Table of Contents

10th Symposium on Groundwater Hydrology, Quality, and Management

| | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| An Adjoint Algorithm for Computing Three-Dimensional Capture Functions for Management of Heterogeneous Regional Aquifer Systems | 1 |
| Tom Clemo, Banda S. Ramarao, Van A. Kelly, and Marsh Lavenue | |
| Application of a Localization Scheme in Estimating Groundwater Level Using Deterministic Ensemble Kalman Filter | 7 |
| M. M. Bateni, S. Eslamian, S. F. Mousavi, and E. Zia Hosseinipour | |
| Areal Simulation of Seawater Intrusion in the Nile Delta Aquifer | 22 |
| M. M. Sherif, A. Sefelnasr, and A. Javadi | |
| Colorado's Northern High Plains and Camp Creek Designated Ground Water Basin Boundaries: Hydrology Really Does Matter | 29 |
| Kenneth L. Wahl | |
| Coupled Surface Water-Groundwater Model to Analyze the Sustainability of the Atascadero Subbasin | 39 |
| Mathew T. Klinchuch and Misgana K. Muleta | |
| Designing a Groundwater-Level Monitoring Network Using Geostatistics: A Case Study for South and Central Florida, USA | 48 |
| Shirish Bhat, Louis H. Motz, Chandra Pathak, and Laura Kuebler | |
| Effect of Artificial Recharge Using Abandoned Rice Paddies for Sustainable Groundwater Management in Kumamoto, Japan | 59 |
| J. Shimada, K. Ichiyonagi, M. Kagabu, S. Saita, and K. Mori | |
| Engineered Well Injection-Extraction Schemes to Enhance Reaction for Improved In Situ Remediation of Contaminated Groundwater | 70 |
| A. N. Piscopo, D. C. Mays, and R. M. Neupauer | |
| Evaluating Alternative Hydraulic Solutions to Limit Nutrient Contamination of an Aquifer in Southern California | 76 |
| Jake M. Perry and Misgana K. Muleta | |
| Hydrogeological Characterization of the Plateaus Region of the Quito Aquifer System Using Remote Sensing, Digital Geomorphology, and Geophysics | 85 |
| Miriam Rios-Sanchez, John S. Gierke, and Teresa Muñoz-Martínez | |
| Interactions between the Surface Water and Groundwater of the Red River in Hanoi, Vietnam | 98 |
| Thuy Thanh Nguyen, Akira Kawamura, Cat Minh Vu, Duong Du Bui, Hideo Amaguchi, and Naoko Nakagawa | |
| Permeable Reactive Barriers to Treat Iron Ore Acid Mine Drainage | 110 |

Seydou Cisse and Achintya Bezbaruah

Quantification of Stream Depletion Due to Aquifer Pumping Using Adjoint Methodology: A Case Study 116

S. A. Griebling and R. M. Neupauer

Solubilization Behavior and Bioassay of Various Surfactants Used for Crude Oil Contaminated Soil Remediation 125

Xian Zhang, Sungho Yoon, and Joon Om

Remediation of Gasoline Contaminated Soil Using Surfactant Enhanced Aquifer Remediation (SEAR) 136

Lei Zheng, Sungho Yoon, and Anne Dudek Ronan

Selenium Removal from Surface Waters: Exploratory Research with Iron Nanoparticles 146

Michael Quamme, Talal Almeelbi, and Achintya Bezbaruah

Solute Transport in Dual-Permeability Porous Media 151

Antonella Sciortino, Feike J. Leij, and Nobuo Toride

Sustainability of Ancient Karez Systems in Arid Lands: A Case Study in Turpan Region of China 161

Chunliang Cui, Shalamu Abudu, J. Phillip King, and Zhuping Sheng

Understanding Surface Water and Groundwater Interactions in the Mesilla Basin 171

