

# **2nd International Conference on Ship Manoeuvring in Shallow and Confined Water: Ship to Ship Interactions 2011**

**Trondheim, Norway  
18-20 May 2011**

**Editors:**

**Bjornar Pettersen  
Katrien Eloot**

**Tor Einar Berg  
Marc Vantorre**

**ISBN: 978-1-62276-119-7**

**Printed from e-media with permission by:**

Curran Associates, Inc.  
57 Morehouse Lane  
Red Hook, NY 12571

**Some format issues inherent in the e-media version may also appear in this print version.**

## TABLE OF CONTENTS

All papers, except the keynote papers, are in alphabetic order according to the family name of first author.

<b><i>Modelling of manoeuvring with attention to ship-ship interaction and wind waves</i></b>	<b>1</b>
<i>O M Faltinsen, Keynote speaker</i>	
<b><i>Ship to Ship Transfer - A Global Perspective</i></b>	<b>13</b>
<i>C Hayden, Keynote speaker</i>	
<b><i>A comparative study of PIV experiments and numerical simulations of flow fields around two interacting ships</i></b>	<b>31</b>
<i>T Arslan , B Pettersen, J Visscher, C Muthanna and H I Andersson</i>	
<b><i>Improved simulation model and methods for determination of the required passing distance between ships in restricted fairways</i></b>	<b>39</b>
<i>K Benedict, W Köpnick, M Baldauf, A Gronarz, B Friedhoff and F de Mello Petey</i>	
<b><i>Optimisation of trim with respect to squat and under-keel-clearance</i></b>	<b>51</b>
<i>T Berndt, J Reinking, A Laupichler and A Härting</i>	
<b><i>Ship squat comparison and validation using PIANC, ANKUDINOV and BNT predictions</i></b>	<b>59</b>
<i>M J Briggs, P J Kopp, V Ankudinov and A L Silver</i>	
<b><i>Simulation of the launch/recovery of a submersible from a host ship</i></b>	<b>71</b>
<i>D Cassidy, P Carrica and M Hyman</i>	
<b><i>Numerical investigation of bank influence on a ship motion</i></b>	<b>83</b>
<i>A M Chetvertakov, M P Lebedeva and D V Nikushchenko</i>	
<b><i>Post widening ship/ship interaction and operational decisions in the Panama Canal</i></b>	<b>89</b>
<i>L L Daggett, J C Hewlett and R S Gray</i>	
<b><i>Squat of ships sailing in a non centered track in a canal</i></b>	<b>97</b>
<i>H J de Koning Gans</i>	
<b><i>The importance of the form of time domain forces and moments on berthed ship interaction</i></b>	<b>107</b>
<i>J T Duffy and M R Renilson</i>	
<b><i>Squat during ship-to-ship interactions in shallow water</i></b>	<b>117</b>
<i>K Eloit, M Vantorre, J Verwilligen, H Prins, T W F Hasselaar and M Mesuere</i>	
<b><i>Slack towline on tow-towed ships interaction during maneuvering</i></b>	<b>127</b>
<i>A Fitriadhy, H Yasukawa and Y Masaki</i>	
<b><i>Numerical study of ship-to-ship interaction forces on the basis of various flow models</i></b>	<b>137</b>
<i>J M A Fonfach, S Sutulo and C Guedes Soares</i>	

