks with rubber and fines from crushed of basalt	
Campos, A. and Morales, G.	216
Study of the consistence and mechanical behavior of recycled mortars	
Leite, M. B., Lima, P. R. L. and Santos, A. C.	223
Use of waste from sawdust marble and granite in the production of concrete self-consolidating fiber	
Silva, E. B., Góis, F. A. P., Barboza, A. S. R. and Gomes, P. C. C.	231
Analysis of zero-slump concrete made recycled aggregate from concrete demolition waste	
Serna, P., Ulloa, V. A., Pelufo, M. J. and Jacquin, C.	243
Execution of concrete waffle slab recycled aggregate to be used in prefabricated elements in Spain	
Pelufo, M. J., Serna, P., Jacquin, C., Ulloa, V. A. and López, F.	253
The fine fraction of construction and demolition waste	
Martins, I. M. and Gonçalves, A.	263
Design of recycled concrete under ultimate limit state by normal stresses	
González-Fonteboia, B., Martínez-Abella, F., Carro-López D. and Martínez-Lage, I.	275
Use of paper industry waste in civil works	
Ainchil, J. P., Rios, C., Cortés, C., Vegas, I. and Errasti, M.	287
Influence of recycling fluid catalytic cracking on properties of fresh cement pastes	
Pinheiro, S. M. M., Marçal, J. R. and Camarini, G.	297
Concrete produced with recycled aggregates for the use in structures	
Gomes, P. C. C., Tenório, J. J. L. and Rodrigues, C. C.	309
Construction of a cable-stayed bridge with recycled concrete in Valencia (Spain)	
Sánchez, J. de M., Alaejos P., Domingo A., Lázaro C. and López, F.	321

QUALITY CONTROL – CHARACTERIZATION

Completely recyclable concrete of aggregate-recovery type by using microwave heating technology Noguchi, T., Kitagaki, R., Nagai, H. and Tsujino, M.	333
Quality parameters of recycled aggregates – conclusions under the aspects of the concrete technology and processing technology Mueller, A.	345
The influence of curing conditions on the mechanical performance of concrete made with recycled concrete waste Brito, J. de and Fonseca, N.	365
The influence of curing conditions on the durability performance of concrete made with recycled concrete waste Brito, J. de and Amorim, P.	377
Influence of proportioning criteria on recycled concrete properties López-Gayarre, F., Serna, P., Domingo-Cabo, A., Serrano-López, M. A., López-Colina, C. and García-Taengua, E.	389
Correlations between physical and chemical properties of mixed recycled aggregates Agrela F., Gerales V. L., Jiménez J. R. and Ayuso J.	401
Durability of recycled aggregate concrete. An approach to influence of dosage condition on the permeability. Methodology propose of rebars corrosion analysis Ulloa, V. A., Domingo, A., Pelufo, M. J. and Serna, P.	411
Assessing the eco efficiency of recycling waste in concrete Damineli, B. L. and John, V. M.	423
Investigation of CDW Heterogeneity in Brazil: a Proposal of Low-Cost Recycling Plant Angulo, S. C., Ulsen, C., Lima, F. M. R., Costa, L. N. S. and John, V. M.	431
Quantification of mineral admixtures content on cement by rietveld method Gobbo, L. A., Sant'Agostino, L. M. and Antoniassi, J. L.	441
Technological characterization of fine fraction from brazilian C&D waste Ulsen, C., Hawlitschek, G., Kahn, H., Angulo, S. C. and John, V. M.	449
An automated test method for density in the saturated surface dry state (SSD) of porous granular materials Hlawatsch, F., Aycil, H. and Kropp, J.	459
Construction products prepared from autoclave hardened fines from C&DW Hlawatsch, F., Schlütter, F., Berger, M. and Kropp, J.	469
Development of a separation process for gypsum-contaminated concrete aggregates Schnellert, T., Kehr, K. and Müller, A.	477
Dry processing and high quality applications for steel works slags Jungmann, A. and Schiffers, A.	483