Jesús Gastélum, Zhuping Sheng, and Ari Michelsen

Utilizing a Velocity Potential Approach to Linearize Richard's Equation 181

Brent Travis

Water Budget Considerations Regarding Groundwater Extraction Targets in the Calera Aquifer Watershed, Mexico 189

J. D. Garbrecht, F. Mojarro, F. G. Echavarría, C. F. Bautista-Capetillo, and J. L. Steiner

9th Urban Watershed Management Symposium

A Review of the Impact of ET on Green Infrastructure and Urban Runoff 197

Youcan Feng, Steven Burian, and Christine Pomeroy

Advanced LID Experimental Array: Shenzhen University, Guangdong Province, China 203

William Lucas, Nian She, and Jian Liu

An Enzyme-Based Treatment Technology for Contaminated Sediment Remediation 213

Nian She, Jian Liu, and William Lucas

Analysis of Instrumentation Selection and Placement to Monitor the Hydrologic Performance of Permeable Pavement Systems and Bioinfiltration Areas at the Edison Environmental Center in New Jersey 223

Robert A. Brown, Michael Borst, and Thomas P. O'Connor

| | |
|------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| Analysis of the Contribution of Linear Parks in Urban Flood Control | 235 |
| Poliana Santos, Guilherme F. Marques, and Verônica B. F. S. Souza | |
| Application of the Integrated Urban Water Model to Evaluate Most Appropriate Water Conservation Practices under Varying Hydrologic Conditions | 249 |
| Sybil Sharvelle, Brad Reichel, and Larry A. Roesner | |
| Calibration of Runoff Curve Numbers for a Small Urban Watershed | 256 |
| C. Bryan Young and Bruce M. McEnroe | |
| Calibration of Storm Drainage Design Inputs for a Small Urban Watershed | 264 |
| Bruce M. McEnroe and C. Bryan Young | |
| Evaluation of Floating Wetland Islands As a Retrofit to Existing Stormwater Detention Basins | 274 |
| R. J. Winston, W. F. Hunt, and S. G. Kennedy | |
| Can Roadside Vegetation and Soil Act As a Carbon Sink? | 285 |
| N. B. Bouchard, W. F. Hunt, T. L. C. Moore, and R. J. Winston | |
| Computationally Implicit Hydraulics for Real-Time Combined Sewer Overflow Modeling and Decision Support | 295 |
| Andrea Zimmer, Arthur Schmidt, Avi Ostfeld, and Barbara Minsker | |
| Crow Creek Urban Watershed Modeling Using an Event Mean Concentration Approach with HSPF | 305 |
| Seth J. Kenner and Cory S. Foreman | |
| Decentralization of LID (e.g. Municipal Rainwater Harvesting Program) for Reducing Stormwater Runoff | 314 |
| Thomas Walsh and Christine Pomeroy | |
| Design, Construction, and Evaluation of a Stormwater Control Measure Treatment Train | 321 |
| B. M. Wadzuk and R. G. Traver | |
| Effects of Initial Abstraction Ratio in SCS-CN Method on Modeling the Impacts of Urbanization on Peak Flows | 329 |
| Navideh Noori, Latif Kalin, Puneet Srivastava, and Charlene Lebleu | |
| Effects of Surface Microtopography on Hydrologic Connectivity | 339 |
| Jun Yang and Xuefeng Chu | |
| Enhancement of Exfiltration and Thermal Load Reduction from Permeable Pavement with Internal Water Storage | 349 |
| B. J. Wardynski, R. J. Winston, and W. F. Hunt | |
| Estimating Time of Concentration on Low-Slope Planes Using Diffusion Hydrodynamic Model | 360 |
| Manoj KC, Xing Fang, Young-Jae Yi, Ming-Han Li, Theodore G. Cleveland, and David B. Thompson | |
| Evaluating Channelized Flow Sediment Control Practices Using Large-Scale Testing Techniques | 372 |