<b>Prediction of linear hydrodynamic derivatives in shallow water</b> Y Furukawa, Y Nakiri and K Kijima	<b>147</b>
<b>Interaction forces in tug operations</b> S Geerts, M Vantorre, K Eloot, R Huijsmans and N Fierens	<b>153</b>
<b>A new approach in modelling the interaction forces</b> A Gronarz	<b>165</b>
<b>Critical elements of a lightering operation</b> G Gudmundseth	<b>175</b>
<b>Integration and testing of an STS decision support system in a full-mission ship maneuvering simulator</b> D Husjord, T A Øritsland and E Pedersen	<b>183</b>
<b>A study on estimation of hydrodynamic forces acting on a ship hull in shallow water by CFD</b> Y Kimura, E Kobayashi, Y Tahara and S Koshimura	<b>193</b>
<b>Decision-support system for STS training on ship handling simulator by means of visualization of danger zone due to hydrodynamic interaction</b> K Kirimoto and E Pedersen	<b>203</b>
<b>Ship to ship interaction forces during lightering operations</b> E Lataire, M Vantorre, J Vandenbroucke and K Eloot	<b>211</b>
<b>An experimental research on the hydrodynamic forces acting on a twin-screw ferry during unberthing</b> S Lee, J Park, K P Rhee, W Yoo and S Kim	<b>223</b>
<b>Interaction-a practical viewpoint</b> G R Maxwell	<b>233</b>
<b>New thinking in ship generated hydrodynamic fields: introducing concepts for predicting bank suction and rejection</b> P J McArthur	<b>239</b>
<b>Urans studies of ship-ship interactions in calm water and waves for replenishment and overtaking conditions</b> S M Mousaviraad, S H Sadat-Hosseini, P M Carrica and F Stern	<b>253</b>
<b>Dynamic interaction between tow and towed ships in head seas</b> Y Nakayama, H Yasukawa and J Watanabe	<b>265</b>
<b>Decision support system in ship-to-ship operations using high accuracy DGPS</b> E Okuyama, H Oda, E Shimizu, S Sakakibara and S Yamada	<b>273</b>

<b>Prediction of hydrodynamic interaction effects of vessels in ports</b> J A Pinkster	<b>279</b>
<b>Using dynamic positioning for side-by-side cargo transfer operations</b> F H H A Quadvlieg and R Hallmann, G Hughes and D H Harris	<b>289</b>
<b>Urans studies of ship-ship interactions in shallow-water</b> H Sadat-Hosseini, P C Wu, Y Toda, P Carrica and F Stern	<b>299</b>
<b>Advanced ship manoeuvring and mooring support system at ship-to-ship transfer operations by fender monitoring system of pneumatic fenders</b> S Sakakibara, S Yamada, E. Shimizu, E Okuyama and H Oda	<b>309</b>
<b>Relative distances and speeds measurement system for STS lightering operations using stereo-cameras</b> E Shimizu and E Pedersen	<b>315</b>
<b>Seabase model tests and surface effect ship code evaluation for t-craft</b> A L Silver, M J Hughes, R C Bishop, S S Lee, D W Wundrow and J F O'Dea	<b>319</b>
<b>CFD based prediction of ship-ship interaction forces on a tug beside a tanker</b> C D Simonsen, C K Nielsen, J F Otzen and K Agdrup	<b>329</b>
<b>Investigating ship maneuvers around a floating structure under the influence of a uniform current in deep and calm water</b> R Skejic, M Breivik and T E Berg	<b>339</b>
<b>The influence of different vessel speeds of navigation on meeting in navigable channels of hydro system DANUBE-TISA-DANUBE</b> V Škiljaica and I Škiljaica and M Živković	<b>351</b>
<b>The use of a boussinesq-type wave model to determine ship-induced waves over non-uniform bathymetries</b> A J van der Hout, O M Weiler and M Borsboom	<b>359</b>
<b>Calculation of forces on moored ships due to passing ships</b> W van der Molen, J Moes, P B Swiegers and M Vantorre	<b>369</b>
<b>Squat computations for container ships in restricted waterways</b> A von Graefe, O El Moctar, V Shigunov, H Söding and T Zorn	<b>375</b>
<b>Hydrodynamic interaction loads between two ships during lightering operation in calm water</b> X Xiang, R Skejic, O M Faltinsen and T E Berg	<b>383</b>
<b>Study on the effects of unsteady ship to ship interaction by CFD method</b> H Yang, B S Wu, Q M Miao, X Xiang, T E Berg and X F Kuang	<b>393</b>

<b>Hydrodynamic interaction of two thin ships with rudder in close proximity</b>	<b>399</b>
<i>H Yasukawa and S Yoshida</i>	
<b>Numerical investigation on ship-ship hydrodynamic interaction in restricted waters</b>	<b>407</b>
<i>ZHANG Chen-xi and ZOU Zao-jian</i>	
<b>CFD prediction and validation of ship-bank interaction in a canal</b>	<b>413</b>
<i>L Zou, L Larsson, G Delefortrie and E Lataire</i>