| | |
|-------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| Wesley N. Donald, Wesley C. Zech, and Xing Fang | |
| Evaluation of Bridge Deck Runoff and Its Effects on In-Stream Health | 377 |
| R. J. Winston, W. F. Hunt, and M. S. Lauffer | |
| Exploring Effects of Urbanization on Stream Health: A Characterization of Water Quality and Channel Stability along Lost Creek | 387 |
| Jordan C. Baker, Reid W. Cepa, and Jennifer S. Mueller Price | |
| Hurricane Irene Effects on Urban Runoff Water Quality in Selected Northeastern U.S. Streams | 398 |
| C. J. Talbot and M. Naghash | |
| Impacts of Deicing Salts on Soil Structure and Infiltration Rate | 411 |
| Sai Kakuturu and Shirley E. Clark | |
| LID Demonstration Project for Seaside Village in Bridgeport, Connecticut | 415 |
| Steve Trinkaus | |
| Modeling BMPs in Delaware's Inland Bays Watershed | 424 |
| William F. Ritter and Aditya Sood | |
| Modeling White River, Texas: A Case Study Using STORM | 435 |
| Theodore G. Cleveland and William H. Asquith | |
| North Platte River Selenium Total Maximum Daily Load Development Using a Geographic Information System Regression Approach | 445 |
| Cory S. Foreman and Seth J. Kenner | |
| Optimal Control of Flood Waters with Sediment Transport in Watershed | 456 |
| Yan Ding and Soumendra N. Kuiry | |
| Identifying Pathogen Sources and Dealing with Squirrely Data Sets | 466 |
| Robert Pitt and Jane Clary | |
| Prioritization of Green Infrastructure for CSO Communities—Identifying Effective Implementation Opportunities | 478 |
| Scott D. Struck, Carol L. Hufnagel, and Richard Field | |
| Rainwater Harvesting in Residential Buildings for Meeting Non-Potable Water Demand in Developing Countries: A Case Study in Qazvin, Iran | 495 |
| M. H. Rashidi Mehrabadi, B. Saghafian, and M. S. Sadeghian | |
| Rapid Bio-Infiltration Rate, Shallow Media Depth, Low Influent Solids Concentration, and High Performance: Can They All Get Along? | 503 |
| Jia Ma, James H. Lenhart, and Karel Tracy | |
| Reducing Turbidity of Construction Site Runoff: Factors Affecting Particle Destabilization with Polyacrylamide | 509 |
| David R. Rounce, Desmond F. Lawler, and Michael E. Barrett | |
| Seeing Green by Going Green: Maximizing Ecosystem/Community Services Benefits through Strategic Green Storm-Water Infrastructure Design | 520 |

| | |
|-------------------------------------------------------------------------------------------------------------------|------------|
| K. S. Artita, R. Rajan, and J. Knighton | |
| Stormwater Monitoring of Innovative Street Retrofits in Urban Wilmington, NC | 531 |
| J. L. Page, R. J. Winston, and W. F. Hunt | |
| Targeting Treatment Technologies to Address Numeric Discharge Limits | 541 |
| Shirley E. Clark and Robert Pitt | |
| The Farmington River Enhancement Grants: A Tale of Three Towns and the Road to Low Impact Development | 545 |
| Steve Trinkaus | |
| The Incorporation of LID on Affordable Housing Projects | 554 |
| Steve Trinkaus | |
| Uncertainty Analysis and Calibration of SWMM Using a Formal Bayesian Methodology | 562 |
| Misgana K. Muleta | |
| Urban Soils and Vacant Land As Stormwater Resources | 569 |
| A. M. Barkasi, S. D. Dadio, and R. L. Losco, and W. D. Shuster | |
| Water Quality Assessment during River Channel Alteration for Flood Mitigation in Metro Manila, Philippines | 580 |
| R. Gilbuena, A. Kawamura, R. Medina, N. Nakagawa, and H. Amaguchi | |
| Water Quality Benefits of Harvesting Rooftop Runoff | 592 |
| K. M. DeBusk and W. F. Hunt | |
| Watershed Slope Lower Bounds for Hydrologic Methods | 603 |
| Theodore G. Cleveland, Xing Fang, Ming-Han Li, David B. Thompson, and William H. Asquith | |

Education and Research

| | |
|-----------------------------------------------------------------------------------------------------------|------------|
| Girls Go Green, Girls Go Global! | 619 |
| Andrew Curtis Elmore, Cecilia Elmore, Erica Collins, John Conroy, Cristiane Q. Surbeck, and Jeff Cawlfeld | |

Emerging and Innovative Technologies

| | |
|------------------------------------------------------------------------------------------------------------|------------|
| Applied Water Resources Systems Modeling: Visions for 2050 | 629 |
| Daniel P. Loucks | |
| CFD Modeling of Flows in a Practical Water Pump Intake of a Water Treatment Plant | 635 |
| Liaqat A. Khan | |
| CFD Modeling to Evaluate Design of an Intake of a Raw Water Pump Station at a Water Treatment Plant | 647 |
| Liaqat A. Khan and Ashraful Islam | |
| CFD Model to Evaluate Performance of a Kenics Static Mixer | 658 |

| | |
|----------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| Liaqat A. Khan | |
| CFD Modeling to Optimize Mixing and Water Age of a Finished Water Storage Reservoir at a Water Treatment Plant | 669 |
| Liaqat A. Khan and Ashraful Islam | |
| Cloud Computing for High Performance Optimization of Water Distribution Systems | 679 |
| Z. Y. Wu and M. Khaliefa | |
| Copper and Zinc Removal Using Biogenic Iron Oxides | 687 |
| Jeremy A. Rentz and Jeffrey L. Ullman | |
| Developing a Cluster-Based Water Harvesting Project in Ddegeya, Uganda | 699 |
| Scott Struck and Katelyn Wolfenberger | |
| Developing the New Surfactant for Remediation of Crude Oil | 715 |
| Sungho Yoon, Yaser Altayya, and Mohammad Karamouz | |
| Development and Application of Early Warning System for Drinking Water Security in Dongguan, China | 720 |
| Feng Zhang, Ronghe Wang, Haibo Yang, Xiaoxue Wang, and Jing Luo | |
| Downscaling Radar-Rainfall Data via Ubiquitous Sensing and Data Fusion | 729 |
| D. J. Hill and F. Farzan | |
| Evaluation of Point of Use Water Treatment Devices for Removal of Mine Wastes from Well Water | 738 |
| Craig Patterson, Craig Smith, Manuel Schmaedick, Rajib Sinha, Don Schupp, Colin Willits, Greg Blattner, Robert Weber, and Chris Impellitteri | |
| Evaluation of Water Distribution Reliability under Unpleasant Contamination Events | 748 |
| M. Karamouz, E. Akbarian, S. Nazif, and E. Shahghasemi | |
| Identification of Optimal Monitoring Locations to Detect Accidental Contaminations | 758 |
| M. L. Kansal, Tandin Dorji, Surendra Kumar Chandniha, and Aditya Tyagi | |
| International Perspective of Water Resources Planning and Management in 2050 | 777 |
| Mohammad Karamouz, Azadeh Ahmadi, and Mahdis Falahi | |
| Near Surface Hydrometeorology for Sustainable Water Management | 786 |
| V. Sridhar | |
| Optimal Multi-Year Management of a Regional Water Supply System under Uncertainty: The Affine Adjustable Robust Counterpart (AARC) Approach | 793 |
| Mashor Housh, Avi Ostfeld, and Uri Shamir | |
| Performance of Forward Osmosis Processes under Different Operating Conditions and Draw Solutes | 808 |
| Aijiao Zhou, Tian C. Zhang, and Ye Yuan | |
| Transboundary Water Sharing: Confronting the Challenge of Growing Water | 818 |

Scarcity
